(c) *Description.* An eagle displayed standing on a vertical sheaf of arrows bearing the inscription "Novus Ordo Seclorum," all gold-finished bronze, in front of a ring of dark-blue enamel 1½ inches in diameter, bearing 13 white enamel stars. On the gold-finished bronze reverse, the ring, in front of the eagle and arrows in reverse, the words "United States of America" at the top and "For Merit" at the bottom in front of a spray of laurel leaves. The medal is connected to the suspension ring by a wreath of laurel leaves, green enamel on the front and gold-finished bronze on the back. The medal is suspended by a moired silk ribbon 1⅞ inches in length and 1⅜ inches in width, composed of a stripe of purplish-red (9/16-inch), a stripe of white (1/16-inch), a stripe of purplish-red (⅛-inch), a stripe of white (1/16-inch), and a stripe of purplish-red (9/16-inch).

(56 Stat. 662; 10 U. S. C. 1408b; E. O. 9637, October 3, 1945, 10 F. R. 12543, as amended by E. O. 9857A, May 27, 1947, 12 F. R. 3583)

§ 578.23 *Medal of Freedom*—(a) *To whom awarded.* The Medal of Freedom is awarded to any person, other than a member of the Armed Forces of the United States who, on or after December 7, 1941, shall have performed a meritorious act or service which has aided the United States in the prosecution of a war against an armed enemy or enemies, or has similarly aided any nation engaged with the United States in the prosecution of a war against a common enemy or enemies, when the award of any other United States military decoration is deemed inappropriate.

(b) *Standards*—(1) *Citizens and habitual residents of United States.* (i) This decoration may be awarded to a citizen of the United States for any act or service performed within a recognized or designated active theater of combat operations.

(ii) The required degree of performance of the act or achievement shall be the same as that required for an award of the Bronze Star Medal to members of the armed forces.

(iii) Awards will be made without reference to degree and the Medal of Freedom without Palm will be issued.

(2) *Citizens and members of armed forces of foreign nations.* (i) The Medal of Freedom will be awarded in one of the following degrees which corresponds to the respective military decorations indicated:

(a) Gold Palm (Legion of Merit, Chief Commander).

(b) Silver Palm (Legion of Merit, Commander).

(c) Bronze Palm (Legion of Merit, Officer and Legionnaire).

(d) Without Palm (Bronze Star Medal).

(ii) For each succeeding award of this decoration, the award will be in a higher degree than the previous award. A subsequent award in the same or lower degree is not authorized.

(c) *Description.* The medal of bronze is 1¼ inches in diameter. On the obverse are the head, shoulders, and headdress of Freedom (taken from the statue on top of the United States Capitol dome). In the lower portion in an arc is the inscription "Freedom." On the reverse is the "Liberty Bell" without carriage, within a circle composed of the words "United States of America." The medal is suspended by a ring from a moired silk ribbon 1⅜ inches in length and 1⅜ inches in width, composed of red (7/16-inch), white (1/32-inch), red (⅛-inch), white (1/32-inch), red (⅛-inch), white (1/32-inch), red (⅛-inch), white (1/32-inch), and red (7/16-inch).

(E. O. 9586, July 6, 1945, 10 F. R. 8523)

§ 578.24 *Appurtenances to Military Decorations*—(a) *Oak-Leaf Cluster*—(1) *General.* A bronze Oak-Leaf Cluster is issued in lieu of a decoration for each succeeding award of the same United States military decoration to the same person, except awards of the Medal of Freedom and Legion of Merit to foreign personnel, and posthumous awards of the Purple Heart, and is worn attached to the ribbons of the decoration it represents. A silver Oak-Leaf Cluster may be worn in lieu of five bronze Oak-Leaf Clusters for the same decoration.

(2) *Description.* A bronze (or silver) twig of four oak leaves with three acorns on the stem, 13/32-inch in length for a suspension ribbon and 5/16-inch in length for a service ribbon.

(b) *Letter "V" Device*—(1) *General.* The letter "V" device is worn on the suspension and service ribbons on the Bronze Star Medal to denote an award has been made for heroism (valor). Not more than one letter "V" device will be worn, regardless of the number of awards of the Bronze Star Medal made for heroism.

(2) *Description.* A bronze block letter "V" ¼-inch in height with serifs at the top of the members.

(c) *Palm*—(1) *General.* A gold, silver, or bronze Palm is worn on the suspension and service ribbons of the Medal of Freedom awarded to foreign personnel to denote the degree in which the decoration has been awarded, except cases where the decoration has been awarded without Palm.

(2) *Description.* A gold, silver, or bronze Palm 1⅛ inches in length.

(d) *Service ribbon.* A ribbon identical in color with the suspension ribbon of the decoration it represents attached to a bar 1⅜ inches in width and ⅜ inch in length, equipped with a suitable attaching device. A service ribbon is issued with each decoration.

(e) *Lapel button.* A lapel button ⅛-inch in length and 21/32-inch in width is a colored enamel replica of the respective service ribbon. An enamel lapel button is issued with each decoration except the Medal of Honor and Medal for Merit.

(f) *Rosette*—(1) *Medal of Honor rosette.* A hexagonal shape of light-blue ribbon ½-inch circumscribing diameter, with a fan-shaped ribbon insert showing white stars, equipped with a button back.

(2) *Medal for Merit rosette.* A circular cup shape of purplish-red ribbon, ½-inch circumscribing diameter, with a fan-shaped ribbon insert showing purplish-red and white stripes, equipped with a button back.

(g) *Container.* A container, either plastic or leather-covered, and plush-lined, containing a decoration, service ribbon, and lapel button or rosette. Each decoration awarded will be furnished in an appropriate container.

(h) *Certificate for decoration.* A certificate will be issued for each United States military decoration awarded, except the Medal for Merit and Medal of Freedom, normally at the time of the award, and will be presented at the presentation ceremony. Certificates for decorations are standard Department of the Army forms and no other form of certificate will be issued to indicate the award of a decoration.

(i) *Miniature decorations and appurtenances.* Miniature decorations and appurtenances are replicas of the corresponding decorations and appurtenances on the scale of one-half.

§ 578.25 *Foreign decorations*—(a) *Consent required.* No person holding any office of profit or trust under them (the United States) shall, without the consent of Congress, accept any present, emolument, office or title, of any kind whatever, from any King, Prince, or foreign state.

(b) *Congressional authorization.* Except for such foreign awards as previously may have been specifically authorized by the Congress to be accepted, each tender of an award by a foreign government to a member of the Army will be forwarded through The Adjutant General to the Department of State, where it will be held in escrow pending approval by the Congress for the proposed recipient to accept. No foreign decorations or ribbons therefore will be worn prior to such approval by the Congress.

(c) *Authorization not required*—(1) *Former members of armed forces of friendly foreign nations.* The approval of the Congress, as prescribed in paragraph (a) of this section is not required to accept any foreign decoration tendered or awarded for services while the recipient is a bona fide member of the armed forces of the respective foreign nation and provided the award is duly accepted in accordance with the regu-

lations of the nation making the award prior to the recipient's entry into active Federal service in the Armed Forces of the United States.

(2) *Members of Organized Reserve Corps.* A Reserve officer while not on active duty and while not holding a position of profit or trust under the Government may, without specific consent of Congress, accept a foreign decoration and may, when authorized to do so by Army regulations, wear such decoration on his uniform.

(3) *Posthumous.* The approval of the Congress, as prescribed in paragraph (a) of this section, is not required to accept any foreign decoration tendered or awarded posthumously to a former member of the Army.

§ 578.25a *Supply of decorations and appurtenances*—(a) *Items furnished.* The following items will be furnished by the Department of the Army:

(1) Decoration.
(2) Oak-Leaf Clusters.
(3) Letter "V" devices.
(4) Palms.
(5) Service ribbons.
(6) Lapel buttons.
(7) Rosettes.
(8) Certificates for decorations.
(9) Containers for decorations.

(b) *Items not furnished.* The following items are not issued or sold by the Department of the Army:

(1) Miniature decorations and appurtenances.
(2) Miniature service ribbons.
(3) Miniature devices.

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter II—Forest Service, Department of Agriculture

[Regs. U-10, U-12, Amdt.]

PART 251—LAND USES

SPECIAL USE PERMITS; CHARGE OR OTHER CONSIDERATION

By virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat. 35, 16 U. S. C. 551), and the act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472), Regulations U-10 and U-12 of the rules and regulations governing the occupancy, use, protection and administration of the national forests, which constitute §§ 251.1 and 251.3, Part 251, Chapter II, Title 36, Code of Federal Regulations, are amended to read as follows:

1. Paragraph (a) (1) of § 251.1 is amended to read as follows:

§ 251.1 *Special use permits, archaeological permits, leases and easements; general conditions.*—(a) *Special uses.* (1) All uses of national forest lands, improvements, and resources, including the uses authorized by the act of March 4, 1915 (38 Stat. 1101; 16 U. S. C. 497), the act of March 30, 1948 (62 Stat. 100; 48 U. S. C. 341), and section 7 of the act of April 24, 1950 (Pub. Law 478, 81st Cong.), and excepting those provided for in the regulations governing the disposal of timber and the grazing of livestock or specifically authorized by acts of Congress, shall be designated "special uses," and shall be authorized by "Special use permits."

2. Section 251.3 is amended to read as follows:

§ 251.3 *Charge or other consideration for special use permits.* (a) Special use permits, except as otherwise provided in this section or § 251.2, or specifically authorized by the Secretary of Agriculture, shall require the payment of a fee or charge commensurate with the value of the use authorized by the permit, the amount of which shall be prescribed by the Chief of the Forest Service.

(b) Special use permits issued under section 7 of the act of April 24, 1950, may require as all or a part of the consideration the reconditioning and maintenance of the government-owned or controlled structures, improvements, and land to a satisfactory standard: *Provided,* That the total consideration so received shall be commensurate with the value of the use authorized by the permit when the use is of a commercial nature.

(c) Special use permits involving government-owned or controlled buildings, structures, or other improvements which require caretakers' services, or the furnishing of special services such as water, electric lights, and clean-up, may require the payment of an additional fee or charge to cover the costs of such services.

(Sec. 1, 30 Stat. 35, as amended, 62 Stat. 100; 16 U. S. C. 551. Interpret or apply sec. 1, 33 Stat. 628; 16 U. S. C. 472)

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the city of Washington, this 25th day of August 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—VETERANS' CLAIMS

MISCELLANEOUS AMENDMENTS

1. In § 3.0, paragraph (b) is amended to read as follows:

§ 3.0 *World Wars I and II.* • • •

(b) World War II shall comprise the period between December 7, 1941, to December 31, 1946, both dates inclusive (section 9 (a), Public Law 144, 78th Congress). Veterans Regulation 1 (a), Part I, as amended (38 U. S. C. ch. 12), is applicable in determination of entitlement to disability compensation and allows wartime rates and criteria in cases (1) where there was service during the period December 7, 1941, through December 31, 1946, and (2) where service began during such period and continued thereafter, and disability occurred or resulted from injuries or diseases or aggravation of preexisting injuries or diseases in active service as to (1) during the period specified therein and as to (2) during the period beginning December 7, 1941, and ending at midnight on July 25, 1947. However, by virtue of Part II, Veterans Regulation 1 (a), as amended by Public Law 359, 77th Congress, as amended, disabilities incurred or aggravated in an enlistment or employment entered into on and after January 1, 1947, and suffered prior to or on the official termination of the war, July 25, 1947, are compensable at Veterans Regulation 1 (a), Part I, as amended, rates. The criteria governing service-connection or other conditions of entitlement in cases of this latter category will be those provided in Veterans Regulation 1 (a), Part II, as amended.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply sec. 4, 48 Stat. 9, sec. 5, 50 Stat. 661, E. O. 6156, as amended; 38 U. S. C. 424a, 704, 38 U. S. C. ch. 12 note)

2. Sections 3.1 and 3.2 are amended to read as follows:

§ 3.1 *Persons included in the acts in addition to commissioned officers and enlisted men*—(a) *Field clerks, Quartermaster's Corps.* Field clerks, Quartermaster's Corps, are included as enlisted men.

(b) *Army field clerks.* Army field clerks had the same military status as field clerks, Quartermaster's Corps, and are included as enlisted men.

(c) *Philippine Scouts and others.* Philippine Scouts, the Insular Force of the Navy, Samoan Native Guard, and Samoan Native Band of the Navy are within the terms of the acts, except that neither the Philippine Scouts nor the Insular Force of the Navy were, or are, included in Article II of the War Risk Insurance Act. However, Philippine Scouts enlisted under section 14 of Public Law 190, 79th Congress, approved October 6, 1945, are subject to the limitations contained in Public Law 391, 79th Congress. Benefits are accordingly limited to compensation payable for service-connected disability or death. Members of the organized military forces of the Government of the Commonwealth of the Philippines are included for purposes of the laws administered by the Veterans' Administration providing for the payment of compensation on account of service-connected disability or death from and after the dates and hours, respectively, that they were called into service of the Armed Forces of the United States by orders issued from time to time by the General Officer, United States Army, designated by the Secretary of War. (Sec. 2 (a) (12), Public No. 127, 73d Congress, and Public Law 301, 79th Congress). This includes a person who became a member of a unit so called or ordered into the Armed Forces of the United States upon its reorganization and return to military control prior to July 1, 1946. It does not include the service of such a person during the period subsequent to his release following the capitulation or after parole by the Japanese as a prisoner of war, when he was in an inactive status, prior to the time he joined a recognized guerrilla force or returned to military control as certified by the United States Armed Forces. Persons who served as guerillas under a commissioned officer of the United States Army, Navy, or Marine Corps, or under a commissioned officer of the Commonwealth Army recognized by and cooperating with the United States forces are also included: *Provided,* That service as a guerrilla by a person who also was a Philippine Scout or a member of the Armed Forces of the United States, other than a member of the Commonwealth Army, will be considered as service in his regular status of Philippine Scout or member of the Armed Forces of the United States. However, unless the record shows examination at time of entrance into the Armed Forces of the United States, such persons are not entitled to the presumption of soundness. This will also apply upon reentering the Armed Forces after a period of inactive service. Service of such Commonwealth forces in the United States Armed Forces was terminated as of June 30, 1946, by the military order of the President dated July 1, 1946. (Therefore, such Philippine Army service rendered on or after July 1, 1946, is not service in the United States Armed Forces within the purview of the laws administered by the Veterans' Administration.) Compensation payable to members of the organized military forces of the Government of the Commonweath of the Philippines, under the conditions set forth above, and to Philippine Scouts who enlisted under section 14, Public Law 190, 79th Congress, shall be paid at the rate of one Philippine peso for each dollar authorized to be paid under the laws providing for such compensation. Where a veteran, who had Commonwealth Army or guerrilla service and also had other service, wartime or peacetime, in the Armed Forces of the United States, has compensable disabilities due to the service entitling to compensation on a peso basis and due to service entitling to compensation on a dollar basis, the disabilities will be combined as usual, applying the provisions of Part IV, Veterans' Regulation 1 (a) (38 U. S. C. ch. 12), where there is disability due to wartime and peacetime service. In computing the amount due, the evaluation for which dollars are payable will be first considered and the difference between this evaluation and the combined evaluation will be the basis for computing the amount due in pesos.

(d) *Students in aviation camps.* Students in aviation camps who were enlisted men are included.

(e) *Commissioned officers, Public Health Service.* Officers of the Public Health Service who were detailed for duty with the Army or Navy are included as officers in the active service. On or after November 11, 1943, commissioned officers of the Public Health Service, regular and reserve, who (1) are detailed for duty with the Army, Navy, or Coast Guard; (2) are serving in time of war outside the continental limits of the United States or in Alaska, regardless of whether the disability or death was suffered prior or subsequent to November 11, 1943: *Provided, however,* That benefits may not be awarded for any period prior to November 11, 1943; or (3) perform active service in time of war and following the issuance of an Executive order declaring the commissioned corps of the Public Health Service a part of the military forces of the United States are also included. In regard to subparagraph (3) of this paragraph, the Executive order was published on June 29, 1945, effective July 29, 1945; hence, on and after the latter date and for the duration of World War II, the above-described commissioned officers of the Public Health Service, with respect to active service performed, shall be considered as in active military or naval service and included within the acts administered by the Veterans' Administration.

(Sec. 212, Pub. Law 410, 78th Cong.; E. O. 9575, June 21, 1945)

(f) *Male nurses, enlisted.* Male nurses who were enlisted men of the Medical Department are included.

(g) *Retired officers or men ordered to active duty.* Officers and men on the retired list who were ordered to active duty by the War Department or Navy Department were in active service and are included.

(h) *Personnel of Lighthouse Service.* The personnel of the Lighthouse Service transferred to the service and jurisdiction of the War and Navy Department by Executive order pursuant to the act of August 29, 1916, are included.

(i) *Army Nurse Corps, Navy Nurse Corps, and female dietetic and physical therapy personnel.* Members of the Army Nurse Corps (female) and the Navy Nurse Corps (female) when employed in the active service under the War Department or Navy Department. Female dietetic and physical therapy personnel (exclusive of students and apprentices) appointed with relative rank on or after December 22, 1942 (Public Law 828, 77th Congress), or commissioned on or after June 22, 1944 (Public Law 350, 78th Congress.)

(j) *Alien beneficiaries.* A veteran discharged for alienage during a period of hostilities is ineligible for benefits, unless he can establish that it was not pursuant to his own request. Where the character of the veteran's discharge is changed to honorable by a board established under the authority contained in section 301, Public Law 346, 78th Congress, as amended, or section 207, Public Law 601, 79th Congress, it will be considered that the discharge for alienage was not issued at the veteran's own request. A veteran who was discharged for alienage after the termination of hostilities and whose service was honest and faithful is not barred from benefits if he is found to be otherwise entitled thereto.

(k) *Members of training camps authorized by law.* Except as to persons who served as members of students army training corps camps held at the Presidio of San Francisco, Plattsburg, New York, and Fort Sheridan, Illinois, from July 18, 1918, to September 16, 1918, members of training camps authorized by section 54 of the National Defense Act, are included.

(l) *Reserve Officers and members of the Enlisted Reserves; members of the National Guard of the United States and the federally recognized National Guard of the several States, Territories and the District of Columbia*—(1) *Reserve service*—(i) *Public No. 159, 75th Congress (act of June 23, 1937); Army and Air Force.* Active service, including service for training purposes (inactive duty excluded) performed in time of peace on or after June 15, 1933, by Reserve officers and members of the Enlisted Reserves of the Army and Air Force, is considered as active military service. Compensation may be payable for disease or injury connected with such service regardless of the period for which the reservist was called to active duty.

(ii) *Public No. 159, 75th Congress as modified by Public No. 732, 75th Congress (act of June 25, 1938); Navy, Marine Corps, and Coast Guard.* For periods on and after June 15, 1933, in time of peace, members of the Naval (organized and volunteer) and Marine Corps Reserves are considered as performing active service while performing active duty with or without pay, training duty with or without pay drills, equivalent instruction or duty, appropriate duty, or other prescribed duty, or while performing authorized travel to or from such duties. By virtue of section 211, Public Law 8, 77th Congress, the provisions of this subdivision are applicable to Reserve officers and enlisted members of the Coast Guard Reserve (except temporary members thereof) who rendered such service on or after February 19, 1941, in time of peace. Compensation may be payable for disease or injury connected with such service regardless of the period for which the Reservist was called to duty.

(iii) *Sections 1 and 2, Public Law 108, 81st Congress (act of June 20, 1949).* Reserve officers and enlisted members of the Reserves of the Navy, Marine Corps, Coast Guard, Army and Air Force:

(*a*) Who were called or ordered into active military or naval service for a period in excess of 30 days who suffer disability from disease while so employed, or

(*b*) Who were called or ordered into active military or naval service, or to perform active duty for training, or inactive duty training, for any period of time and suffer disability from injury (disease is not regarded as an injury) while so employed are considered to have been in active service during such period for the purposes of sections 1 and 2, Public Law 108, 81st Congress.

(2) *National Guard.* The following members of the National Guard and the surviving dependents of such persons are entitled to the benefits provided by section 3, Public Law 108, 81st Congress: officers, warrant officers, and enlisted men of the National Guard of the United States, both ground and air, and the federally recognized National Guard of the several States, Territories, and the District of Columbia:

(i) Who are engaged for a period in excess of 30 days in any type of training or active duty under sections 5, 81, 92, 94, 97, or 99 of the National Defense Act

(act of June 3, 1916), as amended, and suffer disability or death from disease while so employed; or

(ii) Who are engaged for any period of time in any type of training or active duty under such sections of the National Defense Act, as amended, and suffer disability or death from injury (disease is not regarded as an injury) while so employed.

(3) *Rating criteria and rates.* The rating criteria and rates payable based on the service of a Reservist or National Guardsman shall be those provided in Veterans Regulation 1 (a), Part I or Part II, as amended (38 U. S. C. ch. 12), as applicable. As to commencing date of awards see § 3.212 (d).

(m) *Cadets and midshipmen.* Cadets and midshipmen (Army, Navy, and Coast Guard) suffering from disabilities incurred in the line of duty while assigned to duties constituting war service, which includes practice cruises at sea but excludes practice maneuvers at West Point, during the period of one of the hostilities enumerated in Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12) (limited in the case of the Coast Guard to service on or after January 28, 1915), are entitled to compensation for such disability at the rate provided in Veterans Regulation No. 1 (a), Part I, as amended, if otherwise entitled. Cadets and midshipmen (Army, Navy, and Coast Guard) who are disabled by reason of a wound or injury received or a disease contracted while pursuing the prescribed course of instruction at the academies and in line of duty (limited in the case of the Coast Guard to such courses of instruction on or after January 28, 1915) are entitled to compensation at the rate prescribed in Veterans Regulation 1 (a), Part II, if otherwise entitled. Midshipmen (Navy and Coast Guard) assigned to practice cruises or cadets or midshipmen otherwise actually assigned to active duty for a total of at least 90 days during a period of hostilities enumerated in Veterans Regulation 1 (a), as amended (limited in the case of the Coast Guard to service on or after January 28, 1915), who are now suffering from a disability permanent and total in degree, but which is not connected with any period of service, are entitled to a pension at the rate prescribed in Veterans Regulation 1 (a), Part III, if otherwise entitled. Service as a cadet at the United States Military Academy or as a midshipman at the United States Naval Academy or as a cadet at the United States Coast Guard Academy on or after December 7, 1941, and before 12 o'clock noon, December 31, 1946, shall be considered active military or naval service in World War II for the purposes of laws administered by the Veterans' Administration.

(Sec. 10, Pub. Law 144, 78th Cong.)

(n) *Under Public No. 2, 73d Congress, and Public Law 300, 78th Congress.* (1) Persons who on or after April 6, 1917, and prior to November 12, 1918, applied for enlistment or enrollment in the active service who were provisionally accepted and ordered to report to a place for final acceptance or who were drafted and after reporting pursuant to call of their local draft board, or who were called into the Federal service as members of the National Guard but before enrollment for Federal service suffered an injury or disease in line of duty, are included.

(2) (i) Any person who on or after August 27, 1940, and prior to January 1, 1947, applied for enlistment or enrollment in the active military or naval forces and who was provisionally accepted and directed or ordered to report to a place for final acceptance into such military or naval service, or who was selected for service and after reporting pursuant to the call of his local board and prior to rejection, who after being called in the Federal service as a member of the National Guard but before being enrolled for the Federal service, or who after being called into active service as a member of the Reserve but prior to reporting at camp for such service, suffered an injury or a disease in line of duty and not the result of his own willful misconduct, is included: *Provided*, That payments of compensation under the terms of this subparagraph shall not be effective prior to May 11, 1944.

(ii) The provisions of Public Law 330, 78th Congress, attach whenever a person is acting pursuant to an order of his draft board, including an order to report to the board for a pre-induction examination. The protection covers any injury or disease which was acquired during time spent away from home or en route home in connection with such order and as a result thereof. An injury or disease which was suffered on the trip when reporting for active duty or final induction is covered. The injury or disease to be compensable must be attributable to some cause or factor relating to his activity in connection with complying with proper orders. These provisions do not extend to such persons as to disease or injury suffered during the period of inactive duty or period of waiting after passing final physical examination and prior to beginning the trip to report for induction. Such protection also applies to a member of the National Guard after he reports to a designated rendezvous pursuant to proper call.

(o) *Women citizens of the United States.* Women citizens of the United States who were taken from the United States by the United States Government and who served in base hospitals overseas, including reconstruction aides and stenographers who served so, are included.

(p) *Commissioned officers of the Coast and Geodetic Survey.* Pursuant to section 2, Public Law 786, 77th Congress, commissioned officers of the Coast and Geodetic Survey who are assigned during the period of World War II to duty on projects for the War Department or the Navy Department in areas outside the continental United States or in Alaska, or in coastal areas of the United States, determined by the War or Navy Department to be of immediate hazard, shall while on such duty be considered as performing active military or naval service: *Provided*, Commissioned officers of the Coast and Geodetic Survey serving in the Philippine Islands on December 7, 1941, will be considered as in the active military or naval service from and including that date: *Provided*, That compensation under this act may not be awarded concurrently with United States employees compensation; *And provided further*, That benefits may not be awarded prior to December 3, 1942.

(q) *Commissioned officers and enlisted personnel of the Women's Army Corps.* On and after July 1, 1943, commissioned officers and enlisted personnel of the Women's Army Corps, from the date of commission or enlistment, shall be entitled to the same rights, privileges, and benefits as members of the Officers' Reserve Corps or enlisted men of the United States Army, respectively.

(Pub. Law 110, 78th Cong.)

(r) *Commissioned or enlisted members of the Women's Reserve of the Navy, Marine Corps, or Coast Guard.* On or after November 8, 1943, commissioned or enlisted members of the Women's Reserve of the Navy or Marine Corps, and on or after December 23, 1943, commissioned or enlisted members of the Women's Reserve of the Coast Guard are entitled to the same rights, privileges, and benefits as members of the Officers' Reserve Corps or enlisted men of the United States Navy, Marine Corps, or Coast Guard, respectively.

(s) *Coast Guard.* Personnel of the United States Coast Guard who served on or after January 28, 1915. (Acts of July 2, 1930, and July 18, 1941.) (*Provided*, That no award of disability compensation under Public Law 182, 77th Congress, to former personnel of the United States Coast Guard who served on or after January 28, 1915, and prior to July 2, 1930, shall be effective prior to the date of receipt on or after July 18, 1941, of an acceptable application, formal or informal, as required in disability claims generally.)

(t) *Personnel of the National Guard or the National Guard of the United States, while in the active service of the United States, other than service defined in paragraph (l) of this section.*

(u) *Pay clerks in the Navy.*

(v) *Paymaster clerks while serving under a commission from the Secretary of War.*

(w) *Members of the Naval Academy Band on and after April 12, 1910.*

(x) *Men inducted for training and service under Public No. 783, 76th Congress.*

(y) *Paymaster clerks in the Marine Corps.*

(z) *Aerial transportation of mail (Public No. 140, 73d Congress).* Compensation at the rates provided by Veterans Regulation 1 (a), Part I, as amended (38 U. S. C. ch. 12), is payable to any officer (including warrant and reserve officers), or any enlisted man, or his dependents where injury or death occurs while serving pursuant to the provisions of Public No. 140, 73d Congress. In the event of injury of any such officer or enlisted man the degree of disability resulting therefrom will be evaluated under the 1945 Rating Schedule and extensions. The officer or enlisted man may elect to receive either the compensation under Veterans Regulation 1 (a), Part I, as amended, or the benefits provided by section 5 of Public No. 140, 73d Congress.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply sec. 1, 46 Stat. 847, sec. 4, 48 Stat. 9, 50 Stat. 305, sec. 304, 52 Stat. 1181, as amended, sec. 4, 54 Stat. 864, as amended, sec. 1, 211, 55 Stat. 598, 12, 56 Stat. 730, as amended, 1072, sec. 2, 56 Stat. 1038, sec. 3, 10, 57 Stat. 371, 556, sec. 1, 2, 58 Stat. 324, sec. 2, 3, 212, 58 Stat. 599, 689, 60 Stat. 223, E. C. 213, 50 U. S. C. App. 1553, 1591, 1592)

§ 3.2 *Persons not included in the acts*—(a) *Members of the National Guard.* Members of the National Guard ordered to active duty for training are not, under section 112 of the National Defense Act of June 3, 1916, as amended June 15, 1933, or under Public No. 159, 75th Congress, entitled to compensation.

(b) *Organized Military Forces of the Government of the Commonwealth of the Philippines.* See § 3.1 (c).

(c) *Temporary members of the Coast Guard Reserve.* Temporary members of such reserve are not within the purview of the laws governing the Veterans' Administration.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, 38 U. S. C. and Sup. 11a, 426, 707)

3. In § 3.26, paragraph (a) is amended to read as follows:

§ 3.26 *Application for benefits.* (a) A properly completed and executed VA Form 8–526, 8–526a, or 526b, upon receipt by the Veterans' Administration, constitutes an application for benefits indicated below and will be adjudicated under the applicable laws:

VA Form 8–526, Veteran's Application for Compensation for Disability Resulting From Service in the Active Military or Naval Forces of the United States.

VA Form 8–526a, Application for Compensation Under Section 31, Public No. 141, 73d Congress, section 12, Public No. 866, 76th Congress, and section 2, paragraph 4, Public Law 16, 78th Congress.

VA Form 526b, Veteran's Application for Pension for Disability Not the Result of Service in the Active Military or Naval Forces of the United States.

Under Executive Order 6017, February 7, 1933, and section 1500, Public Law 346, 78th Congress, as amended, diplomatic and consular officers of the Department of State are authorized to act as agents of the Veterans' Administration, and therefore, a formal claim filed in a foreign country will be considered as filed in the Veterans' Administration as of the date of receipt by the State Department representative.

* * * * * * *

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707)

4. Section 3.27 is amended to read as follows:

§ 3.27 *Informal claims.* A VA Form 8–526, designated as an application for compensation for service-connected disability, may be considered as an informal claim for pension for non-service-connected disability under Veterans Regulation 1 (a), Part III (38 U. S. C. ch. 12), provided a formal application on VA Form 526b for pension for non-service-connected disability is filed within the period of 1 year. The converse of the above situation is equally true, i. e., a VA Form 526b may be accepted as an informal claim for disability compensation, provided VA Form 8–526 is filed within the period of 1 year. However, the failure of the Veterans' Administration to furnish application Form 8–526 or Form 526b will not extend the 1 year period. In death cases, accrued benefits otherwise payable may be allowed on the basis of a Form 8–526 or 526b which constitutes an informal claim only, provided the 1 year time limitation for filing a formal claim as herein described has not elapsed. In addition, any communication from or action by a claimant or his duly authorized representative, or some person acting as next friend of a claimant who is not sui juris, which clearly indicates an intent to apply for disability or death compensation or pension may be considered an informal claim. To constitute an informal claim, the communication must specifically refer to and identify the particular benefit sought. When such informal claim is received and a formal application is forwarded for execution by the claimant, such application shall be considered as evidence necessary to complete the initial application, and, unless a formal application is received within 1 year from the date it was transmitted for execution by the claimant, no award shall be made by virtue of such informal claim. If received within 1 year in such instances, it will be considered filed as of the date of receipt of the informal claim by the Veterans' Administration. However, a communication received from a service organization, pension attorney, or pension agent may not be accepted as an informal claim if a power of attorney was not executed at the time the communication was written. In cases not covered by this rule, where the probability of an informal claim appears to be indicated but the facts are too obscure or complicated for determination, the file will be referred to the director, claims service, district office, in field death cases, the director, veterans claims service, central office, in field living cases, or the director of the service concerned in central office cases, for decision upon the facts in the particular case. When benefits are being resumed under § 3.299 and an informal claim has been filed for a disability incurred or aggravated in the second period of service, the requirements of the seventh and eighth sentences of this section are not for application. Under Executive Order 6017, February 7, 1933, and section 1500, Public Law 346, 78th Congress, as amended, diplomatic and consular officers of the Department of State are authorized to act as agents of the Veterans' Administration, and therefore an informal claim filed in a foreign country will be considered as filed in the Veterans' Administration as of the date of receipt by the State Department representative.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707)

5. In § 3.30, paragraph (a) is amended to read as follows:

§ 3.30 *Written and oral testimony to be under oath; administration of oaths by employees.* (a) All written testimony, whether lay or medical, submitted by or in behalf of a claimant in support of service-connection as proof that the claimant is entitled to such benefits, will be submitted under oath. For the purpose of establishing service-connection, the physical examination reports, clinical records, and transcript of records received from State, county, municipal, and recognized private institutions and contract hospitals, referred to in § 3.216 (c), must be notarized. This requirement of notarization prevails whether the report, record, or transcript is submitted at the instance of the claimant or in his behalf or pursuant to Veterans' Administration request. In cases under the jurisdiction of the Manila regional office, all hospital and clinical reports, X-ray report, and other evidence of treatment that is procured from provincial, Government, and private hospitals and clinics by the Philippine agencies or the Philippine Command, United States Army, for the purpose of submitting the evidence to the Veterans' Administration as evidence of treatment prior to July 1, 1946, which are not notarized may be received and given such weight as the entire record justifies. Claimants, their legal representatives, and witnesses in their behalf, appearing before any rating or appellate body for the purpose of presenting oral testimony, will be duly sworn.

6. In § 3.65, paragraphs (a) and (c) are amended to read as follows:

§ 3.65 *Willful misconduct.* (a) A disabling condition will be considered to be the result of willful misconduct for the purpose of all adjudications under Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), and sections 27 and 28, Public No. 141, 73d Congress, as amended, when it is shown to have been incurred under conditions or in a manner set forth by Veterans Regulation 10, paragraph VIII, as amended, without regard to any prior determinations respecting the manner of its incurrence. A finding in any case that a disabling condition is of willful misconduct nature, as defined by Veterans Regulation 10, paragraph VIII, as amended, will bar any right to pension or compensation under Veterans Regulation 1 (a), as amended, and sections 27 and 28, Public No. 141, 73d Congress, as amended.

* * * * * * *

(c) In determining whether an act is due to willful misconduct, the precedents under the World War Veterans' Act, 1924, as amended, are for application except as to venereal diseases meeting the requirements of section 2, Public Law 439, 78th Congress. Generally, these precedents are to the effect that an act to be one of "willful misconduct" must be "malum in se" or "malum prohibitum" if involving conscious wrongdoing or

known prohibited action. (Mere technical violation of police regulations or ordinances will not per se constitute "willful misconduct" but are factors for consideration in the light of the attendant circumstances.) Pursuant to Public Law 339, 81st Congress, every disease, injury, or death incurred without willful misconduct on the part of the service person while in confinement under sentence of a court-martial or a civil court will be deemed to have been incurred in line of duty unless disability was the result of a material interference with performance of military duty or unless the court-martial sentence involved an unremitted dishonorable discharge or, in the case of officers, separation under similar conditions, or the sentence of the civil court involved conviction of a felony, as defined by the laws of the jurisdiction where the person was convicted. The provisions of this paragraph will apply equally to those instances where the disability occurs during confinement prior to the actual remission of the dishonorable discharge, or separation under similar conditions: *Provided, of course,* That the dishonorable discharge or separation under similar conditions is subsequently remitted. Despite the remission of the dishonorable discharge or separation under similar conditions, there must always be borne in mind the necessity of determining under established criteria whether the presently existing discharge was under other than dishonorable conditions. If it was under dishonorable conditions, a statutory bar to entitlement exists. The determination whether the offense for which the veteran was convicted by a civil court constituted a felony will, in other than obvious cases, be made by the chief attorney of the regional office located in the State in which the civil court is also located, except in central office cases the determination will be made by the solicitor. (As to effective dates of evaluation, see § 3.148 (e).)

7. In § 3.86, paragraphs (a) and (b) are amended to read as follows:

§ 3.86 *Chronic and tropical disease under Public No. 2, 73d Congress, as amended.* (a) The service-connection of chronic disease under Veterans Regulation 1 (a), Part I, paragraph I (c), as amended (38 U. S. C. ch. 12), pursuant to Public No. 2, 73d Congress, is restricted to the following:

Anemia, primary.
Arteriosclerosis.
Arthritis.
Atrophy, progressive muscular.
Brain Hemorrhage.
Brain thrombosis.
Bronchiectasis (effective June 24, 1948).
Calculi of the kidney, bladder, or gall bladder (effective June 24, 1948).
Cardiovascular-renal disease, including hypertension (This term applies to combination involvements of the type of arteriosclerosis, nephritis, and organic heart disease, and since hypertension is an early symptom long preceding the development of these diseases in their more obvious forms, a disabling hypertension within the 1-year period will be given the same benefit of service-connection as any of the chronic diseases listed).
Cirrhosis of the liver (effective June 24, 1948).
Coccidioidomycosis (effective June 24, 1948).
Diabetes mellitus.
Encephalitis lethargica residuals.
Endocarditis (This term is intended to cover all forms of valvular heart disease).
Endocrinopathies.
Epilepsies.
Hodgkin's disease.
Leprosy.
Leukemia.
Myasthenia gravis.
Myelitis.
Myocarditis.
Nephritis.
Other organic diseases of the nervous system (effective June 24, 1948).
Osteitis deformans (Paget's disease).
Osteomalacia (effective June 24, 1948).
Palsy, bulbar.
Paralysis agitans.
Psychoses.
Purpura idiopathic, hemorrhagic (effective October 19, 1949).
Raynaud's disease (effective June 24, 1948).
Sarcoidosis (effective August 31, 1950).
Scleroderma (effective June 24, 1948).
Sclerosis, amyotrophic lateral.
Sclerosis, multiple.
Syringomyelia.
Thromboangiitis obliterans (Buerger's disease) (effective September 26, 1947).
Tuberculosis, active.
Tumors, malignant, or of the brain or spinal cord or peripheral nerves (effective June 24, 1948, as to tumors of the peripheral nerves).
Ulcers, peptic (gastric or duodenal) (effective June 24, 1948) (A proper diagnosis of gastric or duodenal ulcer (peptic ulcer) is to be considered established if it represents a medically sound interpretation of sufficient clinical findings warranting such diagnosis and provides an adequate basis for a differential diagnosis from other conditions with like symptomatology; in short, where the preponderance of evidence indicates gastric or duodenal ulcer (peptic ulcer). Whenever possible, of course, laboratory findings should be used in corroboration of the clinical data.)

(b) The service-connection of tropical diseases under Veterans Regulation 1 (a), Part I, paragraph I (c), and Part II, paragraph I (d) (38 U. S. C. ch. 12), is restricted to the following: (Effective June 24, 1948, unless otherwise indicated.)

Amebiasis (effective August 31, 1950).
Black water fever.
Cholera.
Dracontiasis.
Dysentery.
Filariasis.
Leishmaniasis, including Kala-Azar.
Leprosy.
Loiasis.
Malaria.
Onchocerciasis.
Oroya fever.
Pinta
Plague.
Schistosomiasis.
Yaws.
Yellow fever.
Resultant disorders or diseases originating because of therapy, administered in connection with such diseases, or as a preventative thereof.

§ 3.95 *Service-connection for gastric or duodenal ulcer (peptic ulcer) under Public No. 2, 73d Congress.* [Canceled.]

9. In § 3.102, paragraph (a) is amended to read as follows:

§ 3.102 *Wartime service-connection.* (a) Conditions which may be considered under paragraph (b) (2) of this section are restricted to the following: Amebic dysentery; bacillary dysentery; filariasis (Bancroft's type); leishmaniasis, including kala-azar; schistosomiasis; trypanosomiasis; yaws; and malaria.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707)

10. Section 3.106 is amended to read as follows:

§ 3.106 *Evidence to establish service-connection.* (a) Service connection for dental disabilities will be established by service records, documentary evidence in the form of reports of examinations (dental or physical), affidavits of dentists or physicians, or affidavits of fact from two or more disinterested parties. The disability must be shown to have been incurred in or aggravated by service as provided herein. Affidavits by dentists or physicians must give the claimant's full name, the date he was first examined or treated, the date of subsequent treatments, if any, and contain a complete and detailed statement of the symptoms observed and diagnosis made. The name or number of all defective or missing teeth noted and the character and extent of any pathological condition of the investing tissues observed should be included. If exact dates cannot be given, the expression "on or about" an approximate date, may be considered. Vague expressions, such as "sometime after discharge", or "since discharge", will not be accepted. Affidavits from disinterested parties must show the circumstances under which knowledge of the claimant's disability was obtained and as far as possible describe the symptoms and location of the disability observed.

(b) Where, however, after all sources of information have been exhausted and all variations in the records reconciled, there remains notation of filled teeth at time of discharge or release from active service and there was no notation of these teeth as defective or filled at induction or entrance into active service, service-connection may be granted in exceptional cases for such teeth, notwithstanding there is no record of treatment during active service, provided the veteran alleges treatment in service, giving the time and place of treatment, and the conditions and circumstances of his service at the time support his allegation and inception in service is consistent with sound dental judgment. Exceptional cases contemplated in this category are where the veteran had a considerable period of service, particularly in a combat area where records of treatment may not always have been recorded due to the stress and strain encountered under battle conditions or where extenuating circumstances are shown in those instances where the veteran served in this country or in other than combat. (This does not apply to filled teeth noted on examinations within the 1-year period subsequent to discharge unless supported by material evidence.) Service-connection should not be granted for the 3d molars at any time unless there is a definite record showing such teeth to have been diseased after a reasonable period of service or within the time limit following discharge. The 3d molars shown as present at induction and missing at discharge will not be granted service-connection unless there is an actual record of extraction for reasons other than malposition or impaction.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707)

11. In § 3.142, paragraph (b) is amended to read as follows:

§ 3.142 *Special action where evaluations provided under the Rating Schedule 1945, are considered inadequate or excessive.* * * *

(b) Rating agencies are authorized to assign total disability ratings under Veterans Regulation 1 (a), Parts I and II (38 U. S. C. ch. 12 note), as authorized by paragraph 16, page 5, 1945 Rating Schedule, regardless of the age of the veteran; and under Veterans Regulation 1 (a), Part III, subject to the age requirements of Extension 5, 1945 Rating Schedule. In favorable determinations of permanence of total disability in cases of veterans under 40 years of age, the rating agency must assure itself, by deliberative consideration in which all three members of the board participate, that there is reasonable certainty of continuance of this degree of disability throughout life. Single disabilities of the extremities, even though severe, such as amputations, should not be taken to produce permanent and total disability until it is shown after hospitalization and convalescence that the veteran has been unable to secure employment on account of the disability and through no fault of his own. With these younger men, the fact that injuries, including single or multiple fractures, or diseases such as pulmonary tuberculosis, coronary thrombosis, or malignant growths, appear resistant to treatment, or have involved, or are likely to involve, long periods of treatment or industrial inactivity, does not indicate permanence of total disability unless the end result of treatment is more likely than not to be total disability. The general rules regarding permanence, as applied to total disability ratings, are set forth in §§ 3.167 and 3.168. Employment as a member employee or similar employment other than in Veterans' Administration centers obtainable only in competition with disabled individuals, will not be considered as evidence of employability.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707.)

12. In § 3.148, a new paragraph (e) is added as follows:

§ 3.148 *Effective dates of evaluations, 1945 Schedule, in original ratings.* * * *

(e) Where a reopened claim under section 5, Public Law 339, 81st Congress, is filed within 1 year from the date of the veteran's separation from service, evaluation will be from the date following date of discharge or October 10, 1949, whichever is the later. If such claim is not filed within a year from date of separation from service, evaluation will be from the date of claim. For the period from October 10, 1949, to November 30, 1949, the rates of compensation will be those in effect prior to the enactment of Public Law 339, 81st Congress.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply 60 Stat. 319, E. O. 6098, as amended; 38 U. S. C. 736–736, ch. 12 note)

13. In § 3.155, paragraphs (a), (b), and (d) are amended to read as follows:

§ 3.155 *Combined ratings.* (a) When there are two or more service-connected compensable disabilities, combined ratings, following the tables and rules prescribed in the 1945 Schedule, are authorized.

(b) Under Veterans' Regulation 1 (a), Part IV (38 U. S. C. ch. 12 note), a combined rating under the 1945 Schedule is authorized as between ratings for one or more disabilities resulting from wartime service and ratings for one or more disabilities resulting from peacetime service. Additional compensation for dependents should be on the basis of the wartime rates provided by section 1, Public Law 877, 80th Congress, as amended by section 4, Public Law 339, 81st Congress.

* * * * *

(d) Pursuant to section 202 (15), World War Veterans' Act, 1924, as amended, reenacted by Public No. 141, 73d Congress, a veteran of World War I, as defined by Public No. 141, 73d Congress, suffering from a disability of compensable degree connected with World War I service, who is entitled to compensation for a service-connected disability by reason of other military or naval service, is entitled to the evaluation and combination of his compensable service-connected disabilities in accordance with the Schedule for Rating Disabilities, 1945 edition. *Provided however,* That in the absence of a change in the severity of the condition previously evaluated under the 1925 Schedule, these evaluations will be continued and the greater benefit awarded. Additional compensation for dependents should be on the basis of the wartime rates provided by section 1, Public Law 877, 80th Congress, as amended by section 4, Public Law 339, 81st Congress.

* * * * *

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply sec. 1, 62 Stat. 1219, as amended, E. O. 6156, as amended; 38 U. S. C. 740, ch. 12 note)

14. In § 3.172, paragraphs (b) and (c) are amended to read as follows:

§ 3.172 *Stabilization of disability evaluations.* * * *

(b) If, after according due consideration to all the evidence developed by the several items discussed in paragraph (a) of this section, doubt remains, the rating agency will continue the rating in effect, citing the former diagnosis with the new diagnosis in parentheses, and following the appropriate code there will be added the reference "Rating continued pending reexamination _____ months from this date, § 3.172." The rating board will determine upon the basis of the facts in each individual case whether 18, 24, or 30 months will be allowed to elapse before the reexamination is made.

(c) The above provisions apply to permanent ratings or to those which on account of their long continuance at the same level (5 years or more) are on a parity with permanent ratings. Such provisions are not for application in the cases of veterans so recently discharged from the service that their disability has not been stabilized. Accordingly, in these new cases and particularly when temporary disability, which is likely to improve, is under consideration reexaminations disclosing improvement of the physical or mental condition will warrant reduction of the rating.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707)

15. In § 3.173, paragraph (e) is amended to read as follows:

§ 3.173 *Determinations of incompetency or competency.* * * *

(e) (1) A determination that a veteran is incompetent may be made only in the event it is conclusively shown that he is wholly incapable of disbursing the funds he is to receive from the Veterans' Administration in a reasonably prudent manner. In other words it must be clear that due to the utter lack of consideration of values or complete disregard of his own or his dependents' needs he would wantonly dissipate his funds. Where there is any doubt as to whether he is capable of administering his funds such doubt will be resolved in favor of his competency and an award will be made to him. However, where the veteran is maintained in a Veterans' Administration hospital or center, unless assured that the veteran has made a marked recovery since last examination, and that his release from the hospital or center may be anticipated in a relatively short time, and that he will be able to handle his funds as a competent patient while hospitalized, an opinion of incompetency would be justified and consistent with the purpose of hospitalization, and should be so expressed in the report of examination. The same reasoning is equally applicable to mentally ill veterans in other U. S. Government and State hospitals. The rating boards will bear in mind the consistency of a rating of incompetency of a hospitalized veteran with a mental disability evaluated as 100 percent or with a finding of incompetency by a court of competent jurisdiction when a veteran has been adjudged by the court to be mentally ill or under a legal disability for commitment purposes only. As to court determinations generally, if the conclusion of

the rating board under § 3.174 is not in agreement with the determination of the court, as to competency or incompetency, the case will be rated according to the facts, as to degree of disability and competency, but a prominent notation of the finding of incompetency or competency by the court (naming it) will be placed on the rating. This has application especially to cases under § 3.276, in which payments may be released in behalf of the veteran through an institutional award on the basis of a finding of incompetency by a court of competent jurisdiction, whether or not such finding is in agreement with the conclusion of the rating board under § 3.174.

(2) If upon application of the rule stated in subparagraph (1) of this paragraph the rating agency concludes the veteran is incompetent, he will be so rated and the case will be referred to the chief attorney as provided by current claims procedures and § 14.200 of this chapter. The chief attorney will proceed to develop information as to the veteran's social, economic, and industrial adjustment since discharge from the service, pursuant to current medical procedures. Upon review of the evidence thus developed, if the chief attorney concurs in the rating of incompetency, he will proceed to effect the appointment of a fiduciary, or, if the veteran is married, to recommend release of payments to the veteran's wife as provided in § 14.201 (a) of this chapter. If the chief attorney determines that the veteran is sufficiently competent to administer the funds payable, the evidence will be referred to the rating agency with a statement as to his conclusion, the evidence will be reevaluated, the veteran will be rated competent, and a rating commensurate with the degree of disability assigned. If upon review of the complete evidence it is found that the evaluation previously assigned may be confirmed during any given period, the rating will reflect this fact and will also include an evaluation commensurate with the degree of disability from the date improvement is shown by the evidence. The award will be executed in accordance with the rerating. If, however, it is determined from a review of the evidence that the evaluation previously assigned may not be confirmed, the rerating will reflect an evaluation commensurate with the degree of disablement retroactively effective from the appropriate beginning date and the award executed accordingly. Reexaminations will not be routinely required in connection with the above-described procedure but may be called for if in the opinion of the rating agency such action is clearly necessary. In the case of a veteran suffering from mental disability who is being or has been discharged from a hospital and is rated incompetent following the rule stated in subparagraph (1) of this paragraph, the instructions contained in this section will be followed.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply sec. 1, 60 Stat. 908; 38 U. S. C. 739, ch. 12 note)

16. A new cross reference immediately preceding § 3.176 is added as follows:

CROSS REFERENCE: Determination of insanity and incompetency. (See Veterans' Administration medical procedures.)

16a. In § 3.185 (b) (1), subdivision (i) is amended to read as follows:

§ 3.185 *Re-examinations for disability rating purposes.* • • •

(b) (1) *Scheduling examinations.* • • •

(i) Following initial Veterans' Administration examination, re-examination, if in order, will be scheduled based on the combined non-static disabilities as follows except as otherwise provided in the Rating Schedule or Extensions:

Rating 80—100 percent in 2 years.
Rating 40—70 percent in 3 years.
Rating 10—30 percent in 5 years.

• • • • •

17. Section 3.189 is amended to read as follows:

§ 3.189 *Rating of change in diagnosis of diagnostic center.* The rating agency of original or appellate jurisdiction is not authorized to accept at any time for rating purposes the findings of a field office differing with the prior findings of a diagnostic center with respect to the etiology or differential diagnosis of a disability without reconciliation of such difference with the diagnostic center under current directives.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707)

18. In § 3.201, the title and paragraphs (a) and (f) are amended to read as follows:

§ 3.201 *Adjudication of claims involving compensation based upon new and material evidence presented after prior disallowance.* (a) New and material evidence, relating to the same factual basis (such as, in the case of a living veteran, the same disease or injury) as that of the disallowed claim, submitted subsequent to the final disallowance of the claim, will constitute a new claim and have all the attributes thereof: *Provided,* That the evidence or the accompanying communication meets the requirements as to what shall constitute an informal claim under § 3.27, and will be handled as provided in paragraphs (b) through (f) of this section.

• • • • •

(f) Where the new and material evidence consists of a supplemental report from the service department and it is received subsequent to the expiration of the appeal period or, in the event of an appeal, subsequent to the decision of the board of veterans appeals, the supplemental report from the service department will be considered under Veterans Regulation 2 (c) (38 U. S. C. ch. 12) and the appropriate rating and award accomplished under the applicable instructions. The retroactive evaluation of disability resulting from disease or injury subsequently service-connected on the basis of new evidence from a service department must be adequately supported by medical evidence, and, where the additional records received from the service department clearly support the assignment of a specific rating over a part or the entire period of time involved, a retroactive evaluation will be assigned accordingly except as it may be affected by the filing date of the original claim.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply sec. 9, 48 Stat. 10, as amended; 38 U. S. C. 709)

19. In § 3.212, paragraphs (b) and (c) are amended and a new paragraph (e) is added as follows:

§ 3.212 *Effective dates of awards of disability compensation.* • • •

(b) Where, upon reconsideration by a rating agency of original jurisdiction in accordance with § 3.201, a favorable decision is rendered, the effective date of an award for monetary benefits will be the date of receipt by the Veterans' Administration of the application for reconsideration.

(c) The effective dates of awards of disability compensation will coincide with the effective dates of evaluations as set forth in § 3.148.

• • • • •

(e) Section 4, Public Law 108, 81st Congress, not only establishes eligibility for benefits for disability or death (see § 3.1 (l)) without regard to the time of incurrence but also permits payments retroactive to August 14, 1945, where entitlement is otherwise in order. It is contemplated that action will be initiated in each case by the filing of a claim. Accordingly, as to accrued rights the date of filing of claim is not controlling as to the effective date of the award, but payments will be effective from the day following death or the day following release from the particular training duty assignment during which the injury or disease was suffered. On and after the date of enactment of the cited act (June 20, 1949), if the claim is filed within 1 year from the date of release from the training duty assignment during which the injury was suffered or within 1 year from the date of death, the benefit will be payable from the day following the happening of the specified contingency. Where claims are not filed within the 1-year period, benefits will be effective from the date of filing of claim.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply sec. 17, 57 Stat. 560, sec. 4, Public Law 108, 81st Congress; 38 U. S. C. 732)

20. In § 3.214, paragraph (a) is amended to read as follows:

§ 3.214 *Effective dates of awards of increased disability compensation.* The effective date of an award of increased disability compensation will be in accordance with the provisions of paragraph II, Part I, Veterans Regulation 2 (a) (38 U. S. C. ch. 12 note):

(a) *By reason of dependents.* Increased disability compensation payable by reason of dependents under Public No. 2, 73d Congress, as amended, title III, Public No. 141, 73d Congress, or under Public Law 877, 80th Congress, as amended by section 4, Public Law 339, 81st Congress, will be effective as of the date of the receipt of the evidence which establishes entitlement. Where additional evidence is necessary to substantiate the original evidence, the effective date of increased disability compensation is the date of receipt of the original evidence if the substantiating evidence is received within 1 year from the date of request therefor. Additional evidence required for the purpose of inquiring into the veracity of a witness or the authenticity of the documentary evidence falls within the abovecited rules. However, any evidence to enlarge the proofs and evidence originally submitted is not so included.

21. In § 3.228 (c), subparagraphs (5) and (6) are amended as follows:

§ 3.228 *Computation of annual income for the purposes of Veterans Regulation 1 (a), Part III (38 U. S. C. ch. 12), or section 1 (c) of Public No. 198, 76th Congress (act of July 19, 1939), as amended by section 11, Public Law 144, 78th Congress.* • • •

(c) *Income included in computation.* In determining annual income, payments and benefits received from the following sources will be considered: • • •

(5) Compensation paid by the Bureau of Employees' Compensation, Federal Security Agency, or a State compensation or industrial board or commission. There may be excluded from consideration any attorney's fees incurred in obtaining the award in those instances where the fees are to be paid out of the awards.

(6) Civil service retirement benefits, Federal Old Age and Survivors' Insurance, or railroad retirement benefits: *Provided,* That where the benefit is received by a former worker based on his own employment, no part of such payments will be considered "annual income" until the full amount of his personal contribution (as distinguished from amounts contributed by the employer and not by the worker) has been received by him: *And provided further,* That such benefits received by a widow on the basis of her husband's employment will be considered as annual income as received. This subparagraph contemplates that the entire amount of the worker's annuity following retirement will be applied each year to amortize the cost of such annuity, after which the entire annuity will be considered as income.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply sec. 1 (c), 48 Stat. 1281, as amended, E. O. 6156, as amended; 38 U. S. C. 503c, ch. 12 note)

22. In § 3.237 (b), subparagraph (4) is amended to read as follows:

§ 3.237 *Additional allowance for nurse and attendant and adjustment of awards during institutionalization.* • • •

(b) *Reductions during hospitalization.* • • •

(4) The reduction in the case of a veteran entitled only under subparagraph (l) on account of helplessness will be in the amount of $90 (or $72).

• • • • •

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply E. O. 6156, as amended, 38 U. S. C. ch. 12 note)

23. Section 3.286 is amended to read as follows:

§ 3.286 *Determination of marital status, custody of child or children, or continuance of dependency.* When in any case wherein compensation, pension, or retirement benefits are being paid, it is deemed necessary to determine the current facts in regard to the marital status of the veteran, custody of child or children, or dependency of parent or parents, the necessary evidence will be requested and, when received, appropriate adjustment will be made in accordance with the facts disclosed pursuant to the provisions of law and the regulations and instructions based thereon. If the necessary information is not received within a reasonable time from the date of request therefor, appropriate action will be taken to effect an adjustment on the basis of a single man without dependents, or through a discontinuance of benefits to the payee or payees, wife, child or children, or dependent parent or parents, as may be required by the facts. If the necessary evidence or information is thereafter received within 1 year from the date of request therefor, a readjustment may be made or the payment of benefits resumed, if otherwise in order, from the effective date of the adjustment or discontinuance previously necessitated by the nonreceipt of the desired data. If the necessary evidence or information is not received within 1 year from the date of request therefor, the adjustment or resumption of payments will not be authorized prior to the date of receipt of the evidence or information. However, the 1 year limitation is not applicable and retroactive compensation may be paid in a case where the claimant's failure to establish affirmatively the continued existence of marital status or dependents was due to the action of the enemy, in World War II, by virtue of which he was unable to communicate with the Veterans' Administration. For the applicable rule in cases of institutionalization, see (§ 3.255 (c)).

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707)

24. In § 3.296, paragraphs (b) and (c) are amended to read as follows:

§ 3.296 *Concurrent payment of benefits to same person.* • • •

(b) For the purposes of Veterans Regulation 1 (a), Part II, paragraph I (38 U. S. C. ch. 12 note), as amended by Public No. 159, 75th Congress (act of June 23, 1937), compensation shall not be paid concurrently with active duty pay or United States employees compensation. Reserve officers or members of the Enlisted Reserves of the United States Army, Navy, Marine Corps, or Coast Guard entitled to disability compensation and United States employees compensation shall elect which benefit to receive. Reserve officers who are entitled to retirement pay under section 5, Public No. 18, 76th Congress, for disability incurred on or subsequent to July 15, 1939, do not have such an election. Pension under the Veterans' Administration may be paid concurrently, if otherwise in order, with compensation under the United States Employees Compensation Act of September 7, 1916, as amended. In those cases where retroactive benefits are payable under section 4, Public Law 108, 81st Congress, there shall be subtracted from any benefit which such reserve personnel, or the dependents of such deceased reservists, may be eligible to receive under such act such benefits as may already have been paid to the particular payee by either the Veterans' Administration or the Federal Security Agency (Bureau of Employees Compensation).

(c) Re concurrent payments of disability compensation, pension, or retired pay and pay from the service departments, see § 3.299.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply E. O. 6098, as amended; 38 U. S. C. ch. 12 note)

25. Section 3.299 is amended to read as follows:

§ 3.299 *Action where veteran returns to active duty status.* Compensation or pension may not be paid concurrently with the receipt of active service pay and where any person in receipt of compensation or pension returns to active duty status with any of the Armed Forces of the United States, or active service in the United States Coast Guard, benefits will be suspended, effective the day preceding reentrance, if known, or the date of last payment. In the latter instance the correct date on which the veteran reentered active duty status will be ascertained and a corrected Stop (or Suspended) Payment Notice, VA Form 521, or amended award then executed as of the correct date. Time spent by members of the ROTC in drills as a part of their activities as members of the corps is not active duty. On and after October 29, 1949, veterans who are reserve members of the Armed Forces may waive or relinquish their pension, compensation, or retirement pay for periods of field training, instruction, other duty or drill. A waiver is not acceptable if it covers any period prior to October 29, 1949. However, a valid waiver may include prospective periods and contain a right of recoupment for the days which the reservist did not receive payment for Reserve duty training by reason of failure to report for duty. Official information showing the date upon which the veteran actually reentered and terminated active duty will be secured. When it becomes necessary, to discontinue payments of disability compensation, pension, or retirement pay because the veteran has reentered active military

or naval service, the representatives, including duly accredited service organization or attorney of record, will be informed by being furnished copy of the letter to the veteran notifying him of the discontinuance of payments. Payments may be resumed the day following release from active duty, provided the person is otherwise entitled. The determination of service-connection upon which the award of benefits was originally made will not be disturbed. The resumption of payment of compensation as to amount will be at a rate commensurate with the degree of disability found to exist at the time of restoration of the award. The appropriate form of the 3101 series will be secured and the claim will be adjudicated upon a basis including the pertinent facts in the most recent period of active service. If a disability is incurred or aggravated in the second period of service, the benefits payable on account thereof cannot be paid unless a claim therefor is filed. (See § 3.27.)

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply E. O. 6098, as amended; sec. 610, Pub. Law 434, 81st Cong.; 38 U. S. C. ch. 12 note)

26. In § 3.310, the introductory paragraph is amended to read as follows:

§ 3.310 *Apportionments authorized.* Disability pension, disability compensation (including additional compensation for dependents provided by Public Law 877, 80th Congress, as amended by section 4, Public Law 339, 81st Congress), emergency officers retirement pay, and on and after October 17, 1940, service pension and pension for service prior to April 21, 1898, amounting to more than $30 monthly, will be apportioned according to the table provided in § 3.311, except where otherwise authorized or provided in this section.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. and Sup. 11a, 426, 707. Interpret or apply sec. 3, 54 Stat. 1195, sec. 1, 60 Stat. 908; 38 U. S. C. 49a, 739)

27. Section 3.1505 of the Provisional Regulations is hereby canceled:

§ 3.1505 *Instructions relating to benefits for members of the reserve components of the armed forces who suffer disability or death from injuries incurred while engaged in active-duty training for periods of less than thirty days or while engaged in inactive-duty training.* [Canceled.]

28. Section 3.1508 of the Provisional Regulations is hereby canceled.

§ 3.1508 *Instructions relating to line of duty.* [Canceled.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of Industry and Commerce

[5th Gen. Rev. of Export Regs., Amdt. 15]

PART 370—SCOPE OF EXPORT CONTROL BY DEPARTMENT OF COMMERCE

GOLD

Section 370.6 *Gold and narcotics* is amended in the following particulars:

The note following paragraph (a) *Gold*, is amended to read as follows:

NOTE: The exportation of "fabricated gold," as defined in the Gold Regulations issued by the Treasury Department (§ 54.4) under the Gold Reserve Act of 1934, is controlled by the Department of Commerce under an arrangement with the Treasury Department. All "fabricated gold" commodities which are not included on the Positive List may be exported to any destination under Department of Commerce general license GRO. (See § 371.8). For the export of any gold other than "fabricated gold," an application for a license to export must be filed with the Treasury Department.

Exporters are cautioned that "semi-processed gold" (as defined by the Gold Regulations) presented for export as "fabricated gold" is subject to seizure.

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodity is deleted from the Positive List:

Dept. of Comm. Sched. B No.	Commodity
748098	Other non-metallic minerals (precious included): Carbon or graphite products (natural and artificial): Artificial graphite.

2. The entries on the Positive List for Schedule B Nos. 720130 and 723100 are amended by revising the commodity descriptions to reflect the reclassification of certain of these commodities by the Bureau of the Census (see Census Bulletin PB 168B-I and II dated June 28, 1950). Accordingly, the amended entries read as follows:

Dept. of Comm. Sched. B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
720130	Construction, excavating, and conveying machinery: Trenchers, ditchers, and loaders [1]	No.	CONS	None	R
723100	Construction equipment, and parts, n. e. s.: Batcher outfits; concrete block machines, highspeed; contractors' off-the-road trucks, contractors' off-the-road wagons and trailers; and pile-drivers and pile hammers [1]		CONS	100	R
723100'	Parts for contractors' wheel-type tractors [1]		CONS	100	R

[1] This amendment does not add to or delete from the Positive List any commodity. By this revision all trenchers, ditchers, and loaders under the heading "Construction, excavating, and conveying machinery" are now classified under Schedule B No. 720130, including vertical lift bucket loaders, self-propelled, rubber-tired, formerly on the Positive List under Schedule B No. 723100.

3. The dollar-value limits in the column headed "GLV dollar value limits" set forth opposite each of the commodities listed below are amended to read as follows:

Dept. of Comm. Sched. B No.	Commodity	GLV dollar value limits
	Petroleum and products:	
501200	Natural gasoline (bbl. of 42 gal.)	[1] 25
501900	Naphtha, mineral spirits, solvents, and other finished light products (bbl. of 42 gal.)	[1] 25
503900	Petroleum products, n. e. s., except finished petroleum sprays and finished blended gasolines (report finished petroleum sprays in 823590 and 829600; finished blended gasolines in 501610-501700)	[1] 25

[1] This GLV dollar-value limit is applicable to all Country Group R destinations, except those in Subgroup A, and all Country Group O destinations, except Mexico. The GLV dollar value limit for shipments to Mexico is $1,000.
[2] Applies only to commodities, previously subject to R control, which are placed under RO control by Part 4 below. Other commodities classified under this Schedule B number already have a GLV dollar-value-limit of $25.

[1] This amendment was published in Current Export Bulletin No. 582, dated August 17, 1950.

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Dept. of Comm. Sched. B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Other vehicles and parts:				
706510	Tankers (or commercial and industrial purposes, engine-equipped, and watercraft (including hulls for commercial and industrial purposes, whether or not engine-equipped), 18 feet in length and over, except whaling factories, (report whaling factories in 706510)	No.	TRAN	None	RO
706510	Industrial chemicals (exclusive of medicinal chemicals, U. S. P. and N. F.: Sodium compounds: Sodium carbonate, calcined or soda ash	No.	TRAN	None	RO
850500	Boric acid	Lb.	SALT	100	R
850600	Sodium hydroxide or caustic soda, except in packages of less than 50 pounds (report packages of less than 50 pounds in 850600)	Lb.	SALT	100	R
857710	Lithium (converted to dry weight for statistical purposes)	Lb.	SALT	100	R
857320			SALT	100	R

2. The entries on the Positive List for Schedule B Nos. 795550 and 799998 are amended to read as follows:

Dept. of Comm. Sched. B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
795550	Watercraft for pleasure purposes, engine-equipped, 18 feet in length and over; parts for watercraft for pleasure purposes, whether or not engine-equipped, 18 feet in length and over, and parts therefor; and tank barges and other watercraft) for commercial and industrial purposes, 18 feet in length and over, except whaling factories, (report whaling factories in 795550)	No.	TRAN	None	R
799998			TRAN 9	100	R

[1] The effect of this amendment is to remove from the Positive List watercraft for pleasure purposes, engine-equipped less than 18 feet in length and to add to the Positive List the following commodities: watercraft for pleasure purposes, except engine-equipped, 18 feet in length and over, and parts therefor; and parts for merchant vessels (including tankers and tank barges and other watercraft) for commercial and industrial purposes, whether or not engine-equipped, 18 feet in length and over, except whaling factories, and parts therefor, all of which are deleted from the Positive List parts for watercraft for pleasure purposes, engine-equipped, less than 18 feet in length.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations (63 Stat. 7; E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

This amendment shall become effective September 1, 1950.

Issued this 25th day of August 1950.

503900	Petroleum products, n. e. s., except finished petroleum sprays and finished blended gasolines (report finished petroleum sprays in 823590 and 829600; finished blended gasolines under 501610-501700) [3]		PETR	25	RO

[1] Automotive lubricating oils having a viscosity index of 75 or above and pour of 0° F. and below, classified under Schedule B No. 503920, are already subject to RO control. The effect of this action is to place under RO control all commodities classified under this Schedule B Number. The revised commodity description now reads: "Schedule B No. 503920, Automotive lubricating oil, GLV value 25, validated license required, RO."

[2] Lubricating greases, containing synthetic oil or lithium soap, or for very high or very low performance (temperature and/or pressure), classified under Schedule B No. 504100, are already subject to RO control. The effect of this action is to place under RO control all commodities classified under this Schedule B Number. The revised commodity description now reads: "Schedule B No. 504100, Lubricating greases, except graphite lubricants (report graphite lubricants under 504080), GLV value 25, validated license required, RO."

[3] Additives of petroleum origin for lubricating oils and greases; hydraulic oils of petroleum origin, containing synthetics; and reference fuels, classified under Schedule B No. 503900, are already subject to RO control. The effect of this action is to place under RO control all commodities classified under this Schedule B Number. The revised commodity description now reads: "Schedule B No. 503900, Petroleum products, n. e. s., except finished petroleum sprays and finished blended gasolines (report finished petroleum sprays in 823590 and 829600 and finished blended gasolines in 501610-501700), GLV value 25, validated license required, RO."

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations or whose GLV dollar-value limits were reduced as a result of changes set forth in Parts 3 and 4 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to the effective date of this amendment, may be exported under the previous general license provisions.

S. 45°55' E., 100 feet.
S. 44°05' W., 100 feet.
N. 45°55' W., 100 feet to point of beginning.

The tract described contains 10,000 square feet.

This order shall take precedence over but not otherwise affect the Executive Order of May 4, 1907 withdrawing lands for various school reserves, so far as such order affects the above-described land.

It is intended that the land above described shall be returned to the administration of the Department of the Interior when it is no longer needed for the purpose for which is is reserved.

OSCAR L. CHAPMAN,
Secretary of the Interior.

ARIZONA

AMENDING PUBLIC LAND ORDERS NOS. 59 AND 176

By virtue of the authority contained in the act of June 4, 1897 (30 Stat. 11, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Orders No. 59 of November 12, 1942 and No. 176 of September 29, 1943 reserving public lands in the Coconino and Kaibab National Forests, Arizona, for the use of the War Department for military purposes, are hereby amended by deleting therefrom the following paragraph contained in Public Land Order No. 176 and added to Public Land Order No. 59 by Executive Order No. 9526 of February 28, 1945.

The jurisdiction granted by this order shall cease at the expiration of the six months' period following the termination of the unlimited national emergency declared by Proclamation No. 2487 of May 27, 1941 (55 Stat. 1647). Thereupon, jurisdiction over the lands hereby reserved shall be vested in the Department of the Interior, and any other department or agency of the Federal Government according to their respective interests then of record. The lands, however, shall remain withdrawn from appropriation as herein provided until otherwise ordered.

Both of such orders are also amended by substituting the words "Department of the Army" for the words "War Department" occurring in the orders and in the titles thereof; and Public Land Order No. 59 is further amended so that the withdrawal made thereby shall expressly include withdrawal from appropriation under the mineral-leasing laws.

The orders amended hereby affect public lands in Tps. 21 and 22 N., R. 5 E., and T. 21 N., R. 6 E., G. & S. R. M., Arizona.

OSCAR L. CHAPMAN,
Secretary of the Interior.

[50 CFR, Part 8]

BOMBAY HOOK NATIONAL WILDLIFE REFUGE, DELAWARE; PROTECTION OF MIGRATORY BIRDS

NOTICE OF INTENTION DESIGNATING CERTAIN WATERS IN VICINITY AS CLOSED AREAS

AUGUST 25, 1950.

Pursuant to section 4 (a) of the Administrative Procedure Act, approved June 11, 1946 (60 Stat. 238, 5 U. S. C. 1003), and the authority contained in section 3 of the Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755, 16 U. S. C. 704) as amended, notice is hereby given that the Secretary of the Interior intends to take the following action:

Adopt a regulation establishing certain closed areas in which the pursuing, hunting, taking, capture, or killing of migratory birds or attempting to take, capture, or kill migratory birds will not be permitted, embracing all areas of water (excepting Delaware Bay), and land under water, immediately contiguous to and abutting upon lands of the United States comprising the Bombay Hook National Wildlife Refuge in Kent County, Delaware (the boundaries of which are posted), and including but not limited to the areas hereinafter described and identified as follows:

Duck Creek and tributaries thereto, from its mouth at the Leipsic River and the north end of Marshall Island, upstream approximately nine miles to Sluice Ditch, including Bank Ditch, Broad Gut, Cove Pond Ditch, Dutch Neck Canal and Boat Gut connected therewith, Dawsons Branch easterly from a point about three-eighths mile west of the Whitehall-Dutch Neck Road, Elkhorn Branch east of said Whitehall-Dutch Neck Road, Finis Branch and Shearness Pool, Hawkey Branch east of the aforesaid road, Lees Ditch, Mikes Ditch, Myrkle Gut, Poplar Point Ditch, Salt Pond Ditch, Shearness Gut, Slootch Ditch, Terrapin Gut, Wier Gut, together with all other ditches, guts, and watercourses, tributary thereto or connected therewith within said nine-mile reach;

Leipsic River and tributaries thereto, from its mouth at Delaware Bay upstream approximately five miles to Boat Gut at the westerly end of Needhams Island, and all cut-through channels of the river, including the cut-through channel of said river approximately one-half mile below Whitehall Landing, Devers Gut (formerly Boat Gut) at the southeasterly side of Ragged Island, Georges Island Gut, Little Fork, Raymond Pool and Raymond Gut, together with all other ditches, guts and watercourses tributary or connected with said river within the five-mile reach;

Simons River (formerly known as Dona River) and tributaries thereto, from its mouth at Delaware Bay upstream approximately two miles to the mouth of Herring Branch, including Cedar Gut, Green Creek (formerly known as part of Dona River), together with all other ditches, guts and watercourses tributary thereto or connected therewith within said two-mile reach;

All tributaries to Simons River above the aforesaid two-mile reaches of said river, heading in Kent Island, namely, Bay Gut and Drum Gut, East-West Canal and Joes Hole, Flat Gut, and North-South Canal, together with all other ditches, guts and watercourses heading in Kent Island and tributary to or connected with Simons River above the two-mile reaches aforesaid;

Together with all other ditches, channels, guts, ponds, streams and watercourses, named or unnamed, heading within the boundaries of the Bombay Hook National Wildlife Refuge, north of Dutch Neck Road, east of Dutch Neck and Whitehall Neck and Finis Road connecting same, and all such waters within Bear Swamp, that part of Bombay Hook Island south of Sluice Ditch (including Bay Pond, Hay Ditch and Log Pond), Georges Island, Kelly Island, Kent Island and Little Bombay Hook Island (including Old Creek), Leatherberry Flats, Marshall Island, Money Marsh, and Ragged Island.

The aforesaid waters and watercourses, named and unnamed, are delineated on three topographic quadrangle maps, designated Bombay Hook, Little Creek, and Smyrna, Edition of 1949, for sale by the Geological Survey, Department of the Interior, Washington 25, D. C. Copies of these maps may be inspected by application at the headquarters of the Bombay Hook National Wildlife Refuge which may be reached by way of the Whitehall Neck Road.

All persons are hereby given an opportunity to participate in formulating the proposed regulation by submitting their views, data, or arguments in writing to Albert M. Day, Director, Fish and Wildlife Service, Washington 25, D. C. on or before September 15, 1950.

DALE E. DOTY,
Assistant Secretary of the Interior.

EXPORT AND IMPORT OF LIVESTOCK TO AND FROM MEXICO

HORSES FROM DOURINE-INFECTED AREAS

Notice is hereby given in accordance with section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)) that the Secretary of Agriculture, pursuant to the authority vested in him by section 2 of the act of Congress approved February 2, 1903, as amended (21 U. S. C. 111), proposes to amend § 93.11 (b) of the special regulations governing export and import of livestock to and from Mexico (9 CFR 93.11) to read as follows:

§ 93.11 *Horses.* • • •

(b) *Horses from dourine-infected areas.* All horses offered for importation from Mexico, other than those moving in bond for immediate reentry into Mexico, those imported for slaughter, and geldings unless judged by the inspector to be capable of serving mares, shall be detained at the border port of entry where a blood sample shall be obtained from each animal under the supervision of the inspector, said samples to be forwarded to the Bureau laboratory where they will be tested by the complement-fixation method for dourine. Any animal that is found by said test to be affected with dourine shall be refused entry.

Any person who wishes to submit written data, views or arguments concerning the foregoing proposed amendment may do so by filing them with the Chief of the Bureau of Animal Industry, United States Department of Agriculture, Washington 25, D. C. within 15 days after publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C. this 25th day of August, 1950.

RINDERPEST AND FOOT-AND-MOUTH DISEASE; PROHIBITED AND RESTRICTED IMPORTATION

DETERMINATION OF NON-EXISTENCE IN NORWAY

Notice is hereby given in accordance with section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)), that the Secretary of Agriculture pursuant to the authority conferred upon him by section 306 of the Tariff Act of 1930 (19 U. S. C. 1306) proposes to determine, and to give notice of such determination, that neither rinderpest nor foot-and-mouth disease now exists in Norway, and to amend § 94.1, Part 94, Subchapter D, Chapter I, Title 9 of the Code of Federal Regulations (§ 94.1 of B. A. I. Order No. 373) by striking therefrom the word "Norway".

The proposed determination, notification, and amendment, if made, would remove the present prohibition under section 306 of the Tariff Act upon importation into the United States of cattle, sheep, other domestic ruminants, and swine, and of fresh, chilled or frozen beef, veal, mutton, lamb, or pork from Norway and render the commodities specified in Part 94, Subchapter D, Chapter I, Title 9 of the Code of Federal Regulations (B. A. I. Order No. 373), and originating in said country, no longer subject to the provisions of that part.

Any person who wishes to submit written data, views, or arguments concerning the proposed determination and amendment may do so by filing them with the Chief of the Bureau of Animal Industry, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C. within 15 days after publication of this notice in the FEDERAL REGISTER.

[29 CFR, Part 422]

EMPLOYMENT OF MINORS BETWEEN 16 AND 18 YEARS OF AGE IN OCCUPATIONS IN CONNECTION WITH MINING, OTHER THAN COAL [1]

NOTICE OF HEARING

In accordance with the procedure governing determinations of hazardous occupations (29 CFR Part 421), an investigation has been conducted for the purpose of ascertaining what occupations in connection with mining, other than coal, are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being and thus constitute oppressive child labor as defined in section 3 (l) of the Fair Labor Standards Act, as amended (52 Stat. 1060, as amended; 29 U. S. C. and Sup. 201 et seq.).

A report of the investigation, entitled "Occupational Hazards to Young Workers, Report No. 9, Mining Other Than Coal," copies of which will be sent upon request directed to the Bureau of Labor Standards, United States Department of Labor, Washington 25, D. C., has been submitted to the Secretary of Labor in which it is concluded that all occupations in connection with mining, other than coal (with certain exceptions), are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being.

On the basis of such conclusions the Secretary of Labor, pursuant to the authority conferred by section 3 (*l*) of the Fair Labor Standards Act, as amended (52 Stat. 1060, as amended; 29 U. S. C. and sup., 201 et seq.) and Reorganization Plan No. 2, effective July 16, 1946, adopted pursuant to the Reorganization Act of 1945 (59 Stat. 613), proposes to issue a finding and order in the form set forth below.

Accordingly, notice is hereby given of a public hearing to be held on October 11, 1950, commencing at 10:00 a. m. in Room 1214, United States Department of Labor Building, 14th Street and Constitution Avenue, Northwest, Washington, D. C., before a presiding officer to be hereinafter designated, at which hearing interested parties may appear and be heard with respect to said proposed finding and order. All interested persons desiring to appear at the hearing are requested to notify the Secretary of Labor at least five days prior to the date fixed for the hearing. Any interested person who is unable to appear in person or by representative may submit a written comment or brief with the Secretary of Labor not later than the day prior to the hearing, in order that the same may be made a part of the record of the hearing.

[1] A hazardous-occupations order effective September 1, 1940, declared all occupations in or about a coal mine, with certain exceptions, to be particularly hazardous for the employment of minors between 16 and 18 years of age (29 CFR 422.3).

Proposed finding and order. By virtue of the authority vested in me by section 3 (*l*) of the Fair Labor Standards Act, as amended (52 Stat. 1060, as amended; 29 U. S. C. and Sup., 201 et seq.) and Reorganization Plan No. 2 of 1946 adopted pursuant to the Reorganization Act of 1945 (59 Stat. 613) and in accordance with the Procedure Governing Determinations of Hazardous Occupations (29 CFR Part 421); an investigation having been conducted with respect to what occupations in connection with mining, other than coal, are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being, and a report of said investigation having been submitted to me;

Now, therefore, I, Maurice J. Tobin, Secretary of Labor, after reviewing all the evidence and information with respect to the occupations involved, including the report of the investigation, do hereby find, declare and order:

§ 422.9 *Occupations in connection with mining, other than coal*—(a) *Finding and declaration of fact.* All occupations in connection with mining, other than coal, are particularly hazardous for the employment of minors between 16 and 18 years of age or detrimental to their health or well-being except the following:

(1) Work in offices, in the warehouse or supply house, in the change house, in the laboratory, and in repair or maintenance shops not located underground.

(2) Work in the operation and maintenance of living quarters.

(3) Work outside the mine in surveying, in the repair and maintenance of roads, and in general clean-up about the mine property such as clearing brush and digging drainage ditches: *Provided*, That such work does not involve felling and bucking of timber, collection and transportation of logs, the operation of power-driven machinery, or the handling or use of explosives.

(4) Work of track crews in the building and maintaining of sections of railroad track located in those areas of open-cut metal mines where mining and haulage activities are not being conducted at the time and place that such building and maintenance work is being done.

(5) Work in or about surface placer mining operations other than placer dredging operations and hydraulic placer mining operations.

(6) The following work in metal mills other than in mercury-recovery mills or mills using the cyanide process;

(i) Work involving the operations of jigs, sludge tables, flotation cells, or drier-filters.

(ii) Work of hand-sorting at picking table or picking belt.

(iii) General clean-up work.

(b) *Definitions.* As used in this section:

(1) The term "all occupations in connection with mining, other than coal" shall mean all work performed underground in mines and quarries; on the surface at underground mines and underground quarries; in or about open-cut mines, open quarries, clay pits, and sand and gravel operations; at or about placer mining operations; at or about dredging operations for clay, sand or gravel; at or about bore-hole mining operations; in or about all metal mills, washer plants, or grinding mills reducing the bulk of the extracted minerals; and at or about any other crushing, grinding, screening, sizing, washing or cleaning operations performed upon the extracted minerals except where such operations are performed as a part of a manufacturing process. The term shall not include work performed in subsequent manufacturing or processing operations, such as work performed in smelters, electro-metallurgical plants, refineries, reduction plants, cement mills, plants where quarried stone is cut, sanded and further processed, or plants manufacturing clay, glass or ceramic products. Neither shall the term include work performed in connection with coal mining, in petroleum production, in natural-gas production, nor in dredging operations which are not a part of mining operations, such as dredging for construction or navigation purposes.

(c) This section shall not justify noncompliance with any Federal or State law or municipal ordnance establishing a higher standard than the standard established herein.

(d) This proposed order, when issued, will be made effective 30 days after due publication in the FEDERAL REGISTER.

(Sec. 3 (l) of the Fair Labor Standards Act, as amended, 52 Stat. 1060, as amended; 29 U. S. C. and Supp., 201 et seq.; Reorganization Plan No. 2 effective July 16, 1946 (60 Stat. 1095) adopted pursuant to Reorganization Act of 1945; 59 Stat. 613; 5 U. S. C. Sup., 133y–133y–16)

Signed at Washington, D. C., this 23d day of August 1950.

INTERSTATE COMMERCE COMMISSION

[49 CFR, Ch. I]

[No. 28310]

CONSOLIDATED FREIGHT CLASSIFICATION

NOTICE OF PROPOSED RULE MAKING

AUGUST 17, 1950.

Further investigation will be conducted by the Commission in the above-entitled proceeding.

Authority for and nature of investigation. The investigation will be governed by the pertinent provisions of the Administrative Procedure Act, approved June 11, 1946, and the Interstate Commerce Act, as amended.

Scope and purpose of investigation. The scope and purpose of the further investigation are:

1. To devise and find a just and reasonable uniform classification of property for transportation, constructed according to the standards heretofore found just, reasonable, and lawful in Part I of the original report in this proceeding, May 15, 1945, 262 I. C. C. 447, at

pages 456 to 512, inclusive; and thereupon by rule and order to determine, require, and prescribe that the respondents herein shall adopt, observe, and follow, accordingly as they participate in the transportation, the uniform classification of property for transportation, and rules, regulations, and practices affecting such classification, and to cease and desist from the publication, use, or observance of any other classification of property as defined in section 1 (6) of the Interstate Commerce Act, as amended (49 U. S. C. sec. 1 (6)), and rules, regulations, and practices in connection therewith. Such uniform classification of property and rules are to be applied in connection with the present and prospective requirements of a just, reasonable, and basic scale of class rates (and arbitraries for short-line and weak railroads, if any) to be found and determined in Docket No. 28300, Class Rate Investigation, 1939, now under further investigation.

Reasons for investigation. As indicated in the preceding paragraph, on May 15, 1945, the report and order in Docket No. 28310, Consolidated Freight Classification (which was heard and determined jointly with the companion proceeding, Docket No. 28300, Class Rate Investigation, 1939) 262 I. C. C. 447, Part I, and as reported by the Commission to Congress in its 59th Annual Report, pages 29 and 30, the Interstate Commerce Commission found the railroad classifications of freight then published, filed, and observed, to be unreasonable and unjust and unduly prejudicial as a whole to the extent that they were not uniform. There were then three major freight classifications, namely, Official, Southern, and Western, and in addition the Illinois Classification with a limited interstate application. By the decision of the Commission, 262 I. C. C. 447, at pages 511–512, the respondents in this proceeding were given reasonable opportunity themselves to initiate a uniform classification of property by their own collective action before the Commission should undertake the task of formulating such a uniform classification. Respondents, the report stated, were expected within 90 days from the service of the report to advise the Commission whether they would undertake to make and tender to the Commission a classification based upon the findings made in the report. The Commission stated and found that if the respondents declined this undertaking or should omit to respond within the time specified, it retained jurisdiction to make such further order in the premises as might be proper.

Within the time limited the respondent railroads gave the Commission assurance that they would make and tender a uniform classification based upon the findings of the report of the Commission. This assurance was given on June 19, 1945, for the class I rail carriers operating in Official territory; on June 21, 1945, by class I railroads of the Western District; and on July 2, 1945, by Southern respondents; and each group of rail carriers mentioned assured the Commission of intention to collaborate with the rail carriers operating in other sections of the country to make and tender a uniform classification of property.

By the finding of the Commission in this proceeding, paragraph numbered 8 on page 511 of the report, 262 I. C. C., the Commission determined that it was just, fair, and reasonable that a uniform classification should be established which should contain 30 classes of property, with numbers corresponding with the following percentages of first-class, namely: Classes 400, 300, 250, 200, 175, 150, 125, 100, 92.5, 85, 77.5, 70, 65, 60, 55, 50, 45, 40, 37.5, 35, 32.5, 30, 27.5, 25, 22.5, 20, 17.5, 16, 14.5, and 13.

The original report of the Commission in Docket No. 28300, and the present proceeding contained three parts. Part I has been mentioned and described. Part II, after finding unjust and unreasonable the existing class rates in the territory involved, found reasonable for the future in connection with the uniform freight classification a uniform distance scale of class rates in the territory roughly east of the eastern boundary of the mountain-Pacific territory. That scale, referred to as the Appendix 10 scale, the Commission provided should be made applicable simultaneously with the uniform classification. Part III of the report found reasonable an interim adjustment within and between the territories known as Southern, Southwestern, Western trunk-line, and Official territories, including Illinois territory. The interim adjustment mentioned became effective after the decision of the District Court of the United States for the Northern District of New York, affirmed by the Supreme Court of the United States, May 12, 1947, New York vs. United States, 331 U. S. 284, to which reference is made for greater particularity as to the interim adjustment. In the meantime, a series of general increases in all freight rates, made in Dockets Nos. Ex Parte 162, 166, and 168, have become effective, and the Commission's reports and orders in those proceedings are hereby noticed officially. The Commission also refers to and notices its First Supplemental Report, 264 I. C. C. 41, in Docket No. 28300 and this proceeding and its Second Supplemental Report in Docket No. 28300 (and another proceeding), 268 I. C. C. 577, which involved matters not considered necessary to be detailed here.

On November 28, 1949, in Docket No. 28300, Class Rate Investigation, 1939, the Commission issued and served its notice of proposed rule making, the scope and purpose of which was a further investigation by the Commission in that proceeding, in order, as stated therein:

1. To revise the basic scale of class rates set forth in Appendix 10 to the original report herein, 262 I. C. C. 447, in order that such scale may conform to the present and prospective requisites of a just, reasonable, and lawful basic scale of class rates to be applied in connection with a uniform freight classification now under preparation in Docket No. 28310; and

2. To determine what, if any, arbitraries should be added to the basic scale of class rates for the benefit of short-line and weak railroads, so-called.

The Commission in the notice referred to tentatively proposed as a substitute for the basic scale of first-class or class 100 rates which had been included in the original report in Class Rate Investigation, 1939, as Appendix 10, 262 I. C. C. at page 766, a new scale designated Appendix A to the notice of proposed rule making. The Commission, with respect to Appendix A, said:

> This proposed scale is subject to any change or changes that may be made therein as a result of this investigation. The scales subordinate to this base first class, or class 100, scale are to be determined by use of the percentages set forth in the original report herein. It should be clearly understood that no party in interest in this proceeding is precluded from proposing and supporting another and different scale from that tentatively proposed herein.

By Appendix C attached to the notice of proposed rule making in Docket No. 28300, the Commission adopted and stated special rules of practice applicable in that proceeding. Provision was made that further evidence be submitted in written form with affidavits attached, with or without exhibits, to be referred to as verified statements. Pursuant to the special rules of practice, evidence-in-chief on behalf of the respondents and other interested parties has been filed with the Commission, and copies have been sent to all parties in Docket No. 28300 who have asked the privilege of receiving the same. The special rules of practice contemplate rebuttal evidence may be filed, and opportunity for objections to receipt of evidence, and for cross-examination of witnesses, will be afforded as directed by the Commission.

The respondents in Docket No. 28310 embrace all the respondents in Docket No. 28300, and numerous other parties have appeared in both proceedings.

Within the time limit prescribed by the notice of proposed rule making of the Commission in No. 28300, the groups of eastern and western railroads filed with the Commission the verified statement of A. H. Greenly, Chairman of the Official Classification Committee, which is made up of railroads within official territory. Attached to that verified statement is a large-sized document consisting of a title page, and Index to Articles (commodities), pages numbered 30 to 132, inclusive, and then in tabular form a compilation which in form and arrangement corresponds to a uniform classification of property, pages numbered 1 to 260, inclusive, containing items numbered 5 to 46,465 (the unit numbers, however, not being in consecutive units.) Each numbered item carries a specific commodity description under a generic heading, a classification rating for less-than-carload quantities, a carload minimum weight, and a classification rating for carloads. It is stated on the title page of the document attached to the verified statement of A. H. Greenly:

> This exhibit shows tentative ratings under consideration by Chairmen of the Western and Official Classification Committees as possible ratings for use in connection with class rates within Western Trunk Line

Territory, within Southwestern Territory and within Official Territory and between those territories, depending on the measure of class rate scales adopted for use within such territories and between those territories and upon other considerations and conditions which justify ratings different from those shown.

As shown by the Commission's 59th Annual Report, pages 29–30, after the railroad respondents in this proceeding gave the Commission assurances of their intention to proceed with the formulation of a uniform classification to be tendered to the Commission, they set up a general committee, consisting of a chairman or a duly authorized member of the official, western, and southern classification committees, instructed to proceed with the task, and also created a committee composed of freight traffic officers to serve as an advisory committee to advise and counsel with and review the work and recommendations of the classification group.

The Commission has conferred frequently with the general committee appointed by the respondents as to principles and procedure, and as to the progress of the work. See the 60th Annual Report of the Commission, page 30; the 61st Annual Report, pages 42 and 43; the 62d Annual Report, page 43; and the 63d Annual Report, page 34. As shown in those reports of the Commission to Congress, the railroads' classification committee mentioned issued various proposals (voluminous and detailed) as to proposed sections of the uniform classification, and they gave extensive and informal and also largely attended public hearings to shippers and public bodies desiring to be heard.

While the exhibit attached to the verified statement of A. H. Greenly filed in this proceeding is stated to be "made available as information only to parties of record in Docket No. 28300 at the suggestion of Division 2 of the Interstate Commerce Commission, and only on behalf of Eastern and Western railroads" and not by the southern railroad respondents, and although the exhibit to the verified statement shows that the data shown in the document appended to A. H. Greenly's verified statement "are not intended as suggestions or representations by any railroad or any group of railroads as to classification ratings appropriate for any traffic," because of certain considerations mentioned, the Commission has examined the exhibit in the light of the standards it set up in its original report in this proceeding, 262 I. C. C. 447, at pages 456–512, inclusive. The Greenly exhibit, although designated as a tentative uniform classification, is set up in form and style appropriate as a response to the findings of the Commission in Part I of the original report, with the exception hereinafter noted. Consideration of the document as a tentative uniform classification will facilitate and will greatly convenience consideration and determination of the issues herein. It is noted that no rules accompany the tentative ratings embraced in the exhibit to the verified statement of A. H. Greenly. To supply this deficiency, the Commission proposes tentatively as rules to govern the application of the classification, rules which are contained in pages 126 to 177, inclusive, of the current Consolidated Freight Classification filed with the Commission by the respondents herein, designated No. 19, effective February 28, 1950, together with subsequent amendments and supplements thereto on file with the Commission.

No party in interest in this proceeding is precluded from proposing or supporting any or another or different rule, practice, or rating, or ratings, commodity description, or carload minimum from those tentatively proposed herein. Such action should be taken by complying with the rules which are hereafter stated in Appendix D.

Written evidence; special rules. Evidence shall be submitted in written form at the times and in the manner provided for in the attached special rules of practice, marked Appendix D.

Notice to parties in interest. Notice to the general public will be given (1) by depositing a copy of this notice and of the verified statement of A. H. Greenly above referred to in the Office of the Secretary of the Commission, for public inspection, and (2) by filing a similar copy of the notice with the Director, Division of the Federal Register, and (3) by serving copies of this notice and Appendix D on the parties of record in this proceeding. The size and volume of the verified statement and exhibit[1] of A. H. Greenly and the fact that a general distribution has been made in the accompanying proceeding, Docket No. 28300, make unnecessary and preclude from necessity additional general distribution to parties of record.

By the Commission.

[SEAL] W. P. BARTEL, *Secretary.*

APPENDIX D—SPECIAL RULES OF PRACTICE APPLICABLE IN DOCKET NO. 28310

In addition to the general rules of practice, the following special rules will govern the further proceedings heretofore outlined and described.

1. *Submission of evidence in written form with affidavit attached.* The Commission desires that all further evidence be submitted in written form with affidavits attached. Exhibits may be attached to the written statements, and such exhibits should conform to the general rules of practice, particularly to Rules 81 to 84, inclusive. All exhibits of a single witness should, so far as practicable, be incorporated in a single exhibit. The written evidence in the form of affidavits, with or without exhibits attached, will be referred to as verified statements, and each verified statement will be assigned a serial number by the Commission.

2. *Evidence-in-chief on behalf of respondents.* Evidence-in-chief of respondents, or those parties in support of respondents, should be submitted in the form of verified statements as provided in paragraph 1. Twenty-five (25) copies of such verified statements, with accompanying exhibit or exhibits attached, should be filed with the Secretary of the Commission on or before October 15, 1950.

3. *Evidence-in-chief on behalf of other parties.* Parties other than respondents will be expected to furnish the Commission with three hundred and twenty-five (325) copies to be sent to the Secretary (for its use and for distribution to interested parties); and to furnish the railroad respondents with seventy-five (75) copies, of which twenty-five (25) copies shall be mailed to each of the three following law committee chairmen: (1) Edwin A. Lucas, Chairman, Eastern Law Committee, Pennsylvania Railroad Company, 1740 Broad Street Station Building, Philadelphia 4, Pa.; (2) H. C. Barron, Counsel, Executive Committee, Western Traffic Association, 310 Union Station, Chicago 6, Ill.; and (3) Frank W. Gwathmey, Chairman, Southern Law Committee, 1110 Shoreham Building, Washington 5, D. C. Such general counsel as those representing the Secretary of Agriculture, the National Association of Railroad and Utilities Commissioners, the Southeastern Association of Railroad and Utilities Commissioners, the National Industrial Traffic League, the Southern Traffic League, the Southern Governors' Freight Rate Conference, the Southwestern Steering Committee, and the New England Governors, may make special requests to the Secretary of the Commission for copies of all verified statements of parties other than respondents. These verified statements should be filed with the Commission on or before October 15, 1950, if desired to be considered as evidence-in-chief. If parties desire to submit only rebuttal or concurring evidence, they may file their verified statements as provided in paragraph 4 hereof.

4. *Rebuttal evidence, concurrences.* Evidence in the nature of rebuttal by any parties must be designated as such, and be filed with the Secretary of the Commission on or before December 1, 1950. Evidence adopting or concurring in the verified statement of any party may be filed and designated as a concurrence on or before December 1, 1950. The presentation and distribution of such evidence will be governed by the rules set forth in paragraphs 1, 2, and 3 hereof.

5. *Evidence open to public inspection.* The evidence filed by all parties will be open to public inspection promptly after the date of filing, at the office of the Commission in Washington, D. C.

6. *Objections to evidence.* Notice of objections to receipt in evidence of any verified statement should be filed with the Secretary of the Commission within 25 days after its filing with the Commission. If the evidence is submitted on behalf of respondents, a copy of the notice of objection should be mailed to each of the Law Committee chairmen above designated; if the evidence is submitted on behalf of any other parties, a copy of the notice of objection should be immediately mailed to the witness or his attorney.

7. *Cross-examination of witnesses.* If cross-examination of a witness is desired by any party, written request therefor must be given to the Secretary of the Commission and to the witness, or his authorized attorney, within 25 days after the filing of the witness' written statement, otherwise cross-examination will be deemed to be waived. The Commission will fix the time and place therefor.

8. *Record.* The evidence presented and admitted pursuant to the provisions of paragraphs 1, 2, 3, and 4 of these special rules, shall be embraced in the entire record in these proceedings upon which decision will be made, subject to such cross-examination of any witness concerning any verified statements as may be requested by any interested party and as ordered by the Commission, unless waived as provided in paragraph 7 hereof.

ALASKA

SMALL TRACT CLASSIFICATION NO. 31

AUGUST 23, 1950.

Pursuant to the authority delegated to me by the Director, Bureau of Land Management by Order No. 319, dated July 19, 1948 (43 CFR 50.451 (b) (3), 13 F. R. 4278), I hereby classify, as hereinafter indicated, under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682 (a)), as amended, the following described public lands in the Fairbanks, Alaska land district:

FOR LEASING AND SALE

For home and cabin sites:

T. 1 S., R. 1 E., Fairbanks Meridian,
Sec. 11: Lots 5 and 6 embracing approximately 51.44 acres.

2. The lands are located approximately seven miles from the town of Fairbanks. All of the lands are situated on the north bank of the Chena River and are accessible by boat from a road which parallels the south bank of the river. The lands lie on the Chena River floodplain and are generally level. Adequate water for domestic purposes can be obtained from wells, and sewage disposal may be made by the use of cesspools. No public utilities are available in the area at the present time. Churches, schools and marketing facilities are available at Fairbanks. The climate is of the extreme continental type of interior Alaska, cold and long winters but the snowfall is not excessive. The summers are short and warm, but the days are long and twilight is continuous during the short nights.

3. Pursuant to § 257.9 of the Code of Federal Regulations (43 CFR Part 257), a preference right to a lease is accorded to those applicants whose applications (a) were regularly filed, under the regulations issued pursuant to the act, prior to this classification, and (b) are of the type of site for which the lands subject thereunder have been classified. As to such applications, this order shall become effective upon the date which it is signed.

4. As to the lands not covered by the applications referred to in paragraph 3, this order shall not become effective to permit the leasing of such land under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on September 12, 1950. At that time such land shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection, as follows:

(a) *Ninety-day period for other preference right filings.* For a period of 90 days from 10:00 a. m. on September 12, 1950 to close of business on December 11, 1950, inclusive, to (1) application under the Small Tract Act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279, 282) as amended, and by other qualified persons entitled to credit for service under the said act,

subject to the requirements of applicable law, and (2) application under any applicable public law, based on prior existing valid statement and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans and by other persons entitled to credit for service shall be subject to claims of the classes described in subdivision (2).

(b) *Advance period for simultaneous preference right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veterans filed on August 23, 1950, or thereafter, up to and including 10:00 a. m. on September 12, 1950, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public land laws.* Commencing at 10:00 a. m. on December 12, 1950, any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under the Small Tract Act by the general public filed on November 22, 1950, or thereafter, up to and including 10:00 a. m. on December 12, 1950, shall be treated as simultaneously filed.

5. A veteran shall accompany his application with a complete photostatic, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claim, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All applications referred to in paragraphs 3 and 4, which shall be filed in the Land Office at Fairbanks, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

7. Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, in the circumstances, are presentable, substantial and appropriate for the use for which the lease is issued. Leases will be for a period of not more than five years, at an annual rental of $5.00 for home and cabin sites, payable in advance for the entire lease period. Leases will contain an option to purchase the tract at or after the expiration of one year from the date the lease is issued, provided the terms and conditions of the lease have been met.

8. All of the land will be leased in tracts varying in size from approximately 3 acres to 5 acres, in accordance with the classification map on file in the Land Office, Fairbanks, Alaska. The tracts where possible are made to conform in description with the rectangular system of survey, in compact units.

9. The leases will be made subject to right-of-way for road purposes and public utilities, of 33 feet in width, on each side of the tracts contiguous to the section and/or quarter section lines, or as shown on the classification maps on file in the Land Office, Fairbanks, Alaska. Such rights-of-way may be utilized by the Federal Government, or the State or Territory, county or municipality, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

10. All inquiries relating to these lands shall be addressed to the Manager, Land Office, Fairbanks, Alaska.

LOWELL M. PUCKETT,
Regional Administrator.

DEPARTMENT OF AGRICULTURE

Forest Service

CHIEF OF FOREST SERVICE

DELEGATION OF AUTHORITY

By virtue of the authority vested in the Secretary of Agriculture, I, Charles F. Brannan, Secretary of Agriculture, do hereby delegate to the Chief of the Forest Service the authority to determine and advise the Director, Bureau of Land Management, whether exploration, development, and utilization of mineral deposits, including oil and gas, under authority of the Secretary of the Interior pursuant to the Mineral Leasing Act for Acquired Lands (61 Stat. 913; 30 U. S. C. 351–359), section 3 of the act of September 1, 1949 (63 Stat. 683; 30 U. S. C. 192c, 1946 ed., Supp. III), and to the provisions of section 402, Reorganization Plan No. 3 of 1946 (11 F. R. 7875, 60 Stat. 1099), on lands under the jurisdiction of the Forest Service will interfere with the primary purposes for which the lands have been acquired or are being administered, and to consent to such exploration, development, and utilization subject to such conditions as the Chief of the Forest Service may prescribe to insure the adequate utilization of the lands for such purposes.

The Chief of the Forest Service may delegate to other officers and employees of the Forest Service such of the authority granted hereunder as he may consider desirable.

This amends the delegation to the Chief of the Forest Service dated January 16, 1948 (13 F. R. 308).

Foreign-Trade Zones Board

[Order No. 23]

TEMPORARY AREA OF FOREIGN-TRADE ZONE 1

ORDER GRANTING APPLICATION OF CITY OF NEW YORK FOR REVISION

In the matter of the application of the city of New York to revise the temporary area of Foreign-Trade Zone No. 1 to include Piers 13, 14, 15, and 16 and adjacent slips and upland, Stapleton, Staten Island, New York.

Pursuant to authority contained in the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998-1003; 19 U. S. C. 81a-81u), the Foreign-Trade Zones Board has adopted the following order which is promulgated for the information and guidance of all concerned:

Under date of May 19, 1950, the city of New York, through its Commissioner of Marine and Aviation, Edw. F. Cavanagh, Jr., duly filed with this Board its application to revise the temporary zone area to include Piers 13, 14, 15, and 16, and adjacent slips and upland, Stapleton, Staten Island, New York.

Accordingly, after full consideration and a finding that the proposal is in the public interest, it is hereby ordered as follows:

1. Permission is granted that Piers 13, 14, 15, and 16, and adjacent slips and upland (including area occupied by Sumatra tobacco warehouse and the administration building), Stapleton, Staten Island, New York, be designated as a suitable site where temporary zone operations shall be carried on.

2. During the present period of partial military occupancy this area will be deemed to be within Foreign-Trade Zone No. 1, provided, that the grantee segregates such area in a manner that will comply with the requirements of the local Collector of Customs, and that following the erection of barriers, etc., revised copies of temporary exhibits Nos. 1, 6, and 10 will be filed with the Board.

3. That part of Order No. 7 (7 F. R. 2074; March 14, 1942) insofar as it pertains to the area occupied by the Sumatra tobacco warehouse in Foreign-Trade Zone No. 1, and Order No. 14 authorizing foreign-trade zone activities on Piers 15 and 16, Stapleton, Long Island, New York (11 F. R. 12588; Oct. 25, 1946), are hereby superseded.

It is found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. No. 404, 79th Cong.) is unnecessary in connection with the issuance of this order because its application is restricted to one foreign-trade zone, and is of a nature that it imposes no burden on parties of interest.

Signed at Washington, D. C., this 25th day of August 1950, the effective date of this order.

[SEAL] CHARLES SAWYER,
Secretary of Commerce, Chairman, Foreign-Trade Zones Board.

Attest:

THOS. E. LYONS,
Executive Secretary.

CLASS RATES, MOUNTAIN-PACIFIC TERRITORY

AUGUST 25, 1950.

The order of investigation in this proceeding was entered and served on November 28, 1949.

Apparently it will be desirable for the Commission to utilize the rule making procedure of the Administrative Procedure Act. It will save time and expense all around for the respondent rail carriers in the affected territory, groups of State commissions, and industrial and commercial groups which have similar interests to make arrangements for the common receipt of copies of verified statements, etc., by designated group representatives who will see to the prompt distribution of such documents to interested parties in their various groups.

Information as to the formation of such groups and arrangements such as suggested should be supplied to the Commission within two weeks from this date.

CLASS RATES, TRANSCONTINENTAL RAIL, 1950

At a general session of the Interstate Commerce Commission, held at its office

in Washington, D. C., on the 17th day of August A. D. 1950.

The Commission upon consideration of the interstate class rates interterritorially applicable between mountain-Pacific territory and the various transcontinental rate groups east of that territory, finds good cause and therefore makes the following order for investigation and hearing:

It is ordered, That a proceeding of investigation and inquiry is hereby instituted by the Commission on its own motion into and concerning the interstate class rates of railroads subject to the Interstate Commerce Act, applicable to transportation in interstate or foreign commerce by railroad, or by water, or partly by railroad and partly by water, by common carriers subject to Part I of the Interstate Commerce Act as defined in section 1 (1)–(3) thereof, as amended (49 U. S. C., sec. 1 (1) to (3) inclusive) and the charges resulting therefrom, interterritorially between mountain-Pacific territory, which for the purposes of this proceeding is defined as comprising all points in the United States lying on and generally westward of the following line: The western boundaries of the States of North Dakota, South Dakota, and Nebraska south to the main line of the Union Pacific Railroad Company, thence along such railway west to Cheyenne, Wyo., thence south on the line of The Colorado and Southern Railway Company and paralleling railroads passing through Denver, Pueblo, and Trinidad, Colo., to the border of the State of New Mexico, thence successively east, south, and west along the latter border to the international boundary, the Rio Grande River, and the remainder of the United States lying east of such mountain-Pacific territory, in order to determine whether such class rates and charges, or any of them, are unjust, unreasonable, unduly prejudicial, unduly preferential, or otherwise unlawful, and to making such findings and orders as may be proper in the premises;

It is further ordered, That such investigation shall extend to all rates determined by ratings in the applicable classification of freight proper, whether such ratings are stated as the regular numbered or lettered classes or as percentages of one of such classes;

It is further ordered, That all common carriers by railroad, or by water, or partly by railroad and partly by water, as defined in section 1 (1) to (3), inclusive, of the Interstate Commerce Act, as amended, and subject to said act, and participating in said transportation be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of the respondents; and that notice hereof be given to the general public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register;

And it is further ordered, That this proceeding be assigned for hearing at such times and places, and be subject to such proceedings under the rule-making provisions of the Administrative Procedure Act, as the Commission may hereafter direct.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2455]

NEW ENGLAND GAS AND ELECTRIC ASSN. AND NEW BEDFORD GAS AND EDISON LIGHT CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 25th day of August A. D. 1950.

Notice is hereby given that a joint application-declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by New England Gas and Electric Association ("Negea"), a registered holding company, and its utility subsidiary, New Bedford Gas and Edison Light Company ("New Bedford"). Applicants-declarants have designated sections 6 (b), 9, 10 and 12 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than September 20, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 20, 1950, said joint application-declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said joint application-declaration, which is on file in the offices of this Commission for a statement of the transactions therein proposed, and which are summarized as follows:

New Bedford proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $3,750,000 principal amount of 25-Year -- Percent Notes, series B, due 1975. The interest rate and the price to the company for the notes will be determined by competitive bidding, except that the invitation for bids will specify that the price to the company shall not be less than 100 percent nor more than 102.75 percent of the principal amount. The proceeds of the sale of the notes will be used to repay a like principal amount of bank notes due December 31, 1952 and any balance of proceeds will be used to partially reimburse New Bedford's Plant Replacement Fund Assets account for expenditures made therefrom to finance additions to its plant and property.

New Bedford also proposes to issue and sell 10,631 additional shares of its $25 par value common stock, at a price of $67.50 per share, to its stockholders pursuant to their preemptive rights. Negea as the holder of approximately 97 percent of the outstanding common stock proposes to purchase its pro rata portion of the additional stock and all shares which are unsubscribed for by other stockholders. The proceeds of the sale of the additional shares of common stock are to be used to partially reimburse New Bedford's Plant Replacement Fund Assets account for expenditures made therefrom to finance additions to its plant and property.

The proposed issuance and sale of bonds and common stock has been approved by the Department of Public Utilities of Massachusetts.

By the Commission.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10158

FURTHER AMENDMENT OF EXECUTIVE ORDER NO. 10084 OF OCTOBER 12, 1949, PRESCRIBING REGULATIONS FOR THE ADMINISTRATION OF CERTAIN PROVISIONS OF THE CAREER COMPENSATION ACT OF 1949

By virtue of and pursuant to the authority vested in me by the Career Compensation Act of 1949, approved October 12, 1949 (Public Law 351, 81st Congress), Executive Order No. 10084 of October 12, 1949, entitled "Prescribing Regulations for the Administration of Certain Provisions of the Career Compensation Act of 1949", as amended by Executive Orders No. 10098 of January 25, 1950, No. 10118 of March 27, 1950, and No. 10136 of June 30, 1950, is hereby further amended as follows:

1. To the extent that such order adopts and prescribes regulations required or authorized to be prescribed by the President under sections 206 and 302 of the Career Compensation Act of 1949, it shall continue in effect until October 31, 1950.

This order shall become effective on September 1, 1950.

PART 701—NATIONAL AGRICULTURAL CONSERVATION PROGRAM

SUBPART—1950

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture under section 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1950 National Agricultural Conservation Program, issued July 21, 1949 (14 F. R. 4627), as amended September 2, 1949 (14 F. R. 5520), December 16, 1949 (14 F. R. 7609), and February 8, 1950 (15 F. R. 791), is further amended as follows:

1. Section 701.103 (b) (1) (i) is amended by adding the following sentence immediately preceding "Maximum assistance":

§ 701.103 *Conservation practices and maximum rates of assistance.* • • •

(b) *Practices to develop cropping systems that protect the soil and restore, improve, and maintain soil productivity*—(1) *Growing adapted green manure or cover crops for soil protection and improvement.* • • •

(i) *Winter annual legumes or annual ryegrass.* • • • Acreages of Austrian Winter peas or lupine seeded in 1950 are not eligible for assistance if harvested for seed.

2. Section 701.103 (h) is amended by inserting the following sentence as the second sentence therein:

(h) *Prior approval.* • • • Prior approval of the county committee is also required for all other practices contained in this section in all States, except Arkansas, Connecticut, Delaware, Florida, Georgia, Iowa, Kentucky, New Jersey, Pennsylvania, Puerto Rico, Tennessee, Virginia, Virgin Islands, and West Virginia. • • •

3. Section 701.108 (a) is amended by deleting the words "designated by the ACP Branch as an area" in the first sentence, and adding the following at the end of the paragraph:

§ 701.108 *General provisions relating to payment*—(a) *Breaking out permanent vegetative cover.* • • •

For the purposes of the 1950 program, the areas subject to serious wind erosion shall include all counties in Kansas, Montana, Nebraska, New Mexico, North Dakota, and Wyoming; Larimer, Boulder, Jefferson, Douglas, Teller, El Paso, Pueblo, Huerfano, and Las Animas Counties, and all counties east thereof, in Colorado; Beaver, Cimarron, Ellis, Harper, Roger Mills, Texas, and Woodward Counties in Oklahoma; Bennett, Brule, Buffalo, Butte, Campbell, Charles Mix, Corson, Custer, Dewey, Edmunds, Fall River, Faulk, Gregory, Haakon, Hand, Harding, Hughes, Hyde, Jackson, Jones, Lawrence, Lyman, McPherson, Meade, Mellette, Pennington, Perkins, Potter, Shannon, Stanley, Sully, Todd, Tripp, Walworth, Washabaugh, and Ziebach Counties in South Dakota; Armstrong, Dallam, Deaf Smith, Hansford,

Hartley, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Potter, and Sherman Counties in Texas.

4. Section 701.108 (h) is amended to read as follows:

(h) *Excess cotton acreage.* Any person who makes application for payment with respect to any farm located in a county in which cotton is planted in 1950 shall file with such application a statement that he has not knowingly planted cotton or caused cotton to be planted during 1950 on land in any farm in which he has an interest in excess of the cotton allotment under section 344 of the Agricultural Adjustment Act of 1938, as amended, for the farm for 1950.

Any person who knowingly plants cotton or causes cotton to be planted on his farm in 1950 in excess of the 1950 cotton acreage allotment for the farm under section 344 of the Agricultural Adjustment Act of 1938, as amended, shall not be eligible for any payment whatsoever on that farm or on any other farm under 1950 programs authorized by sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended. Cotton will not be deemed to have been planted on any farm in excess of the farm acreage allotment if, after the acreage originally planted to cotton has been determined and notice thereof sent to the operator of the farm, the planted acreage is adjusted to the farm acreage allotment in the period allowed under the notice. If the operator is notified that the cotton acreage allotment has been exceeded and the planted acreage is not adjusted to such acreage allotment in the period allowed under the notice, the cotton acreage allotment shall be deemed to have been knowingly exceeded by all producers having an interest in the cotton on the farm. Notice of overplanting mailed to the operator of the farm shall be deemed to be notice to all persons sharing in the production of cotton on the farm.

For the purposes of this paragraph, the acreage planted to cotton will include only acreage planted to upland cotton.

5. Section 701.109 (a) is amended by adding the following at the end thereof:

§ 701.109 *Application for payment*—(a) *Persons eligible to file applications.* • • •

The final date for filing an application for payment is February 28, 1951, in Hawaii, Puerto Rico, and the Virgin Islands; March 15, 1951, in New York; March 31, 1951, in Alaska; April 30, 1951, in New Hampshire, New Jersey, and Rhode Island; May 1, 1951, in Nevada; May 15, 1951, in Florida; June 30, 1951, in Alabama, Arizona, Arkansas, Colorado, Georgia, Idaho, Louisiana, Mississippi, Montana, New Mexico, North Carolina, North Dakota, Pennsylvania, South Carolina, Vermont, Virginia, Washington, and Wyoming; July 1, 1951, in Maine; August 31, 1951, in Minnesota; December 31, 1951, in California, Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Missouri, Nebraska, Ohio, Oklahoma, Oregon, South Dakota, Tennessee, Texas, Utah, West Virginia, and Wisconsin. In those States for which the final date for filing an application for payment is earlier than December 31, 1951, the State committee may extend the final date to a date not later than December 31, 1951, when failure to file the application was due to conditions over which the farmer had no control.

PART 702—SPECIAL AGRICULTURAL CONSERVATION PROGRAM

SUBPART—1950—PUERTO RICO

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1950 Special Agricultural Conservation Program for Puerto Rico, issued December 28, 1949 (14 F. R. 7870), as amended May 12, 1950 (15 F. R. 2923), is further amended as follows:

1. Section 702.34 is amended by revising "Maximum assistance" to read as follows:

§ 702.34 *Practice 24: Applying to coffee trees fertilizer of grades approved for coffee by the Insular Department of Agriculture.* • • •

Maximum assistance. (a) For fertilizer delivered prior to May 1, 1950, 80 percent of cost f. o. b. mixing plant for the grade of material used.

(b) For fertilizer delivered on and subsequent to May 1, 1950, 80 percent of the fair price for the grade of material used, as determined by the State office.

2. Section 702.53 is amended to read as follows:

§ 702.53 *Excess cotton acreage.* (a) Any person who knowingly plants cotton or causes cotton to be planted on his farm in 1950 in excess of the 1950 cotton acreage allotment for the farm under section 344 of the Agricultural Adjustment Act of 1938, as amended, shall not be eligible for any payment whatsoever on that farm or on any other farm under 1950 programs authorized by sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended. Cotton will not be deemed to have been planted on any farm in excess of the farm acreage allotment if, after the acreage originally planted to cotton has been determined and notice thereof sent to the operator of the farm, the planted acreage is adjusted to the farm acreage allotment in the period allowed under the notice. If the operator is notified that the cotton acreage allotment has been exceeded and the planted acreage is not adjusted to such acreage allotment in the period allowed under the notice, the cotton acreage allotment shall be deemed to have been knowingly exceeded by all producers having an interest in the cotton on the farm. Notice of overplanting mailed to the operator of the farm shall be deemed to be notice to all persons sharing in the production of cotton on the farm.

(b) For the purposes of this section, the acreage planted to cotton will include only acreage planted to upland cotton.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

INDEPENDENT DIRECTORY CORP. ET AL.

Subpart—*Misrepresenting oneself and goods—Business status, advantages or connections:* § 3.1440 *Identity.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.2080 *Terms and conditions.* Subpart—*Securing orders falsely or misleadingly:* § 3.2180 *Securing orders falsely or misleadingly.* Subpart—*Securing signatures wrongfully:* § 3.2175 *Securing signatures wrongfully.* In connection with the offering for sale, sale or distribution in commerce, of advertising in telephone, industrial, commercial or other directories or registers, or in any other publication, using in the solicitation of such advertising by mail, advertisements which have been physically clipped or removed by or for the respondents from any publication issued by others than the respondents; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45)

In the Matter of Independent Directory Corporation, an Illinois Corporation; Independent Directory Corporation, a New York Corporation; New Jersey Directory Corporation, a Corporation; William Oleck Advertising Corporation, a Corporation; and William Oleck, David Oleck and Maury Oleck, Individually and as Officers of the Aforesaid Corporations

This proceeding having been heard by the Federal Trade Commission upon the amended complaint of the Commission, the respondents' answers thereto, testimony and other evidence in support of and in opposition to the allegations of the complaint introduced before trial examiners of the Commission theretofore duly designated by it, the trial examiner's recommended decision and exceptions thereto, and briefs and oral argument of counsel; and the Commission, having disposed of the exceptions to the trial examiner's recommended decision and having made its findings as to the facts and its conclusion that the respondents, Independent Directory Corporation, of New York, Independent Directory Corporation, of Illinois, William Oleck and Maury Oleck, have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, Independent Directory Corporation, a New York corporation, and Independent Directory Corporation, an Illinois corporation, and their officers, and the respondents, William Oleck and Maury Oleck, and said respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of advertising in telephone, industrial, commercial, or other directories or registers, or in any other publication, do forthwith cease and desist from using in the solicitation of such advertising by mail, advertisements which have been physically clipped or removed by or for the respondents from any publication issued by others than the respondents.

It is further ordered, For reasons appearing in the Commission's findings as to the facts in this proceeding, that the complaint herein be, and it hereby is, dismissed as to the respondents, New Jersey Directory Corporation, William Oleck Advertising Corporation, and David Oleck, said dismissal being without prejudice, however, to the right of the Commission to institute a new proceeding against these respondents or to take such further or other action against them at any time in the future as may be warranted by the then existing circumstances.

It is further ordered, That the respondents, Independent Directory Corporation, a New York corporation, Independent Directory Corporation, an Illinois corporation, William Oleck and Maury Oleck, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the man-

ner and form in which they have complied with this order.

NOTE: Opinion of the Commission by Commissioner Carson and dissenting opinion of Commissioner Mason are filed as a part of the original document.

By the Commission, Commissioner Mason dissenting.

Issued: July 19, 1950.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 34—CLASSIFICATION AND RATES OF POSTAGE

POSTAGE RATES FOR AIR PARCEL POST

Whereas, the Postmaster General, under authority of section 1 (11), 62 Stat. 1097; 39 U. S. C. 475, is authorized and directed, for a period ending September 1, 1950, to adjust from time to time the weight limit, size, rate of postage, zone or zones or conditions, or either, applicable to air parcel post "in order to promote the service to the public and assure the receipt of revenue from such service adequate to pay the cost thereof"; and

Whereas, it is impracticable to comply with the notice and procedure requirements of section 4 of the Administrative Procedure Act;

It is hereby ordered that § 34.88 *Postage rates for air parcel post* (39 CFR), be amended as follows:

1. In paragraph (a) strike out subparagraphs (1) to (8), inclusive, and insert in lieu thereof a note to read as follows:

NOTE: See subparagraph (4) of paragraph (b) for the rates of postage established by the Postmaster General pursuant to authority contained in sec. 1 (11), 62 Stat. 1097; 39 U. S. C. 475.

2. In paragraph (b) strike out subparagraph (10) and amend subparagraphs (1), (2), (4), (5), (8), and (9) to read as follows:

(b) *Regulations*—(1) *Conditions.* The zone rates prescribed for parcels carried by air (including other transportation to and from air-mail routes) shall apply to mailable matter of any class weighing over 8 ounces but not more than 70 pounds nor exceeding 100 inches in length and girth combined, including written and other matter of the first class, whether sealed or unsealed.

(2) *Domestic.* The rate of 6 cents an ounce or fraction of an ounce will apply to all domestic air mail weighing up to and including 8 ounces, regardless of distance or zone; the zone rates prescribed by this section will apply to such mail weighing over 8 ounces, fractions of a pound being charged as a full pound.

(4) *Rate table.* The zone rates for parcels carried by air are shown in the following table:

AIR PARCEL-POST ZONE RATES

Zones	First pound over 8 ounces	Additional pounds
	Cents	*Cents*
1, 2, and 3	60	48
4	65	50
5	70	56
6	75	64
7	75	72
8	80	80

(5) *Army Post Offices, Fleet Post Offices, Territories, and Possessions.* The rate of 80 cents for the first pound (over 8 ounces to 1 pound) and 80 cents for each additional pound or fraction thereof shall be charged on parcels transported by air as follows:

(i) Between any point in continental United States and any point in its Territories and possessions falling in the eighth delivery zone, namely, Hawaii, Alaska, Guam, etc.

(ii) Between or within Territories and possessions of the United States where the eighth zone is applicable.

(iii) Between continental United States or its Territories and possessions and the Canal Zone.

(iv) Between United States or its Territories and possessions and overseas A. P. O.'s and Fleet Post Offices, as well as naval vessels and commands afloat addressed in care of Fleet Post Offices, New York, N. Y., or San Francisco, Calif.

(v) Between United States or its Territories and possessions and United States naval vessels station in foreign waters if foreign port is used as part of address.

Parcels weighing less than 10 pounds but exceeding 84 inches in length and girth combined shall be subject to the 10-pound rate.

(8) *Forwarding or return.* Air parcel post undeliverable as addressed is subject to forwarding and return postage. If it bears pledge to pay such postage without instructions as to whether by air or surface, it shall be sent by air, properly rated up. If sender requests forwarding or return by surface, it shall be rated and transmitted accordingly. This also applies to registered, insured, and c. o. d. matter sent via air parcel post, which is accepted with the understanding that forwarding and return postage is guaranteed. In case of other than registered, insured, and c. o. d. matter, if air parcels bear no pledge to pay forwarding or return postage, they should be held and sender notified with information as to amount required for both surface and air transportation.

(9) *Domestic registered, insured, and c. o. d.* Domestic registered, insured, and c. o. d. mail may be sent by air parcel post upon payment of the prescribed fees, which are in addition to the air zone postage, and surcharges when required on registered mail. All domestic registered mail sent by air parcel post must be securely sealed and postage must be prepaid thereon at the zone rates. First-class matter sent c. o. d. by air parcel post must also be sealed and be prepaid at the zone rates. Indemnity for insured mail sent at the air zone rates will be payable only for fourth-class matter. All domestic registered, insured, and c. o. d. mail prepaid at the air parcel post rates will be accepted with the understanding that the senders guarantee any return or forwarding postage which may be necessary.

The foregoing changes shall become effective November 1, 1950.

(Sec. 1 (11), 62 Stat. 1097; 39 U. S. C. 475)

TITLE 43—PUBLIC LANDS: INTERIOR

Subtitle A—Office of the Secretary of the Interior

PART 5—FILMING OF MOTION PICTURES

ISSUANCE OF PERMIT; REPORT BY FIELD OFFICIALS

1. Paragraph (f) of § 5.5, entitled *Issuance of permit*, is amended to read as follows:

(f) The permittee, upon the request of the Secretary of the Interior, shall furnish to the Division of Information, Department of the Interior, Washington, D. C., for administrative use a 16 mm. print on acetate film of the footage taken pursuant to the permission granted hereunder.

2. Section 5.7, entitled *Report by field officials*, is amended to read as follows:

§ 5.7 *Report by field officials.* Every field official granting a permit shall, upon the conclusion of filming operations, report to the head of his bureau or office for transmittal through channels to the Secretary of the Interior, if in his judgment a print of the film footage should be requested for administrative use in accordance with § 5.5. The report shall be sufficiently descriptive to enable the Secretary to determine whether a print should be requested. No report will be required in other cases.

IMPORTATION INTO UNITED STATES

Section 308.15 of FLC Regulation 8, as amended (Departmental Regulations 108.93, 108.100; 14 F. R. 5201, 15 F. R. 845), is hereby amended further by adding the following paragraph:

§ 308.15 *Importations into the United States.* * * *

For the purpose of this section, a complete and usable part of another article from which it has been detached shall not be considered as in other than the "same or substantially the same form in which it was exported from the United States" merely because it has been detached, and is imported separately, from the article of which it was a part. In any case of doubt, the question whether an article is "in the same or substantially the same form in which it was exported from the United States" shall be referred to the Secretary of Commerce, or a representative designated by him, for decision.

This order shall become effective upon publication in the FEDERAL REGISTER.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 9—AERONAUTICAL SERVICES

FREQUENCIES AVAILABLE

At the meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of August 1950;

The Commission having under consideration the above-captioned matter in order to postpone the effective date for full implementation of the VHF program; and

It appearing, that footnote 4, § 9.321 (b) presently requires that the full implementation of the VHF program be accomplished by July 1, 1950; and

It further appearing, that the above date could not be met by the air carrier aircraft stations due to equipment procurement difficulties; and

It further appearing, that studies continue to be conducted with a view to recommending a firm date for the full implementation of the VHF program; and

It further appearing, that since a further delay in the postponement of the effective date of footnote 4, § 9.321 (b) is undesirable, it is impracticable to resort to the proposed rule making procedure of section 4 of the Administrative Procedure Act; and

It further appearing, that, since the proposed amendment involves a relaxation of existing requirements and, in addition, for the reason set forth in the preceding paragraph, this order may be made effective immediately; and

It further appearing that the public interest, convenience and necessity will be served by the amendment herein ordered, and that the authority therefor is contained in sections 4 (i), 303 (c) and (r) of the Communications Act of 1934, as amended.

It is ordered, That effective immediately, footnote 4, § 9.321 (b) of the Commission's rules and regulations governing the aeronautical services is amended to read as follows:

'Until further notice by the Commission, the VHF airdrome traffic control frequencies are also available to air carrier aircraft for simplex operation.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 303, 307, 48 Stat. 1082, 1083, as amended; 47 U. S. C. 303, 307)

[Docket No. 9612]

PART 9—AERONAUTICAL SERVICES

MISCELLANEOUS AMENDMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of August 1950;

The Commission having under consideration the above captioned matter which proposes to amend Part 9 of its rules and regulations governing aeronautical services in order to reflect current aviation policy and practice; and

It appearing, that in accordance with the requirements of section 4 (a) of the Administrative Procedure Act, a notice of proposed rule making was duly published in the FEDERAL REGISTER, on April 19, 1950, at page 2200, which notice proposed the aforementioned amendments and new sections of the Commission's rules and regulations governing aeronautical services, as well as an addition of footnote 3 (a) to § 9.312 (h); and

It further appearing, that the period in which interested persons were afforded an opportunity to submit comments has expired, and several comments were received and considered; one expressing an unqualified approval of the proposal; others, particularly directed to §§ 9.321 (e), 9.411 (d) and 9.412 (b), urging modification thereof in the particulars set forth below under (1) and (2) of the third further appearing clause hereof; and

It further appearing, that on May 31, 1950, the Commission adopted an order, effective that day, finalizing the proposed amendment to § 9.312 (h); and

It further appearing, that in addition to the rule amendment heretofore set forth in the notice of proposed rule making, the rule amendment herein ordered provides for the following three minor changes:

(1) Deleting reference to the frequency 3117.5 kc. from § 8.321 (e) in view of the present plan of the Civil Aeronautics Administration to discontinue watch on 3117.5 kc. at all communication stations and towers where this frequency has been in use;

(2) Permitting an exception to the provision of §§ 9.411 (d) and 9.412 (b) which would require all airdrome control stations to maintain a continuous listening watch during its hours of operation and be capable of transmitting on the emergency frequency 121.5 Mc by September 1, 1950, when a showing is made that such a service would not be required for the preservation of life and property in the air; and

(3) Changing the above-mentioned September 1, 1950, date to October 1, 1950, so as to achieve conformity with the effective date of this order; and

It further appearing, that the aforesaid changes in §§ 9.321 (e), 9.411 (d), and 9.412 (b) are minor in nature and, accordingly, compliance with the proposed rule making procedure of section 4 of the Administrative Procedure Act is unnecessary; and

It further appearing, that the public interest, convenience, and necessity will be served by the amendments herein ordered, and that authority therefor is contained in sections 4 (i), 303 (a), (b), (c), (f) and (r) of the Communications Act of 1934, as amended;

It is ordered, That effective October 1, 1950, Part 9 of the Commission's rules is amended, without further proceedings, in the particulars set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply secs. 303, 307, 48 Stat. 1082, 1083, as amended; 47 U. S. C. 303, 307)

Released: August 24, 1950.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE, *Secretary.*

1. The following paragraph is added to § 9.4:

(e) *Operational fixed station.* A fixed station not open to public correspondence operated by and for the sole use of those agencies operating their own radiocommunication facilities in the Public Safety, Industrial, Land Transportation, Marine, or Aviation Services.

2. Section 9.321 (e) is amended to read as follows:

(e) 3105 kc.: Available to air carrier aircraft only where service on the appropriate very high frequency is not available or where service is suspended due to equipment failure.

3. Section 9.411 (d) is amended to read as follows:

(d) 121.5 Mc.: This frequency is a universal simplex channel for emergency and distress communications and service on this frequency shall be provided by all airdrome control stations, on or before October 1, 1950: *Provided however*, That upon application therefor the Commission may exempt any station from this requirement when a showing is made that such service is not required in the preservation of life and property in the air.

4. Section 9.412 (b) is amended to read as follows:

(b) The licensee of an airdrome control station shall without discrimination provide service for any and all aircraft. Such licensee shall maintain a continuous listening watch during its hours of operation on the aircraft calling and working frequencies as follows: 3105 kc.; 122.5, 122.7 or 122.9 Mc. (until further notice watch on 122.5 Mc. only); and after October 1, 1950 on the emergency frequency 121.5 Mc.: *Provided however*, That upon application therefor the Commission may exempt any station from the emergency frequency watch requirement when a showing is made that such service is not required in the preservation of life and property in the air.

5. A new subpart entitled Operational Fixed Stations containing §§ 9.446 and 9.447 is added as follows:

OPERATIONAL FIXED STATIONS

§ 9.446 *Service authorized.* Operational fixed stations in the aeronautical fixed service are authorized primarily for link or control circuits.

§ 9.447 *Frequencies available.* Operational fixed stations in the aeronautical fixed service will share the frequency bands allocated to operational fixed stations with other services as follows:

(a) Four frequencies in the band 72–76 Mc. in any area are available to operational fixed stations in the aeronautical fixed service on the condition that harmful interference will not be caused to the reception of television stations on channels 4 or 5 and provided that adequate land line facilities are not available.

(b) Band 952–960 Mc.
(c) Band 1850–1990 Mc.
(d) Band 2110–2200 Mc.
(e) Band 2500–2700 Mc.
(f) Band 6575–6875 Mc.
(g) Band 12200–12700 Mc.

(h) In filing an application for an operational fixed station in the aeronautical fixed service, the applicant may leave blank section 16 (1) of FCC Form 401, since it will be necessary for the Commission to determine the specific frequency being assigned.

[Docket No. 9624]

PART 10—PUBLIC SAFETY RADIO SERVICES

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of August 1950;

The Commission having under consideration the notice of proposed rule making in the above-entitled matter to correct certain typographical and clerical errors in the original text, clarify some of the requirements, and to amend §§ 10.106 and 10.255 to provide that in addition to frequencies previously available for high power operation in the Police Radio Service stations operating on frequencies in the band 42–46 Mc. may employ maximum plate input power not in excess of 10,000 watts, and further amendment of § 10.255 to permit use of the frequency 7805 kc. for fixed daytime police operation in Alaska with A3 emission.

It appearing, that in accordance with the requirements of section 4 (a) of the Administrative Procedure Act, general notice of proposed rule making in the above-entitled matter which made provision for the submission of comments of interested parties was duly published in the FEDERAL REGISTER on April 28, 1950, and that the period for filing comments has expired;

It further appearing, that comments filed by interested parties were favorable to adoption of all of the amendments proposed except § 10.152 relating to station identification and that part of § 10.255 which relates to assignment of the frequency 7805 kc. for use of fixed police radio stations operating with A3 emission in Alaska;

It further appearing, that §§ 10.152 and 10.255 have now been revised to meet these objections, and that although the proposed change of § 10.255 makes the substitute frequency 7480 kc. available for fixed police operation with A3 emission in Alaska, existing licensees are not expected to be adversely affected by such change and because of the present national emergency relating to military operations in Korea further rule-making procedures with respect to this matter would be impracticable and contrary to the public interest:

It is ordered, That effective October 2, 1950, Part 10 be amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply secs. 301, 303, 48 Stat. 1081, 1082, as amended; 47 U. S. C. 301, 303)

Released: August 24, 1950.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. In §§ 10.255 (g), 10.305 (f), 10.355 (d), 10.405 (e), and 10.455 (e) change the band 16,600 to 18,000 to read "16,000 to 18,000 with limitations 1, 2."

2. In § 10.355 (d) delete limitation notes 7, 9 and 10, on the frequency 31.02 Mc.

3. In § 10.65 change paragraph (c) to read as follows:

(c) Requests for changes outlined in paragraph (b) of this section shall be submitted to the Commission on FCC Form 401a, in quadruplicate. Each copy shall be accompanied by a sketch showing the proposed change in the antenna or antenna supporting structure. If the antenna or antenna supporting structure is marked, a description of the marking shall be furnished.

4. In § 10.105 redesignate paragraph (d) as paragraph (c) and change to read as follows:

(c) Each transmitter first authorized or installed after July 1, 1950, shall be provided with a device which will automatically prevent modulation in excess of that specified in paragraphs (a) and (b) of this section which may be caused by greater than normal audio level: *Provided, however*, That this requirement shall not be applicable to transmitters authorized to operate as mobile stations with a maximum plate power input to the final radio frequency stage of 3 watts or less.

5. In § 10.107 change paragraph (c) to read as follows:

(c) Each station which is not authorized for unattended operation shall be provided with a control point, the location of which will be specified in the license. Unattended stations may be provided with a control point if authorized by the Commission. In urban areas the location will be specified "same as transmitter" unless the control point is at a street address different from that of the transmitter. In rural areas the location will be specified "same as transmitter" unless the control point is more than 500 feet from the transmitter, in which case the approximate location will be specified in distance and direction from the transmitter in terms of feet and geographical quadrant, respectively. It will be assumed that the location of the control point is the same as the location of the transmitter unless the application includes a request for a different location described in appropriate terms as indicated in this paragraph. Authority must be obtained from the Commission for the installation of additional control points.

6. Change § 10.109 to read as follows:

§ 10.109 *Radio station tests.* (a) After a station of any type has been licensed, tests may be conducted as required for proper station and system maintenance, but such tests shall be kept to a minimum and precautions shall be taken to avoid interference to other stations.

(b) Except as indicated in paragraph (c) of this section, when construction or installation of any radio transmitting apparatus has been completed, in accordance with the terms of a construction permit and the applicable rules of the Commission, the permittee shall proceed further as follows:

(1) Notify the Engineer-in-Charge of the local Radio District of the date on which the transmitter will first be tested in such manner as to produce radiation, giving name of the permittee, station location, call sign, and frequencies on which tests are to be conducted. This notification shall be made in writing at least two days in advance of the test date.

(2) After testing, but on or before the date when the station is first used for operational purposes, mail to the Commission in Washington an application on FCC Form 403 for license or modification of license, as appropriate in the particular case. The station may thereafter be used as though licensed, pending Commission action on the license application.

(c) When either a construction permit, or a construction permit and modified license, authorizes only the addition of mobile units to a licensed station, the notification indicated in paragraph (b) (1) of this section need not be made.

(d) When a new mobile station is authorized by the simultaneous issuance of a construction permit and license, as provided in Subpart B, the licensee shall immediately notify the Engineer-in-Charge of the local Radio District in writing that such an authorization has been received. This notification shall include the name and address of the licensee, the assigned call signal, the authorized frequencies, and the general area of operation.

7. In § 10.105 delete existing paragraph (a). Redesignate existing paragraphs (b), (c), and (d) as (a), (b), and (c), respectively.

8. Change § 10.152 to read as follows:

§ 10.152 *Station identification.* (a) The required identification for stations in these services shall be the assigned call signal.

(b) Nothing in this section shall be construed as prohibiting the transmission of additional station or unit identifiers which may be necessary for systems operation: *Provided, however*, Such additional identifiers shall not be composed of letters or letters and digits arranged in a manner which could be confused with an assigned radio station call signal.

(c) Except as indicated in paragraphs (d), (e), and (f) of this section, each station in these services shall transmit the required identification at the end of each transmission or exchange of transmissions, or once each thirty minutes of the operating period, as the licensee may prefer.

(d) A mobile station authorized to the licensee of the associated base station and which transmits only on the transmitting frequency of the associated base station is not required to transmit any identification.

(e) A mobile station which is either separately licensed to a different licensee, transmits on any frequency other than the transmitting frequency of the associated base station, or which has no associated base station shall transmit the required identification at the end of each transmission or exchange of transmissions, or once each thirty minutes of the operating period, as the licensee may prefer. Where election is made to transmit the required identification at thirty-minute intervals, a single mobile unit in each general geographic area may be assigned the responsibility for such transmission and thereby eliminate any necessity for every unit of the mobile station to transmit the required identification. For the purpose of this paragraph, the term "each general geographic area" means an area not smaller than a single city or county and not larger than a single district of a State where the district is administratively established for the service in which the radio system operates.

(f) Stations which are entirely automatic in their operation will be considered for exemption from the requirements of paragraph (c) of this section.

9. In § 10.157 change paragraph (b) to read as follows:

(b) The current authorization for each base or fixed station at a fixed location shall be posted at the principal control point of that station. At all other control points listed on the station authorization, a photocopy of the authorization shall be posted. In addition, an executed transmitter Identification Card (FCC Form 452–C) shall be affixed to each transmitter operated at a fixed location, when such transmitter is not in view of, and readily accessible to, the operator at the principal control position.

10. In § 10.157 add new paragraph (c) to read as follows:

(c) The current authorization for each base or fixed station authorized to operate at temporary locations, shall be either posted at the control point of the station or retained in an envelope or other container affixed to the transmitting apparatus, either inside or outside of the transmitter cabinet.

11. In § 10.104 (c) (2) change table to read as follows:

Maximum authorized plate power input to the final radio frequency stage:	Attenuation (db)
3 watts or less	40
Over 3 watts and including 25 watts	50
Over 25 watts and including 150 watts	60
Over 150 watts and including 600 watts	70
Over 600 watts	80

12. In § 10.106 change paragraph (b) to read as follows:

(b) Except where the maximum power that may be used on a particular frequency is specifically designated in connection with the use of such frequency, plate power input to the final radio frequency stage in excess of the following tabulation will not be authorized:

Frequency range:	Maximum plate power input to the final radio frequency stage (watts)
1.8 to 3 Mc	2,000
3 to 25 Mc	1,000
25 to 100 Mc	500
100 to 450 Mc	600
Above 450 Mc	(1)

[1] In accordance with developmental authorization.

13. In § 10.255 (g) add limitation 13 to the following frequencies: 1610, 1618, 1626, 1634, 1642, 1650, 1658, 1666, 1674, 1682, 1690, 1698, 1706, 1714, 1722, 1730, and 2490 kc; 42.02, 42.06, 42.10, 42.14, 42.34, 42.38, 42.42, 42.46, 42.50, 42.54, 42.58, 42.62, 42.82, 42.86, 42.90, 42.94, 44.62, 44.66, 44.70, 44.74, 44.94, 44.98, 45.02, and 45.06 Mc.

14. In § 10.255 (h) add subparagraph 13 to read as follows:

(13) Subject to the restrictions contained in paragraph (a) of § 10.106, base stations operating on this frequency and rendering service to state police mobile units may be authorized to use a maximum plate input power to the final radio frequency stage in excess of the maximum indicated in paragraph (b) of § 10.106 but, not in excess of 10,000 watts: *Provided*, That such operation will cause no harmful interference to the service of other stations.

15. In § 10.255 (g) add limitation 14 to the frequency 7480 kc.

16. In § 10.255 (h) add subparagraph 14 to read as follows:

(14) This frequency may be assigned to fixed stations in the Police Radio Service in Alaska for point to point radiotelephone communication, using type A3 emission and a maximum plate input power of 1000 watts to the final radio frequency stage of the transmitter.

POST OFFICE DEPARTMENT

POULTRY AND POULTRY EGGS

IMPORTATION TO CANADA PROHIBITED

The Canadian Department of Agriculture now prohibits the importation into that country of poultry and poultry eggs. This action on the part of the Canadian authorities is stated to be necessary as a means of combating the further introduction of Newcastle Disease, a serious outbreak of which has occurred in that country.

The term "poultry" refers to chickens, turkeys, pigeons, geese, ducks or other barnyard fowl or other birds raised under domestic conditions, and includes day-old fowl normally accepted in the mails to Canada.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C. on the 23d day of August 1950;

The Commission, having under consideration the above-entitled applications of miscellaneous common carriers for authorizations in the Domestic Public Land Mobile Radio Service in the vicinity of New York City, New York;

It appearing, that the number of applicants for such facilities in this area exceeds the number of frequencies available for this area; and

It further appearing, that, in accordance with the Commission's Report and Order in Dockets Nos. 8658, et al., dated April 27, 1949, and § 6.409 of the Commission's rules governing public radiocommunication services (other than maritime mobile), each frequency available for assignment in the Domestic Public Land Mobile Radio Service is normally assigned exclusively to a single applicant in any service area, in order to permit the rendition of service on an interference-free basis; and

It further appearing, that the above-entitled applications request authorizations in overlapping service areas and that a grant of such applications might result in harmful mutual interference;

It is ordered, That, pursuant to the provisions of section 309 (a) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at Washington, D. C., on a date to be hereafter specified, upon the following issues:

1. To determine the legal, technical, and financial qualifications of each of the above-entitled applicants to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to receive service from any proposed station and the need for such service in the area proposed to be served.

3. To determine whether co-channel operations are feasible between any of the communities involved in this proceeding.

4. To determine whether and to what extent adjacent channel operations may be feasible.

5. To determine the extent and degree of mutual interference which would be caused by operation of the proposed stations.

6. To determine the facts with respect to the existing and proposed facilities, personnel, rates, regulations, practices and services of each applicant for the furnishing of Domestic Public Land Mobile Radio Service.

7. To determine, in the light of the evidence on the foregoing issues, which applicants are best qualified to serve the public interest, convenience or necessity.

8. To determine, on a comparative basis, which, if any, of the applications in this consolidated proceeding, should be granted.

BELEN BROADCASTING CORP. (KENE)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Belen Broadcasting Corporation (KENE), Belen, New Mexico; Docket No. 9776, File No. BL-3709; for license to cover construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of August 1950;

The Commission having under consideration the above entitled application for license to cover the construction permit of station KENE, Belen, New Mexico; and not being satisfied that it is in possession of full information as is required by the Communications Act of 1934, as amended, and acting pursuant to sections 309 (a) and 319 (b) of the act;

It is ordered, That the above entitled application be designated for hearing to be held at 10:00 a. m., Tuesday, November 14, 1950, at Belen, New Mexico, on the following issues:

1. To determine whether all transfers of stock in the permittee corporation have been reported in accordance with §§ 1.321, 1.342 and 1.343 of the Commission's rules and regulations.

2. To determine whether the construction permit for station KENE, or the rights and responsibilities incident thereto, have been transferred or assigned, directly or indirectly, in contravention of section 319 (b) of the Communications Act of 1934, as amended, and whether, in the event of such unauthorized transfer, the station has been operated in contravention of section 301 of the Communications Act of 1934, as amended.

3. To determine whether the permittee corporation is legally, technically, financially, and otherwise qualified to operate station KENE, and, more particularly, to determine the qualifications of Donald H. Crandal, Executive Vice-President and Chairman of the permittee's Board of Directors, in view of his alleged conviction, on February 10, 1950, on charges of entering false claims against the United States Government.

WXLT AND KFMA

ORDER DESIGNATING REVOCATION OF LICENSES FOR CONSOLIDATED HEARING

In the matter of Revocation of license of station WXLT, Ely, Minnesota, Docket No. 9684, and Revocation of permit of station KFMA, Davenport, Iowa, Docket No. 9709.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of August 1950;

The Commission having under consideration an application filed on June 28, 1950, by L. W. Andrews, Inc., permittee of station KFMA, requesting a hearing under the authority of section 312 (a) of the Communications Act of 1934, as amended, upon the Commission's order of revocation adopted with respect to station KFMA on June 21, 1950;

It appearing, that the Commission on May 23, 1950, revoked the license of station WXLT, held by the Ely Broadcasting Company, and on July 6, 1950, granted the request of the Ely Broadcasting Company for hearing on the matter; and

It further appearing, that both of the above entitled proceedings arose from the same fact situation, and that it would, therefore, conduce to the prompt dispatch of the Commission's business, and would serve the public interest, to consolidate the two above entitled proceedings; and

It further appearing, that the hearing on the revocation order as to station WXLT was scheduled to be held in Ely, Minnesota, on September 27, 1950, and that now, in view of the consolidation of the two proceedings, it would better serve the convenience of all the parties concerned, and would conduce to the prompt dispatch of Commission business, to hold such hearing in St. Paul, Minnesota;

It is ordered, That pursuant to section 312 (a) of the Communications Act of 1934, as amended, the above entitled revocation hearings as to stations WXLT and KFMA be designated for hearing in a consolidated proceeding on the following issues:

(A) As to station WXLT: On all matters pertinent to the Commission's Order of Revocation, dated May 23, 1950, and on the further issue relating to the legal sufficiency of the application for hearing filed by the Ely Broadcasting Company, as set out in the Commission's order of July 6, 1950, designating the WXLT matter for hearing; and

(B) As to station KFMA: On all matters pertinent to the Commission's Order of Revocation, dated June 21, 1950;

It is further ordered, That the said consolidated hearing shall be held commencing at 10:00 a. m., September 27, 1950, at St. Paul, Minnesota, before George E. Sterling, presiding Commissioner.

VERMILLION BROADCASTING CORP.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Vermillion Broadcasting Corporation, Danville, Illinois, Docket No. 9496, File No. BP-7114; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of August 1950;

The Commission having under consideration the above-entitled application of Vermillion Broadcasting Corporation requesting a construction permit for a new standard broadcast station to operate on 980 kc, with 1 kw power, unlimited time, using a directional antenna, at Danville, Illinois;

It appearing, that the applicant is legally, technically, and financially qualified to operate the proposed station, but that the application may involve interference with one or more existing stations;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on February 5, 1951, at Washington, D. C., upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the character of other broadcast service available to such areas and populations.

2. To determine whether the operation of the proposed station would involve objectionable interference with Stations KMBC, Kansas City, Missouri, WSIX, Nashville, Tennessee, WONE, Dayton, Ohio, WCFL, Chicago, Illinois, or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

4. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That Midland Broadcasting Company, licensee of KMBC, Kansas City, Missouri, Jack M. Draughon and Louis R. Draughon, d/b as WSIX Broadcasting Station, licensee of WSIX, Nashville, Tennessee, Skyland Broadcasting Corporation, licensee of WONE, Dayton, Ohio, and Chicago Federation of Labor, licensee of WCFL, Chicago, Illinois, are hereby made parties to this proceeding.

SCRANTON RADIO CORP.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Scranton Radio Corporation, Scranton, Pennsylvania, Docket No. 9640, File No. BP-7184; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of August 1950;

The Commission having under consideration the above-entitled application of Scranton Radio Corporation requesting a construction permit for a new standard broadcast station to operate on 1400 kc, with 250 w power, unlimited time, at Scranton, Pennsylvania;

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate the proposed station, except as to matter covered by Issue No. 1, below, but that the proposed station may involve interference with one or more existing stations and otherwise not comply with the Standards of Good Engineering Practice, particularly with reference to coverage of the city of Scranton and the Scranton - Wilkes - Barre metropolitan area;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application is designated for hearing commencing at 10:00 a. m. on February 6, 1951, at Washington, D. C., upon the following issues:

1. To determine the citizenship of Michael Augustyn, a stockholder and director in the applicant corporation.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the character of other broadcast service available to such areas and populations.

3. To determine whether the operation of the proposed station would involve objectionable interference with station WEST, Easton, Pennsylvania, or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

4. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to the coverage of the city of Scranton and the Scranton-Wilkes-Barre metropolitan area.

It is further ordered, That Associated Broadcasters, Inc., licensee of Station WEST, Easton, Pennsylvania, is made a party to this proceeding.

PARIS BROADCASTING CORP.

ORDER CONTINUING HEARING

In re application of Paris Broadcasting Corporation, Paris, Illinois, Docket No. 9655, File No. BP-7496; for construction permit.

The Commission having under consideration a petition filed August 21, 1950, by Paris Broadcasting Corporation requesting that the hearing in the above-entitled proceeding now scheduled to be heard August 25, 1950, be continued indefinitely; and

It appearing that there is now pending before the Commission a petition of Paris Broadcasting Corporation requesting the Commission to reconsider its action in designating said application for hearing and to grant said application without a hearing, and it cannot be determined at this time when the Commission will act on said petition; and

Good cause having been shown for the requested continuance and the General Counsel having consented thereto and to waive the provisions of § 1.745 of the Commission's rules insofar as said rule requires that a petition must be on file for 4 days before being acted upon;

It is ordered, This the 22d day of August 1950, that the petition for continuance is granted and the hearing is continued to a date to be announced by the Commission after action has been taken on applicant's presently pending petition to reconsider and grant without a hearing.

[Docket Nos. 8415, 8870]

KANSAS CITY BROADCASTING CO., INC., AND REORGANIZED CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS

MEMORANDUM OPINION AND ORDER REOPENING RECORD

In re applications of Kansas City Broadcasting Co., Inc., Kansas City, Missouri, Docket No. 8415, File No. BP-5829; Reorganized Church of Jesus Christ of Latter Day Saints, Independence, Missouri, Docket No. 8870, File No. BP-6630; for construction permits.

The Commission, by the undersigned Hearing Examiner, has under consideration: (1) A petition filed on June 27, 1950, on behalf of Kansas City Broadcasting Company, Inc., seeking a waiver of § 1.365 (a) and leave to amend its application as set out in an accompanying amendment, and a reopening of the record for further hearing; (2) a petition filed on July 17, 1950, on behalf of the Reorganized Church of Jesus Christ of Latter Day Saints seeking leave to amend its application as set out in an accompanying amendment and to reopen the record for further hearing; (3) an opposition to the Reorganized Church petition filed on July 25, 1950, on behalf of Kansas City Broadcasting Co., Inc.; and (4) statements of counsel for each applicant and for the Commission made at oral arguments before the Hearing Examiner on July 10 and August 2, 1950, transcripts of which have been filed with the Commission. The matters presented merit a brief statement of the pertinent history of this proceeding.

The two mutually exclusive applications for new broadcast stations at Kansas City and Independence, Missouri, were heard in April and May of 1948 at Kansas City, at Independence and at Washington, D. C. The record, consisting of more than 2,000 pages of testimony and exhibits, was closed on June 1, 1948, and proposed findings of fact and conclusions of law were thereafter filed on behalf of each applicant. The Hearing Examiner's initial decision, dated December 9, 1949 (released December 14, 1949, 5 RR 1057), concluded that Kansas City Broadcasting Company, Inc. lacks the qualifications required of a broadcast station licensee, and therefore denied its application. The Reorganized Church application was also denied without prejudice to the right of that applicant to petition for reconsideration of the action within thirty days after announcement of the Commission's conclusions concerning a policy question relating to religious broadcasting pending in Docket No. 9470. The Reorganized Church filed on January 30, 1950, a "Petition to Remand Initial Decision to Hearing Examiner with Instructions"; on February 6 the Kansas City applicant filed its opposition to the petition to remand; and on February 13 the General Counsel of the Commission filed a statement in support of the petition to remand and requested enlargement of the instructions to be given upon remand. The Commission, by Order of June 22, 1950 (released June 26, 1950, 5 RR 1110-a, and hereinafter referred to as the remand order) remanded the proceedings to the Hearing Examiner.

The remand order shows that the Commission concluded: (a) That the denial without prejudice of the Reorganized Church application did not effect a decisional disposition thereof; (b) That the initial decision evidenced "material omissions in the findings of fact and conclusions * * * with respect to the legal qualifications of the Reorganized Church * * * which could have been disposed of under the designated issues in this proceeding, and that such material omissions relate to the following questions:

"(1) Whether the Reorganized Church * * * is a person or entity within the meaning of section 3 (i) of the Communications Act and legally qualified to assume the duties and responsibilities of a broadcast licensee, since there is an absence of articles of association or other organic acts identifying the unincorporated membership association, showing how the affairs of the organization are conducted, and vesting authority and specified duties and responsibilities in governing boards and various offices;

"(2) Whether the Reorganized Church * * * as an unincorporated membership association, has made an appropriate and sufficient showing with respect to the citizenship of its membership in accordance with section 310 of the Communications Act, and in view thereof whether the applicant is qualified to be a licensee;

"(3) Whether the Reorganized Church * * * in accordance with section 310 of the Communications Act, is legally qualified to be a licensee since one member of its governing board is an alien;

"(4) Whether the program proposals of the Reorganized Church * * * constitute a diversified program structure which would meet the needs of the areas and populations proposed to be served and which would be in the public interest";

and (c) That the orderly dispatch and administration of the Commission's formal hearings require dispositive findings and conclusions in initial decisions. The Commission thereupon ordered, "That (1) the Initial Decision herein is vacated and set aside; and (2) that the proceeding is remanded to the Examiner previously appointed for further proceedings consistent with this Order".

We are constrained first to state our views upon the authority of the Hearing Examiner to rule upon the pleadings in relation to the provisions of §§ 1.844, 1.743-1.749, 1.853 (c) (3) and (4), and the meaning and intent of the remand order. The authority of the Hearing Examiner to rule upon pleadings terminated upon submission of the initial decision, § 1.844; but the remand order reinvested some authority in him. Upon review of the initial decision the Commission, under paragraph (c) (3) of § 1.853, could have reopened the record and remanded the proceeding to the Hearing Examiner for the taking of further testimony or evidence, but it did not do so. Under paragraph (c) (4) of that section, the Commission could, and it did, remand the proceedings to the presiding officer to make further findings and conclusions. The remand order vacated and set aside the initial decision, not in part, but entirely. The precise question, therefore, is whether the vacating and setting aside of the initial decision coupled with a remand order for further proceedings consistent therewith restores to the Hearing Examiner complete authority to grant or deny petitions for amendment, for reopening of the record and for further hearing upon the applications as amended. Briefly stated at this point, the amendments proposed would substitute newcomer individuals in two of the three officer-director positions of Kansas City Broadcasting Company, Inc., and would substitute a benevolent corporation for the Reorganized Church applicant, an unincorporated association. We do not believe that a grant of the petitions before us would be inconsistent with the remand order because that order necessarily disposed of only those matters before the Commission at that time and as therein stated. The Commission was not then considering possibilities of later procedural questions and consequently it did not intend by its remand order to curtail the Hearing Examiner's authority under existing rules to pass upon subsequently presented pleadings. The pleadings before us would be within the Hearing Examiner's jurisdiction had they been presented prior to the initial decision, § 1.743. Vacating the initial decision restores the proceeding to that pre-decision status and we hold that the remand order instructions for further proceedings consistent therewith do not limit the Hearing Examiner's authority stated in the section. We therefore proceed to examine the merits of the pending petitions.

The petition of Kansas City Broadcasting Co., Inc., requests a waiver of § 1.365 (a). Although counsel for that applicant stated at the oral argument that the request for waiver of the rule is unnecessary because the petition for amendment is within the terms of the section, we deem it necessary to consider the question thus presented. The latter portion of that section includes this statement: "A petition to amend an application will not be accepted * * * (except if merely corrective in nature) * * * if it is filed after public notice * * * of * * * an Initial Decision * * *." It is conceded that the proposed amendment is not merely corrective. Reference is made to this portion of the section in the Commission's Memorandum Opinion and Order of May 23, 1950 (released May 24, 1950, 6 RR 368 @373) in the proceedings involving the applications of Easton Publishing Company, et al., Docket No. 7179, wherein it is stated:

> We believe it would be improper to allow the applicants to substitute new parties among their major stockholders, who, in the light of the court's decision might, upon re-examination by the Commission, increase the chances of such applicant to secure eventual approval of its application. To do so would be the equivalent to allowing parties to amend their applications after the issuance of a proposed or initial decision, in order to improve their chances of securing an ultimate grant—a practice which is specifically prohibited by § 1.365 of the commission's rules.

In view of our conclusions hereinafter stated we believe it unnecessary to undertake here to discuss the applicability of the stated principle to amendments proposed after the setting aside by the Commission of a Hearing Examiner's initial decision. We do not deny the petition of either applicant on the narrow ground that the cited section of § 1.365 prohibits the amendments proposed. Instead, we have applied to the proposed amendments the test of sufficiency set out in § 1.365 as follows: "Requests to amend an application after it has been designated for hearing * * * will be granted only for good cause shown." Consequently, the petitions are examined upon the merits and in the light of requirements stated by that rule provision.

The Kansas City applicant's petition seeks opportunity to show by amendment and by evidence to be submitted at a further hearing for the reopened record, that: (a) Ira L. Childers, president and a director and the owner of 10 shares of stock in the applicant corporation, on February 22, 1949 resigned both official positions, transferred his stock to his wife (not formerly a participant in the applicant corporation), who subsequently transferred the stock to the corporation; consequently, that Mr. Childers is not now a director, officer or stockholder, although he is still a subscriber for capital stock to the extent shown by the record herein; (b) that one Vernon Grace, Jr., (a newcomer to this proceeding who has purchased and subscribed for 10 shares of stock), was elected on January 16, 1950 to succeed Mr. Childers as vice-president and director; and that Mr. Grace has resided since birth in Kansas City, is a graduate of the public schools there, and has subsequently obtained certain specified military, radio broadcast, educational and civic experience; (c) that Fred Zimmerman, Jr., secretary-treasurer and a director of the applicant corporation, on January 16, 1950 relinquished those positions; (d) that Zimmerman was then replaced in both official capacities by one M. H. Lefforge, (a newcomer to this proceeding was has purchased and subscribed for 10 shares of stock), who has lived in Pittsburg, Kansas and Kansas City, Missouri since birth; and that Lefforge is a public school graduate with specified experience in accounting positions with railroad and air transportation companies; (e) that three named stock subscribers for an aggregate of 35 shares of stock have transferred their subscription rights and obligations, thereby increasing by $1,500 (for 15 shares) the subscription obligation of an existing stock subscriber and thereby creating $1,000 subscription obligations on the part of a Mr. and Mrs. Holt, and on the part of a Mrs. McSpadden, who are strangers to the record in this proceeding.

The Kansas City Broadcasting Company, Inc. petition should be denied in its entirety. The now vacated initial decision in this proceeding denied the Kansas City Broadcasting Company, Inc. application after a full and complete hearing, at which the qualifications of that corporate applicant were extensively inquired into. It was therein concluded that this corporation is not qualified to become a broadcast station licensee primarily because of the evidenced incompetency and irresponsibility of its officers and directors of whom there are three. (See the initial decision in this proceeding: Findings 12, 21, 26, 92-103; Conclusions 18-25; 5 RR pp. 1061, 1065, 1066, 1084-1089, 1105-1108). The applicant, by its petition, would now have the Commission to afford it a further hearing on an amended application and thereupon to determine the qualifications of the corporation with its present officers, directors and stockholders, two-thirds of whom are complete strangers to this hearing record. Fortuitously or by design, two officers and directors whose meager qualifications substantially contributed to the reasons for denying the corporate application would be removed. This applicant has not shown or stated why the resignation of its Vice-President and Director Childers was effected; neither has it stated why that event in February of 1949 was not reported either before the initial decision in December of 1949 or before the remand order in June of 1950. Likewise the applicant advanced no reasons for the replacement, after the initial decision, of its treasurer and director Fred Zimmerman, Jr.

It is contended that since the applicant's president Wendell Zimmerman did and does own more than 50% of the corporate stock, the corporation's qualifications must be determined primarily on that basis without significant regard to the individuals who may be the other two officers and directors; that the public interest will be best served by granting the petition, examining the present facts relating to the corporation's qualifications and basing the decision to be rendered thereon. We cannot agree with these contentions. They might with equal force be urged in virtually every case in which the Commission decides adversely to an applicant upon record facts which might thereafter be so altered as to modify or relieve the adversities enunciated by the decision. The Commission's rules and orderly administration forbid such procedures. Section 1.365 permits amendment after designation for hearing "only for good cause shown". It is abundantly clear that this applicant has not met the burden of showing such good cause and the amendment and further hearing therefore cannot be allowed.

The petition for amendment and for further hearing on behalf of the Reorganized Church applicant seeks to substitute as applicant a benevolent corporation, RLDS Broadcasting Company. The applicant heard was the Reorgan-

ized Church of Jesus Christ of Latter Day Saints which is an unincorporated voluntary religious association. The initial decision conclusion that the applicant is legally qualified to become a broadcast station licensee was challenged by the statement of the Commission's General Counsel in his request for a remand of this proceeding. He raised certain questions about the applicant's legal qualifications, which are substantially embodied in paragraphs (1), (2) and (3) of the remand order as hereinabove quoted. In the further proceedings specific consideration must be given to those matters. It is the stated purpose of the Reorganized Church amendment to relieve the applicant of those possible legal impediments to its becoming a broadcast station licensee.

In support of the Reorganized Church petition it is argued that the Commission has heretofore frequently and consistently granted broadcast station licenses and renewals thereof to unincorporated church associations (it was pointed out that this applicant was licensee of KLDS from 1925 to 1929) and to an unincorporated labor organization; that the Commission in previous proceedings involving those licenses, has not questioned the legal qualifications of such associations, their members or their trustees to own and operate broadcast stations; that no special issue stated in the order upon which this hearing was conducted indicated that the Commission was concerned about the legal qualifications of the religious association; and finally, that the fact that one of the 18 members of the applicant's governing board is not a United States citizen was made known to the counsel for that applicant for the first time at the hearing. It is urged that the unprecedented technical legal questions introduced by the Commission's remand order—first presented in the General Counsel's statement filed February 13, 1950—in effect constitute unanticipated elements of surprise resting on "technical niceties". The applicant offers its amendment as a "change of form rather than substance", because the officers and directors of the proposed corporate applicant are the leading officials of the original applicant association (not including the non-citizen member), whose qualifications have been established on the record in this proceeding. It is argued that this does not constitute either a transfer of control or a new applicant, although it was subsequently stated by applicant's counsel that the proposal does constitute "a technical transfer of control * * * no substantial change in the parties in interest * * *".

We believe that the Reorganized Church petition for amendment and for further hearing should be denied. The applicant's objective to escape the possible legal qualification issues set out in the remand order was established and pursued to this stage only after the Commission's General Counsel pointed out the nature of those issues. The remand order does not state any new issue not encompassed in those upon which the hearing record was compiled. The applicant was aware that its legal qualifications were at issue in the hearing. By the inquiry directed in the remand order to section 310 of the Communications Act, the Commission has not decided, and we now do not decide, the applicant's legal qualifications thereunder. The statutory obligation to make such an inquiry is ever present and should evoke no surprise on the part of any applicant. In obedience to the plain mandate of that and other statutory provisions the Commission originally placed in issue the applicant's legal qualifications; that the remand order particularized the issue in some respects places upon the applicant no greater burden than that imposed on it before the hearing. The Commission's licensing practice in other cases may be germane to a consideration of the applicant's legal qualifications, but it provides no basis for permitting the applicant's amendment which is designed to avoid, through a substituted applicant, a determination under the law of the qualifications of the legal entity which filed the application and which participated in every phase of this proceeding. The applicant's claims of surprise at the "technical niceties" specified in the remand order as facets of the legal qualification issue do not so support the "good cause shown" requirement of § 1.365 as to justify permitting the proposed amendment substituting a new legal entity for the applicant which was heard.

It is for the foregoing reasons that the Reorganized Church petition is denied. We therefore omit discussion of the opposition contention that the amendment, if allowed, would constitute a new application which is prohibited by § 1.387 (b) (3). We also deem it unnecessary to weigh the proposed amendment's designed effectiveness in the light of the petitioner's statement that the proposed substituted corporate applicant is "an adjunct to the church organization". We here express no opinion upon the pertinency of the remand order issues to the legal qualifications of the corporation proposed by the amendment to be made an applicant herein.

Each petition before us requests a reopening of the record and a further hearing in order to show facts and circumstances set out in the amendments proposed. Neither petition requests a reopening of the record or a further hearing upon the issues pertaining to the applicants as constituted in the existing record. Therefore, our indicated denials of the petitions for leave to amend lead to denials of the petitions for reopening of the record and for further hearing. The instant petitions are denied because good cause for the amendments has not been shown. Further hearings, which in many respects would virtually amount to new hearings, would follow a grant of either petition. Such would not conduce to the orderly dispatch of the Commission's business, to the ends of justice or to the expeditious determination of issues presented to the Commission in its hearing proceedings. See: Memorandum Opinions and Orders in re Easton Publishing Company, et al., Docket No. 7179, et al., dated February 16 and May 23, 1950, 6 RR 21, 368; Memorandum Opinion and Order in re Lakeland Broadcasting Corporation, et al., Docket No. 8208, dated March 21 1950, 5 RR 701a; Commission Decision in re Huntington Broadcasting Company, et al., Docket No. 7694, dated January 27, 1950, 5 RR 721, @ 742, and in the same proceeding the Memorandum Opinion and Order of June 9, 1949, 5 RR 342; Memorandum Opinion and Order in re Johnston Broadcasting Company, et al., Docket No. 7945, dated January 26, 1950, 5 RR 1320.

At the suggestion of the Hearing Examiner and by agreement of counsel for the parties and for the Commission, it is deemed proper that the transcripts of the statements and arguments of counsel before the Hearing Examiner on July 10 and on August 2 should be made a part of the record in this proceeding. Furthermore, at the arguments heretofore held before the Hearing Examiner reference was made to the absence of proposed findings of fact or conclusions of law addressed to the particular questions stated in the Commission's order of remand. The ends of justice and the orderly and expeditious determination of the issues in this proceeding would be aided by proposed findings of fact and conclusions of law upon those stated phases of the issues. At the oral argument on August 2, counsel for the applicants and for the Commission were apprized of the intended disposition to be made of the pending petitions and of the other actions to be taken as hereinabove indicated and as hereinafter ordered. Counsel for each applicant stated on the record at the oral argument his respective exceptions to the indicated adverse rulings upon the petitions, and those exceptions are now noted in the record herein.

For the reasons hereinabove stated: *It is ordered*, This 15th day of August 1950 that the record herein is reopened and that the transcripts of the oral arguments before the Hearing Examiner on July 10 and August 2, 1950, be, and they are hereby filed and made a part of the record and the record is closed. *It is further ordered*, That the respective applicants' separate petitions for leave to amend and for further hearing upon the applications, as amended be, and each of them is denied. *It is further ordered*, That proposed findings of fact and conclusions of law particularly addressed to the matters stated in the Commission's remand order of June 22, 1950, be filed on behalf of the applicant Reorganized Church of Jesus Christ of Latter Day Saints and on behalf of the Commission; and the applicant Kansas City Broadcasting Co., Inc. is granted leave to file such proposed findings and conclusions upon the stated matters as it may desire; a period of 30 days is allowed for such filing, which time shall be computed from the date of public notice of the Commission's action upon review of this order; if this order be not appealed, the 30 days shall commence on the date of this order; thereafter a period of 10 days for reply is allowed. *It is further ordered*, That the record in this proceeding be reopened to permit the filing of the proposed findings and conclusions and replies as hereinabove directed and permitted, and upon expiration of the time prescribed the record shall be deemed to be closed.

FEDERAL POWER COMMISSION

[Docket No. G-1349]

SOUTH GEORGIA NATURAL GAS CO.

NOTICE OF AMENDED APPLICATION

AUGUST 28, 1950.

Take notice that South Georgia Natural Gas Company (Applicant), a Georgia corporation, First National Building, Birmingham, Alabama, filed on August 16, 1950, an amended application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities hereinafter described, and an application for an order pursuant to section 7 (a) of the Natural Gas Act directing Southern Natural Gas Company (Southern Natural), or in the alternative, directing Transcontinental Gas Pipe Line Corporation (Transcontinental) to establish physical connection with the proposed facilities of Applicant and sell natural gas to Applicant.

Applicant proposes to connect with Southern Natural's Gwinville-Aiken transmission line at a point approximately 13 miles northeast of Talboton, Georgia, and to construct approximately 170.4 miles of 12-inch, 8-inch, and 6-inch main line to Valdosta, Georgia, and Tallahassee, Florida. Applicant proposes to construct approximately 356.5 miles of 3-inch, 4-inch, 6-inch, 8-inch, and 10-inch laterals.

In the alternative, Applicant proposes to connect with the transmission facilities of Transcontinental at a point approximately 6 miles northeast of Newman, Georgia, and to construct an additional 53 miles of 12-inch pipeline.

Applicant proposes to serve the following communities in Georgia and Florida:

Georgia:	Georgia—Continued
Adel.	Nashville.
Albany.	Ocilla.
Americus.	Oglethorpe.
Ashburn.	Pelham.
Bainbridge.	Quitman.
Butler.	Sylvester.
Cairo.	Thomasville.
Camilla.	Tifton.
Cordele.	Valdosta.
Dawson.	Vienna.
Ellaville.	Florida:
Fitzgerald.	Havana.
Leesburg.	Quincy.
Montezuma.	Tallahassee.
Moultrie.	

The third year peak day requirements for firm sales is estimated to be 36,697 Mcf. The design capacity of the proposed facilites will be 45,000 Mcf per day.

The estimated cost of the facilities proposed to be connected with Southern Natural is $10,500,000; and $12,080,000, if connected with Transcontinental; to be financed by first mortgage bonds and junior securities.

Protests or petitions to intervene, unless already filed, may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 15th day of September 1950. The amended application is on file with the Commission for public inspection.

NORTHERN INDIANA FUEL & LIGHT CO.

NOTICE OF APPLICATION

AUGUST 28, 1950.

Take notice that Northern Indiana Fuel & Light Company (Applicant), an Indiana corporation with its principal office in Auburn, Indiana, filed on July 28, 1950, an application pursuant to section 7 (a) and 7 (c) of the Natural Gas Act, as amended, for (1) an order directing Panhandle Eastern Pipe Line Company to establish physical connection of its transportation facilities with the facilities of Applicant and to sell natural gas to it from a point of connection of Panhandle Eastern's line near its Edgerton Station and (2) the issuance of a certificate of public convenience and necessity authorizing the construction and operation of approximately 31 miles of 8⅝-inch O. D. pipeline extending from Panhandle Eastern's Edgerton Compressor Station near Edgerton, Indiana, to a point of connection to be made on Applicant's system at Auburn, Indiana.

The application recites Panhandle Eastern is the only potential source of natural gas for service to Auburn, Garrett, Altoona, Kendallville, Avilla, Woodburn, Harlan, Grabill, Leo, Spencerville, St. Joe, and Waterloo, Indiana, which cities and environs have an estimated population of 24,000, and a portion of which are presently being served with manufactured gas; that the manufactured gas plant and facilities consist of a plant at Auburn, together with holders and related equipment, some 17.7 miles of high pressure transmission mains and 48.1 miles of high pressure distribution mains, approximately 4100 services and approximately 2916 meters.

Applicant alleges Panhandle Eastern has an adequate supply of natural gas to fill the Applicant's requirements, estimated to be 500 Mcf for the 1950-51 winter peak day; that the present service and plant and available supplies of manufactured gas are not sufficient adequately to serve the named communities at a rate permitting of expansion in the use of gas; and that the manufactured gas facilities are becoming obsolete and in such state of disrepair it is economically unfeasible to continue to so operate and repair considering the higher cost of manufactured gas, and the refinancing of a present capital structure now in serious default.

The estimated over-all capital cost of the proposed construction is $511,315.20, for which financing plans are to be furnished.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 15th day of September 1950. The application is on file with the Commission for public inspection.

SOUTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

AUGUST 28, 1950.

Take notice that Southern Natural Gas Company (Applicant), a Delaware corporation of Birmingham, Alabama, filed on August 16, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

Applicant proposes to construct line taps, metering and regulating facilities on its main transmission pipeline to sell and deliver natural gas to North Central Natural Gas District, Deer Creek Natural Gas District, Carthage Natural Gas District, the towns of Ethel, McCool, and Weir, all in Mississippi, and the towns of Aliceville and Carrollton in Alabama.

The North Central Natural Gas District proposes to serve the following communities in Mississippi.

Ackerman.	Houston.
Mathiston.	Vardaman.
Eupora.	Derma.
Walthall.	Calhoun City.
Maben.	Pittsboro.
Mantee.	Bruce.

The Deer Creek Natural Gas District proposes to serve the following communities in Mississippi.

Cary.	Hollandale.
Rolling Fork.	Arcola.
Anguila.	

The Carthage Natural Gas District proposes to serve the city of Carthage, Mississippi.

Applicant estimates peak day requirements in the fifth year of operation to be 6,209 Mcf; and the annual requirements to be 707,515 Mcf.

The estimated cost of the proposed facilities is $67,000 to be financed out of Applicant's current funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 15th day of September 1950. The application is on file with the Commission for public inspection.

SIERRA PACIFIC POWER CO.

NOTICE OF APPLICATION

AUGUST 28, 1950.

Take notice that on August 25, 1950, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Sierra Pacific Power Company, a corporation organized under the laws of the State of Maine, with its principal business office at Reno, Nevada, and doing business in the States of Nevada and California, seeking an order authorizing the issuance of Debentures in the amount of $2,500,000, and 24,716 shares of Common Stock par value $15 per share having a face value of $370,740; the Debentures to be sold under competitive bidding will be issued under the terms of an Indenture to be dated as of October 1, 1950, with The Shawmut National Bank of Boston as Trustee; the Common Stock to be offered pro rata to the Preferred and Common Stockholders of the Company, pursuant to preemptive rights, on the basis of one share of the new stock for six shares of the Preferred Stock or twelve shares of the Common Stock. These securities are to be issued for the purpose of obtaining funds to pay off previous bank loans and to finance additional construction; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 15th day of September 1950, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[Docket No. G-1465]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION

AUGUST 28, 1950.

Take notice that on August 17, 1950, United Gas Pipe Line Company (Applicant), a Delaware corporation with its principal office in Shreveport, Louisiana, filed an application for a temporary certificate and a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of a compressor station consisting of five 440 hp. units, complete with auxiliary equipment and station piping, at Applicant's Carthage Gasoline Plant Site, near Carthage, Panola County, Texas.

Applicant states the station will be operated with average pressures of 300 and 400 psig suction and 1050 psig discharge, under which conditions the station will have a maximum daily capacity of approximately 30,000 Mcf, which will not increase the capacity of Applicant's Carthage-Sterlington Line as enlarged, but will compress approximately 30,000 Mcf of low pressure gas daily in order that said gas may be delivered into said Line as enlarged for transportation and sale through said facilities to existing customers. That approximately 20,000 Mcf of low pressure gas will be from Applicant's Waskom-Goodrich 22-inch transmission line and the other 10,000 Mcf from the operation of Applicant's Carthage Gasoline Plant.

The estimated over all capital cost of the proposed facilities is $530,000, all of which will be financed from cash on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 15th day of September 1950. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2422]

SOUTHERN CO. ET AL.

NOTICE PURSUANT TO FILING OF AMENDMENT

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 25th day of August A. D. 1950.

In the matter of The Southern Company, Alabama Power Company, and Georgia Power Company, File No. 70-2422.

The Commission on June 20, 1950, gave Notice of Filing Pursuant to Rule U-23 (Holding Company Act Release No. 9934) of certain joint applications-declarations, pursuant to sections 6 (a), 7, 9 (a), 10 and 12 (f) of the Public Utility Holding Company Act of 1935 (the "act"), and Rules U-43 and U-50 promulgated thereunder, by The Southern Company ("Southern"), a registered holding company, and two of its public utility subsidiaries, Alabama Power Company ("Alabama") and Georgia Power Company ("Georgia"), with respect to the issuance and sale by Southern, at competitive bidding, of 1,000,000 shares of its authorized but unissued $5 par value common stock, and, for the purpose of assisting in financing the construction requirements of Alabama and Georgia, the investment by Southern of $6,000,000 in Alabama by the purchase of 60,000 additional shares of the no par value common stock of that company and $6,000,000 in Georgia by the purchase of 353,000 additional shares of the no par value common stock of Georgia.

Notice is hereby given that Southern, Alabama and Georgia have filed an amendment with this Commission to the joint applications-declarations herein, pursuant to sections 6 (a) and 7 of the act, relating to the borrowing by Southern of $12,000,000 from banks.

Notice is further given that any interested person may, not later than September 7, 1950, request the Commission in writing that a hearing be held on such matter, stating the nature of his interests and the issues of fact or law raised by said applications-declarations which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 7, 1950, said applications-declarations, as filed or as amended, may be granted or permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said applications-declarations which are on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized as follows:

The filing states that on July 11, 1950, due to the disturbed conditions of the financial market, Southern concluded to defer, pending improvement of such conditions, the proposed sale of 1,000,000 shares of its common stock. It now proposes to provide the funds necessary to make the proposed investments in the common stocks of Alabama and Georgia, pending consummation of the sale of said 1,000,000 shares of common stock, by borrowing $12,000,000 from 29 banks, to be evidenced by its unsecured notes payable on or before one year from the date of such notes, with interest at the rate of 2 percent per annum.

Southern states that it will sell the 1,000,000 shares of its common stock as soon as practical and feasible and, upon consummation of such sale, pay any amount then due and unpaid on the bank loan.

The applicants request that our order granting said applications-declarations, as amended, be issued on or before September 8, 1950, and that it become effective forthwith upon issuance.

By the Commission.

Secretary.

PITTSBURGH RAILWAYS CO. ET AL.

SUPPLEMENTAL ORDER APPROVING CERTAIN MATTERS WITH RESPECT TO PLAN AND ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 23d day of August 1950.

In the matter of Elmer E. Bauer, Trustee of Pittsburgh Railways Company, Debtor, and Philadelphia Company, File No. 52-28; Philadelphia Company, File No. 54-183; Philadelphia Company, Allegheny County Steam Heating Company, Cheswick and Harmar Railroad Company, Duquesne Light Company, Equitable Real Estate Company, Equitable Sales Company; File No. 70-2402.

The Commission, by order dated March 27, 1950 (Holding Company Act Release No. 9759) and the United States District Court for the Western District of Pennsylvania, by orders dated May 1, 1950, having approved a plan ("Combined Plan") which was filed jointly by Elmer E. Bauer, ("Bauer") Trustee of Pittsburgh Railways Company, ("Railways") Debtor, and by Philadelphia Company, a registered holding company, for the reorganization of the Railways System under Chapter X of the Bankruptcy Act and section 11 (f) of the Holding Company Act and for the discharge, pursuant to section 11 (e) of the Holding Company Act, of Philadelphia Company's guarantees affecting certain securities of companies included in the Railways System, and the Commission having reserved jurisdiction in its said order over certain matters in connection with consummation of the Combined Plan; and

Bauer and Philadelphia Company having filed a joint application requesting a hearing on certain of the matters as to which jurisdiction had been so reserved; and

Philadelphia Company and its subsidiaries, Cheswick and Harmar Railroad Company, a non-utility company, Equitable Sales Company, a non-utility company, Equitable Real Estate Company, a non-utility company, and Duquesne Light Company, a public utility company, and the latter's subsidiary, Allegheny County Steam Heating Company, a non-utility company, having filed a joint application-declaration and an amendment thereto, pursuant to sections 9 (a), 10, 12 (c) and 12 (f) of the Holding Company Act and Rules U-42, U-43 and U-46 of the rules and regulations promulgated thereunder, with respect to the acquisition by Philadelphia Company of all the securities of and claims against the Railways System held by Philadelphia Company's non-traction subsidiaries and by its former subsidiary, Equitable Gas Company, as a necessary step preliminary to consummation of the Combined Plan; and

Public hearings having been held, after appropriate notice, at which hearings security holders and other interested persons were afforded an opportunity to be heard, and the Commission having considered the record, and having this day issued its Findings and Opinion herein:

It is ordered, Pursuant to sections 11 (e), 11 (f) and other applicable provisions of the Public Utility Holding Company Act of 1935, that:

(1) The proposed interim cash distribution by Railways of $17,075,000 to holders of claims based on securities and of $871,496 to holders of claims not based on securities is hereby approved;

(2) The proposed terms of the new bonds to be issued by New Company, with respect to the date from which interest will accrue and the date upon which the sinking fund provisions will become effective, are approved; and

(3) The proposed charter and by-laws of New Company are approved.

It is further ordered, That the joint application-declaration, as amended, of Philadelphia Company and certain of its non-traction subsidiaries, above-described, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24 and subject, further, to the condition that the securities and claims to be acquired by Philadelphia Company shall be held subject to the provisions of the Commission's Order of June 1, 1948 (Holding Company Act Release No. 8242), requiring, inter alia, that Philadelphia Company dispose of its interest in the Pittsburgh Railways System.

It is further ordered, That jurisdiction be, and hereby is, reserved with respect to the accounting entries proposed by Philadelphia Company to reflect the various acquisitions and also with respect to any and all legal fees and expenses to be paid in connection with the proposed acquisitions.

It is further ordered, That jurisdiction be, and hereby is, continued with respect to all other matters and issues in connection with the Combined Plan, not determined herein, as to which jurisdiction was heretofore reserved in the Commission's Order of March 27, 1950, including: the additional amount of cash, if any, which may be distributed in connection with consummation of the Combined Plan, the time of payment of accrued and unpaid interest on the new bonds to be issued by New Company, and the aggregate principal amount of such bonds to be issued.

By the Commission.

CENTRAL AND SOUTH WEST CORP. AND WEST TEXAS UTILITIES CO.

NOTICE OF FILING OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 28th day of August A. D. 1950.

Notice is hereby given that West Texas Utilities Company ("West Texas"), a public utility company, and its parent, Central and South West Corporation, a registered holding company, have filed with this Commission a joint application and an amendment thereto with respect to the proposed acquisition of certain securities. The application, as amended, designates sections 9 (a) and 10 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-40 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested party may, not later than September 7, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held with respect to said application, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law raised by said application, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed to the Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 7, 1950, said application, as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and U-100 thereof.

All interested persons are referred to the application, as amended, which is on file in the offices of the Commission for a statement of the proposed transactions, which may be summarized as follows:

West Texas, in connection with the sale to non-affiliated interests of a substantial part of its ice property for an aggregate consideration of $520,000, proposes to acquire certain securities, described as vendor's lien notes and purchase money notes, evidencing an aggregate of $421,000 of deferred payments of the sale price. The balance of $99,000 of the sale price is to be paid in cash. The $421,000 principal amount of notes being acquired is payable in installments during the years 1950 through 1954, together with interest at the rate of 5 percent per annum.

It is stated that the proceeds to be received from the proposed sale of ice properties are to be invested in permanent additions to or extensions of West Texas' electric utility properties.

Applicants request that an order, to become effective upon its issuance, be entered granting the application, as amended, and approving the acquisition by West Texas of the securities.

By the Commission.

1. That Mathilde Becker, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person identified in subparagraph 1 hereof in and to the estate of Hedwig Hoefle, deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by James W. Brown, Public Administrator of Bronx County, as Administrator, acting under the judicial supervision of the Surrogate's Court of Bronx County, New York;

and it is hereby determined:

4. That to the extent that the person identified in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requises that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 11, 1950.

For the Attorney General.

TITLE 7—AGRICULTURE

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter I—Determination of Prices

[Sugar Determination 874.3]

PART 874—SUGARCANE; LOUISIANA

1950 CROP

Pursuant to the provisions of section 301 (c) (2) of the Sugar Act of 1948 (herein referred to as "act"), after investigation, and due consideration of the evidence presented at the public hearing held in Thibodaux, Louisiana, on July 14, 1950, the following determination is hereby issued:

§ 874.3 *Fair and reasonable prices for the 1950 crop of Louisiana sugarcane.* Processor-producers of sugarcane in Louisiana who apply for payments under the act shall be deemed to have complied with the provisions of section 301 (c) (2) of the act with respect to the 1950 crop, if the requirements of this section are met.

(a) *Definitions.* For the purpose of this section, the term:

(1) "Price of raw sugar" means the price of 96° raw sugar quoted by the Louisiana Sugar Exchange, Inc.; except that if the Director of the Sugar Branch determines that such price does not reflect the true market value of sugar, because of inadequate volume, failure to report sales in accordance with the rules of such Exchange or other factors, he may designate the price to be effective under this section.

(2) "Price of blackstrap molasses" means the price per gallon of blackstrap molasses quoted by the Louisiana Sugar Exchange, Inc.; except that if the Director of the Sugar Branch determines that such price does not reflect the true market value of blackstrap molasses, because of inadequate volume, failure to report sales in accordance with the rules of such Exchange or other factors, he may designate the price to be effective under this section.

(3) "Trash" means green or dried leaves, loose sugarcane tops, attached sugarcane tops at or above the green leaf roll, dirt and all other extraneous material which is representative of the quantity of sugarcane from which the sample for trash determination is taken.

(4) "Salvage sugarcane" means sugarcane containing either less than 9.5 percent sucrose in the normal juice or less than 68 purity in the normal juice.

(5) "Actual sugarcane" means sugarcane as delivered by a producer to a processor-producer.

(6) "Standard sugarcane" means sugarcane, free of trash, containing 12 percent sucrose in the normal juice with a purity of at least 76.50 but not more than 76.99.

(b) *Basic price.* (1) The basic price for standard sugarcane shall be not less than $1.06 per ton for each one cent of the average price of raw sugar determined in accordance with whichever of the following options is agreed upon:

(i) The simple average of the daily prices of raw sugar for the week in which the sugarcane is delivered; or

(ii) The simple average of the weekly prices of raw sugar for the period October 6, 1950 (or the Friday within the first week of actual trading), through January 25, 1951.

Provided, That the average price of raw sugar as determined under subdivisions (i) or (ii) of this subparagraph may be reduced by not more than the following:

(*a*) 0.065 cent for mills located north of Bayou Goula between the Atchafalaya and Mississippi Rivers and southeast of New Iberia west of the Atchafalaya River; or

(*b*) 0.10 cent for mills located north and west of New Iberia west of the Atchafalaya River.

(2) The basic price for salvage sugarcane shall be as agreed upon between the processor-producer and the producer.

(c) *Conversion of actual sugarcane to standard sugarcane.* Except for salvage sugarcane, actual sugarcane shall be converted to standard sugarcane as follows:

(1) By deducting the weight of trash from the combined weight of sugarcane and trash delivered;

(2) By multiplying the net quantity of sugarcane determined pursuant to subparagraph (1) of this paragraph by the applicable quality factor in the following table:

Percent sucrose in normal juice [1]	*Standard sugarcane quality factor*
9.5	0.60
10.0	.70

(d) *Molasses payment.* Except for salvage sugarcane there shall be paid for each ton of actual sugarcane, minus trash, an amount equal to the product of 6½ and one-half of the average price per gallon of blackstrap molasses in excess of 6 cents. The average price of blackstrap molasses shall be either the simple average of the daily prices for the week in which the sugarcane is delivered or the simple average of the weekly prices of blackstrap molasses for the period October 6, 1950 (or the Friday within the first week of actual trading) through January 26, 1951, as agreed upon between the processor-producer and the producer.

(e) *General.* (1) The sucrose and purity of the normal juice shall be determined by an acceptable method of analysis on actual sugarcane.

(2) Because of decreased boiling house efficiency deductions may be made from the payment for frozen sugarcane accepted by the processor-producer provided such deductions are at rates not in excess of 1.5 percent of the payment, computed without regard to the molasses payment, for each 0.1 cc. of acidity above 2.50 cc. of N/10 alkali per 10 cc. of juice but not in excess of 4.75 cc. (intervening fractions are to be computed to the nearest multiple of 0.05 cc.). Frozen sugarcane testing in excess of 4.75 cc. of acidity shall be considered as having no value. Sugarcane shall not be considered as frozen, even after being subjected to freezing temperature, unless and until there is evidence of damage having taken place because of the freeze, such evidence to be certified by the Louisiana State Office of the Production and Marketing Administration.

(3) Costs of hoisting and weighing sugarcane, which were absorbed by the processor-producer for the 1949 crop, shall be absorbed by the processor-producer for the 1950 crop; but nothing in this subparagraph shall be construed as prohibiting negotiations with respect to the level of such absorptions, subject, upon appeal, to review by the Director of the Sugar Branch.

(4) Allowances made to producers for transporting sugarcane from the customary delivery points to the mill which were made by the processor-producer for the 1949 crop, shall be made by the processor-producer for the 1950 crop: *Provided*, That nothing in this subparagraph shall be construed as requiring the processor-producer to make allowances to producers in excess of the actual costs or rates charged by a commercial carrier for the customary method of transportation: *Provided, further*, That where the only available practicable means of transportation are rail facilities and the distance to the nearest mill is in excess of 50 miles or where, because of unusual circumstances, the cost of transporting sugarcane is in excess of customary allowances, such costs may be shared by the processor-producer and the producer by agreement, subject, upon appeal, to review by the Director of the Sugar Branch.

(5) If a processor-producer and the producers delivering sugarcane to such processor-producer agree upon a plan for the hiring of inspectors whose duties shall be (i) to inspect fields of sugarcane, suggest proper methods of harvesting, and obtain adherence to cutting and delivery schedules, and (ii) to determine the trash content of all sugarcane delivered to a processor-producer, and, if the control of such inspectors is exercised jointly by the processor-producer and producers or by a general committee of processors and producers, there may be deducted from the price per ton of standard and salvage sugarcane an amount equal to one-half of the cost of such inspection but not in excess of 1½ cents per ton of such sugarcane. Such deductions may not be made until a statement in writing setting forth the proposed plan jointly signed by authorized representatives of producers and processors has been filed with and approved by the Louisiana State Office of the Production and Marketing Administration.

(6) The processor-producer shall not reduce the return from the 1950 crop of Louisiana sugarcane to the producer below those determined herein through any subterfuge or device whatsoever.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable prices to be paid by a processor-producer (i. e., a producer who is directly or indirectly a processor of sugarcane—hereinafter referred to as "processor") for sugarcane of the 1950 crop purchased from other producers. It prescribes the minimum requirements with respect to prices which must be met as one of the conditions for payment under the act. In this statement the foregoing determination, as well as determinations for prior years, will be referred to as "price determination", identified by the crop year for which effective.

(b) *Requirements of the act.* In determining fair and reasonable prices, the act requires that public hearings be held and investigations made. Accordingly, a public hearing was held in Thibodaux, Louisiana, on July 14, 1950, at which time interested parties presented testimony with respect to fair and reasonable prices for the 1950 crop of sugarcane. It should be noted that for the second consecutive year the grower and processor members of the Louisiana Grower-Processor Committee departed from their usual practice of making joint recommendations with respect to the terms of purchase contracts and submitted separate recommendations for the 1950 crop. In addition, investigations have been made of the conditions relating to the sugar industry in Louisiana. In this price determination consideration has been given to the testimony presented at the hearing and to information resulting from the investigations.

(c) *Background.* Determinations of fair and reasonable prices for sugarcane in Louisiana have been issued for each crop beginning with the 1937 crop. The 1937 price determination approved the basic pricing structure contained in sugarcane purchase contracts agreed upon between producers and processors.

From that time until the 1949 crop, price determinations have continued in effect, with only minor modifications, the historic basic pricing structure.

In 1949, major changes were made in the price determination for Louisiana. These changes, which are summarized below, were aimed at improving the quality of sugarcane delivered to processors by providing a higher base price for clean, high sugar-yielding sugarcane and a more adequate system of paying premiums and discounts for sugarcane of varying qualities. These changes included:

(1) The basic price per ton of standard sugarcane was increased from $1.03 to $1.045 for each one cent of the raw sugar price. Freight allowances equal to higher cost of freight on raw sugar to New Orleans were provided for mills located in high cost freight districts. Formerly, processors were compensated for the differences in freight by the use of contracts with varying standards of sugarcane quality.

(2) Standard sugarcane was redefined as fresh, trash-free sugarcane with normal juice testing 12 percent sucrose and 76.5 to 76.99, inclusive, purity.

(3) The definition of salvage sugarcane was revised to include sugarcane, the normal juice of which contained less than 9.5 percent sucrose or less than 68 purity.

(4) Trash was defined to include green or dried leaves which may be removed with a cane knife in a manner similar to hand stripping under field conditions, loose sugarcane tops, attached sugarcane tops at or above the green leaf roll, dirt, and all other extraneous material.

(5) The provisions for molasses payments were revised to permit participation by producers in returns from blackstrap molasses above the price of 6 cents per gallon rather than 8 cents per gallon as in previous price determinations.

(6) Deductions for acidity and frozen sugarcane were revised to recognize the higher acidities in new varieties of sugarcane.

(7) The analysis of the sucrose and purity of the normal juice were required to be made on the basis of trash-free sugarcane.

(8) Authority was provided for the sharing by producers and processors of the cost of a plan for joint supervision over inspecting, cutting and delivering sugarcane and of determining the trash content of sugarcane.

(d) *1950 price determination.* The 1950 price determination differs from the 1949 price determination in the following respects:

(1) *Basic price.* The basic price per ton of standard sugarcane has been increased from $1.045 to $1.06 for each one cent of the average price of raw sugar.

(2) *Trash.* Trash has been redefined to eliminate the trash tolerance permitted under the definition contained in the 1949 price determination.

(3) *Sucrose and purity test.* The analysis of sucrose and purity is to be made on the basis of actual sugarcane (i. e., as delivered by a producer to a processor) rather than on the basis of sugarcane free of trash as required in 1949.

(4) *Price of raw sugar and blackstrap molasses.* The definitions of the "price of raw sugar" and the "price of blackstrap molasses" have been clarified by specifically mentioning one of the "other factors" which is considered by the Department in determining whether the market prices of sugar and blackstrap molasses as reported by the Louisiana Sugar Exchange, Inc., reflect the true market value of these products. This factor is the failure of mills in Louisiana to report sales of sugar and molasses in accordance with the rules of such Exchange.

(5) *Transportation.* The provision for transportation allowances has been amended to cover those cases where, because of unusual circumstances, transportation costs are in excess of the maximum allowances of the mill.

As previously mentioned, the 1949 price determination contained many fundamental changes from prior determinations, all of which were directed at improving the economic condition of the industry. While marked improvements were made during the 1949 crop, the operations under the determination for that crop alone do not furnish an adequate basis on which to evaluate fully the effects of the changes on the industry under average operating conditions. For that reason and others mentioned herein, the changes made in the 1950 price determination are changes in the mechanics of determining prices. These changes will return to producers for standard sugarcane about the same percentage of total returns from sugar as they have received during the past five years.

Prior to 1949 it had become the general practice of the industry to accept sugarcane containing 3 percent trash as clean sugarcane. This practice together with other practices associated with mechanical harvesting, which had their inception during World War II, were primarily responsible for the deterioration of the quality of sugarcane delivered to processors. The effect of these practices contributed greatly to the reduction in the quantity of raw sugar recovered from a ton of sugarcane. In an effort to assist in the correction of these practices, the 1949 price determination provided for deductions of trash in excess of that normally delivered in the prewar period when sugarcane was hand cut, and provided a scale of premiums and discounts depending on the purity of normal juice which was considered a measure of the freshness of cane. Also, the pricing factor in the 1949 price determination was increased $0.015 as an incentive for the delivery of clean, fresh sugarcane. The increase in the pricing factor compensated in part for the partial elimination of the trash tolerance. It was found in practice, however, that the trash definition in the 1949 price determination was difficult to apply uniformly and equitably and resulted in numerous problems.

In this determination trash has been redefined to allow for no tolerance and the pricing factor increased to $1.06 per one cent of raw sugar price to compensate fully for the elimination of the former 3 percent trash tolerance.

During the 1949 crop season, it was also found that the requirements of testing sucrose and purity on the basis of clean sugarcane did not return to the producers who delivered clean, fresh sugarcane the maximum benefits to which they were entitled and, conversely, did not penalize to the extent it should, producers who delivered trashy, stale sugarcane. The change in the 1950 price determination to the making of sucrose and purity tests on an actual sugarcane basis will gear payments for sugarcane more closely to the quality of the sugarcane delivered by individual producers.

In a brief filed by the processor members of the Grower-Processor Committee, it was recommended that a provision be incorporated in the 1950 price determination which would require all mills to report sales of quotable contract units of blackstrap molasses to the Louisiana Sugar Exchange, Inc., in accordance with the rules of that Exchange. Although there is not authority under the act to require the reporting of data to a third person, the right is reserved in the determination to designate the price to be effective, in the event it is determined that the prices reported by the Exchange are not a true reflection of the market value of sugar and blackstrap molasses. One of the reasons under which this right would be exercised would be the failure of mills to report sales to the Exchange.

The revision in the provision covering transportation allowances was made to provide for greater flexibility in determining the division of transportation costs between the processor and producer. This change will permit the processor and producer to agree upon the sharing of transportation costs in cases where such costs are in excess of the maximum allowances of the mill.

At the public hearing, recommendations were made by producer and processor representatives to change the pricing factor and the sharing of returns from molasses. These recommendations have been examined carefully in the light of the results of a study of costs, returns, profits and related factors of the Louisiana industry for the crop years 1946 through 1949 conducted by the Department in 1950. On the basis of this examination there appears to be no basis, under the conditions expected to prevail during the 1950 crop, on which to alter the present sharing level.

In addition, a producer representative recommended at the public hearing changes in the purity premiums and discounts, trash deductions and penalties for frozen sugarcane. With respect to purity, a study was made by the Department of the relationships of actual purities at various sucrose levels for the 1949 crop to those prescribed in the 1949 price determination. Moreover, a comparison was made of the normal juice sucrose and purity tests as reported by processors for the last 13 crops with comparable sucrose and purity levels in the 1949 price determination. Although the study made of the 1949 crop operations indicated that, at certain levels of sucrose, purities were somewhat lower than those in the 1949 price determination, the results of

that crop alone do not afford an adequate basis for effecting adjustments. The comparison made of the results of the last 13 crops indicates that there was almost no difference in the average of the actual purity and the corresponding figure in the 1949 price determination. With respect to trash, it was recommended that no deduction be made for sugarcane containing 3 percent or less of trash with a descending trash tolerance for sugarcane containing more than 3 percent trash. This recommendation has not been adopted as it is considered a backward step rather than a constructive one. Instead of correcting the delivery of sugarcane of undesirable qualities, it probably would return the industry to a situation it has tried for several years to correct. The penalty table for frozen sugarcane was revised in 1949, based on tests conducted by the U. S. Department of Agriculture Experiment Station in Houma, Louisiana. Since no freeze has occurred following the adoption of the revised scale, it has not been possible to test the validity of this scale. The recommendation, therefore, has not been adopted.

Accordingly, I hereby find and conclude that the foregoing price determination is fair and reasonable and will effectuate the price provisions of the act.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 346]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.453 *Lemon Regulation 346*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on August 30, 1950; such meeting was held after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 3, 1950, and ending at 12:01 a. m., P. s. t., September 10, 1950, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 300 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation No. 345 (15 F. R. 5729), and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

PART 958—IRISH POTATOES GROWN IN COLORADO

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and upon the basis of the recommendation and information submitted by the administrative committee for Area No. 3, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amended limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure (5 U. S. C. 1001 et seq.) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of Irish potatoes grown in Area 3 in the State of Colorado.

Order, as amended. The provisions of paragraph (b) (1) of § 958.305 (15 F. R. 4244) are hereby amended to read as follows:

(1) During the period beginning at 12:01 a. m., m. s. t., September 2, 1950, and ending 12:01 a. m., m. s. t., June 1, 1951, no handler shall ship potatoes grown in Area No. 3, as such area is defined in Marketing Agreement No. 97 and Order No. 58, which do not meet the requirements of Regulation No. 1 limiting shipments to U. S. No. 2 or better grade (General Cull Regulation, published in the FEDERAL REGISTER, July 16, 1949, 14 F. R. 3979) and which are of sizes smaller than 2 inches minimum diameter or 4 ounce minimum weight, as such grades and sizes are defined in the United States Standards for Potatoes (14 F. R. 1955, 2161), including the tolerances provided therein: *Provided*, That the aforesaid limitations shall not be applicable to (i) potatoes shipped for seed purposes which have been officially certified as seed potatoes by the official Colorado seed certifying agency and which are in containers bearing official Colorado seed certification tags, and (ii) potatoes shipped for consumption by a charitable institution, for relief purposes, or for manufacturing purposes for conversion into by-products.

[Orange Reg. 338]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.484 *Orange Regulation 338*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on August 31, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 3, 1950, and ending at 12:01 a. m., P. s. t., September 10, 1950, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate District No. 1: Unlimited movement; (*b*) Prorate District No. 2: 1,150 carloads; (*c*) Prorate District No. 3: Unlimited movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1: No movement; (*b*) Prorate District No. 2: No movement; (*c*) Prorate District No. 3: No movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as given to the respective term in § 966.107 of the current rules and regulations (14 F. R. 6588) contained in this part.

Orange Regulation 332 (7 CFR 966.478 15 F. R. 3863) fixes the sizes of designated oranges which may be handled during the aforesaid period.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 1st day of September 1950.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

STREPTOMYCIN-POLYMYXIN-BACITRACIN TABLETS; MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. and Sup., 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 141.1 et seq., and 1949 Supp.) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq., and 1949 Supp.; 15 F. R. 1073, 4976) are amended as indicated below:

1. Part 141 is amended by adding the following new section:

§ 141.112 *Streptomycin - polymyxin-bacitracin tablets*—(a) *Tablets*—(1) *Potency*—(i) *Streptomycin content.* Using 12 tablets, proceed as directed in § 141.101, except paragraphs (j) and (k) of that section. Its content of streptomycin is satisfactory if it contains not less than 85% of the number of milligrams that it is represented to contain.

(ii) *Polymyxin content.* Using an aliquot of the solution prepared under subparagraph (1) (i) of this paragraph, proceed as directed in paragraph (b) of this section. Its content of polymyxin is satisfactory if it contains not less than 85% of the number of units that it is represented to contain.

(iii) *Bacitracin content.* Using an aliquot of the solution prepared under subparagraph (1) (i) of this paragraph, proceed as directed in § 141.403 (a), except the last sentence of that paragraph and except that sufficient semi-carbazide 0.5% solution (pH 6.5–7.0) is added to inactivate (1 hour at room temperature) the streptomycin contained in the solution. Its content of bacitracin is satisfactory if it contains not less than 85% of the number of units that it is represented to contain.

(2) *Moisture.* Proceed as directed in § 141.5 (a).

(b) *Polymyxin used in making the tablets*—(1) *Potency*—(i) *Cylinders (cups).* Use cylinders described under § 141.1 (a).

(ii) *Culture medium.* Using ingredients that conform to the standards prescribed, if any, by the U. S. P. or N. F., make nutrient agar for the seed and base layers:

Pancreatic digest of casein	15.0 gm.
Papaic digest of soybean	5.0 gm.
Sodium chloride	5.0 gm.
Agar	15.0 gm.
Distilled water, q. s	1,000.0 ml.

In lieu of preparing the medium from the individual ingredients as specified, it may be prepared from a dehydrated mixture which, when reconstituted with distilled water, has the same composition as such medium. Minor modifications of the specified individual ingredients are permissible if the resulting medium possesses growth-promoting properties at least equal to the medium described.

(iii) *Working standard.* Weigh out a sufficient quantity of the working standard (obtained from the Food and Drug Administration) and make a convenient stock solution by diluting with glycine buffer, which is prepared as follows:

Glycine	3.5 gm.
Sodium chloride	3.0 gm.
Distilled water, q. s	1,000.0 ml.

(Adjust to pH 2.0 with concentrated HCl.)

(iv) *Standard curve.* Prepare daily a standard curve as directed in § 141.101 (d), using solutions of the polymyxin working standard in glycine buffer (described under subdivision (iii) of this subparagraph) in concentrations of 200, 400, 600, 800, 1,000, 1,200, 1,400, 1,600, 1,800, and 2,000 units per milliliter. The 1,000 units-per-milliliter concentration is used as the reference point.

(v) *Preparation of test organism.* The test organism is Brucella bronchiseptica (American Type Culture Collection 4617) which is maintained on agar described under subdivision (ii) of this subparagraph. Prepare the inoculum by transferring the culture from the agar slant into sterile broth, and incubate overnight at 37° C. Prepare the broth used as follows:

Pancreatic digest of casein	17.0 gm.
Papaic digest of soybean	3.0 gm.
Sodium chloride	5.0 gm.
Dipotassium phosphate	2.5 gm.
Dextrose	2.5 gm.
Distilled water, q. s	1,000.0 ml.

For the seed layer use approximately a 0.5% inoculum.

(vi) *Preparation of plates.* Using the agar described in subdivision (ii) of this subparagraph, prepare the plates as described in § 141.101 (g).

(vii) *Assay.* Dissolve volumetrically into the sterile glycine buffer described in subdivision (iii) of this subparagraph the sample to be tested to a final concentration of 1,000 units (estimated) per milliliter and proceed as directed in § 141.101 (h) and (i).

(2) *Toxicity.* Proceed as directed in § 141.4, using 0.5 ml. of a solution prepared by diluting the sample to approximately 1,200 units per milliliter with physiological salt solution.

2. In § 146.49 *Ephedrine penicillin tablets*, subparagraph (1) (iii) of paragraph (c) *Labeling* is amended to read as follows:

(iii) The statement "Expiration date ---------," the blank being filled in with the date which is 24 months after the month during which the batch was certified;

3. Part 146 is amended by adding the following new section:

§ 146.107 *Streptomycin - polymyxin-bacitracin tablets*—(a) *Standards of identity, strength, quality, and purity.* Streptomycin-polymyxin-bacitracin tablets are tablets composed of streptomycin, polymyxin B, and bacitracin, with or without the addition of one or more suitable and harmless buffer substances, diluents, binders, lubricants, colorings, and flavorings. The potency of each tablet is not less than 250 mg. of streptomycin, 200,000 units of polymyxin B, and 5,000 units of bacitracin. Its moisture content is not more than 3%. The streptomycin used conforms to the standards prescribed therefor by § 146.101 (a), except subparagraphs (2) and (4) of that paragraph. The polymyxin used is produced by the growth of Bacillus polymyxa, has a potency of not less than 3,800 units per milligram, and it is nontoxic. The bacitracin used conforms to the standards prescribed therefor by § 146.401 (a), except subparagraphs (1), (2), and (4) of that paragraph, but its potency is not less than 30 units per milligram. Each other substance used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* Unless each tablet is enclosed in a foil or plastic film and such enclosure is a tight container as defined by the U. S. P., except the provision that it shall be capable of tight reclosure, the immediate container shall be a tight container as so defined. The immediate container may also contain a desiccant separated from the tablets by a plug of cotton or other like material. The composition of the immediate container, or of the foil or film enclosure, shall be such as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package shall bear, on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark;

(ii) The number of milligrams of streptomycin in each tablet of the batch;

(iii) The number of units of polymyxin B in each tablet of the batch;

(iv) The number of units of bacitracin in each tablet of the batch; and

(v) The statement "Expiration date ---------," the blank being filled in with the date which is 18 months after the month during which the batch was certified.

(2) On the outside wrapper or container:

(i) Unless it is intended solely for veterinary use and is conspicuously so labeled, the statement "Caution: To be dispensed only by or on the prescription of a ---------," the blank being filled in with the word "physician" or "dentist" or "veterinarian" or any combination of two or all of these words, as the case may be; and

(ii) Unless it is intended solely for veterinary use and is so labeled, a reference specifically identifying a readily available medical publication containing directions and precautions (including contraindications and possible sensitization) adequate for the use of such tablets, or a reference to a brochure or other printed matter containing such directions and precautions, and a statement that such brochure or printed matter will be sent on request.

(3) On the circular or other labeling within or attached to the package, if it is intended solely for veterinary use, directions and precautions adequate for the use of such tablets, including:

(i) Clinical indications;

(ii) Dosage and administration;

(iii) Contraindications; and

(iv) Untoward effects that may accompany administration.

If two or more such immediate containers are in such package the number of circulars or other labeling shall not be less than the number of such containers.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch of streptomycin-polymyxin-bacitracin tablets shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless they were previously submitted) the dates on which the latest assays of the streptomycin, polymyxin, and bacitracin used in making such batch were completed, the potency of each tablet, the quantity of each ingredient used in making the batch, the date on which the latest assay of the drug comprising such batch was completed, and a statement that each ingredient used in making the batch conforms to the requirements prescribed therefor by this section.

(2) Except as otherwise provided in subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; average potency of streptomycin, polymyxin, and bacitracin per tablet, and average moisture.

(ii) The streptomycin used in making the batch; potency, toxicity, histamine, moisture, and pH.

(iii) The polymyxin used in making the batch; potency and toxicity.

(iv) The bacitracin used in making the batch; potency, toxicity, moisture, and pH.

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch; one tablet for each 5,000 tablets in the batch, but in no case less than 30 tablets or more than 100 tablets, collected by taking single tablets at such intervals throughout the entire time of tableting that the quantities tableted during the intervals are approximately equal.

(ii) The streptomycin used in making the batch; five packages containing approximately equal portions of not less than 0.5 gm. each, packaged in accordance with the requirements of § 146.101 (b).

(iii) The polymyxin used in making the batch; five packages, each containing approximately equal portions of not less than 0.5 gm.

(iv) The bacitracin used in making the batch; six packages, each containing approximately equal portions of not less than 0.5 gm., packaged in accordance with the requirements of § 146.401 (b).

(v) In case of an initial request for certification, each other ingredient used in making the batch; one package of each, containing approximately 5 gm.

(4) No result referred to in subparagraph (2) (ii), (iii), and (iv) of this paragraph, and no sample referred to in subparagraph (3) (ii), (iii), and (iv) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch of streptomycin-polymyxin-bacitracin tablets under the regulations in this part shall be:

(1) $1.00 for each tablet in the sample submitted in accordance with paragraph (d) (3) (i) of this section; $4.00 for each package in the samples submitted in accordance with paragraphs (d) (3) (ii), (iii), (iv), and (v) of this section; and

(2) If the Commissioner considers that investigations, other than examination of such tablets and packages are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

4. In § 146.405 *Bacitracin with vasoconstrictor* * * *, paragraph (a) *Standards of identity, strength, quality, and purity*, first sentence, is amended to read as follows: "Bacitracin with vasoconstrictor is a dry mixture of bacitracin and a suitable vasoconstrictor, with or without suitable and harmless buffer substances, preservatives, colorings, and flavorings, or it is a packaged combination of one immediate container of bacitracin and one immediate container of a solution of a suitable vasoconstrictor, with or without suitable and harmless buffer substances, preservatives, colorings, and flavorings."

This order, which provides for certification of a new antibiotic product, streptomycin-polymyxin-bacitracin tablets, for an increase in the expiration date of ephedrine penicillin tablets from 12 to 24 months, and for the use of colorings and flavorings in the product bacitracin with vasoconstrictor, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will be benefited by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to public interest, and I so find, since it was drawn in collaboration with interested members of the affected industries, and since it would be against public interest to delay the marketing of streptomycin-polymyxin-bacitracin, to provide for an increase in the expiration

date of ephderine penicillin tablets from 12 to 24 months, and to provide for the use of colorings and flavorings in the product bacitracin with vasoconstrictor.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter D—Employment Taxes

[T. D. 5805]

PART 402—EMPLOYEES' TAX AND EMPLOYERS' TAX UNDER THE FEDERAL INSURANCE CONTRIBUTIONS ACT

PART 403—EXCISE TAX ON EMPLOYERS UNDER THE FEDERAL UNEMPLOYMENT TAX ACT

PAYMENTS FOR TRAVELING AND OTHER EXPENSES; DETERMINATION WITH RESPECT TO WAGES

On April 19, 1950, notice of proposed rule making, regarding amendments to the employment tax regulations with respect to whether payments for traveling and other expenses constitute wages, was published in the FEDERAL REGISTER (15 F. R. 2199). No objection to the rules proposed having been received, the amendments set forth below are hereby adopted.

PARAGRAPH 1. Section 402.227 of Regulations 106, as amended by Treasury Decision 5502, approved March 18, 1946, and by Treasury Decision 5566, approved June 23, 1947 (26 CFR 402.227), and § 403.227 of Regulations 107, as amended by Treasury Decisions 5502 and 5566 (26 CFR 403.227), are each further amended as follows:

A. By adding after the sixth paragraph of § 402.227 (a) and of § 403.227 (a) the following:

Amounts paid specifically—either as advances or reimbursements—for traveling or other bona fide ordinary and necessary expenses incurred or reasonably expected to be incurred in the business of the employer are not wages. Traveling and other reimbursed expenses must be identified either by making a separate payment or by specifically indicating the separate amounts where both wages and expense allowances are combined in a single payment.

B. By striking out subparagraph (2) of § 402.227 (b) and of § 403.227 (b) and by renumbering subparagraphs (3) and (4) of such sections as subparagraphs (2) and (3), respectively.

PAR. 2. The amendments made by this Treasury decision shall be applicable only with respect to remuneration paid after December 31, 1949; except that the amendments made by this Treasury decision shall not affect any determination of the amount of wages paid before October 1, 1950, if such determination would be proper but for the amendments made by this Treasury decision.

(53 Stat. 178, 188, 467; 26 U. S. C. 1429, 1609, 3791)

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

Approved: August 30, 1950.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

a. In § 127.3 *Letters and letter packages* (39 CFR 127.3; 15 F. R. 295, 2337) amend paragraph (f) by deleting "(See note.)" following "Spain" in the alphabetical list of countries.

b. In § 127.20 *Air mail service* (39 CFR 127.20; 15 F. R. 1461, 2037, 4498, 4499) amend paragraph (i) by inserting "Spain" between "Salvador (El)" and "Surinam" in the list of countries shown therein.

c. In § 127.210 *Austria* (39 CFR 127.210; 15 F. R. 5473) amend paragraph (b) (4) by the addition of subdivision (vi) to read as follows:

(vi) Shipments of postage stamps which exceed 100 schillings in value will be delivered only if the addressee presents an importation permit issued by the Austrian Ministry of Finance.

d. In § 127.227 *Canada* (39 CFR 127.227) make the following changes:

1. Amend paragraph (b) (3) by redesignating subdivision (xv) as subdivision (xvi) and by inserting a new subdivision (xv) to read as follows:

(xv) Parcels containing bees must not be accepted for insurance.

2. Amend paragraph (b) (5) by deleting subdivisions (iv) and (v) and by amending subdivision (xvi) to read as follows:

(xvi) Parcel post packages, except packages of bees, are not accepted by the Canadian authorities outside of mail sacks.

e. In § 127.288 *Korea* (39 CFR 127.288) insert the following immediately after the section caption: "All regular mail and parcel post service temporarily suspended."

f. In § 127.356 *Spain* (39 CFR 127.356) amend paragraph (a) (5) to read as follows:

(5) *Air mail service.* (i) Continental Spain only: Postage rates: Letters, letter-packages and post cards, 15 cents per half ounce. Air-letter sheets, 10 cents each. Other regular-mail articles, 43 cents for the first 2 ounces and 22 cents for each additional 2 ounces.

TITLE 43—PUBLIC LANDS: INTERIOR

Subtitle A—Office of the Secretary of the Interior

PART 2—RECORDS AND TESTIMONY

CHARGES

Section 2.4, Part 2, Subtitle A, is revised to read as follows:

§ 2.4 *Charges.* (a) The Chief Clerk of the Department shall establish the charges to be collected by all bureaus and offices from the public for furnishing copies of official records. Such charges shall be equal to the cost of producing the copies, plus the cost of administrative services involved in handling the records for such purpose.

(b) A charge of 25 cents may be made for each certificate or verification attached to authenticated copies of official records furnished to the public.

(c) No charge shall be made for furnishing unauthenticated copies of any rules, regulations, or instructions printed by the Government for gratuitous distribution.

(d) No charge shall be made for the making or verifying of copies of official records which are required for official use by the officers of any branch of the Government.

(e) Money received from the collection of charges fixed under this section shall be deposited in the Treasury to the credit of the appropriation current and chargeable for the cost of furnishing the copies.

(f) This section does not apply to the establishment of fees or charges for copies of records pertaining to the enrollment of members of the Five Civilized Tribes, as authorized by section 8 of the Act of April 26, 1906 (34 Stat. 136); for certified copies, issued by the Secretary, of the official character of an officer of the Department; or for copies of aerial or other photographs and mosaics sold by the Geological Survey. This section does not apply to other charges specifically established by statute.

(Sec. 2. 37 Stat. 498; 5 U. S. C. 480. Interpret or apply sec. 1, 37 Stat. 497, Pub. Law 688, 81st Cong.; 5 U. S. C. 488)

OSCAR L. CHAPMAN,
Secretary of the Interior.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter E—Alaska Wildlife Protection

PART 46—TAKING ANIMALS, BIRDS, AND GAME FISHES

MOOSE AND CARIBOU

Basis and purposes. In the issuance of miscellaneous amendments to the regulations relating to the taking of animals, birds, and game fishes of Alaska, which amendments were signed by the Secretary of the Interior on May 3, 1950, and published in 15 F. R. 2777 on May 10, 1950, two errors were made in describing areas heretofore closed to the hunting of moose and caribou. These areas are particularly important to the protection of moose and caribou and I have determined that the following amendments to correct the existing regulations should be adopted. Since the amendments simply continue as closed to hunting certain areas that would have remained closed except for the circumstances related and in view of the importance of protecting the stocks of moose and caribou, I have determined that these amendments should become effective immediately upon publication in the FEDERAL REGISTER.

1. The second paragraph of § 46.104 *Moose*, which described the "Palmer" area is amended to read as follows:

Beginning at Mile 72 Alaska Railroad, including all of the northern drainage into Turnagain Arm, all of the drainage into Knik Arm, all of the drainage of the Little Susitna River from its headquarters to its intersection with the Alaska Railroad, all of the eastern drainage of the Little Susitna River from the Railroad to its mouth, all of the drainage into Cook Inlet between the mouth of Little Susitna River and Knik Arm. Limit, 1 a year.

2. Section 46.105 is amended as follows so as to include as closed to the hunting of caribou the area lying 5 miles on each side of the Steese Highway on 12 Mile Summit between Mileposts 84 and 89:

§ 46.105 *Caribou.* (Except calves.)

South of a line formed by the Alaska Range and Ahklun Mountains from the Canadian border on the east to Cape Newenham on the west (but not in the Alaska Peninsula and Mt. Sanford areas as described in §§ 46.198 and 46.199), September 1 to September 30 only. Limit, 1 a year. In the area bounded by the Alaska Range and Ahklun Mountains on the south and the Arctic Circle on the north (but not in the Mt. Sanford area as described in § 46.199, nor in the area lying 5 miles on each side of the Steese Highway on 12 Mile Summit between Mileposts 84 and 89 and on Eagle Summit between Mileposts 102 and 112, nor within 20 miles of the east side of the Steese Highway between Faith Creek and Milepost 112), September 1 to October 15 and December 1 to December 10. Limit, 1 a year, North of the Arctic Circle, August 20 to February 28. Limit, 3 a year.

OSCAR L. CHAPMAN,
Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 958]

IRISH POTATOES GROWN IN COLORADO

NOTICE OF PROPOSED BUDGET AND RATE OF ASSESSMENT

Notice is hereby given that the Secretary of Agriculture is considering the approval of the budget of expenses and rate of assessment hereinafter set forth, which were recommended by the area committee for Area No. 1, established pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR 958.1 et seq.) regulating the handling of Irish potatoes grown in the State of Colorado, effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq., 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051).

Consideration will be given to any data, views, or arguments pertaining thereto which are filed in triplicate with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 958.206 *Budget of expenses and rate of assessment, Area No. 1.* The expenses necessary to be incurred by the area committee for Area No. 1, established pursuant to Marketing Agreement No. 97 and Order No. 58, to enable such committee to perform its functions, pursuant to provisions of the aforesaid marketing agreement and order and regulations duly issued thereunder, during the fiscal period ending May 31, 1951, will amount to $1,800.00.

The rate of assessment to be paid by each handler who first ships potatoes from Area No. 1 shall be six-tenths of one cent per hundredweight of potatoes shipped by him therefrom as the first shipper thereof during such fiscal period: *Provided*, That no assessment shall be paid for a shipment or shipments of potatoes for consumption by a charitable institution or institutions or for distribution for relief purposes or for distribution by a relief agency or agencies.

Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051)

Done at Washington, D. C., this 30th day of August 1950.

[Docket No. AO 166 A12]

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND A PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of

1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Cincinnati, Ohio, on March 13–14, 1950, pursuant to notice thereof which was issued on March 3, 1950 (15 F. R. 1240).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on August 7, 1950, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5158; F. R. Doc. 50-6995).

Ruling on exceptions. Within the period reserved for filing exceptions, to the recommended decision, exceptions were submitted on behalf of producers and certain handlers. These exceptions have been fully considered and to the extent to which the findings and conclusions of this decision are at variance with the exceptions, such exceptions are hereby overruled.

The material issues and the findings and conclusions of the recommended decision (15 F. R. 5158, F. R. Doc. 50-6995) are hereby approved and adopted as the material issues and the findings and conclusions of this decision as if set forth in full herein, subject to the following revisions:

1. Delete the fifth paragraph beginning in column 1, 15 F. R. 5159, F. R. Doc. 50-6995, and substitute therefor the following:

More particularly emergency milk should be defined as milk or skim milk other than producer milk in excess of the milk or skim milk, respectively, used in Class III milk as presently defined (or in Class III milk and Class IV milk as herein amended) received by a handler during any month when the receipts of producer milk or skim milk by such handler are less than 120 percent of such handler's Class I utilization.

2. Delete the third paragraph beginning in column 2, 15 F. R. 5159, F. R. Doc. 50-6995, and substitute therefor the following:

In order to avoid misunderstanding as to what products are included in Class III milk, the various products should be definitely named. Accordingly, whipped cream, whipped cream products, eggnog and cottage cheese are specified as products of Class III. These products (except creamed cottage cheese) have heretofore been in that class. Creamed cottage cheese has been in Class II, but only to the extent of the milk equivalent of the butterfat contained in it. The additional skim milk contained in the cheese was a residual remaining from the classification of butterfat used for other purposes. These products are not required to be made from Cincinnati approved Grade A milk in order to be sold in the marketing area. For this reason they are classified appropriately in Class III.

Determination of representative period. The month of May 1950 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order regulating the handling of milk in the Cincinnati, Ohio, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as hereby amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Milk in the Cincinnati, Ohio, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Cincinnati, Ohio, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 29th day of August 1950.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order,[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the Cincinnati, Ohio, Marketing Area*

§ 965.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Cincinnati, Ohio, on March 13–14, 1950, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

DEFINITIONS

§ 965.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 965.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 965.3 *Cincinnati, Ohio, marketing area.* "Cincinnati, Ohio, marketing area," hereinafter called the "marketing area," means the city of Cincinnati, Ohio, and the territory geographically included within the boundary lines of Hamilton County, Ohio.

§ 965.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 965.5 *Route.* "Route" means a delivery (including a sale from a store) of milk, flavored milk drinks, or cream in fluid form to a wholesale or retail stop(s) other than to a milk processing plant(s).

§ 965.6 *Fluid milk plant.* "Fluid milk plant" means a plant or other facilities used in preparation or processing of milk

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

all or a portion of which is disposed of on routes operating wholly or partially in the marketing area.

§ 965.7 *Pool plant.* "Pool plant" means:

(a) A fluid milk plant as described in § 965.6 located in the marketing area;

(b) A fluid milk plant located outside the marketing area and disposing of not less than 10 percent of its entire route disposition of Class I milk on routes operating wholly or partially within the marketing area;

(c) A plant, receiving milk from dairy farms, which the market administrator determines has moved to a plant(s) described under paragraphs (a) or (b) of this section an amount of milk equal to not less than one percent of the total Class I utilization of plants described in paragraphs (a) and (b) of this section during the second month preceding such movement as specified in the following schedule:

Months milk is moved:	*Months plant is pool plant*
One of the months of October or November.	November.
Two of the months of October, November, December.	December.
Three of the months of October, November, December, January.	January through October.

Provided, That upon written request to the market administrator by the operator of a plant which is a pool plant pursuant to this paragraph for the discontinuance of such plant as a pool plant, such plant shall cease to be a pool plant in the first month, following such request, during which no milk is moved to a plant described in paragraphs (a) or (b) of this section and shall not become a pool plant until such plant again meets the requirements for a pool plant pursuant to this paragraph.

§ 965.8 *Producer.* "Producer" means any person operating a dairy farm, producing milk under a dairy farm permit issued by an appropriate health authority, which is received at a "pool plant" described in § 965.7 or diverted from a pool plant by a cooperative association: *Provided,* That any producer whose milk has been approved as "Grade A milk" by an appropriate health authority for any month, or portion thereof, shall be a "Grade A producer" for such month, and any producer whose milk has not been so approved shall be a "Grade B producer."

§ 965.9 *Handler.* "Handler" means any person who: (1) Operates a pool plant; or (2) operates a nonpool plant and either directly or indirectly disposes of Class I or Class II milk, on a route extending into the marketing area; or any cooperative association with respect to the milk of any producer(s) whose milk has been received previously at a pool plant described in § 965.7 which milk has been caused to be diverted by a cooperative association, to a plant from which no milk is disposed of in the marketing area, if payment therefor has been collected by such association, and such milk shall be deemed to have been received from producers by such cooperative association.

§ 965.10 *Producer milk.* "Producer milk" means milk produced by one or more producers under the conditions set forth in § 965.8.

§ 965.11 *Emergency milk.* "Emergency milk" means milk or skim milk other than producer milk in excess of the milk and skim milk, respectively, used in Class III milk and Class IV milk received by a handler under a permit to receive such milk or skim milk issued to him by proper health authorities during months when receipts of producer milk or skim milk of the individual handler are less than 120 percent of such handlers' Class I utilization of milk or skim milk, respectively.

MARKET ADMINISTRATOR

§ 965.20 *Designation.* The agency for the administration of this part shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 965.21 *Powers.* The market administrator shall:

(a) Administer the terms and provisions of this part; and

(b) Report to the Secretary complaints of violations of the provisions of this part.

§ 965.22 *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Within 45 days following the date upon which he enters his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions of this part;

(c) Pay, out of the funds provided by § 965.74, the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(d) Keep such books and records as will clearly reflect the transactions provided for in this part, and surrender the same to his successor or to such other person as the Secretary may designate;

(e) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 2 days after the date upon which he is required to perform such acts, has not made reports pursuant to § 965.30 or has not made payments pursuant to §§ 965.70 and 965.72;

(f) Promptly verify the information contained in the reports submitted by handlers; and

(g) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times.

(h) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(1) On or before the 5th day after the end of such month, the minimum class prices computed pursuant to § 965.51 and the butterfat differential computed pursuant to § 965.52; and

(2) On or before the 20th day after the end of such month the uniform price computed pursuant to § 965.64, and the butterfat differential computed pursuant to § 965.52.

REPORTS

§ 965.30 *Reports of handlers to market administrator.* Each handler, under his own signature or under that of a person certified by such handler to the market administrator as being authorized to sign the reports required by this section, shall report to the market administrator, in the detail and on forms prescribed by the market administrator as follows:

(a) On or before the 10th day after the end of each month, each handler who receives milk from producers shall report with respect to all milk, skim milk, cream and milk products received by him during the month:

(1) The receipts at each plant from producers, from his own production, and from other handlers;

(2) The receipts of emergency milk, the date or dates upon which such milk was received during the month, the plant from which such milk was shipped, the price per hundredweight paid or to be paid for such milk;

(3) The receipts from any other source together with the butterfat content;

(4) The utilization of all receipts during the month;

(5) The name and address of each new producer; and

(6) His producer pay roll, which shall show for each producer the total receipts of milk with the average butterfat test thereof, the amount of the advance payment to such producer made pursuant to § 965.70 and the deductions and charges made by the handler.

(b) Each handler who receives no milk from producers shall make reports to the market administrator at such times and in such manner as the market administrator may request.

§ 965.31 *Verification of handler reports.* Each handler shall make available to the market administrator or to his agent, or to such other person as the Secretary may designate, those records which are necessary for the verification of the information contained in the reports submitted pursuant to § 965.30, and those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer.

§ 965.32 *Reports of market administrators to cooperative associations.* On or before the 13th day after the end of each month, the market administrator shall report to each cooperative association the amount and class utilization of milk caused to be delivered by such association, either directly or from producers who have authorized such association to receive payments for them under § 965.73 (b), to each handler to whom the cooperative sells milk. For the purpose of this report the milk so received shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were used in each class.

§ 965.33 *Records and facilities.* Each handler required to make reports to the market administrator shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of his operations and such facilities as, in the opinion of the market administrator are necessary to verify reports, or to ascertain the correct information with respect to (1) the receipts and utilization of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (2) the weights and tests for butterfat, and for other contents, of all milk and milk products handled; and (3) payments to producers and cooperative associations.

§ 965.34 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies a handler in writing that the retention of such books and records or of specified books and records, is necessary in connection with a proceeding under section 8c (15) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 965.40 *Basis of classification.* Milk received by each handler, including milk produced by him, shall be classified by the market administrator in the classes set forth in § 965.41 subject to the provisions of §§ 965.42, 965.43 and 965.44.

§ 965.41 *Class of utilization.* The classes of utilization of milk and butterfat shall be as follows:

(a) Class I milk shall be all milk and skim milk disposed of in the form of milk and milk drinks and any product containing less than 8.0 percent butterfat not specified in Class II milk, Class III milk or Class IV milk and all unaccounted for butterfat in excess of 2½ percent of receipts of butterfat from producers and emergency milk.

(b) Class II milk shall be all milk and skim milk disposed of as buttermilk, cream for consumption as cream, and any product containing 8.0 percent or more of butterfat not specified in Class I milk, Class III milk or Class IV milk.

(c) Class III milk shall be all milk (1) disposed of as plain or sweetened, condensed or evaporated milk, spray or roller powder, margarine, animal feed, all cheese, commercially manufactured candy, eggnog, and whipped cream and whipped cream substitutes; (2) used to produce ice cream, ice cream mix and frozen desserts; (3) dumped or spilled; and (4) inventory variations, and butterfat not accounted for to the extent of 2½ percent of total receipts of butterfat from producers and emergency milk.

(d) Class IV milk shall be all milk disposed of as butter.

§ 965.42 *Responsibility of handlers and reclassification of milk.* (a) In establishing the classification as required in §§ 965.41 and 965.43, the burden rests upon the handler to account for all milk and milk products received by him and to prove to the market administrator that such milk, or milk products, should not be classified as Class I milk.

(b) Any milk or milk product classified in one class shall be reclassified if such milk or milk product is later used or disposed of by any handler in another class, in accordance with such later use or disposition.

§ 965.43 *Transfers between pool plants and between pool plants and plants other than pool plants.* (a) Milk and skim milk transferred from a pool plant to another pool plant shall be Class I milk, and cream so transferred shall be Class II milk, unless another class use is indicated in writing to the market administrator by the operators of both plants on or before the 10th day after the end of the month within which such transfer was made: *Provided,* That if either or both plants have received milk other than producer milk or emergency milk, the milk, skim milk or cream so transferred shall be classified at both plants so as to allocate the highest possible utilization to producer milk.

(b) Milk or skim milk transferred from a pool plant to a plant other than a pool plant shall be classified as Class I milk and cream so transferred shall be Class II milk: *Provided,* That if the operator of the pool plant on or before the 10th day after the end of the month furnishes to the market administrator a statement, which is signed by the operators of both plants, that such milk, skim milk, or cream was used in a lower class, such milk, skim milk, or cream shall be classified accordingly, subject to verification by the market administrator: *And provided further,* That in making such verification for months other than April, May, June, and July, the market administrator will assign milk, skim milk or cream so transferred to the highest use classification in the plant of the receiver.

§ 965.44 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of butterfat in producer milk and in milk other than producer milk.

§ 965.45 *Computation of milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for obvious errors the report submitted by each handler and compute the total pounds of milk and butterfat, respectively, in Class I milk, Class II milk, Class III milk, and Class IV milk for such handler.

§ 965.46 *Allocation of milk and butterfat classified.* The pounds of milk and butterfat remaining in each class after making the following computations shall be the pounds of milk and butterfat respectively in such class allocated to producer milk;

(a) The pounds of milk in Class III shall be decreased by any excess of utilization of all classes over total receipts and shall be increased by any excess of total receipts over total utilization of all classes.

(b) Subtract from the pounds of butterfat in Class III the pounds of producer butterfat in plant shrinkage which is not in excess of 2½ percent of all butterfat received from producers and in emergency milk.

(c) Subtract from the remaining pounds of milk and butterfat, respectively, in each class, the pounds of milk and butterfat, respectively, received from other handlers, in the classes transferred pursuant to § 965.43.

(d) Subtract from the remaining pounds of milk and butterfat, respectively, in series beginning with the lowest-priced use available, the pounds of milk and butterfat, respectively, except emergency milk, received other than producer milk.

(e) Add to the Class III butterfat the pounds of butterfat subtracted pursuant to paragraph (b) of this section.

(f) Subtract prorata out of the remaining pounds of milk and butterfat, respectively, in each class, the total pounds of emergency milk and butterfat.

(g) If the pounds of butterfat remaining in all classes exceed the pounds of butterfat received from producers, subtract such excess from the remaining pounds of butterfat in each class in series beginning with the lowest priced class.

MINIMUM PRICES

§ 965.50 *Basic formula price.* The basic formula price per hundredweight of milk to be used in computing the minimum prices for Class I milk and Class II milk shall be the higher of the prices computed by the market administrator pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic (or field) prices per hundredweight ascertained to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices are reported to the market administrator or to the United States Department of Agriculture.

Company and Location
Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.

Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by the market administrator by adding together the plus amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply by 3.5 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month for which payment is to be made, and add 20 percent thereof;

(2) From the simple average as computed by the market administrator of the weighted average of carlot prices per pound for nonfat dry milk solids, spray, and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the immediately preceeding month through the 25th day of the current month by the United States Department of Agriculture, deduct 5.5 cents and multiply the result by 8.2.

§ 965.51 *Class prices.* Each handler shall pay, at the time and in the manner set forth in § 965.72, not less than the following prices per hundredweight, on the basis of milk of 3.5 percent butterfat content, for the respective quantities of milk in each class computed pursuant to § 965.46.

(a) The price for Class I milk shall be the basic formula price plus $1.05 for the months of April through July and $1.35 for the months of August through March.

(b) The price for Class II milk shall be the basic formula price plus $0.60 for the months of April, through July and $0.90 for the months of August through March.

(c) The price for Class III milk shall be the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph.

(1) The price as computed pursuant to § 965.50 (b);

(2) The simple average, as computed by the market administrator, of the basic or field prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants:

M and R Dietetic Laboratories, Inc., Chillicothe, Ohio.
Carnation Milk Company, Hillsboro, Ohio.
Nestles Milk Products, Inc., Greenville, Ohio.
Nestles Milk Products, Inc., (Osgood Milk Company) Osgood, Indiana.
Carnation Milk Company, Maysville, Kentucky.

(d) The price for Class IV milk shall be the price of Class III milk less 17.5 cents.

§ 965.52 *Butterfat differentials to handlers.* If the weighted average butterfat test of producer milk which is classified in any class, respectively, for any handler, is more or less than 3.5 percent, there shall be added to or subtracted, as the case may be, from the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential calculated by the market administrator as follows: For Class I, Class II and Class III, determine the percent of the alternate basic formula price as computed pursuant to § 965.50 (b) represented by the sum computed pursuant to § 965.50 (b) (1), apply the percentage so determined to the respective Class I, Class II and Class III prices for 3.5 percent milk computed pursuant to § 965.51 (a), (b), and (c) and divide by 35, the resulting sum (to the nearest hundredth of a cent) shall be the handler butterfat differential for each class, respectively. The handler butterfat differential for Class IV milk shall be such differential for Class III milk less 0.5 cent.

DETERMINATION OF UNIFORM PRICE

§ 965.60 *Computation of value of milk for each handler.* The value of the milk received from producers during each month by each handler shall be a sum of money computed by the market administrator by multiplying the hundredweight of milk in each class by the applicable class prices, subject to the butterfat differential provided in § 965.52 and adding any amount resulting from the following computation: Multiply the pounds of butterfat subtracted pursuant to § 965.46 (g) by the price for the applicable class adjusted by the applicable butterfat differential.

§ 965.61 *Computation of obligation to the producer-settlement fund for handlers operating a fluid milk plant which is not a pool plant.* For each month, the obligation to the producer-settlement fund for each handler operating a fluid milk plant which is not a pool plant shall be computed by the market administrator by multiplying by the difference between the Class I and the Class III prices, the hundredweight of milk disposed of as Class I milk by such handler on routes operating within the marketing area less the hundredweight of Class I milk purchased by such handler during the month from a pool plant. On or before the thirteenth day after the end of each month, the market administrator shall notify each such handler of the amount so computed for him subject to adjustment pursuant to § 965.62 and on or before the 17th day after the end of each month each such handler shall make payment to the market administrator.

§ 965.62 *Correction of errors.* If, in the verification of reports submitted by a handler, the market administrator discovers errors in such reports which result in payment due the producer-settlement fund or the handler for any previous month, there shall be added or subtracted as the case may be, the amount necessary to correct such errors.

§ 965.63 *Notification to handler of the value of his milk.* On or before the thirteenth day after the end of each month, the market administrator shall notify each handler of the value of milk computed for him in accordance with § 965.60 and of any adjustments pursuant to § 965.62.

§ 965.64 *Computation of uniform prices for Grade A producers and Grade B producers.* (a) Computation of uniform price for Grade A producers. For each month, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from Grade A producers as follows:

(1) Add together the values of milk as computed pursuant to § 965.60 for handlers other than those in arrears in payment (other than in payment for any amount pursuant to § 965.62) to the producer-settlement fund as required by § 965.72 for the preceding month;

(2) Subtract, if the weighted average butterfat test of all milk received from producers by handlers whose milk is represented in the sum computed under subparagraph (1) of this paragraph, is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed as follows: Multiply the hundredweight of such milk by the difference of its weighted average butterfat test from 3.5 percent, and multiply the resulting amount by 50 cents if the average price of butter, described under § 965.50 (b) (1), was more than 40 cents but not more than 50 cents, such amount (50 cents) to be increased or decreased, as the case may be, by 10 cents for each 10-cent range in such price of butter above or below the range "more than 40 cents but not more than 50 cents;"

(3) Subtract an amount equivalent to the moneys retained pursuant to § 965.76;

(4) Add the unobligated balance in the producer-settlement fund;

(5) Add an amount computed by multiplying the total hundredweight of milk received from Grade B producers by $0.40;

(6) Divide by the total hundredweight of milk of all producers represented in the sum computed pursuant to subparagraph (1) of this paragraph; and

(7) Subtract from the figure obtained in subparagraph (6) of this paragraph not less than 4 cents or more than 5 cents per hundredweight for the purpose of retaining a cash balance to provide against errors in reports and in payments by handlers. The result shall be known as the uniform price per hundredweight for such month for milk (on the basis of 3.5 percent of butterfat) received from Grade A producers.

(b) Computation of uniform price for Grade B producers. For each delivery period, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from Grade B producers as follows: From the uniform price computed pursuant to paragraph (a) (7) of this section subtract 40 cents. The result shall be known as the uniform price per hundredweight for such month for milk (on the basis of 3.5 percent of butterfat) received from Grade B producers.

PAYMENT FOR MILK

§ 965.70 *Payments to producers.* On or before the 5th day after the end of each month, each handler shall pay, with respect to all milk received during the month, $1.00 per hundredweight of milk to each producer: *Provided*, That in the event the total amount of deductions and charges authorized by any producer against payments due such producer for the month next preceding is greater than the payment computed for such producer pursuant to § 965.73 (a) with respect to the milk received from such producer during such preceding month, the handler may deduct from the payment required by this section a sum equal to the difference between such amounts.

§ 965.71 *Producer-settlement fund.* The market administrator shall maintain a separate fund, known as the producer-settlement fund, in which he shall deposit all payments made pursuant to §§ 965.61 and 965.72 and from which he shall make all payments pursuant to § 965.73.

§ 965.72 *Payment to producer-settlement fund.* On or before the 17th day after the end of each month, each handler shall pay to the market administrator the amount of money which represents the value of milk for such month of which he is notified pursuant to § 965.63 less the amount paid out to each producer in accordance with § 965.70, and less the amount of the deductions and charges authorized by such producer which are itemized on the handler's producer pay roll: *Provided*, That in the calculation of the total amount of such deductions and charges to be subtracted, the deductions and charges to be considered with respect to each individual producer shall not be greater than an amount which, when added to the payment made to such producer in accordance with § 965.70 (inclusive of the deductions and charges authorized by § 965.70) will not exceed the total value of the milk received from such producer.

§ 965.73 *Payments from producer-settlement fund.* (a) For each month the market administrator shall compute the payment due each producer for milk received during such month from such producer by a handler who made the payments for such month pursuant to § 965.72 by multiplying the hundredweight of such milk by the uniform price computed pursuant to § 965.64 adjusted to the butterfat test of such milk by adding or subtracting, respectively, for each one-tenth of one percent that the butterfat content of such milk is above or below 3.5 percent one-tenth of the rate provided in § 965.64 (a) (2) and subtracting any charges and deductions made pursuant to § 965.72.

(b) On or before the 20th day after the end of each month, the market administrator shall pay, subject to the provisions of § 965.75, to each cooperative association authorized to receive payments due producers who market their milk through such cooperative association, the aggregate of payments calculated pursuant to paragraph (a) of this section, for all producers certified to the market administrator by such cooperative association as having authorized such cooperative association to receive such payments. On or before the 20th day after the end of each month, the market administrator shall pay, subject to the provisions of § 965.75, direct to each producer who has not authorized a cooperative association to receive payments for such producer, the amount of the payment calculated for such producer pursuant to paragraph (a) of this section.

§ 965.74 *Expense of administration.* As his pro rata share of the expense incurred in the maintenance and functioning of the office of the market administrator and in the performance of the duties of the market administrator, each handler shall pay to the market administrator, on or before the 17th day after the end of each month, 2 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe, with respect to all milk received from producers and produced by him during the month: *Provided*, That any cooperative association which has handled milk during the month under the conditions set forth in § 965.9, shall pay such pro rata share of expense of administration on only that quantity of milk so handled.

§ 965.75 *Marketing services.* (a) The market administrator shall deduct an amount not exceeding 4 cents per hundredweight (the exact amount to be determined by the market administrator) from the payments made pursuant to § 965.73 (b), with respect to the milk of those producers for whom the marketing services set forth in paragraph (b) of this section are not being performed by a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," for the purpose of performing the services set forth in paragraph (b) of this section.

(b) The moneys received by the market administrator pursuant to paragraph (a) of this section shall be expended by the market administrator for market information to, and for the verification of weights, samples, and tests of milk of, producers for whom a cooperative association, as described in paragraph (a) of this section, is not performing the same services on a comparable basis, as determined by the market administrator, subject to review of the Secretary.

§ 965.76 *Payments to cooperative associations.* (a) Upon application to the Secretary, any cooperative association duly organized under the laws of any State which he determines, after appropriate inquiry or investigation, to be conforming to the provisions of such laws and with the standards set forth in § 965.75 (a); to be operating as a producer-controlled marketing association exercising full authority in the sale of the milk of, and assuming responsibility for payments to, its members; to be maintaining individually or in collaboration with other qualified cooperative associations, a competent staff for dealing with marketing problems and to be complying with all provisions hereof applicable to such cooperative association shall be entitled, under the further conditions hereafter specified, to receive payments from the date of its qualification as fixed by the Secretary, until it has been found by the Secretary, after notice and opportunity for hearing, that it has failed to continue to meet any condition set forth in this section for the receipt of such payments:

(1) At the rate of one-half cent per hundredweight on all milk (i) marketed by it in the manner indicated above on behalf of members, and (ii) on which reports and payments have been made as required under §§ 965.30, 965.70 and 965.74, except that payment at this rate shall not be made on milk with respect to which the same association is eligible to receive payment under subparagraph (2) of this paragraph.

(2) At the rate of 3 cents per hundredweight on all milk which is received from members at any plant operated by such an association, or subsidiary thereof, and which is included in the computations made pursuant to § 965.64.

(b) The market administrator shall, upon notice of the filing of an application by a cooperative association, retain each delivery period in the producer-settlement fund such sum as he estimates is ample to make payments to the applicant, to be held in reserve until the Secretary has ruled upon said application and shall, when the application has been ruled upon by the Secretary, make payment or issue credit out of such reserves in accordance with said ruling and shall release the balance of the reserved sums, if any, for disposition pursuant to § 965.64 (d); and shall on or before the 20th day of each month thereafter, make such payments or issue credit therefor out of the producer-settlement fund, subject to verification of the facts upon which the amount of payment is based.

(c) Each cooperative association qualified to receive payments pursuant to this section shall, from time to time, as requested by the market administrator, make reports to him with respect to its conformity with any of the conditions for qualification or to the use of such payments and shall file with him a copy of its balance sheet and operating statement at the close of each fiscal year.

(d) The market administrator shall suspend payment upon his own initiative or upon request by the Secretary or by such officer of the United States Department of Agriculture as he may designate, by giving written notice to a cooperative association and to the Secretary whenever there is good reason to believe that such association is no longer qualified to receive payment. Such suspended payments shall be aggregated and held in reserve until the Secretary, after notice and opportunity for hearing, has appraised the performance of the cooperative and either has ordered a partial or complete payment of funds held in reserve to the cooperative or has disqualified such cooperative, in which event the balance of funds held in reserve shall be released for disposition pursuant to § 965.64 (d).

§ 965.77 *Termination of obligation.* (a) The obligation of any handler to pay money required to be paid under the

terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calender month during which milk involved in the claim was received if any underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 965.80 *Effective time.* The provisions of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 965.81 *Suspension or termination.* Any or all provisions of this part, or amendments to this part, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 965.82 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations arising under this part, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such person as the Secretary may designate, shall continue in such capacity until removed by the Secretary; account from time to time for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such other person to such person as the Secretary shall direct and execute, if so directed by the Secretary, such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 965.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 965.90 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 965.91 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid the application of such provisions, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

DEPARTMENT OF LABOR

[41 CFR, Part 202]

SURGICAL INSTRUMENTS AND APPARATUS INDUSTRY

NOTICE OF HEARING ON MINIMUM WAGE DETERMINATIONS

The Secretary of Labor, in an amended minimum wage determination issued pursuant to the provisions of the Walsh-Healey Public Contracts Act (Act of June 30, 1936, 49 Stat. 2036, 41 U. S. C. secs. 35-45) and effective January 25, 1950 (15 F. R. 382), determined that the minimum wage for persons employed in the performance of contracts with agencies of the United States Government subject to the act for the manufacture or furnishing of the products of the surgical instruments and apparatus industry shall be not less than 75 cents an hour. This amended determination was based upon information indicating that substantially all employees in the surgical instruments and apparatus industry are engaged in commerce or in the production of goods for commerce, as defined in the Fair Labor Standards Act, and that as a consequence the Fair Labor Standards Amendments of 1949 require payment of a wage rate of not less than 75 cents an hour to substantially all employees in the industry. This amended determination also provided that learners, apprentices and handicapped workers might be employed at subminimum rates in accordance with regulations of the Administrator of the Wage and Hour Division of the Department of Labor under section 14 of the Fair Labor Standards Act (29 CFR, Parts 521, 522, 524, and 525, respectively).

A wage survey of selected surgical instruments and apparatus manufacturing establishments made as of April 1950 under the direction of an economist engaged by the Manufacturers Surgical Trade Association shows clearly that the 75-cent rate now in effect does not reflect the prevailing minimum wages in the industry; and it is proposed, therefore, to hold a hearing for the purpose of consideration by the Secretary of Labor of an amendment of the current determination.

The surgical instruments and apparatus industry is defined in the current determination as that industry which manufactures or furnishes any instruments and apparatus used in, or in connection with, or in the aid of the practice of medicine and as particularly applied to surgery, such as surgical and diagnostic instruments and apparatus for medical and surgical treatment, including sutures, ligatures, and sterilizers for surgical purposes;

But not including: Electro-surgical instruments and apparatus in which electricity is the diagnostic, therapeutic or functioning element, such as X-ray, fluoroscope, and high frequency apparatus and equipment, ultra-violet and infra-red ray and other therapeutic and heating lamps, apparatus and equipment; orthopedic appliances, such as trusses, braces, supports, splints, artificial limbs, and elastic belts and stockings; and surgical dressings.

Now, therefore, notice is hereby given that a public hearing will be held on September 27, 1950, at 10:00 a. m., in Room 1214 of the Department of Labor, Constitution Avenue and 14th Street, Northwest, Washington, D. C., before the Administrator of the Wage and Hour and Public Contracts Divisions or a representative designated to preside in his place, at which hearing all interested persons may appear and submit data, views and argument: (1) As to what are the prevailing minimum wages in the surgical instruments and apparatus industry; (2) as to whether there should be included in any amended determination for this industry provision for employment of learners and/or apprentices at subminimum rates, and if so, in what occupations, at what subminimum rates, and with what limitations, if any, as to length of period and number or proportion of such subminimum rate employees; and (3) as to the adequacy of the present definition.

Persons intending to appear are requested to notify the Administrator of their intention in advance of the hearing.

Written statements in lieu of personal appearance may be filed by mail at any time prior to the date of the hearing, or may be filed with the presiding officer at the hearing. An original and four copies of any such statement should be filed.

Tabulations prepared at the request of the Wage and Hour and Public Contracts Divisions will be made available to interested persons upon request to the Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington, D. C. Interested persons are invited to submit wage data, including data as to changes which have taken place in the wage structure of the industry since the time of the survey.

In the discretion of the Presiding Officer, a period of not to exceed 30 days from the close of the hearing may be allowed for the filing of comment on the evidence and statements introduced into the record of the hearing. In the event such supplemental statements are received an original and four copies of each such statement should be filed.

Signed at Washington, D. C., this 30th day of August 1950.

WM. R. MCCOMB,
Administrator.

SHORE SPACE RESTORATION NO. 446

AUGUST 22, 1950.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059, 48 U. S. C. 372), and in accordance with 43 CFR, § 4.275 (56) (Departmental Order No. 2325 of May 24, 1947, 12 F. R. 3566), and Order No. 319 of July 19, 1948 (43 CFR 50.451, 13 F. R. 4278), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the 80-rod shore space reserve created under the act of May 14, 1898 (30 Stat. 409), as amended by the act of March 3, 1903 (32 Stat. 1028, 48 U. S. C. 371), is hereby revoked as to the following described lands;

FAIRBANKS MERIDIAN

T. 1 S., R. 2 W.,
Sec. 23: Lots 7 and 8 (Homestead entry Fred Carpenter, Fairbanks 08314) containing approximately 83.88 acres.

T. 1 S., R. 2 S.,
Sec. 9: Lot 5 (Second Homestead entry Torvald A. T. Rostad, Fairbanks 07697) containing approximately 22.54 acres.

A tract of land located on Auke Bay identified as Lot 3A, U S. Survey No. 2669 containing approximately .63 acres (Homesite application of Robert N. Druxman, Anchorage 016219)

Tracts of land located on Zimovia Straits identified as Lots 8 and 9 U. S. Survey No. 2321 and Lot 7A U. S. Survey No. 2906, containing approximately 2.86 acres (Homesite application Edward Crook Treverton, Anchorage 016224)

A tract of land located on Dyea River identified as U. S. Survey No. 1516 containing approximately 153.69 acres (Homestead Entry Wesley W. Patterson, Anchorage 010656)

The above described lands aggregate approximately 263.60 acres.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 9775]

EXTRAORDINARY ADMINISTRATIVE RADIO CONFERENCE OF INTERNATIONAL TELECOMMUNICATION UNION

LIST OF ASSIGNMENTS TO BE RECOMMENDED

In the matter of list of assignments in the bands below 27,500 kc. and especially those in the band 2000–3500 kc. to be recommended for international registration in connection with the Extraordinary Administrative Radio Conference of the International Telecommunication Union.

1. *Background.* a. The existing international allocations of radio frequencies in the American Region [1] is based upon the Cairo (1938) Radio Regulations of the ITU and the Agreement of the Santiago (1940) Inter-American Radio Conference.[2] The Cairo Radio Conference recommended that a regular world conference be held in Rome during 1942, but this was not possible because of the war. The situation with which the world was confronted at the end of the war in the field of international cooperation in the use of radio frequencies had to be evaluated in terms of many complex factors including the dislocation of existing services, the normal growth of established services, new services, and electronic and other scientific developments since 1938. The Cairo table of frequency allocations required certain modifications and the system of international registration of frequency assignments made by the various countries proved ineffective in satisfactorily resolving many serious cases of international interference.

b. Recognizing the significance and complexity of the task which would confront the first postwar radio conference, the United States began its preparations for this conference on a comprehensive basis beginning in 1943. In 1944 and 1945, the Commission conducted a general frequency allocation hearing (Docket 6651) and beginning in May 1945, issued a series of proposals as to the nature and details of a complete table of frequency allocations to be recommended by the United States to the postwar conference, which was in session at Atlantic City from May to October 1947. The table of frequency allocations adopted at Atlantic City is patterned closely after the one proposed by the United States. The Atlantic City table of frequency allocations above 27,500 kc. came into force on January 1, 1949. That part of the table below 27,500 kc. will come into force upon approval of the new International Frequency List at the Extraordinary Administrative Radio Conference originally scheduled to be convened at The Hague in September 1950, but now postponed as indicated in Appendix 11. The status of the preparations for implementation of the bands below 27,500 kc. is indicated in Appendix 10 hereto which contains the comments of the United States with respect to the various frequency lists to be considered at the forthcoming Extraordinary Administrative Radio Conference. The Hague Conference has the following agenda:

(1) Task given to the special conference contemplated in the Atlantic City resolution relating to preparation of a new International Frequency List.

(2) The completion of a list as regards portions of the spectrum where problems give rise to difficulties which cannot be solved by the PFB within its terms of reference.

(3) The making of a decision, when approving the list, as to the time and manner of entering it into force.

This Public Notice deals primarily with the status of United States preparations for coordination of frequency assignments to be included in the new International Frequency List in the bands between 2000 and 3500 kc.

c. The Atlantic City Radio Conference left certain matters on an optional basis in the band 2000–3500 kc., since it was considered desirable to deal primarily with matters of world-wide interest at the World Conference, and it was contemplated that the Fourth Inter-American Radio Conference, originally scheduled to be convened at Bogota during 1948, could resolve matters of interest to the American Region only.

d. The Commission announced its proposal on service-allocation matters to be dealt with by the Fourth Inter-American Conference on April 20, 1949, (Docket No. 9260) and that Conference (Washington 1949) completed its work in July 1949. Again, as in the case of the Atlantic City table of frequency allocations, the one adopted at the FIAR Conference is substantially that which was recommended by the Commission for the band 2000–3500 kc.

e. A Conference of Region 2 (ITU) was held in Washington simultaneously with the FIAR Conference, and a procedure was agreed to for the compiling, coordinating and submission of lists of frequency assignments, in the regional bands generally below 4000 kc, for the purpose of international registration with the Bureau of the International Telecommunication Union at the time of adoption of the first edition of the new International Frequency List.[1] Since the effective date of this new list determines the effective date of the new international table of frequency allocations in the bands below 27,500 kc., its significance is apparent.[3]

f. It is the Commission's purpose in this Public Notice to follow the practice used heretofore in preparing for coordination of regional frequency lists, that is to announce a specific plan for the information and comments of all interested persons. Following the receipt and study of all comments received, a plan will be transmitted to the Department of State for the necessary coordination with other American countries, and the other steps which will be taken pursuant to the provisions of Resolution No. 1 of Region 2 (ITU) adopted on July 9, 1949, at Washington.

2. *Objectives.* a. The basic objective of the plan announced in this notice is to facilitate bringing into force the new international table of frequency allocations in the band 2000–3500 kc.

b. In addition, the Commission considers it essential to secure, insofar as possible, registration dates for all existing United States assignments which will continue to be justified in this portion of the spectrum.

Resolution No. 1 of Region 2 (ITU), Washington (1949) provides for two frequency lists to be coordinated with the countries concerned, i. e.:

List A.[4] Existing stations with proposed readjustments necessitated by the new international table of frequency allocations, and

List B. List of new assignments proposed for implementation at an early date.

3. *General considerations.* The same general considerations taken into account by the Commission in its 1945 Report and Proposal for the postwar table of frequency allocations (Docket 6651)[5] have been followed in arriving at the plan of implementation herein announced. In addition, specific instances of the applications of these principles are herewith enumerated.

a. The existing assignment structure should be retained as far as it is feasible to do so, except for the exclusive service-allocations [6] in the international table

[6] A 40-kc. band for coastal telegraph is herein proposed on the basis of the footnote to the international table which states that "In Region 2, provision will be made for coastal telegraphy in the maritime mobile service by special arrangement."

of frequency allocations, for the following reasons:

(1) A complete re-channeling of these regional bands on the basis of assignable frequencies, or bands, or both, would not lend itself to taking full advantage of the sharing possibilities which are actually realized in current practice and which are feasible because of the propagation characteristics of these frequencies and the generally intermittent use which is made of many of them under the existing assignment structure.

(2) International coordination with other American countries would be made extremely difficult if a re-channeling were attempted, and it would be very difficult to establish a satisfactory basis for determining relative priority and interference protection between different countries.

(3) The plan presented herein is believed to lend itself to appropriate international coordination, with due allowance for the additional loading which will be necessary on many frequencies because of the adjustments in spectrum space for the several services.

b. Stations in the land mobile service serving relatively small geographical areas should operate on frequencies above 25,000 kc. insofar as possible.

c. It is desirable to alleviate as much of the congestion as possible on the more heavily loaded maritime mobile (telephone) frequencies.

d. Improved techniques, operating practices and transmitting and receiving equipment must, of necessity, be fully employed if degradations of service are to be completely avoided, and should be put into use as soon as possible by those services desirous of avoiding such degredation of service at the time of implementation of the new plan of assignments.

4. *Description of lists to be coordinated ITU Region 2 countries and to be proposed by the U. S. for registration.* a. The Region 2 (ITU), Washington (1949) Conference provided for "group" listing of certain types of stations for purposes of coordination.

b. In preparing a proposed "List A", the Commission took advantage of this provision, wherever possible, and used "group" entries for certain classes of stations, merely indicating the areas of operation and nominal operating characteristics of the group rather than the exact details of each station. It will be necessary, however, for the Commission to list all assignments existing as of the time of adoption by The Hague Conference of the first edition of the new international frequency list. This supplementary list will be furnished to the Department of State for use at The Hague Conference for purposes of registration, inasmuch as no provisions are made under the Atlantic City Radio Regulations for such group registrations.

c. No "List B" for the U. S. has been prepared since it is contemplated that all proposed U. S. assignments will be in an active status at the time "List A" is included as a portion of the International Frequency List. Because "List A", and its supplements are comprised of several thousands of individual entries, including Government as well as non-Government stations, the Commission has not been able to duplicate these documents for public distribution. Copies of List A are being maintained, however, in the Washington offices of the Commission where they may be inspected by interested parties.

d. The Commission has made every attempt to retain the present assignments structure in the formulation of its proposed List A.

e. In order that a descriptive summary with respect to the non-Government assignments contained in the subject lists may be available to all interested parties, there have been prepared and appended to this Public Notice the following lists:

Appendix 1: List of non-Government uses proposed for the band 2000-3500 kc.
Appendix 2: Marine Telephone assignments.
Appendix 3: Remote Pickup assignments.
Appendix 4: Public Safety assignments.
Appendix 5: Industrial assignments.
Appendix 6: Aviation assignments.
Appendix 7: International Fixed Public assignments.
Appendix 8: Fixed and Coast Station assignments (Alaska).

The Commission desires to point out that, in all probability, some of the proposed assignments shown in "List A" may be found to be in conflict with the assignments of foreign countries when they are considered at The Hague Conference or while being coordinated prior thereto and may require changing without public notice to that effect.

5. *Effect of proposed assignments on the various classes of users.* a. The assignment structure proposed in this Public Notice provides for the following:

(1) New Coastal Telegraph assignments in an exclusive 40 kc. band.

(2) New Marine Telephony assignments to relieve congestion at certain major ports.

(3) One new frequency assignment for the Industrial Radio Service.

(4) No change in the frequencies now assigned to the Public Safety Services.

(5) The substituting of three new frequencies to replace three which are now assigned to Alaskan Coast and Fixed stations but which fall in the exclusive Atlantic City aeronautical mobile band.

(6) A redistribution of Remote Pickup assignments due to certain existing frequencies being "out of band" under Atlantic City and the substitution therefore, of certain new frequencies.

(7) Provision for existing Aeronautical Fixed, "lighter than air" and "flight test" assignments.

(8) Additional frequency assignments to Remote Pickup stations and Marine Telephony on a daytime only basis.

(9) Reassignment to other services of certain frequencies now assigned to stations in the International Fixed Public Service.

(a) The frequency 2264 kc. now assigned to a fixed public radiotelegraph station at Miami, Florida, is proposed for exclusive assignment to other services. This frequency has not been used by the fixed public service in recent years but a frequency in this range may be required during the low phase of the sunspot cycle. A possible substitute is the frequency 2398 kc. proposed to be assigned to the industrial services but which might be made available to the fixed public service in the Miami area.

(b) The frequency 2530 kc. now assigned to a fixed public service station at San Juan on a secondary basis to the coastal service is proposed to be assigned exclusively to the coastal service. Although assigned, this frequency has not been used in the fixed public service in recent years.

(c) No change is contemplated in the present assignments of 2848 kc. to the Agriculture Fixed Service in the State of California.

(d) Frequencies between 2 and 3 Mc. now assigned to stations in the New York and San Francisco areas are proposed to be deleted and reassigned to other services because of the limited usefulness of frequencies in this range for long distance communication. It appears impractical, in view of the needs of other services for such frequencies, to set them aside for use in the fixed public service during the relatively short period of usefulness of these frequencies at the lowest part of the sunspot cycle. Further, because of extensive use of such frequencies within the European area, it would be extremely difficult to receive them in Europe, from New York, without harmful interference. There is a possibility, however, that after the 2000–3500 kc. band is implemented, detailed studies of existing operations may indicate feasibility of additional sharing of frequencies in this range for trans-Atlantic service by special arrangements between agencies and administrations concerned. There is less need for frequencies in this range at San Francisco when considering propagation conditions on circuits operated from that point.

(e) The present assignment of the frequency 3260 kc. at Miami and San Juan is not proposed to be continued. It is believed that the service now rendered on this frequency can be transferred to a frequency in the 4 Mc. or 29 Mc. range. The frequency 3190 kc. is proposed to be substituted for 3025 kc. now assigned in the Puerto Rico area. The frequency 3327.5 kc. is proposed to be substituted for 3275 kc. now assigned in the New York area.

b. The proposed lists are not considered as frequency allocations but instead portray the frequency assignments which it is proposed to make to stations in existence at the time of the adoption of the new International Frequency List.

c. Attention is invited to the fact the Commission does not expect assignment of frequencies to particular stations will be made or agreed upon by the United States until The Hague Conference has been convened. Furthermore, frequency conflicts which are not now apparent may require individual proposed assignment changes on the part of the U. S. at the Conference. The United States Delegation to The Hague Conference will be comprised of both United States Government and Industry representatives.

The Commission suggests, therefore, that interested persons, especially those licensees who may desire to assist the United States Delegation in its studies of these matters communicate with the Chief, Telecommunications Policy Staff, Department of State, Washington 25, D. C., so that arrangements may be made for participation in The Hague Conference. The names of those persons who have indicated previously to the Commission (Docket 9260, Fourth Inter-American Radio Conference) their interest in following the progress of the implementation of the regional frequency bands below 4,000 kc. have been furnished to the Department of State.

d. The Commission does not expect any action will be taken at The Hague Conference which will adversely affect non-Government users other than the somewhat greater interference which may result to some operations from the frequency adjustments required by the Atlantic City Radio Regulations. Furthermore, the implementation of assignments is not expected to take place without ample advance notice to all licenses affected. At the moment, the time of such implementation cannot be predicted but is expected to begin no earlier than several months after The Hague Conference ends.

e. Attention is again invited to the basis of inclusion of entries in the List A presently proposed by the Commission, and summarized in Appendix 1. All of the assignments involved correspond to active operations presently authorized by the Commission in the areas indicated, and, in certain instances, such as coastal telegraphy and marine telephony, new frequency assignments are indicated as expansions of existing services at locations already active. List A consists of a compilation of frequency assignments to be submitted by the United States in order to protect the international rights of the United States, and in its preparation all existing non-Government assignments between 2000 and 3500 kc. have been taken into account. The international rights with respect to the use of the frequencies involved are those of the United States rather than particular licensees. The use of the frequencies involved will, of course, continue to be on the basis of the Communications Act of 1934, as amended, the Commission's rules and other applicable law or regulation.

f. Authority to issue these assignment proposals is vested in the Commission under sections 4 (i), 301, 303 (b), (c), (d), (f) and (r) of the Communications Act of 1934 as amended.

g. Any person who desires to submit written data, views or comments, shall, in accordance with § 1.764 of the Commission's rules and regulations, furnish the Commission with an original and 14 copies thereof by October 9, 1950.

Adopted: August 23, 1950.

Released: August 25, 1950.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

APPENDIX 9—EXPERIMENTAL

Experimental stations will not be the subject of international co-ordination or registration. The frequency 3492.5 kc. now assigned to class 1 experimental stations will not be assigned to the experimental stations now authorized on that frequency.

The experimental stations now authorized 2398 kc. may continue to operate on the condition of noninterference to other services.

The selection of frequencies between 2000 and 3500 kc., for assignment to experimental stations will be considered on the same individual basis as frequencies above 25 mc.

APPENDIX 10—COMMENTS OF THE UNITED STATES OF AMERICA AND THE TERRITORIES OF THE UNITED STATES OF AMERICA WITH RESPECT TO THE REPORTS AND DRAFT FREQUENCY ASSIGNMENT PLANS PREPARED PURSUANT TO THE RESOLUTION RELATING TO THE PREPARATION OF THE NEW INTERNATIONAL FREQUENCY LIST ADOPTED BY THE INTERNATIONAL RADIO CONFERENCE OF ATLANTIC CITY 1947 AND RESOLUTION 154 OF THE FOURTH SESSION OF THE INTERNATIONAL TELECOMMUNICATION UNION'S ADMINISTRATIVE COUNCIL REGARDING THE EXTRAORDINARY ADMINISTRATIVE RADIO CONFERENCE SCHEDULED TO CONVENE AT THE HAGUE, SEPTEMBER 1, 1950

1. *General.* The United States considers that world radio usage makes it essential that the frequency allocation table of Atlantic City 1947 be implemented at the earliest practicable date in the most efficient and orderly manner possible, and thereby insure the maximum benefits for all services. Accordingly, the United States proposes that all members of the International Telecommunication Union come to the Extraordinary Administrative Radio Conference with a firm determination to work out methods at the Conference to achieve this goal.

2. *Aeronautical mobile service.* It is the view of the United States that the allotment plan for the "R" bands agreed to at Geneva by the International Administrative Aeronautical Radio Conference (IAARC) is satisfactory and should be adopted by the Extraordinary Administrative Radio Conference. This view is based on the fact that the IAARC plan is not a station assignment plan but is a plan which allots frequencies to areas and sub-areas, and that it satisfactorily meets for the Aeronautical Mobile "R" Service the objectives of the PFB.

The IAARC Allotment Plan agreed to at the IAARC for the "OR" Service is acceptable to the United States on the assumption that it will be possible at the Extraordinary Administrative Radio Conference to add the names of additional specific areas to certain frequencies mentioned in the plan. The United States will have specific proposals in this regard at the Conference. It is not believed that these proposed additions will increase the possibilities of interference between frequencies allotted to the several administrations in this plan.

3. *Broadcasting service.* Observations regarding frequency assignments in the bands allocated to the broadcasting service cannot be made until the results of the High Frequency Broadcasting Conference now in session in Italy are known.

4. *Fixed Service—4,000–27,500 kc.* None of the plans prepared by the PFB for the various bands of frequencies are acceptable to the United States for implementation as presently written and they will require revision or other acceptable methods will have to be devised to achieve the implementation of these bands. There are many factors which contributed to the unacceptability of the plans for these bands but the basic one is the excessive number of requirements with which the Board had to deal.

Unless the member states are willing to limit their requirements to their present essential operations, eliminating those which do not require international protection, reducing those needing maximum international protection to the minimum necessary, and satisfying their other requirements with the lesser protection afforded by notification status, it is the view of the United States that it will not be possible to rewrite satisfactory lists for these bands. In this connection it should be borne in mind that opportunities for obtaining the use of additional frequencies will not be foreclosed by the adoption of the initial international frequency list. Administrations will be free to use frequencies from the appropriate bands in the spectrum to accommodate further operations under the mechanism already provided for by the Radio Regulations of Atlantic City through the medium of the International Frequency Registration Board.

The spectrum space allocated to the Fixed Service by Atlantic City is less than that allocated by Cairo. Consequently, only by making very efficient use of this reduced spectrum space will it be possible for the countries of the world to conduct their essential operations satisfactorily. Attempting initially to provide for anything but essential operations on other than a notification basis not only makes the compilation of an acceptable list hopeless but also jeopardizes the possibility of providing satisfactorily for the essential operations of any country.

The United States considers that the basic objective of bringing the Atlantic City Frequency Allocation Table into force must be attained by The Hague Conference and is currently conducting comprehensive studies of the various problems now facing the Union in this regard in an effort to find acceptable methods of attaining this objective. The United States earnestly hopes that the other member states will do likewise and that their delegations will come to the Conference prepared in this regard. With this as a foundation and with an attitude of cooperation and good will, plus a determination to implement the Atlantic City Allocation Table, it should be possible for the Conference to evolve methods which are acceptable to the member states and which in turn will make possible the maximum use of the available spectrum space by all countries.

5. *Maritime mobile service*—(a) *Coastal telephone.* The Coastal Telephone Frequency List can be accepted by the United States if two additional frequencies in each of the 4 and 8 mc. bands are provided for use in the inland waterways of this country. The United States will have specific proposals as to frequencies for such use for presentation at the Extraordinary Administrative Radio Conference.

(b) *Coastal telegraph—4,000–27,500 kc.* Examination of the frequency lists for the Coastal Telegraph Service indicates that they may form the basis of agreement at the Extraordinary Administrative Radio Conference. Some co-channel adjustments will be required and some adjacent channel problems exist which must be corrected. The United States expects to have proposals in this regard for presentation at the Conference.

The Frequency Lists prepared for the Coastal Telegraph Bands were based on the three following assumptions:

(i) That A2 emissions would not be used.

(ii) That the service of any particular coast station would be protected within areas of approximately 2,000 km., 3,000 km., and 6,000 km., radius in the 4, 6, and 8 mc. bands respectively.

(iii) That maximum power limitations would be placed on all coastal stations.

Assumptions (i) and (iii) can be accepted by the United States. Assumption (ii) is contrary to the present operating practices of the United States. It is anticipated that the United States Coast Stations will always want the right to communicate with United States ships in all parts of the world, and for this reason assumption (ii) above is unacceptable.

The Coastal Telegraph Plan includes a recommendation that continuous transmission by use of call slips by coastal telegraph stations when not actually engaged in working would be forbidden. The United States cannot accept this recommendation as a basis for considering the draft frequency list. However, after implementation, the United States is willing to review the extent to which this operating practice may be modified.

6. *Regional bands*—(a) *Region 1.* In general the Region 1 list is acceptable to the United States. However, there are certain assignments which it appears will cause harmful interference and the United States Delegation will be prepared to discuss these at the Conference. These are, of course, in addition to the changes which it is expected will be submitted by the United States in accordance with paragraph 2, page 236 E of the Final Acts of the Region 1 Conference.

(b) *Region 2.* The United States lists for the bands 150–415 kc., 415–535 kc., and 1605–2000 kc. have been circulated to the countries concerned for comment and some comments have been received. However, since comments have not yet been received from all of the countries concerned, and as it is expected that some of the countries will also have lists which will be circulated for comment, the coordination is not yet complete for these bands.

The United States expects to have its list for the band 2000–3500 kc. completed in the near future and will circulate it to the countries concerned for comment.

The United States is cooperating to the fullest extent in an effort to insure that coordination within Region 2 for all of the regional bands will be effected by the time the Extraordinary Administrative Radio Conference convenes, and that the Region 2 lists resulting from this coordination will be available at The Hague Conference.

(c) *Region 3.* In general the Region 3 list is acceptable to the United States. However, there are certain assignments which it appears will cause harmful interference and the United States Delegation will be prepared to discuss these at the Conference. These are, of course, in addition to the changes allowed by Article 2, Part 1, of the Final Acts of the Region 3 Conference.

7. *PFB List 14–150 kc.* The United States Delegation to the Provisional Frequency Board has already called the attention of the Board to the fact that certain essential United States requirements were omitted from the list prepared for this band. Furthermore, the list presents serious adjacent channel problems. Accordingly, the United States considers that this list is unacceptable as presently written, and it will require revision or other acceptable methods will have to be devised to achieve the implementation of this band.

APPENDIX 11—DEPARTMENT OF STATE

[No. 838]

AUGUST 15, 1950.

The Extraordinary Administrative Radio Conference scheduled to meet in The Hague, September 1950, has been postponed, the Secretary General of the International Telecommunication Union (ITU) has announced by telegram to the Department August 13. Under the terms of the Telecommunications Convention and the International Radio Regulations annexed thereto which were drafted in Atlantic City by 72 member countries of the ITU there was to be convened an Extraordinary Administrative Radio Conference. The original agenda of this Conference was to approve an international frequency list. However, the preparation of this gave rise to certain difficulties and accordingly the agenda was later amended to include the completion of the preparation of the frequency lists as regards the portions of the spectrum which could not be resolved by the Provisional Frequency Board, which was created by the Atlantic City Convention for the purpose of bringing an orderly frequency assignment for the radio spectrum. Additionally, The Hague Conference was to have approved frequency allocation lists drafted for specialized services such as aeronautical, mobile and high frequency broadcasting. The third item on The Hague agenda was to determine the time and manner of entry into force of the over-all frequency allocation list.

The motivating force in asking that The Hague Conference be postponed was the United States which on July 26 telegraphed the Secretary General of the ITU stating "In view of present world conditions the United States considers it would be impossible for the Extraordinary Administrative Radio Conference to obtain substantial agreement on any of its agenda items. Accordingly, the United States proposes postponing Conference, the future date to be determined at an appropriate time by the Administrative Council of the ITU or by other conventional procedures." The United States took this position reluctantly and only because it seemed useless to expend manpower and funds on a conference which, in the last analysis, could not accomplish its objectives or even obtain substantial agreement. In submitting this proposal the United States requested the Secretary General of the ITU to circulate all ITU Members by telegram for their comments on the United States proposal.

The ITU has now announced that 56 countries have declared in favor and that, accordingly, the Conference will be postponed. Included in the 56 is the USSR.

The United States further proposed that the work done at Atlantic City and at subsequent conferences looking to a long range plan of orderly frequency allocation should not be scrapped and that a new Extraordinary Radio Conference should be convened as soon as a favorable occasion arises. In the interim the International Frequency Registration Board (IFRB), created under the terms of the Atlantic City Telecommunication Convention and functioning in Geneva as an integral part of the ITU, should conduct studies on problems which have resulted from efforts to prepare a new international frequency list. Such studies would be directed toward favorable solution of those problems with results to be available for consideration by administrations whenever the Conference is ultimately held.

FEDERAL POWER COMMISSION

[Docket No. G–1468]

SOUTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

AUGUST 29, 1950.

Take notice that on August 23, 1950, Southern Natural Gas Company (Applicant), a Delaware corporation with its principal place of business in Birmingham, Alabama, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, seeking the following authority:

To operate facilities presently installed in Applicant's Perryville, Louisiana compressor station and certain additional facilities to be installed by Mississippi River Fuel Corporation in the compression of gas in such volumes up to 27,000 Mcf per day as Applicant is able to handle, pursuant to its agreement with Mississippi River Fuel Corporation, all as more fully discussed in the application filed in this matter by Mississippi River Fuel Corporation in Docket No. G–1460, with notice appearing in the FEDERAL REGISTER on August 24, 1950 (15 F. R. 5696–7).

Applicant will not incur any cost in connection with the construction of the facilities to be so operated, and the compression charge of 1½¢ per Mcf to be paid by Mississippi River Fuel is said by applicant to be sufficient to cover the additional operating expenses to be incurred in rendering the proposed service. Applicant states that it is informed by Mississippi River Fuel that the latter requires additional capacity for the compression of gas introduced into its system from the Monroe field, and that such capacity can be most economically provided by the use of applicant's facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) before the 18th day of September 1950. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 30-91]

INTERSTATE LIGHT AND POWER CO., ILLINOIS, AND INTERSTATE LIGHT & POWER CO., DELAWARE

ORDER REGARDING HOLDING COMPANY

In the matter of Interstate Light and Power Company, an Illinois corporation, and Interstate Light & Power Company, a Delaware corporation.

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 29th day of August A. D. 1950.

Interstate Light and Power Company, an Illinois corporation and a wholly-owned subsidiary of Northern States Power Company ("Northern States"), a Minnesota corporation and a registered holding company, having filed an application and amendments thereto pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935 ("the Act") requesting the Commission to enter an order declaring that Interstate Light & Power Co. ("Interstate of Delaware"), a Delaware corporation which was formerly a subsidiary holding company in the Northern States system, has ceased to be a holding company under the Act by virtue of the following facts:

Prior to August 31, 1949, the applicant herein, then known as The Elizabeth Light & Power Company, was a subsidiary company of Interstate of Delaware. On that date, pursuant to an order of this Commission dated August 29, 1949, in the Matter of Northern States Power Company (Minnesota) et al., File No. 70-2174, Interstate of Delaware and Interstate Light and Power Corporation, an inactive Illinois corporation affiliated with Interstate of Delaware and the applicant, were merged into and with the applicant herein as the surviving corporation, and the name of the applicant herein was changed to Interstate Light and Power Company; and

Said application having been duly filed, and notice of its filing having been duly published, and the Commission not having received a request for hearing with respect thereto within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

It appearing to the Commission that the facts stated in the application are true and that by reason thereof Interstate of Delaware has ceased to be a holding company;

It is therefore ordered and declared, Pursuant to section 5 (d) of the act and the rules and regulations thereunder, that Interstate Light & Power Co., a Delaware corporation, has ceased to be a holding company, and that the registration of such company shall forthwith cease to be in effect.

PHILADELPHIA CO. AND DUQUESNE LIGHT CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND PERMITTING AMENDED APPLICATION-DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 28th day of August 1950.

Philadelphia Company, a registered holding company, and its public utility subsidiary, Dequesne Light Company ("Duquesne"), both subsidiaries of Standard Gas and Electric Company and Standard Power and Light Corporation, registered holding companies, having filed a joint application-declaration and amendments thereto pursuant to the Public Utility Holding Company Act of 1935 ("act") and the rules and regulations promulgated thereunder, particularly sections 6, 7, 9, 10, 11 (b), 12 (c), and 12 (f) of the act and Rules U-42, U-43, and U-50, regarding, among other things, the issuance and sale, pursuant to the competitive bidding requirements of said Rule U-50, of $12,000,000 principal amount of first mortgage bonds, series due August 1, 1980 ("Bonds"); and

The Commission, by order dated August 21, 1950, having granted and permitted to become effective said application-declaration subject, among other things, to the condition that the proposed sale of the Bonds shall not be consumated until the results of competitive bidding, held with respect thereto, shall have been made a matter of record in this proceeding and a further order shall have been issued by this Commission on the basis of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate; and

Duquesne, on August 28, 1950, having filed a further amendment to said amended application-declaration setting forth the action taken by it to comply with the requirements of Rule U-50 and stating that pursuant to the invitation for competitive bids the following bids were received:

Bidder	Annual interest rate (percent)	Price to company[1] (percent of principal)	Annual cost to company (percent)
Drexel & Co. and Equitable Securities Corp.	2¾	102.034	2.651275
Halsey, Stuart & Co., Inc.	2¾	101.85	2.660100
Harriman, Ripley & Co., Inc.	2¾	101.80999	2.660024
Kuhn, Loeb & Co.	2¾	101.66	2.669237
First Boston Corp.	2¾	101.619	2.671212
Glore, Forgan & Co.	2¾	101.58	2.673093
White, Weld & Co.	2¾	101.56	2.674057

[1] Exclusive of accrued interest from August 1, 1950.

And Duquesne having stated that it has accepted the bid of Drexel & Co. and Equitable Securities Corporation, and that the Bonds are to be offered to the public at a price of 102.375 percent of the principal amount, plus accrued interest from August 1, 1950, resulting in an underwriters' spread of 0.341 percent, aggregating $40,920; and

The Commission having examined said amendment filed herein on August 28, 1950, and having considered the record and finding no basis for imposing terms and conditions with respect to the price to be received for the Bonds, the underwriters' spread and allocation thereof, or otherwise, and it appearing appropriate to the Commission that jurisdiction heretofore reserved to consider the results of the competitive bidding with respect to the Bonds be released:

It is ordered, That jurisdiction heretofore reserved to consider the results of the competitive bidding with respect to the sale of the Bonds be, and hereby is, released and that said application-declaration, as further amended, be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and the reservations of jurisdiction contained in the Commission's order herein dated August 21, 1950.

APPALACHIAN ELECTRIC POWER CO. AND CENTRAL APPALACHIAN COAL CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 29th day of August A. D. 1950.

Appalachian Electric Power Company ("Appalachian"), an electric utility subsidiary of American Gas & Electric Company, a registered holding company, and Appalachian's non-utility subsidiary, Central Appalachian Coal Company ("Coal Company"), having filed a joint application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") and having designated sections 6 (b), 9 (a) and 10 of the act and Rule U-43 thereunder as applicable to the following proposed transactions:

Coal Company proposes to issue and sell and Appalachian proposes to acquire not to exceed 20,000 shares of the authorized and unissued $100 par value common stock of Coal Company at $100 per share for aggregate gross proceeds to Coal Company of $2,000,000. It is proposed that the sales and acquisitions will be made from time to time prior to December 31, 1951, as funds are needed by Coal Company. It is stated that the proceeds to Coal Company will be used to provide funds to complete the initial development of Coal Company and to provide working capital. Pursuant to authorization of this Commission (File No. 70-1841), Appalachian has heretofore acquired from Coal Company 40,000 shares of Coal Company's common stock having a par value of $100 per share for $4,000,000 which represents all of Coal

Company's presently outstanding capital stock.

It is stated that Appalachian and Coal Company propose to file a joint application with the State Corporation Commission of Virginia requesting that Commission to authorize the proposed transactions.

Applicants-declarants having requested that any order of this Commission authorizing the proposed transactions issue as soon as may be practicable and become effective upon issuance; and

Said joint application-declaration having been filed with this Commission on July 31, 1950, and the last amendment thereto having been filed on August 10, 1950, and notice of said filing having been given in the form and manner required by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing within the time specified in said notice, or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the proposed transactions are in accordance with the applicable standards of the act and observing no basis for adverse findings, and the Commission deeming it appropriate that said joint application-declaration, as amended, be permitted to become effective without imposition of terms and conditions other than those contained in Rule U-24:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act that said joint application-declaration, as amended, be and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24.

By the Commission.

UTAH POWER & LIGHT CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 29th day of August A. D. 1950.

Utah Power & Light Company ("Utah"), a registered holding company and a utility operating company having filed a declaration, and an amendment thereto, with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"), and having designated sections 6 (a) and 7 thereof and Rule U-50 promulgated thereunder as applicable to the following proposed transactions:

Utah proposes to issue and sell to the public, pursuant to the competitive bidding requirements of Rule U-50, $8,000,000 principal amount of First Mortgage Bonds, ...% Series, due 1980. Said bonds would be issued under the terms of a Sixth Supplemental Indenture to be dated as of October 1, 1950, between Utah and Guaranty Trust Company of New York and Arthur E. Burke, as trustees. The interest rate on the bonds and the price to be paid Utah for the bonds would be fixed at competitive bidding.

Utah also proposes to issue and sell to its stockholders and/or the public 166,604 additional shares of the company's common stock, without par or face value. The additional shares of common stock would, pursuant to the preemptive rights provision of Utah's certificate of organization, first be offered to its stockholders on a pro rata basis. There would be an underwriting as to the unsubscribed shares for which Utah proposes to invite bids, also pursuant to the competitive bidding requirements of Rule U-50. Both the price to be paid to Utah and the subscription price to be paid pursuant to the preemptive rights offering would be fixed by such competitive bidding. In connection with the sale of its common stock Utah requests permission to acquire not more than 5,000 shares of such stock on the morning of the day on which the bids for the purchase of the unsubscribed shares are to be opened. Such acquisitions would be made for the stated purpose of facilitating the distribution and offering of said 166,604 shares of common stock. Any shares acquired pursuant to the proposed stabilizing operation would be purchased from Utah by the underwriters in connection with the offering and sale of unsubscribed shares of Utah's common stock by said underwriters.

After bids have been opened for the bonds and common stock, and prior to the sale thereof, Utah would file an appropriate amendment herein setting forth the results of competitive bidding and would furnish appropriate information as to all fees and expenses to be incurred in connection with the proposed transactions.

The proceeds from the sale of the $8,000,000 principal amount of bonds and from the sale of common stock would be used to pay bank loans of $8,000,000 and to finance a part of the company's current construction program. The presently outstanding bank loans were obtained under a Credit Agreement dated February 27, 1950, between Utah and fifteen lending banks as authorized by this Commission (File No. 70-2327). It is stated in the declaration that no additional loans will be made under the aforesaid Credit Agreement.

Fees and expenses in connection with the issuance and sale of the bonds and additional common stock are estimated at $104,000 of which $44,000 is stated to be applicable to the issuance and sale of the bonds and $60,000 is stated to be applicable to the issuance and sale of the common stock.

Utah has requested that any order of this Commission authorizing the proposed transactions issue as soon as may be practicable and become effective upon issuance.

Said declaration having been filed on August 2, 1950 and the last amendment thereto having been filed on August 18, 1950, and notice of said declaration, as amended, having been given in the form and manner prescribed by Rule U-23 promulgated under the act, and the Commission not having received a request for hearing with respect to said declaration, as amended, within the time specified in said notice, or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding with respect to said declaration, as amended, that the requirements of the applicable provisions of the act and the rules and regulations thereunder are satisfied, and no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective forthwith, subject to certain reservations of jurisdiction:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935 that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and subject to the further condition that the sale of the bonds and common stock of Utah shall not be consummated until the results of competitive bidding have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record as so completed, which order shall contain such further terms and conditions, if any, as may then be deemed appropriate, jurisdiction being reserved for the imposition thereof:

It is further ordered, That jurisdiction be, and the same hereby is, reserved over the payment of all counsel fees and expenses in connection with the proposed transactions, including the fees and expenses of counsel for the successful bidder.

By the Commission.

COLUMBIA GAS SYSTEM, INC., AND OHIO FUEL GAS CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 29th day of August A. D. 1950.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its subsidiary, Ohio Fuel Gas Company ("Ohio Fuel"), having filed a joint application-declaration pursuant to the provisions of sections 6 (b), 9, 10, and 12 of the Public Utility Holding Company Act of 1935 and Rule U-43 promulgated thereunder, with respect to the following proposed transaction:

Ohio Fuel proposes to issue and sell to Columbia $11,500,000 principal amount of 3¼ percent installment promissory notes. Such notes are to be paid in

equal annual installments on February 15th of each of the years 1952 to 1976, inclusive. The applicant states that the proceeds to be obtained through the issue and sale of said notes will be utilized by Ohio Fuel to finance its 1950 construction program.

The Public Utilities Commission of Ohio approved the issue and sale of the proposed 3¼ percent notes by order dated July 7, 1950.

Said joint application-declaration having been filed on August 10, 1950, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said joint application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application-declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said joint application-declaration be granted and permitted to become effective.

It is ordered: Pursuant to Rule U-23 and the applicable provisions of said act, that the said joint application-declaration be, and hereby is, granted and permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

ORDER GRANTING APPLICATION

At a regular session of the securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 29th day of August A. D. 1950.

Public Service Company of New Hampshire ("the Company"), an operating utility company and a direct subsidiary of New England Public Service Company, a registered holding company which in turn is a subsidiary of Northern New England Company, also a registered holding company, having filed an application pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("the act") and Rules U-23 and U-24 thereunder, with respect to the following transaction:

The Company seeks authorization to issue or renew, from time to time, up to December 31, 1950, notes having a maturity of nine months or less up to a maximum amount of $6,500,000 at any time outstanding (including notes outstanding as of July 31, 1950, in the amount of $2,600,000).

The Company estimates that its net cash requirements for new construction will be $3,062,800 for the six months ending December 31, 1950, and that it will be necessary to increase its short-term borrowing to $6,500,000 by the end of the year in order to carry out its construction program and to meet its other cash needs. The aggregate amount of the short-term notes to be issued will exceed 5 percent of the principal amount and par value of the other securities of the Company then outstanding.

The Company anticipates that it will be able to borrow the required funds at an interest rate not over 2 percent per annum. It states that if the interest rate should exceed 2 percent per annum on any of the notes, it will file an appropriate amendment to its application at least five days before the execution and delivery of any such note, and asks that such amendment shall become effective without further order of the Commission at the end of the five-day period unless the Commission shall have notified the Company to the contrary.

The Company further states that it will incur no expenses in connection with the transaction except legal and other incidental expenses, estimated at not more than $300.

It is requested that the order of the Commission herein be made effective upon issuance.

Such application having been duly filed, and notice of filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for hearing with respect thereto within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

It appearing to the Commission that the proposed transaction is not within the jurisdiction of the State commission; that it is appropriate in the public interest and in the interests of investors and consumers to grant the Company's request for permission to consummate the transaction as proposed; and that the fees and expenses to be paid by the Company are not unreasonable;

It is therefore ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions of Rule U-24, that the application be and the same hereby is granted, effective forthwith.

By the Commission.

CONSOLIDATED ELECTRIC AND GAS CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 25th day of August A. D. 1950.

Notice is hereby given that Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, has filed a declaration with this Commission pursuant to section 7 of the Public Utility Holding Company Act of 1935, and certain rules and regulations promulgated thereunder.

Notice is further given that any interested person may not later than September 11, 1950 request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reason for such request and the issues, if any, of fact or law raised by said declaration which he proposes to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 11, 1950, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized as follows:

Consolidated proposes to issue and sell to The Chase National Bank of the City of New York ("Chase") on or before September 20, 1950 its one year promissory note in the face amount of $800,000 bearing interest at the rate of 2¼ percent per annum and providing for sinking fund payments of $150,000 each on December 31, 1950, March 31, 1951, and June 30, 1951. The declaration states, among other things, that "* * * it is the firm intention of Consolidated to eliminate all of such bank indebtedness on or prior to September 20, 1951."

Consolidated also proposes to pledge as security for said note certain portfolio securities owned by Consolidated and its wholly owned subsidiary, The Islands Gas and Electric Company.

The proceeds of said note, together with other corporate funds, are to be used to discharge a presently outstanding note maturing September 20, 1950. This latter note, originally in the amount of $3,500,000, and bearing interest at the rate of 2¾ percent per annum, was issued September 20, 1949 pursuant to a loan agreement dated August 22, 1949. At the date of the instant filing this note had been reduced to $1,000,000.

Fees and expenses in connection with the transactions proposed in the declaration are estimated by Consolidated at not in excess of $750.

The declaration requests that our final order in this matter be issued not later than September 15, 1950, and that it become effective forthwith upon issuance.

By the Commission.

[Vesting Order 15005]

ADLER-FILM G. M. B. H. ET AL.

In re: Rights in motion pictures owned by Adler-Film G. m. b. H. and others.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That the persons (including individuals, partnerships, associations, corporations or other business organizations) whose names and last known addresses are set forth in Column 3 of Exhibit A attached hereto and made a part hereof, are residents of, or are organized under the laws of, or have or on or since the effective date of Executive Order 8389, as amended, have had their principal places of business in Germany and are nationals of a designated enemy country (Germany);

2. That the property described as follows:

(a) All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, in, to and under the following:

(1) The motion pictures listed in said Exhibit A, including, but not limited to, the exclusive right to exhibit same in whole or in part by any means within the United States, all rights to arrange, adapt, revise, translate, and duplicate said motion pictures in whole or in part, and every copyright, claim of copyright, right to copyright, and right to renew the copyright or copyrights in said motion pictures.

(2) The screen plays, scenarios, and shooting scripts upon which said motion pictures are based, including, but not limited to, all motion picture and television rights therein, and every copyright, claim of copyright, right to copyright, and right to renew the copyright or copyrights in said screen plays, scenarios, and shooting scripts.

(3) The rights to dramatize, perform, represent, and reproduce on motion picture film those portions of the published and unpublished works subject to copyright, other than the above-mentioned screen plays, scenarios, and shooting scripts, which underlie or are embodied in said motion pictures and to exhibit such film by any means in the United States.

(b) All right, title, interest, and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of the persons referred to in Column 3 of said Exhibit A and also of all other persons (including individuals, partnerships, associations, corporations or other business organizations), whether or not named elsewhere in this order including said Exhibit A, who are citizens and residents of, or which are organized under the laws of or have their principal places of business in, Germany, and are nationals of such designated enemy country, in, to and under the following:

(1) All prints in the United States of the motion pictures listed in said Exhibit A.

(2) All arrangements, adaptations, revisions, dramatizations, translations, and versions of the motion pictures listed in said Exhibit A.

(3) Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to the property described in subparagraphs 2 (a), 2 (b) (1) and 2 (b) (2) of this Vesting Order.

(c) All monies and amounts, and all rights to receive monies and amounts, by way of damages, royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to the property described in subparagraphs 2 (a) and 2 (b) of this Vesting Order, and

(d) All causes of action accrued or to accrue at law or in equity with respect to the property described in subparagraphs 2 (a), 2 (b), and 2 (c) hereof, including but not limited to the rights to sue for and recover all damages and profits and to request and receive the benefits of all remedies provided by common law and by statute for the infringement of any copyright, for the violation of any right and for the breach of any obligation described in or affecting the aforesaid property,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the persons referred to in subparagraphs 1 and 2 (b) hereof, the aforesaid nationals of a designated enemy country (Germany) and is property of, or is property payable or held with respect to copyrights or rights related thereto in which interests are held by, and such property itself constitutes interest therein held by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the persons referred to in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on August 16, 1950.

For the Attorney General.

ing was held at Cincinnati, Ohio, on March 13–14, 1950, upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make effective not later than September 1, 1950, the present amendments to the said order, as amended, in order to reflect current marketing conditions. Any delay beyond September 1, 1950, in the effective date of this order, as amended, and as hereby further amended, will seriously impair orderly marketing of milk in the Cincinnati, Ohio, marketing area. The provisions of the said order are well known to handlers—the public hearing having been held March 13–14, 1950, and the decision having been executed by the Secretary on August 29, 1950. Therefore, reasonable time, under the circumstances, has been afforded persons affected to prepare for its effective date. In view of the foregoing, it is hereby found and determined that good cause exists for making this order, amending the order, as amended, effective September 1, 1950, and that it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c), Administrative Procedure Act, Public Law 404, 79th Congress, 60 Stat. 237; 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by the aforesaid order, as amended and as hereby further amended, which is marketed within the Cincinnati, Ohio, marketing area, refused or failed to sign the marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (May 1950), were engaged in the production of milk for sale in the said marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

DEFINITIONS

§ 965.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 965.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other employee of the United States authorized to exercise the powers and to perform the duties of the said Secretary of Agriculture.

§ 965.3 *Cincinnati, Ohio, marketing area.* "Cincinnati, Ohio, marketing area," hereinafter called the "marketing area," means the city of Cincinnati, Ohio, and the territory geographically included within the boundary lines of Hamilton County, Ohio.

§ 965.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 965.5 *Route.* "Route" means a delivery (including a sale from a store) of milk, flavored milk drinks, or cream in fluid form to a wholesale or retail stop(s) other than to a milk processing plant(s).

§ 965.6 *Fluid milk plant.* "Fluid milk plant" means a plant or other facilities used in preparation or processing of milk all or a portion of which is disposed of on routes operating wholly or partially in the marketing area.

§ 965.7 *Pool plant.* "Pool plant" means:

(a) A fluid milk plant as described in § 965.6 located in the marketing area;

(b) A fluid milk plant located outside the marketing area and disposing of not less than 10 percent of its entire route disposition of Class I milk on routes operating wholly or partially within the marketing area; or

(c) A plant, receiving milk from dairy farms, which the market administrator determines has moved to a plant(s) described under paragraph (a) or (b) of this section an amount of milk equal to not less than one percent of the total Class I utilization of plants described in paragraphs (a) and (b) of this section during the second month preceding such movement as specified in the following schedule:

Months milk is moved:	*Months plant is pool plant*
One of the months of October or November.	November.
Two of the months of October, November, and December.	December.
Three of the months of October, November, December, and January.	January through October.

Provided, That upon written request to the market administrator by the operator of a plant which is a pool plant pursuant to this paragraph for the discontinuance of such plant as a pool plant, such plant shall cease to be a pool plant in the first month, following such request, during which no milk is moved to a plant described in paragraph (a) or (b) of this section and shall not become a pool plant until such plant again meets the requirements for a pool plant pursuant to this paragraph.

§ 965.8 *Producer.* "Producer" means any person operating a dairy farm, producing milk under a dairy farm permit issued by an appropriate health authority, which is received at a "pool plant" described in § 965.7 or diverted from a pool plant by a cooperative association: *Provided,* That any producer whose milk has been approved as "Grade A milk" by an appropriate health authority for any month, or portion thereof, shall be a "Grade A producer" for such month, and any producer whose milk has not been so approved shall be a "Grade B producer."

§ 965.9 *Handler.* "Handler" means (a) any person who: (1) Operates a pool plant; or (2) operates a nonpool plant and either directly or indirectly disposes of Class I or Class II milk, on a route extending into the marketing area; or (b) any cooperative association with respect to the milk of any producer(s) whose milk has been received previously at a pool plant described in § 965.7 which milk has been caused to be diverted by a cooperative association, to a plant from which no milk is disposed of in the marketing area, if payment therefor has been collected by such association, and such milk shall be deemed to have been received from producers by such cooperative association.

§ 965.10 *Producer milk.* "Producer milk" means milk produced by one or more producers under the conditions set forth in § 965.8.

§ 965.11 *Emergency milk.* "Emergency milk" means milk or skim milk other than producer milk in excess of the milk and skim milk, respectively, used in Class III milk and Class IV milk received by a handler under a permit to receive such milk or skim milk issued to him by an appropriate health authority during months when receipts of producer milk or skim milk of the individual handler are less than 120 percent of such handler's Class I utilization of milk or skim milk, respectively.

MARKET ADMINISTRATOR

§ 965.20 *Designation.* The agency for the administration hereof shall be a market administrator, who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 965.21 *Powers.* The market administrator shall:

(a) Administer the terms and provisions hereof; and

(b) Report to the Secretary complaints of violations of the provisions hereof.

§ 965.22 *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(a) Within 45 days following the date on which he enters upon his duties, exe-

cute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(c) Pay, out of the funds provided by § 965.74, the cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator, his own compensation, and all other expenses which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(d) Keep such books and records as will clearly reflect the transactions provided for herein, and surrender the same to his successor or to such other person as the Secretary may designate;

(e) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 2 days after the date upon which he is required to perform such acts, has not made reports pursuant to § 965.30 or has not made payments pursuant to §§ 935.70 and 965.72;

(f) Promptly verify the information contained in the reports submitted by handlers;

(g) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times; and

(h) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(1) On or before the 5th day after the end of such month, the minimum class prices computed pursuant to § 965.51 and the butterfat differentials computed pursuant to § 965.52; and

(2) On or before the 20th day after the end of such month the uniform prices computed pursuant to § 965.64, and the producer butterfat differential.

REPORTS, RECORDS AND FACILITIES

§ 965.30 *Reports of handlers to market administrator.* Each handler, under his own signature or under that of a person certified by such handler to the market administrator as being authorized to sign the reports required by this section, shall report to the market administrator, in detail and on forms prescribed by the market administrator as follows:

(a) On or before the 10th day after the end of each month, each handler who receives milk from producers shall report with respect to all milk, skim milk, cream and milk products received by him during the month:

(1) The receipts at each plant from producers, from his own production, and from other handlers;

(2) The receipts of emergency milk, the date or dates upon which such milk was received during the month, the plant from which such milk was shipped, the price per hundredweight paid or to be paid for such milk;

(3) The receipts from any other source together with the butterfat content;

(4) The utilization of all receipts during the month;

(5) The name and address of each new producer; and

(6) His producer payroll, which shall show for each producer the total receipts of milk with the average butterfat test thereof, the amount of the advance payment to such producer made pursuant to § 965.70 and the deductions and charges made by the handler.

(b) Each handler who receives no milk from producers shall make reports to the market administrator at such times and in such manner as the market administrator may request.

§ 965.31 *Verification of handler reports.* Each handler shall make available to the market administrator or to his agent, or to such other person as the Secretary may designate, those records which are necessary for the verification of the information contained in the reports submitted pursuant to § 965.30, and those facilities which are necessary for the sampling, weighing, and testing of the milk of each producer.

§ 965.32 *Reports of market administrators to cooperative associations.* On or before the 13th day after the end of each month, the market administrator shall report to each cooperative association the amount and class utilization of milk caused to be delivered by such association, either directly or from producers who have authorized such association to receive payments for them under § 965.73 (b), to each handler to whom the cooperative association sells milk. For the purpose of this report the milk so received shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were used in each class.

§ 965.33 *Records and facilities.* Each handler required to make reports to the market administrator shall maintain, and make available to the market administrator during the usual hours of business, such accounts and records of his operations and such facilities as in the opinion of the market administrator are necessary to verify reports, or to ascertain the correct information with respect to (a) the receipts and utilization of all skim milk and butterfat received, including all milk products received and disposed of in the same form; (b) the weights and tests for butterfat, and for other contents, of all milk and milk products handled; and (c) payments to producers and cooperative associations.

§ 965.34 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies a handler in writing that the retention of such books and records or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 965.40 *Basis of classification.* Milk received by each handler, including milk produced by him, shall be classified by the market administrator in the classes set forth in § 965.41 subject to the provisions of §§ 965.42, 965.43 and 965.44.

§ 965.41 *Classes of utilization.* The classes of utilization of milk and butterfat shall be as follows:

(a) Class I milk shall be all milk and skim milk disposed of in the form of milk and milk drinks and any product containing less than 8.0 percent butterfat not specified in Class II milk, Class III milk or Class IV milk and all shrinkage of butterfat in receipts of butterfat from producers and emergency milk in excess of 2.5 percent of such receipts.

(b) Class II milk shall be all milk and skim milk disposed of as buttermilk, cream for consumption as cream, and any product containing 8.0 percent or more of butterfat not specified in Class I milk, Class III milk or Class IV milk.

(c) Class III milk shall be all milk (1) disposed of as plain or sweetened, condensed or evaporated milk, spray or roller powder, margarine, animal feed, all cheese, commercially manufactured candy, eggnog, and whipped cream and whipped cream substitutes; (2) used to produce ice cream, ice cream mix and frozen desserts; (3) dumped or spilled; and (4) in inventory variations; and all butterfat in shrinkage up to 2.5 percent of total receipts of butterfat in producer milk and in emergency milk and in shrinkage of butterfat in milk other than producer milk or emergency milk.

(d) Class IV milk shall be all milk disposed of as butter.

§ 965.42 *Responsibility of handlers and reclassification of milk.* (a) In establishing the classification as required in §§ 965.41 and 965.43, the burden rests upon the handler to account for all milk and milk products received by him and to prove to the market administrator that such milk, or milk products, should not be classified as Class I milk.

(b) Any milk or milk product classified in one class shall be reclassified if such milk or milk product is later used or disposed of by any handler in another class, in accordance with such later use or disposition.

§ 965.43 *Transfers.* (a) Milk and skim milk transferred from a pool plant to another pool plant shall be Class I milk, and cream so transferred shall be Class II milk, unless another class use is indicated in writing to the market administrator by the operators of both plants on or before the 10th day after the end of the month within which such transfer was made: *Provided*, That if either or both plants have received milk other than producer milk or emergency milk, the milk, skim milk or cream so transferred shall be classified at both plants so as to allocate the highest possible utilization to producer milk.

(b) Milk or skim milk transferred from a pool plant to a plant other than a pool plant shall be classified as Class I milk and cream so transferred shall be Class II milk: *Provided*, That if the operator of the pool plant on or before the 10th day after the end of the month furnishes to the market administrator a statement, which is signed by the operators of both plants, that such milk, skim milk, or cream was used in a lower class, such milk, skim milk, or cream shall be classified accordingly, subject to verification by the market administrator: *And provided further*, That in making such verification for months other than April, May, June, and July, the market administrator will assign milk, skim milk or cream so transferred to the highest use classification in the plant of the receiver.

§ 965.44 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of butterfat in producer milk and in milk other than producer milk.

§ 965.45 *Computation of milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for obvious errors the report submitted by each handler and compute the total pounds of milk and butterfat, respectively, in Class I milk, Class II milk, Class III milk, and Class IV milk for such handler.

§ 965.46 *Allocation of milk and butterfat classified.* The pounds of milk and butterfat remaining in each class after making the following computations shall be the pounds of milk and butterfat, respectively, in such class allocated to producer milk:

(a) The pounds of milk in Class III shall be decreased by any excess of utilization of all classes over total receipts and shall be increased by any excess of total receipts over total utilization of all classes.

(b) Subtract from the pounds of butterfat in Class III the pounds of producer butterfat in plant shrinkage which is not in excess of 2.5 percent of all butterfat received from producers and in emergency milk.

(c) Subtract from the remaining pounds of milk and butterfat, respectively, in each class, the pounds of milk and butterfat, respectively, received from other handlers, in the classes transferred pursuant to § 965.43.

(d) Subtract from the remaining pounds of milk and butterfat, respectively, in series beginning with the lowest-priced use available, the pounds of milk and butterfat, respectively, except emergency milk, received other than producer milk.

(e) Add to the Class III butterfat the pounds of butterfat subtracted pursuant to paragraph (b) of this section.

(f) Subtract pro rata out of the remaining pounds of milk and butterfat, respectively, in each class, the total pounds of emergency milk and butterfat.

(g) If the pounds of butterfat remaining in all classes exceed the pounds of butterfat received from producers, subtract such excess from the remaining pounds of butterfat in each class in series beginning with the lowest-priced class.

MINIMUM PRICES

§ 965.50 *Basic formula price.* The basic formula price per hundredweight of milk to be used in computing the minimum prices for Class I milk and Class II milk shall be the higher of the prices computed by the market administrator pursuant to paragraphs (a) and (b) of this section:

(a) The average of the basic (or field) prices per hundredweight ascertained to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during such month at the following plants or places for which prices are reported to the market administrator or to the United States Department of Agriculture:

Company and Location
Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Jefferson, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by the market administrator by adding together the plus amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply by 3.5 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month for which payment is to be made, and add 20 percent thereof;

(2) From the simple average as computed by the market administrator of the weighted average of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the immediately preceeding month through the 25th day of the current month by the United States Department of Agriculture, deduct 5.5 cents and multiply the result by 8.2.

§ 965.51 *Class prices.* Each handler shall pay, at the time and in the manner set forth in § 965.72, not less than the following prices per hundredweight, on the basis of milk of 3.5 percent butterfat content, for the respective quantities of milk in each class computed pursuant to § 965.46:

(a) The price for Class I milk shall be the basic formula price plus $1.05 for the months of April through July and $1.35 for the months of August through March.

(b) The price for Class II milk shall be the basic formula price plus $0.60 for the months of April through July and $0.90 for the months of August through March.

(c) The price for Class III milk shall be the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph.

(1) The price as computed pursuant to § 965.50 (b);

(2) The simple average, as computed by the market administrator, of the basic or field prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants:

M and R Dietetic Laboratories, Inc., Chillicothe, Ohio.
Carnation Milk Co., Hillsboro, Ohio.
Nestles Milk Products, Inc., Greenville, Ohio.
Nestles Milk Products, Inc., (Osgood Milk Co.) Osgood, Indiana.
Carnation Milk Co., Maysville, Ky.

(d) The price for Class IV milk shall be the price of Class III milk less 17.5 cents.

§ 965.52 *Butterfat differentials to handlers.* If the weighted average butterfat test of producer milk which is classified in any class, respectively, for any handler, is more or less than 3.5 percent, there shall be added to or subtracted from, as the case may be, from the price for such class, for each one-tenth of one percent that such weighted average butterfat test is above or below 3.5 percent, a butterfat differential calculated by the market administrator as follows: For Class I, Class II and Class III, determine the percent of the alternate basic formula price as computed pursuant to § 965.50 (b) represented by the sum computed pursuant to § 965.50 (b) (1), apply the percentage so determined to the respective Class I, Class II and Class III prices for 3.5 percent milk computed pursuant to § 965.51 (a), (b), and (c) and divide by 35, the resulting sum (to the nearest hundredth of a cent) shall be the handler butterfat differential for each class, respectively. The handler butterfat differential for Class IV milk shall be such differential for Class III milk less 0.5 cent.

DETERMINATION OF UNIFORM PRICES

§ 965.60 *Computation of value of milk for each handler.* The value of the milk received from producers during each month by each handler shall be a sum of money computed by the market administrator by multiplying the hundredweight of milk in each class by the applicable class prices, subject to the butterfat differential provided in § 965.52 and adding any amount resulting from the following computation: Multiply the pounds of butterfat subtracted pursuant to § 965.46 (g) by the price for the ap-

plicable class adjusted by the applicable butterfat differential.

§ 965.61 *Computation of obligation to the producer-settlement fund for handlers operating a fluid milk plant which is not a pool plant.* For each month, the obligation to the producer-settlement fund for each handler operating a fluid milk plant which is not a pool plant shall be computed by the market administrator by multiplying by the difference between the Class I and the Class III prices, the hundredweight of milk disposed of as Class I milk by such handler on routes operating within the marketing area less the hundredweight of Class I milk purchased by such handler during the month from a pool plant. On or before the 13th day after the end of each month, the market administrator shall notify each such handler of the amount so computed for him subject to adjustment pursuant to § 965.62 and on or before the 17th day after the end of each month each such handler shall make payment to the market administrator.

§ 965.62 *Correction of errors.* If, in the verification of reports submitted by a handler, the market administrator discovers errors in such reports which result in payment due the producer-settlement fund or the handler for any previous month, there shall be added or subtracted as the case may be, the amount necessary to correct such errors.

§ 965.63 *Notification to handler of the value of his milk.* On or before the thirteenth day after the end of each month, the market administrator shall notify each handler of the value of milk computed for him in accordance with § 965.60 and of any adjustments pursuant to § 965.62.

§ 965.64 *Computation of uniform prices for Grade A producers and Grade B producers—(a) Computation of uniform price for Grade A producers.* For each month, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from Grade A producers as follows:

(1) Add together the values of milk as computed pursuant to § 965.60 for handlers other than those in arrears in payment (other than in payment for any amount pursuant to § 965.62) to the producer-settlement fund as required by § 965.72 for the preceding month;

(2) Subtract, if the weighted average butterfat test of all milk received from producers by handlers whose milk is represented in the sum computed under subparagraph (1) of this paragraph, is greater than 3.5 percent, or add, if the weighted average butterfat test of such milk is less than 3.5 percent, an amount computed as follows: Multiply the hundredweight of such milk by the difference of its weighted average butterfat test from 3.5 percent, and multiply the resulting amount by 50 cents if the average price of butter, described under § 965.50 (b) (1), was more than 40 cents but not more than 50 cents, such amount (50 cents) to be increased or decreased, as the case may be, by 10 cents for each 10-cent range in such price of butter above or below the range "more than 40 cents but not more than 50 cents";

(3) Subtract an amount equivalent to the moneys retained pursuant to § 965.76;

(4) Add the unobligated balance in the producer-settlement fund;

(5) Add an amount computed by multiplying the total hundredweight of milk received from Grade B producers by $0.40;

(6) Divide by the total hundredweight of milk of all producers represented in the sum computed pursuant to subparagraph (1) of this paragraph; and

(7) Subtract from the figure obtained in subparagraph (6) of this paragraph not less than 4 cents or more than 5 cents per hundredweight for the purpose of retaining a cash balance to provide against errors in reports and in payments by handlers. The result shall be known as the uniform price per hundredweight for such month for milk (on the basis of 3.5 percent of butterfat) received from Grade A producers.

(b) Computation of uniform price for Grade B producers. For each delivery period, the market administrator shall compute the uniform price per hundredweight of milk received by handlers from Grade B producers as follows: From the uniform price computed pursuant to paragraph (a) (7) of this section subtract 40 cents. The result shall be known as the uniform price per hundredweight for such month for milk (on the basis of 3.5 percent of butterfat) received from Grade B producers.

PAYMENT FOR MILK

§ 965.70 *Payments to producers.* On or before the 5th day after the end of each month, each handler shall pay, with respect to all milk received during the month, $1.00 per hundredweight of milk to each producer: *Provided*, That in the event the total amount of deductions and charges authorized by any producer against payments due such producer for the month next preceding is greater than the payment computed for such producer pursuant to § 965.73 (a) with respect to the milk received from such producer during such preceding month, the handler may deduct from the payment required by this section a sum equal to the difference between such amounts.

§ 965.71 *Producer-settlement fund.* The market administrator shall maintain a separate fund, known as the producer-settlement fund, in which he shall deposit all payments made pursuant to §§ 965.61 and 965.72 and from which he shall make all payments pursuant to § 965.73.

§ 965.72 *Payment to producer-settlement fund.* On or before the 17th day after the end of each month, each handler shall pay to the market administrator the amount of money which represents the value of milk for such month of which he is notified pursuant to § 965.63 less the amount paid out to each producer in accordance with § 965.70, and less the amount of the deductions and charges authorized by such producer which are itemized on the handler's producer pay roll: *Provided*, That in the calculation of the total amount of such deductions and charges to be subtracted, the deductions and charges to be considered with respect to each individual producer shall not be greater than an amount which, when added to the payment made to such producer in accordance with § 965.70 (inclusive of the deductions and charges authorized by § 965.70) will not exceed the total value of the milk received from such producer.

§ 965.73 *Payments from producer-settlement fund.* (a) For each month the market administrator shall compute the payment due each producer for milk received during such month from such producer by a handler who made the payments for such month pursuant to § 965.72 by multiplying the hundredweight of such milk by the uniform price computed pursuant to § 965.64 adjusted to the butterfat test of such milk by adding or subtracting, respectively, for each one-tenth of one percent that the butterfat content of such milk is above or below 3.5 percent one-tenth of the rate provided in § 965.64 (a) (2) and subtracting any charges and deductions made pursuant to § 965.72.

(b) On or before the 20th day after the end of each month, the market administrator shall pay, subject to the provisions of § 965.75, to each cooperative association authorized to receive payments due producers who market their milk through such cooperative association, the aggregate of payments calculated pursuant to paragraph (a) of this section, for all producers certified to the market administrator by such cooperative association as having authorized such cooperative association to receive such payments. On or before the 20th day after the end of each month, the market administrator shall pay, subject to the provisions of § 965.75, direct to each producer who has not authorized a cooperative association to receive payments for such producer, the amount of the payment calculated for such producer pursuant to paragraph (a) of this section.

§ 965.74 *Expense of administration.* As his pro rata share of the expense incurred in the maintenance and functioning of the office of the market administrator and in the performance of the duties of the market administrator, each handler shall pay to the market administrator, on or before the 17th day after the end of each month, 2 cents per hundredweight or such lesser amount as the Secretary may from time to time prescribe, with respect to all milk received from producers and produced by him during the month: *Provided*, That any cooperative association which has handled milk during the month under the conditions set forth in § 965.9, shall pay such pro rata share of expense of administration on only that quantity of milk so handled.

§ 965.75 *Marketing services.* (a) The market administrator shall deduct an amount not exceeding 4 cents per hundredweight (the exact amount to be determined by the market administrator) from the payments made pursuant to § 965.73 (b), with respect to the milk of those producers for whom the marketing services set forth in paragraph (b) of this section are not being performed by a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," for the purpose of performing the services set forth in paragraph (b) of this section.

(b) The moneys received by the market administrator pursuant to paragraph (a) of this section shall be expended by the market administrator for market information to, and for the verification of weights, samples, and tests of milk of, producers for whom a cooperative association, as described in paragraph (a) of this section, is not performing the same services on a comparable basis, as determined by the market administrator, subject to review of the Secretary.

§ 965.76 *Payments to cooperative associations.* (a) Upon application to the Secretary, any cooperative association duly organized under the laws of any State which he determines, after appropriate inquiry or investigation, to be conforming to the provisions of such laws and with the standards set forth in § 965.75 (a); to be operating as a producer-controlled marketing association exercising full authority in the sale of the milk of, and assuming responsibility for payments to, its members; to be maintaining individually or in collaboration with other qualified cooperative associations, a competent staff for dealing with marketing problems and to be complying with all provisions hereof applicable to such cooperative association shall be entitled, under the further conditions hereafter specified, to receive payments from the date of its qualification as fixed by the Secretary, until it has been found by the Secretary, after notice and opportunity for hearing, that it has failed to continue to meet any condition set forth in this section for the receipt of such payments:

(1) At the rate of one-half cent per hundredweight on all milk (i) marketed by it in the manner indicated above on behalf of members, and (ii) on which reports and payments have been made as required under §§ 965.30, 965.70 and 965.74, except that payment at this rate shall not be made on milk with respect to which the same association is eligible to receive payment under subparagraph (2) of this paragraph.

(2) At the rate of 3 cents per hundredweight on all milk which is received from members at any plant operated by such an association, or subsidiary thereof, and which is included in the computations made pursuant to § 965.64.

(b) The market administrator shall, upon notice of the filing of an application by a cooperative association, retain each delivery period in the producer-settlement fund such sum as he estimates is ample to make payments to the applicant, to be held in reserve until the Secretary has ruled upon said application and shall, when the application has been ruled upon by the Secretary, make payment or issue credit out of such reserves in accordance with said ruling and shall release the balance of the reserved sums, if any, for disposition pursuant to § 965.64 (a); and shall on or before the 20th day of each month thereafter, make such payments or issue credit therefor out of the producer-settlement fund, subject to verification of the facts upon which the amount of payment is based.

(c) Each cooperative association qualified to receive payments pursuant to this section shall, from time to time, as requested by the market administrator, make reports to him with respect to its conformity with any of the conditions for qualification or to the use of such payments and shall file with him a copy of its balance sheet and operating statement at the close of each fiscal year.

(d) The market administrator shall suspend payment upon his own initiative or upon request by the Secretary or by such officer of the United States Department of Agriculture as he may designate, by giving written notice to a cooperative association and to the Secretary whenever there is good reason to believe that such association is no longer qualified to receive payment. Such suspended payments shall be aggregated and held in reserve until the Secretary, after notice and opportunity for hearing, has appraised the performance of the cooperative association and either has ordered a partial or complete payment of funds held in reserve to the cooperative association or has disqualified such cooperative association, in which event the balance of funds held in reserve shall be released for disposition pursuant to § 965.64 (a).

§ 965.77 *Termination of obligation.* (a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producers or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calender month during which milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 965.80 *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 965.81 *Suspension or termination.* Any or all provisions hereof, or amendments hereto, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall terminate in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 965.82 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such person as the Secretary may designate, shall continue in such capacity until removed by the Secretary; account from time to time for all receipts and disbursements and, when so directed by the Secretary, deliver all funds on hand, together with the books and records of the market administrator or such other person to such person as the Secretary shall direct and execute, if so directed by the Secretary, such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 965.83 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amount necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 965.90 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

§ 965.91 *Separability of provisions.* If any provision hereof, or its application to any person or circumstances, is held invalid the application of such provisions, and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C. this 31st day of August, 1950, to be effective on and after the 1st day of September, 1950.

PART 60—AIR TRAFFIC RULES

DANGER AREA ALTERATIONS

The danger area alterations appearing hereinafter have been cordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Title 14, § 60.13-1 is amended as follows:

1. A Lighthouse Rocks, Kodiak, Alaska, area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
LIGHTHOUSE ROCKS (Kodiak Island) (WAC 136).	A circular area having a radius of 5 miles centered at lat. 55°47'00" N, long. 157°26'00" W.	Surface to unlimited.	Continuous...	Commander, Naval Air-bases, 17th Naval District, Kodiak, Alaska.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on September 8, 1950.

[SEAL] DONALD W. NYROP,
Acting Administrator of
Civil Aeronautics.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR, Part 173]

SUBSTANCES USED IN THE MANUFACTURE OF DISTILLED SPIRITS

NOTICE OF PROPOSED RULE-MAKING

A notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under authority of 53 Stat. 308, 373, as amended, 375; 26 U. S. C. 2811, 3170, 3176.

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

1. Section 173.3 (b) of Regulations 17 (26 CFR Part 173), approved July 11, 1945, relating to the disposition of substances used in the manufacture of distilled spirits is hereby amended to read as follows:

§ 173.3 *Definitions.* • • •

(b) "Substance" shall mean and include, but not by way of limitation, any of the following which are used in the manufacture of distilled spirits: Any grade or type of sugar, sirup, or molasses derived from sugar cane, sugar beets, corn, sorghum, or any other source; starch; potatoes; grain or corn meal, corn chops, cracked corn, rye chops, middlings, shorts, bran, or any other grain derivative; malt; malt sugar, or malt sirup; oak chips, charred or not charred; charred kegs or barrels; yeast; cider; honey; fruits; grapes; berries; fruit, grape, or berry juices or concentrates; wine; caramel; burnt sugar; gin flavor; Chinese bean cake or Chinese wine cake; urea; ammonium phosphate, ammonium carbonate, ammonium sulphate, or any other yeast food; or any other fermentable material of the character used in the manufacture of distilled spirits, or any chemical or other material suitable for promoting or accelerating fermentation; or any combination of such materials or chemicals.

• • • • • • •

(53 Stat. 308, 373, as amended, 375; 26 U. S. C. 2811, 3170, 3176)

2. Section 173.5 of Regulations 17 (26 CFR Part 173), approved July 11, 1945, relating to disposition of substances used in the manufacture of distilled spirits is hereby amended to read as follows:

§ 173.5 *Records to be maintained.* Every person in the United States who disposes of any substance, as defined in § 173.3 (b), and who has been required to render returns under the provisions of § 173.4 (a), shall keep at his place of business such books, records, documents, papers, invoices, bills of lading, etc., relating to or connected with any such disposition, as will enable such person to make the return provided for by § 173.4 (a). Such books, records, documents, papers, invoices, bills of lading, etc., shall be kept readily available for, and open to, inspection by any officer or employee of the Alcohol Tax Unit of the Bureau of Internal Revenue during the hours of business of such person.

(53 Stat. 308, 373, as amended, 375; 26 U. S. C. 2811, 3170, 3176)

3. The purposes of these proposed amendments are as follows:

(a) To include in the definition of "Substances" the words "charred kegs and barrels," in order that returns may be required from distributors of such containers.

(b) To eliminate language originally included which specified minimum quantities of raw materials on which records were to be maintained by distributors. The quantities to be recorded are now designated by the "demand letters" and no records are required of persons not under demand to make returns.

4. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 920]

[Docket No. AO-221-RO1]

HANDLING OF IRISH POTATOES GROWN IN MASSACHUSETTS, RHODE ISLAND, CONNECTICUT, NEW HAMPSHIRE, AND VERMONT

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing upon a proposed marketing agreement and a proposed marketing order regulating the handling of Irish potatoes grown in the States of Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont, was opened at West Springfield, Massachusetts, on April 17, 1950, pursuant to notice thereof in the FEDERAL REGISTER (15 F. R. 1809), recessed April 20, 1950, and reopened June 20, 1950, following notice of such reopening published in the FEDERAL REGISTER (15 F. R. 3191).

Upon the basis of the evidence introduced at the aforesaid hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on August 9, 1950, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of the filing of such recommended decision, affording opportunity to file written exceptions thereto, was published in the FEDERAL REGISTER (15 F. R. 5395, 5635).

Rulings. Exceptions to the recommended decision of the Assistant Administrator were filed by Roderick H. King, Chairman of the Farm Bureau Potato Committee, Connecticut State Farm Bureau Federation, Inc., and by Alfred L. French, Managing Director, New Hampshire Farm Bureau Federation. Each of such exceptions was fully and carefully considered together with the evidence in the record, in arriving at the findings and conclusions set forth herein.

As the termination provisions of § 920.84 (c) of the proposed marketing order comply with the order termination provisions specifically set forth in the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608 (c) (16) (B)), the exception thereto is overruled. The exception to the production area contained in § 920.4 of the proposed marketing order is overruled because, although a State branding law may assist in promoting more orderly marketing of Irish potatoes grown therein and may tend to increase the returns of the growers of such potatoes, such law does not prevent a grower from marketing his entire potato crop, regardless of the grade and size of the potatoes therein contained, and such law is not, therefore, an adequate substitute for the proposed marketing order in effectuating the declared policy of the act. To the extent that the findings and conclusions herein are at variance with any of the exceptions pertaining thereto such exceptions are denied for the foregoing reasons and on the basis of the findings and conclusions relating to the issues to which the exceptions referred.

The material issues and the findings and conclusions of the recommended decision set forth in the FEDERAL REGISTER (F. R. Doc. 50-7082; 15 F. R. 5395, 5635) are hereby approved, adopted, and incorporated herein as the material issues and the findings and conclusions of this decision as if set forth in full herein.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Irish Potatoes Grown in the States of Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont," and "Order Regulating Handling of Irish Potatoes Grown in the States of Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont," which have been decided upon as the appropriate and detailed means of effectuating the foregoing conclusions. The aforesaid marketing agreement and the aforesaid order shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the attached agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement are identical with those contained in the attached order, which will be published with this decision.

Done at Washington, D. C., this 31st day of August 1950.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

§ 920.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public

hearing upon a proposed marketing agreement and a proposed marketing order regulating the handling of Irish potatoes grown in the States of Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont, was opened at West Springfield, Massachusetts, April 17, 1950, recessed April 20, 1950, and reopened June 20, 1950. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) The terms and provisions of this order prescribe, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary in order to give due recognition to the difference in production and marketing of such Irish potatoes;

(2) This order is limited in its application to the smallest regional production area that is practicable, consistent with carrying out the declared policy of the act, and the issuance of several orders applicable to any subdivision of the production area specified in this order would not effectively carry out the declared policy of the act;

(3) This order, and all of the terms and conditions of this order, will tend to effectuate the declared policy of the act with respect to Irish potatoes produced in said production area, specified in this order, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such Irish potatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such Irish potatoes as will be in the public interest;

(4) This order regulates the handling of potatoes grown in the production area in the same manner as, and is applicable only to the persons in the respective classes of industrial and commercial activity specified in, a proposed marketing agreement upon which a hearing has been held; and

(5) All handling of potatoes grown in the production area, within the production area or between the production area and any point outside thereof, is either in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

Order relative to handling. It is hereby ordered, pursuant to the findings and determinations set forth in § 920.0 hereof, and pursuant to the aforesaid act, that such handling of potatoes, as defined in this order shall, from and after the time hereinafter specified, be in conformity to and in compliance with the terms and conditions of this order; and the terms and conditions of this order are as follows:

DEFINITIONS

§ 920.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States Department of Agriculture, who is, or may hereafter be authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 920.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051).

§ 920.3 *Person.* "Person" means an individual, partnership, corporation, association, or any organized group or business unit.

§ 920.4 *Production area.* "Production area" means all territory included within the States of Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont.

§ 920.5 *Potatoes.* "Potatoes" means all varieties of Irish potatoes grown within the aforesaid production area.

§ 920.6 *Handler.* "Handler" is synonymous with shipper and means any person (except a common or contract carrier of potatoes owned by another person) who ships potatoes.

§ 920.7 *Ship.* "Ship" or "handle" means to transport, sell, or in any other way to place potatoes in the current of commerce within the production area or between the production area and any point outside thereof; *Provided*, That the definition of "ship" or "handle" shall not include or be applicable to the sale or transportation of ungraded potatoes within the production area for storing, or to the sale or transportation of potatoes to a recognized dealer or packer within the production area for the purpose of having such potatoes prepared for market.

§ 920.8 *Producer.* "Producer" means any person engaged in the production of potatoes for market.

§ 920.9 *Fiscal year.* "Fiscal year" means the period beginning on June 1 of each year and ending May 31 following.

§ 920.10 *Committee.* "Committee" means the administrative committee, called the New England Potato Committee, established pursuant to § 920.22.

§ 920.11 *District.* "District" means, describes, and refers to each of the geographic divisions of the production area established pursuant to § 920.24.

§ 920.12 *Varieties.* "Varieties" means and includes all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 920.13 *Seed potatoes.* "Seed potatoes" or "seed" means and includes all potatoes officially certified and tagged, marked or otherwise appropriately identified, under supervision of the official seed potato certifying agency of the State where grown, or other seed certification agencies which the Secretary may recognize.

§ 920.14 *Table stock potatoes.* "Table stock potatoes" means and includes all potatoes not included within the definition of "seed potatoes."

§ 920.15 *Wholesale pack.* "Wholesale pack" means a unit of fifty pounds net weight or more of potatoes contained in a bag, crate, or any other type of container.

§ 920.16 *Consumer pack.* "Consumer pack" means a unit of less than fifty pounds net weight of potatoes contained in a bag, crate, or any other type of container.

§ 920.17 *Grade.* "Grade" means any one of the officially established grades of potatoes, and "size" means any one of the officially established sizes of potatoes, as defined and set forth in:

(a) United States Standards for Potatoes issued by the United States Department of Agriculture (14 F. R. 1955, 2161), or amendments thereto, or modifications thereof, or variations based thereon;

(b) United States Consumer Standards for Potatoes issued by the United States Department of Agriculture (12 F. R. 7281), or amendments thereto, or modifications thereof, or variations based thereon.

§ 920.18 *Export.* "Export" means shipment of potatoes beyond the boundaries of continental United States.

§ 920.19 *Part and subpart.* "Part" means the order regulating the handling of Irish potatoes grown in the States of Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont, and all rules, regulations, and supplementary orders issued thereunder, and the aforesaid order shall be a "subpart" of such "part."

COMMITTEE

§ 920.22 *Establishment and membership.* (a) The New England Potato Committee consisting of 15 producer members is hereby established. For each member of the committee there shall be an alternate who shall have the same qualifications as the member.

(b) Each person selected as a committee member or alternate shall be an individual who is a producer (or an officer or an employee of a corporate producer) in and a resident of the district for which selected.

§ 920.23 *Term of office.* The term of office of committee members and alternates shall be for two fiscal years, and until their successors are selected and have qualified: *Provided, however*, That the terms of office of the initial committee shall be determined by the Secretary so that the terms of office of a majority of the initial members and alternates shall be for one fiscal year. Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during the term of office.

§ 920.24 *Districts.* For the purpose of determining the basis for selecting committee members, the following districts of the production area are hereby established:

District No. 1: The State of Massachusetts;
District No. 2: The State of Rhode Island;
District No. 3: The State of Connecticut;
District No. 4: The State of New Hampshire; and
District No. 5: The State of Vermont.

§ 920.25 *Selection.* The Secretary shall select four members of the committee, with their respective alternates, from each of Districts Nos. 1 and 3, three members with their respective alternates from District No. 2, and two members with their respective alternates from each of Districts Nos. 4 and 5, which members and alternates shall represent the respective District from which they are selected.

§ 920.26 *Nomination.* The Secretary may select the members of the New England Potato Committee, with their respective alternates, from nominations which may be made in the following manner:

(a) Nominations for initial members of the committee and their respective alternates may be submitted by producers, or groups thereof, and such nominations may be by virtue of elections conducted by groups of producers.

(b) In order to provide nominations for succeeding committee members and alternates:

(1) The New England Potato Committee shall hold or cause to be held prior to April 1 of each year, after the effective date hereof, a meeting or meetings of producers in each of the Districts designated in § 920.24;

(2) In arranging for such meetings the committee may, if it deems desirable, utilize the services and facilities of existing organizations and agencies;

(3) At each such meeting at least two nominees shall be designated for each position as member and for each position as alternate member on the committee;

(4) Nominations for committee members and alternate members shall be supplied to the Secretary in such manner and form as he may prescribe, not later than 30 days prior to the end of each fiscal year;

(5) Only producers may participate in designating nominees for committee members and their alternates; and

(6) Regardless of the number of districts in which a person produces potatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates: *Provided*, That in the event a person is engaged in producing potatoes in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees: *Provided further*, That an eligible voter's privilege of casting only one vote, as aforesaid, shall be construed to permit a voter to cast one vote for each position to be filled in the respective district in which he elects to vote.

§ 920.27 *Failure to nominate.* If nominations are not made within the time and in the manner specified in § 920.26, the Secretary may, without regard to nominations, select the committee members and alternates which selection shall be on the basis of the representation provided for in § 920.25.

§ 920.28 *Acceptance.* Any person selected as a committee member or as an alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 920.29 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a committee member or as an alternate to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate, a successor for his unexpired term may be selected from nominations made in the manner specified in § 920.26, or the Secretary may select such committee member or alternate from previously unselected nominees on the current nominee list from the district involved. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in § 920.25.

§ 920.30 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 920.31 *Procedure.* (a) A majority of the committee members shall be necessary to constitute a quorum and the same number of concurring votes shall be required to pass any motion or approve any committee action.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication and any vote cast at such a meeting shall be promptly confirmed in writing: *Provided*, That if any assembled meeting is held, all votes shall be cast in person.

§ 920.32 *Expenses and compensation.* Committee members and their respective alternates shall be reimbursed for expenses necessarily incurred by them in the performance of their duties and in exercise of their powers under this part, and shall receive compensation at a rate to be determined by the committee, which rate shall not exceed $5.00 for each day, or portion thereof, spent in attending to committee business.

§ 920.33 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 920.34 *Duties.* It shall be the duty of the committee:

(a) At the beginning of each fiscal year, to meet and organize, to select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(e) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to potatoes, and, upon approval of the Secretary, to engage in such research and service activities which may be necessary and incidental to the operation of the marketing agreement and order;

(f) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(g) To make available to producers and handlers the committee voting record on recommended regulations and on other matters of policy;

(h) At the beginning of each fiscal year, to prepare a budget of its expenses for such fiscal year, together with a report thereon;

(i) To cause the books of the committee to be audited by a competent accountant at least once each fiscal year, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part; a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(j) To consult, cooperate, and exchange information with other potato marketing committees and other individuals or agencies in connection with all proper committee activities and objectives under this part.

EXPENSES, ASSESSMENTS, AND BUDGETS

§ 920.40 *Budget.* The committee shall prepare a budget for each fiscal year showing its anticipated expenses and a proposed rate of assessment to cover such expenses. The committee shall also transmit to the Secretary a report accompanying the budget showing the basis for its calculation of expenses and the proposed rate of assessment.

§ 920.41 *Expenses.* The committee is authorized to incur such expenses as the Secretary, upon the basis of the aforesaid budget and other available information, finds may be necessary during each fiscal year to perform its functions under this part and for such other purposes as may be appropriate pursuant to the provisions of this part.

§ 920.42 *Rate of assessment.* The funds to cover such expenses shall be acquired by the levying on handlers of assessments which shall be at a rate recommended by the committee and fixed by the Secretary on the basis of such recommendations or other available information. Each handler who first ships potatoes shall pay assessments to the committee upon demand, which assessments shall be such handler's pro rata share of the expenses which will be appropriately incurred by the committee during each fiscal year. Such handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof, during the applicable fiscal year, and the total quantity of potatoes handled by all handlers as the first handlers thereof, during the same fiscal year.

§ 920.43 *Increasing rate of assessment.* Upon recommendation of the committee and upon a later finding relative to the committee's expenses or revenue, the Secretary may increase the rate of assessment to cover expenses which shall be appropriately incurred. Such increase shall be applicable to all potatoes handled during the given fiscal year.

§ 920.44 *Accounting.* All funds received by the committee pursuant to any provision of this part shall be used solely for the purposes specified in this part and shall be accounted for in the following manner:

(a) The Secretary may at any time require the committee and its members to account for all receipts and disbursements; and

(b) Whenever any person ceases to be a committee member or alternate he shall account for all receipts and disbursements and deliver all property and funds in his hands, together with all books and records in his possession, to his successor in office or to such person as the Secretary may designate, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor or in such designated person the right to all the property, funds, or claims vested in such member or alternate.

§ 920.45 *Refunds.* (1) If at the end of a fiscal year, it shall appear that assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal year, unless he demands payment thereof, in which event such proportionate refund shall be paid to him.

§ 920.46 *Collection of funds.* (a) The committee may, with the approval of the Secretary maintain in its own name or in the name of its members, a suit against any handler for the collection of such handler's pro rata share of the expenses of the committee.

(b) In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

REGULATION

§ 920.50 *Marketing policy preparation.* At the beginning of each fiscal year the committee shall consider and prepare a proposed policy for the marketing of potatoes during such fiscal year. In developing its marketing policy the committee shall investigate relevant supply and demand conditions for potatoes. In such investigations the committee shall give appropriate consideration to the following:

(a) Market prices for potatoes, including prices by grade, size, and quality in wholesale or in consumer packs, or any other shipping unit;

(b) Supply of potatoes, by grade, size, and quality, in the production area and in other production areas;

(c) The trend and level of consumer income; and

(d) Other relevant factors.

§ 920.51 *Marketing policy reports.* (a) The committee shall submit to the Secretary a report setting forth the aforesaid marketing policy. The committee also shall notify producers and handlers of the contents of such reports.

(b) In the event it becomes advisable to deviate from such marketing policy, because of changed supply and demand conditions, the committee shall formulate a new marketing policy in accordance with the manner previously outlined. The committee also shall submit a report thereon to the Secretary and notify producers and handlers of such revised or amended marketing policy.

§ 920.52 *Committee recommendations.* The committee shall recommend regulation to the Secretary whenever it finds that such regulation, as provided in § 920.53 will tend to effectuate the declared policy of the act. The committee also may recommend modification, suspension, or termination of any regulation in order to facilitate shipments of potatoes for the specified purposes set forth in § 920.54.

§ 920.53 *Issuance of regulations.* The Secretary shall limit the shipment of potatoes whenever he finds from the recommendations and information submitted by the committee, or from other available information that such regulation would tend to effectuate the declared policy of the act. Such limitation may:

(a) Regulate, in any or all portions of the production area, the shipment of particular grades, sizes, or qualities of any or all varieties of potatoes during any period; or

(b) Regulate the shipment of particular grades, sizes, or qualities of potatoes differently for different varieties, for different portions of the production area, for consumer or wholesale packs, or any combination of the foregoing during any period; or

(c) Regulate the shipment of potatoes by establishing in terms of grades, sizes, or both, minimum standards of quality and maturity.

§ 920.54 *Modification, suspension, or termination.* Upon the basis of the recommendation and information submitted by the committee, the Secretary shall modify, suspend, or terminate regulations issued pursuant to §§ 920.42, 920.43, 920.53, 920.54, or 920.65, or any combination thereof, in order to facilitate shipments of potatoes for the following purposes whenever he finds that it will tend to effectuate the declared policy of the act:

(a) For seed;

(b) For export;

(c) For distribution by the Federal Government;

(d) For manufacture or conversion into specified products;

(e) For livestock feed; and

(f) For other purposes which may be specified.

§ 920.55 *Minimum quantity regulation.* The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which shipments will be free from regulations issued pursuant to §§ 920.42, 920.43, 920.53, 920.54, or 920.65, or any combination thereof.

§ 920.56 *Notification of regulation.* The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 920.57 *Safeguards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to § 920.54 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of Certificates of Privilege if such certificates are prescribed as safeguards by the committee. Safeguards, as prescribed in this section, may include requirements that:

(1) Handlers shall file applications with the committee to ship potatoes pursuant to § 920.54;

(2) Handlers shall obtain inspection provided by § 920.65 or pay the pro rata share of expenses provided by § 920.42 or both, in connection with potato shipments effected under the provisions of § 920.54: *Provided,* That such inspection or payment of expenses may be required at different times than otherwise specified by the aforesaid sections; and

(3) Handlers shall obtain Certificates of Privilege from the committee for shipments of potatoes effected or to be effected under the provisions of § 920.54.

(b) The committee may rescind or deny Certificates of Privilege to any shipper if proof is obtained that potatoes shipped by him for the purposes stated in § 920.54 were handled contrary to the requirements applicable thereto.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes shipped under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 920.65 *Inspection and certification.* During any period in which shipments of potatoes are regulated, pursuant to the provisions of §§ 920.42, or 920.53, or both, no handler shall ship potatoes unless, prior thereto, such shipment was inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate. Each handler procuring inspections pursuant to this section, shall make arrangements with the inspecting agency to forward promptly to the committee a copy of the inspection certificate: *Provided,* That the regrading, resorting, repacking, or other further preparation of inspected potatoes for market shall invalidate prior inspection thereon and subsequent shipment of such potatoes after regrading, resorting, repacking, or other preparation for market shall not be effected unless, prior thereto, such shipment is inspected as provided in this section: *Provided further,* That the committee may adopt, subject to the approval of the Secretary, procedures permitting the shipment of potatoes without the required prior inspection thereon; such procedures shall include a requirement that each handler-applicant for a waiver show that he requested shipping point inspection and that the appropriate inspection agency stated that it could not supply reasonably prompt service in connection with such request; and such procedures may require that each applicant agrees, as a condition for the issuance of a waiver, to one or more of the following:

(a) That the potatoes to be shipped under such waiver will be inspected and certified at destination if an inspector is available for such purpose;

(b) That, where inspection indicates that potatoes shipped under a waiver fail to meet minimum grade, size, and quality requirements in effect at the time of such inspection, the potatoes will be removed from all normal domestic commercial channels, except for disposition pursuant to § 920.54; and

(c) That additional waivers will not be granted to an applicant, for the remainder of the fiscal year, if the potatoes shipped under a waiver and failing to meet minimum grade, size, and quality requirements, are not removed from all normal domestic market channels, except for disposition pursuant to § 920.54.

EXEMPTIONS

§ 920.70 *Procedure.* The committee may adopt, with approval of the Secretary, the procedures pursuant to which certificates of exemption will be issued to producers or handlers.

§ 920.71 *Granting exemptions.* (a) The committee shall issue certificates of exemption to any producer who applies for such exemption and furnishes adequate evidence to the committee, that by reason of a regulation issued pursuant to § 920.53 he will be prevented from shipping as large a proportion of his production as the average proportion of production shipped during the entire season, or such portion thereof as may be determined by the committee, by all producers in said applicant's immediate production area and that the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation. Each certificate shall permit the producer to ship the amount of potatoes specified thereon. Such certificate shall be transferred with such potatoes at time of transportation or sale.

(b) The committee shall issue certificates of exemption to any handler who applies for such exemption and furnishes adequate evidence to the committee that, by reason of a regulation issued pursuant to § 920.53, he will be prevented from shipping, as large a proportion of his storage holdings of potatoes, acquired during or immediately following the digging season, as the average proportion of storage holdings shipped by all handlers in said applicant's immediate shipping area, and that the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation. Each certificate shall permit the handler to ship the amount of potatoes specified thereon. Such certificate shall be transferred with such potatoes at time of transportation or sale.

(c) The committee shall be permitted at any time to make a thorough investigation of any producer's or handler's claim pertaining to exemptions.

§ 920.72 *Appeal.* If any applicant for exemption certificates is dissatisfied with the determination by the committee with respect to his application, said applicant may file an appeal with the committee. Such an appeal must be taken promptly after the determination by the committee from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 920.73 *Records, reports, and review of exemptions.* (a) The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of potatoes covered by such exemption certificates, a record of the amount of potatoes shipped under exemption certificates, a record of appeals for reconsideration of applications, and such information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the committee upon request of the Secretary.

(b) The Secretary shall have the right to modify, change, alter, or rescind any procedure and any exemptions granted pursuant to §§ 920.70, 920.71, 920.72 or any combination thereof.

MISCELLANEOUS PROVISIONS

§ 920.80 *Reports.* Upon the request of the committee, with approval of the Secretary, every handler shall furnish the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its powers and perform its duties under this part. Handlers shall maintain records from which such reported information can be verified by the committee. The Secretary shall have the right to modify, change, or rescind any request for reports pursuant to this section.

§ 920.81 *Compliance.* Except as provided in this part, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions of this part, and no handler shall ship potatoes except in conformity to the provisions of this part.

§ 920.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 920.83 *Effective time.* The provisions of this subpart shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 920.84 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal year whenever he finds that such termination is favored by a majority of producers, who during the preceding fiscal year, have been engaged in the production for market of potatoes: *Provided,* That such majority has, during such year, produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced on or before January 1 of the then current fiscal year.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 920.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 920.86 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

§ 920.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 920.88 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 920.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 920.90 *Personal liability.* No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty.

§ 920.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 920.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

HANDLING OF IRISH POTATOES GROWN IN MASSACHUSETTS, RHODE ISLAND, CONNECTICUT, NEW HAMPSHIRE, AND VERMONT

ORDER DIRECTING THAT A REFERENDUM BE CONDUCTED AMONG PRODUCERS; DETERMINATION OF REPRESENTATIVE PERIOD; DESIGNATING AGENTS TO CONDUCT SUCH REFERENDUM

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq: 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), it is hereby directed that a referendum be conducted among producers who, during the period June 1, 1949, to May 31, 1950, both dates inclusive (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged in the production of Irish potatoes for market, in the States of Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont, to determine whether such producers approve or favor the issuance of an order regulating the handling of Irish potatoes grown therein; and said order is annexed to the decision of the Secretary of Agriculture filed [1] simultaneously herewith.

The procedure applicable to this referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except Those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F. R. 5176).

A. C. Cook, R. P. Callaway, O. H. Chapin, and R. L. Hawes, of the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture are hereby designated as agents of the Secretary of Agriculture to conduct said referendum jointly or severally.

Copies of the text of the aforesaid order may be examined in the Office of the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington, D. C., and at the county Production and Marketing Administration Office in each of the counties within the specified production area.

Ballots to be cast in the referendum and copies of the text of the order may be obtained from any referendum agent and any appointee hereunder.

[7 CFR, Part 986]

HANDLING OF HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON, AND IDAHO, AND OF HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO INCREASE IN SUPPLEMENTARY ALLOTMENTS OF 1950 CROP HOPS

Consideration is being given to the approval of a proposal, hereinafter set forth, which was submitted by the Hop Control Board, established under Marketing Agreement No. 107 and Order No. 86 (7 CFR 986.1 et seq.), regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States, as the agency to administer the terms and provisions thereof.

Section 986.6 (c) (2) (ii) (b) of said marketing agreement and order provides as follows: "The Control Board shall each year issue or cause to be issued, prior to the issuance of final allotments applicable to that year's crop, to any grower who may apply therefor to the Growers Allocation Committee, a supplementary allotment representing such proportion of that grower's total production of hops during that year as the Growers Allocation Committee or its authorized representatives shall determine will not be in excess of 80 percent (or such higher percentage as the Control Board, with the approval of the Secretary, may specify for the computation of supplementary allotments) of that grower's probable salable allotment for that year's crop."

Pursuant thereto the Hop Control Board by unanimous vote of 17 members voting, at a duly called meeting in San Francisco on July 21 and 22, 1950, requested the Secretary to approve issuance of supplementary allotments of hops to growers upon request, not in excess of 80 percent of the respective growers' probable salable allotments for the 1950 crop, except that in case complete information in respect to any grower's 1950 crop hop production is available to the Growers Allocation Committee, such grower may be issued, upon his application, a supplementary allotment such as will not exceed 90 percent of his probable salable allotment of 1950 crop hops.

Each grower's final salable allotment will not be issued until late fall of this year, and after the production of hops by each grower and the total aggregate production of hops has been determined by the Secretary. In the meantime the Hop Control Board considers it desirable to permit hops to move to domestic and foreign markets within growers' probable salable allotments, with as little interference as is practicable. It is also highly desirable that growers realize the returns for their product closely following the harvest of the crop, in order that they be in position to meet the financial obligations incurred in cultivating and harvesting. The Control Board believes that the issuance of a supplementary allotment not in excess of 90 percent of the probable salable allotment of any grower, computed after complete production information is available for such grower, would be well within the grower's final salable allotment.

Prior to the final approval of the proposal of the Hop Control Board, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and which are received not later than ten days after the date of the publication of this notice in the FEDERAL REGISTER.

The proposed rule is as follows:

§ 986.402 *Supplementary allotment for the 1950 hop crop.* The supplementary allotment to any grower for hops produced during the marketing season beginning August 1, 1950, shall be such as will not exceed 80 percent of such grower's probable 1950 salable allotment, as provided in § 986.6 (c) (2) (ii) (b): *Provided*, That, when complete information on the 1950 hop crop production of any grower is available to the Growers' Allocation Committee, a supplementary allotment such as will not exceed 90 percent of that grower's probable salable allotment of 1950 crop hops shall be issued, upon application, to such grower.

Issued at Washington, D. C., this 31st day of August 1950.

Director,
Fruit and Vegetable Branch.

NOTICE OF HEARING ON APPLICATION TO EXTEND BAREBOAT CHARTER AGREEMENT

Pursuant to section 3, Public Law 591, 81st Congress, notice is hereby given that an informal public hearing will be held in Room 4823, Commerce Building, Washington, D. C., on September 22, 1950, at 10 o'clock a. m., e. d. s. t., before an examiner of the Hearing Examiners' Office, upon an application of Alaska Steamship Company to extend its bareboat charter agreement with respect to Government-owned war-built dry-cargo vessels for use in the Alaska trade.

The purpose of the hearing is to receive evidence with respect to whether continuance of the services under which such vessels are now chartered is required in the public interest and such services will not be adequately served without such extension, and with respect to the availability of privately owned American-flag vessels on reasonable conditions and at reasonable rates for such services.

All persons having an interest in such application will be given an opportunity to be heard if present.

The parties may have oral argument before the examiner immediately following the close of the hearing in lieu of briefs, and the examiner will issue a recommended decision. Parties may have 15 days within which to file exceptions to or memoranda in support of the examiner's recommended decision, but the Board reserves the right to determine whether oral argument on exceptions will be granted or whether briefs in connection therewith will be received.

Dated: August 31, 1950.

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

SUGAR IN PUERTO RICO AND VIRGIN ISLANDS

NOTICE OF HEARINGS AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (c) (1) and (c) (2) of section 301 of the Sugar Act of 1948 (61 Stat. 929; U. S. C. Sup. 1131), notice is hereby given that public hearings will be held as follows:

At Santurce, Puerto Rico, in the Conference Room of the Production and Marketing Administration Office, Segarra Building, on October 5, 1950, at 9:30 a. m.; and

At Christiansted, St. Croix, Virgin Islands, in the District Court Room, on October 9, 1950, at 9:30 a. m.

The purpose of such hearings is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of section 301 (c) (1) of said act, fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in Puerto Rico and the Virgin Islands during the calendar year 1951 on farms with respect to which applications for payments under the said act are made and (2), pursuant to the provisions of section 301 (c) (2) of said act, fair and reasonable prices for the 1950–51 Puerto Rican crop and the 1951 crop of Virgin Islands sugarcane to be paid, under either purchase or toll agreements by processors who, as producers, apply for payments under the said act. In the interest of obtaining the best possible information, all interested persons are requested to appear at the hearings to express their views and present appropriate data in regard to the foregoing matters.

Such hearings, after being called to order at the time and places mentioned herein, may be continued from day to day within the discretion of the presiding officers, and may be adjourned to a later day or to a different place without notice other than the announcement thereof at the hearing by the presiding officers.

George A. Dice, Thomas H. Allen, Ward S. Stevenson, and G. Laguardia are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearings.

Issued this 30th day of August 1950.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 23d day of August 1950;

The Commission having under consideration the above-entitled application of Ventura County Radio Center, Inc., requesting a renewal of license for the frequency 1400 kc, 250 watts power, unlimited time, at Santa Paula, California; and

It appearing, that, on August 18, 1949, the Commission granted an application for transfer of control of the licensee corporation to Neal Van Sooy, et al., (BTC–783) on the basis of representations made therein that the actual transfer of control of Station KSPA had not been consummated; that, on the basis of an investigation conducted by the Commission and from facts appearing in the Commission files, including a copy of a pleading filed by the stockholders of the licensee corporation in a civil proceeding in the California courts stating that Neal van Sooy had been in complete control of Station KSPA since March 1, 1949, that an unauthorized transfer of control of the licensee corporation occurred on or about March 1, 1949; that the licensee of Station KSPA fraudulently and willfully withheld from the Commission information concerning the operation of Station KSPA and the terms of an oral agreement changing the written agreement filed with the Commission as part of transfer application BTC–783; and that, accordingly, the licensee obtained a grant of BTC–783 through fraud and misrepresentation; and

It further appearing, that, on the basis of all the facts before it, the Commission is unable to conclude that a grant of the renewal of license of Station KSPA would be in the public interest, convenience and necessity;

It is ordered, that, prusuant to sections 307 (d) and 309 (a) of the Communications Act of 1934, as amended, the above-entitled application is designated for hearing commencing at 10:00 a. m. on November 27, 1950, at Santa Paula, California, upon the following issues:

1. To determine the legal, technical, financial and other qualifications of Ventura County Radio Center, Inc., to continue to operate Station KSPA, and more particularly, to obtain full information relating to:

(a) The circumstances leading up to and surrounding the employment of Neal Van Sooy as General Manager of Station KSPA on or about March 1, 1949.

(b) The contract, dated March 1, 1949, entered into by Robert W. LeMond, et al., as transferors, and Neal Van Sooy, et al., as transferees, providing for the sale of the stock of Ventura County Radio Center, Inc., and oral amendments, if any, thereto.

(c) The operation of Station KSPA subsequent to March 1, 1949, by Neal Van Sooy.

(d) The authority and control exercised by Neal Van Sooy over the policies and operation of Station KSPA subsequent to March 1, 1949.

2. To determine whether the license for Station KSPA, or the rights and responsibilities incident thereto, were transferred, assigned or disposed of, directly or indirectly, without the consent of the Commission and in violation of section 310 (b) of the Communications Act of 1934, as amended.

3. To determine whether Station KSPA was operated by persons to whom no license was issued by this Commission, in violation of section 301 of the Communications Act of 1934, as amended.

4. To determine whether all contracts, agreements and understandings, and reports relating to the operation, ownership and control of Station KSPA, have been properly and timely filed with the Commission, as is required by §§ 1.321, 1.341, 1.342, 1.343, and 1.344 of the Commission's rules and regulations.

MATHESON RADIO CO., INC. (WHDH), ET AL.

ORDER CONTINUING HEARING

In re: Petitions of Matheson Radio Company, Inc. (WHDH), Boston, Massachusetts, Docket No. 9227, and National Broadcasting Company, Inc. (KOA), Denver, Colorado, Docket No. 9228; and In re application of Champlain Valley Broadcasting Corporation (WXKW), Albany, New York, Docket No. 9515, File No. BMP–4580; for modification of construction permit.

The Commisison having under consideration a petition filed August 17, 1950, by Matheson Radio Company, Inc. (WHDH), Boston, Massachusetts, for continuance for a period of at least 30 days of the hearing now scheduled for September 5, 1950, on the above-entitled matters; the opposition thereto filed August 21, 1950, by Champlain Valley Broadcasting Corporation (WXKW), Albany, New York; and oral argument had on the petition and opposition thereto on August 25, 1950; and

It appearing, from the oral argument, that Champlain Valley Broadcasting Corporation (WXKW), as a result of its amendment accepted by the Commission on August 4, 1950, will be required to present some additional direct testimony; that all parties to this proceeding and Commisson Counsel are agreeable to proceed with the hearing on Wednesday, September 6, 1950, so as to permit presentation by WXKW of said further direct testimony; and

It appearing further that at the last session of the hearing in the above-entitled matters testimony submitted by Matheson Radio Company, Inc. (WHDH) and the National Broadcasting Company, Inc. (KOA), was based upon the application and evidence previously submitted by Champlain Valley Broadcasting Corporation (WXKW); that said testimony and evidence of Matheson Radio Company, Inc. (WHDH) and National Broadcasting Company, Inc. (KOA), brought to light the error in the Champlain Valley Broadcasting Corporation (WXKW) application which resulted in the amendment thereof; that said WHDH and KOA evidence and exhibits, as a result of the WXKW amendment, are no longer accurate; and Matheson Radio Company, Inc. (WHDH), and National Broadcasting Company, Inc. (KOA), will require additional time to enable them to revise the same; that the Examiner is of the opinion that good cause has been shown for the allowance of additional time for so doing; and

It appearing further that Matheson Radio Company, Inc. (WHDH) has orally requested withdrawal of its petition for continuance, and Champlain Valley Broadcasting Corporation (WXKW) has orally requested dismissal of its opposition thereto upon the understanding that the Examiner will schedule the further hearing of the above-entitled proceeding on Wednesday, September 6, 1950, instead of as presently scheduled on Tuesday, September 5, 1950; and that upon conclusion of presentation of further direct testimony of Champlain Valley Broadcasting Corporation (WXKW) the proceeding will be adjourned to 10:00 o'clock a. m. on Tuesday, October 3, 1950;

It is ordered, This 25th day of August 1950, (1) that the petition of Matheson Radio Company, Inc. (WHDH) for continuance and opposition thereto of Champlain Valley Broadcasting Corporation (WXKW) be, and they are hereby, dismissed; (2) that the hearing in the above-entitled proceeding now scheduled for Tuesday, September 5, 1950, be, and it is hereby continued to 10:00 o'clock a. m., Wednesday, September 6, 1950, in Washington, D. C.; and (3) that upon completion of the further direct testimony of Champlain Valley Broadcasting Corporation (WXKW) commencing September 6, 1950, the further hearing in the above-entitled proceedings be, and it is hereby, scheduled for 10:00 o'clock a. m., Tuesday, October 3, 1950.

PART 203—TITLE I MORTGAGE INSURANCE; ELIGIBILITY REQUIREMENTS

PROPOSED CONSTRUCTION

Section 203.4 (b) is hereby amended to read as follows:

(b) *Proposed construction.* Applications filed for a firm or a conditional commitment with respect to proposed construction must be accompanied by the mortgagee's check for the sum of $45 to cover the cost of processing by the Commissioner. If an application is refused as a result of preliminary examination by the Commissioner, the entire fee will be returned to the applicant, but no portion of the fee will be returned after further work has been performed following the preliminary examination unless (1) the application is rejected by the Commissioner, or (2) the Commissioner exercises the right of cancellation reserved in the commitment for insurance issued pursuant to any such application, or (3) the mortgage which is the subject of the application is endorsed for insurance by the Commissioner; in any of which cases $20 will be retained by the Commissioner and the balance of such fee will be returned to the applicant.

(Sec. 2, 48 Stat. 1246, as amended; 12 U. S. C. and Sup. 1730g. Interprets or applies sec. 102, Pub. Law 475, 81st Cong.)

Subchapter C—Mutual Mortgage Insurance

PART 221—MUTUAL MORTGAGE INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING ONE- TO FOUR-FAMILY DWELLINGS

FEE TO ACCOMPANY APPLICATION

Section 221.11 (b) is hereby amended to read as follows:

(b) Applications filed on or after May 15, 1950, for a firm or a conditional commitment with respect to proposed construction must be accompanied by the mortgagee's check for the sum of $45 to cover the cost of processing by the Commissioner. If an application is refused as a result of preliminary examination by the Commissioner, the entire fee will be returned to the applicant, but no portion of the fee will be returned after further work has been performed following the preliminary examination unless (1) the application is rejected by the Commissioner, or (2) the Commissioner exercises the right of cancellation reserved in the commitment for insurance issued pursuant to any such application, or (3) the mortgage which is the subject of the application is endorsed for insurance by the Commissioner; in any of which cases $20 will be retained by the Commissioner and the balance of such fee will be returned to the applicant.

If the application is made on behalf of a veteran of World War II, for the insurance of a mortgage to refinance an existing insured mortgage which is in default, by reason of his military service, the fee herein provided may be waived by the Commissioner if he finds that the collection of such fee would be inequitable under the particular circumstances of the transaction.

(Sec. 211, as added by sec. 3, 52 Stat. 23; 12 U. S. C. 1715b)

Subchapter E—Farm Mortgage Insurance

PART 251—FARM MORTGAGE INSURANCE; ELIGIBILITY REQUIREMENTS

FEE TO ACCOMPANY APPLICATION; RATE OF INTEREST

1. Section 251.13 (b) is hereby amended to read as follows:

(b) Applications filed on or after May 15, 1950, for a firm or a conditional commitment with respect to proposed construction must be accompanied by the mortgagee's check for the sum of $45 to cover the cost of processing by the Commissioner. If an application is refused as a result of preliminary examination by the Commissioner, the entire fee will be returned to the applicant, but no portion of the fee will be returned after further work has been performed following the preliminary examination unless (1) the application is rejected by the Commissioner, or (2) the Commissioner exercises the right of cancellation reserved in the commitment for insurance issued pursuant to any such application, or (3) the mortgage which is the subject of the application is endorsed for insurance by the Commissioner; in any of which cases $20 will be retained by the Commissioner and the balance of such fee will be returned to the applicant.

If the application is made on behalf of a veteran of World War II, for the insurance of a mortgage to refinance an existing insured mortgage which is in default, by reason of his military service, the fee herein provided may be waived by the Commissioner if he finds that the collection of such fee would be inequitable under the particular circumstances of the transaction.

2. Section 251.18 is hereby amended to read as follows:

§ 251.18 *Rate of interest.* The mortgage may bear interest at such rate as may be agreed upon by the mortgagee and mortgagor, but in no case shall such interest rate be in excess of 4½ percent per annum as to applications for insurance received by the Commissioner on or before April 21, 1950, nor in excess of

4¼ percent per annum as to applications for insurance received by the Commissioner on or after April 24, 1950. Interest shall be payable in annual, semi-annual, or monthly installments on the principal then outstanding.

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 274]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CALIFORNIA, INDIANA, OHIO, AND PENNSYLVANIA

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) are amended in the following respects:

1. Schedule A, Item 36, is amended to read as follows:

(36) [Revoked and decontrolled.]

This decontrols (1) the City of Redlands in San Bernardino County, California, a portion of the San Bernardino, California, Defense-Rental Area, and all unincorporated localities in said Defense-Rental Area, based on a resolution submitted with respect to said City of Redlands in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended, said City of Redlands being the major portion of said Defense-Rental Area, and (2) the remainder of said Defense-Rental Area on the Housing Expediter's own initiative in accordance with section 204 (c) of said act.

2. Schedule A, Item 38, is amended to describe the counties in the Defense-Rental Area as follows:

San Francisco County; San Mateo County, except the City of Menlo Park; Marin County, except the City of Belvedere and the Judicial Townships of Bolinas, Nicasio, Point Reyes, San Antonio and Tomales; and Sonoma County, except (i) the Judicial Townships of Redwood and Sonoma (including the City of Sonoma) and (ii) that portion of Analy Judicial Township lying west of the Monte Rio-Valley Ford Highway and line between Redwood Judicial Township on the north and the northern line of Marin County on the south.

This decontrols the City of Menlo Park in San Mateo County, California, a portion of the San Francisco Bay, California, Defense-Rental Area.

3. Schedule A, Item 41, is amended to describe the counties in the Defense-Rental Area as follows:

Kings County; and Tulare County, except the Cities of Porterville and Woodlake.

This decontrols the City of Porterville in Tulare County, California, a portion of the Tulare-Kings, California, Defense-Rental Area.

4. Schedule A, Item 106, is amended to describe the counties in the Defense-Rental Area as follows:

Delaware County, except the Towns of Albany, Gaston, Selma, and Yorktown; in Howard County, Center Township; and in Madison County, Lafayette Township, and Anderson Township except the Town of Edgewood.

This decontrols the Town of Edgewood in Madison County, Indiana, a portion of the Anderson, Indiana, Defense-Rental Area.

5. Schedule A, Item 240, is amended to describe the counties in the Defense-Rental Area as follows:

Lucas County, except the Village of Ottawa Hills; and Wood County, except the Townships of Bloom, Henry, Jackson, Liberty, Milton, Montgomery, Perry, and Portage.

This decontrols the Village of Ottawa Hills in Lucas County, Ohio, a portion of the Toledo, Ohio, Defense-Rental Area:

6. Schedule A, Item 262, is amended to describe the counties in the Defense-Rental Area as follows:

Cumberland County, except the Borough of Lemoyne; Dauphin, and Lebanon Counties; and in Perry County, the Townships of Rye, Penn, and Wheatfield, and the municipalities of Marysville, Perdix, and Duncannon, Franklin.

This decontrols the Borough of Lemoyne in Cumberland County, Pennsylvania, a portion of the Pittsburgh, Pennsylvania, Defense-Rental Area.

All decontrols effected by this amendment, except Item 1 thereof, are based on resolutions submitted in accordance with section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This amendment shall become effective September 1, 1950.

Issued this 1st day of September 1950.

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CERTAIN STATES

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) are amended in the following respects:

1. In Schedule C, Item 83, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Cook County, the Cities of Chicago and Evanston, the Village of Niles and all unincorporated localities; in Lake County, the Village of Libertyville and all unincorporated localities; in DuPage and Kane Counties, all unincorporated localities.

This adds to Schedule C the Village of Libertyville in Lake County, Illinois, a portion of the Chicago, Illinois, Defense-Rental Area, based on a declaration made on August 22, 1950, by the local governing body of said Village in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

2. In Schedule C, Item 88b, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Tazewell County, the City of Pekin; in Peoria County, the City of Peoria; and all unincorporated localities in the Counties of Tazewell and Peoria.

This adds to Schedule C: (1) The City of Peoria in Peoria County, Illinois, a portion of the Peoria, Illinois, Defense-Rental Area, based upon a declaration made on August 14, 1950, by the local governing body of said City of Peoria in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended, and (2) all unincorporated localities in said Defense-Rental Area, based upon said declaration for the City of Peoria and a similar declaration previously made by the local governing body of the City of Pekin in Tazewell County, Illinois, said Cities of Peoria and Pekin being the major portion of said Defense-Rental Area.

3. In Schedule C, Item 190, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Bergen County, the Cities of East Rutherford and North Arlington and the Boroughs of Fort Lee and Teterboro; in Hudson County, the Cities of Bayonne, Hoboken, Jersey City and Union City and the Township of North Bergen; in Union County, the City of Linden and the Borough of Roselle; in Essex County, the City of Newark; in Morris County, the Township of Hanover; and in Monmouth County, the City of Long Branch.

This adds to Schedule C the Borough of Teterboro in Bergen County, New Jersey, a portion of the Northeastern New Jersey Defense-Rental Area, based on a declaration made on August 15, 1950, by the local governing body of said Borough in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

4. In Schedule C, Item 267, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Allegheny County, the City of McKee's Rocks; in Beaver County, the Borough of Aliquippa.

This adds to Schedule C the Borough of Aliquippa in Beaver County, Pennsylvania, a portion of the Pittsburgh, Pennsylvania, Defense-Rental Area, based on a declaration made on August 21, 1950, by the local governing body of said Borough in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

5. In Schedule C, Item 371, the description of localities affected by declarations for continuance of rent control after December 31, 1950, is amended to read as follows:

In Puerto Rico, the Municipalities of Carolina, Cayey, Cidra, Isabella, Loiza, Naranjito, San Lorenza and San Sebastian.

This adds to Schedule C the Municipality of Carolina in the Puerto Rico Defense-Rental Area, based on a declaration made by the local governing body of said Municipality on August 4, 1950, in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

6. The following new items are incorporated in Schedule C:

Name of defense-rental area	State	Localities affected by declarations for continuance of rent control after Dec. 31, 1950
(114) Des Moines	Iowa	In Polk County, the town of Ankeny.
(146) Springfield	Massachusetts	In Hampden County, the town of Ludlow.

This addition to Schedule C is based upon (1) a declaration made on August 7, 1950, by the local governing body of Ankeny, Iowa, and (2) a declaration made on August 22, 1950, by the local governing body of Ludlow, Massachusetts, both in accordance with section 204 (f) (1) of the Housing and Rent Act of 1947, as amended.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

This amendment shall be effective with respect to each locality covered thereby as of the date on which the declaration affecting that locality was made.

Issued this 1st day of September 1950.

TIGHE E. WOOD,
Housing Expediter.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter A—General

[CGFR 50-18]

PART 8—REGULATIONS, UNITED STATES COAST GUARD RESERVE

By virtue of the authority contained in an act approved June 29, 1948 (62 Stat. 1081), and section 751 of Title 14, United States Code (63 Stat. 551) the following amendments are hereby prescribed.

GENERAL—ADMINISTRATION AND ORGANIZATION POLICY

1. Section 8.1106 is amended to read as follows:

§ 8.1106 *Organization of Reserve.* The Coast Guard Reserve shall be composed of the following categories:

(a) *Organized Reserve.* The Organized Reserve shall be composed of officers and enlisted personnel attached to organized training units, which units can be mobilized and assigned to duty as entities in time of national emergency if desirable. The Commandant will authorize the type, location, and establishment of such units and prescribe such periods and standards of training and drill as he may deem necessary to maintain these units at desired efficiency.

(b) *Volunteer Reserve.* The Volunteer Reserve shall be composed of officers and enlisted personnel not attached to the Organized Reserve but who meet such training standards as may from time to time be established by the Commandant.

(c) *Inactive Reserve.* The Inactive Reserve shall be composed of officers and enlisted personnel who are not members of the foregoing categories and are on the inactive reserve status list as a result of inactivity, inability to perform training duty, upon own request, or for such other reasons as the Secretary may prescribe from time to time. While assigned to the inactive reserve status list no retirement benefits shall accrue.

(d) *Retired Reserve.* The Reserve Retired List as established on January 25, 1949, shall contain the names of Reserve officers and enlisted personnel retired with pay under applicable authority.

(60 Stat. 26)

PRECEDENCE

2. Section 8.1301 is amended to read as follows:

§ 8.1301 *Precedence of officers.* Officers of the Reserve, exclusive of those whose precedence has been heretofore established and whose names appear in the Register of the United States Coast Guard, shall be arranged on a lineal list in each grade in order of precedence approved by the Secretary of the Treasury. The lineal list so established shall constitute the Register of the Commissioned and Warrant Officers of the United States Coast Guard Reserve.

3. Section 8.1302 is amended to read as follows:

§ 8.1302 *Precedence of officers appointed subsequent to establishment of the Reserve Register.* Officers appointed in the Reserve subsequent to the establishment of the United States Coast Guard Reserve Register, provided for in § 8.1301, shall take precedence in their respective grades of the Reserve according to date of commission or warrant therein.

PROMOTION

GENERAL

4. Section 8.3101 is amended to read as follows:

§ 8.3101 *Promotion of officers.* (a) For purposes of promotion each officer of the Reserve shall be assigned a running-mate who shall be the line officer of the regular establishment not restricted in the performance of duty who is next senior to him or her, or if there be no such Regular officer, the running-mate shall be the line officer, not restricted in the performance of duty of the same grade of the Regular Coast Guard next junior to the Reserve officer. Officers of the Reserve will be considered as being eligible for promotion when their running-mate becomes so eligible.

(b) Officers will be promoted only when they have been found physically and professionally qualified for promotion by the Commandant. The findings of the Commandant may be based upon the recommendations of a Board of Officers, examination, the service record

of the officer, or such other evidence as he may deem sufficient.

PROFESSIONAL EXAMINATIONS

5. Delete § 8.3201.

Subchapter C—Aids to Navigation

[CGFR 50-20]

PART 66—PRIVATE AIDS TO NAVIGATION

MISCELLANEOUS AMENDMENTS

By virtue of the authority contained in Title 14, United States Code, sections 83, 84, 85, and 92, the regulations are amended as indicated below.

In accordance with the exception indicated in section 4 of the Administrative Procedure Act (5 U. S. C. 1003 (a)), public hearings are not deemed necessary since the amendments are promulgated for the purpose of making editorial corrections and clarifying administrative procedure. However, any person who may feel aggrieved by the promulgation of these amendments may appeal therefrom to the Commandant (OAN), United States Coast Guard, Washington 25, D. C., in writing within 30 days from date of publication of this document in the FEDERAL REGISTER. The written appeal shall be presented in triplicate and shall include data and views as to why the amendments promulgated herein should be changed in the respect set forth in the appeal. All matters presented in writing within the prescribed time will be given careful consideration and any person submitting an appeal will be notified as to the disposition of the appeal.

1. Section 66.01-1 is amended to read as follows:

§ 66.01-1 *Basic provisions.* (a) No person, company, corporation, or municipality, not under the control of the Commandant, exclusive of the Armed Forces, shall establish, erect, or maintain in the navigable waters of the United States any aid to maritime navigation without first obtaining permission to do so from the Commandant, nor shall any person, company, corporation, or municipality, change, move, or discontinue any private aid to navigation so authorized without first obtaining permission to do so from the Commandant.

(b) Coast Guard authorization of a private aid to navigation does not authorize any invasion of private rights, nor grant any exclusive privileges, nor does it obviate the necessity of complying with any other Federal, State, or local laws or regulations. It merely expresses the assent of the Federal Government so far as concerns the public rights and benefits derived from the aids-to-navigation system of the United States.

2. Section 66.01-15 is amended to read as follows:

§ 66.01-15 *Classification.* The District Commander receiving the application will forward it to the Commandant with a recommendation, and will assign the aid one of the following classifications:

Class I. Aids to navigation on marine structures or other works which the owners are legally obligated to establish, maintain and operate as prescribed by the Coast Guard.

Class II. Aids to navigation exclusive of Class I located in waters used by general navigation.

Class III. Aids to navigation exclusive of Class I located in waters not ordinarily used by general navigation.

3. Section 66.01-20 is amended to read as follows:

§ 66.01-20 *Inspection.* All classes of private aids to navigation shall be maintained in proper condition. They are subject to inspection by the Coast Guard at any time and without prior notice to the maintainer. Class I and II private aids to navigation will be inspected at least once each year. Class III private aids to navigation will be inspected at least once every three years.

4. Section 66.01-50 is amended by striking out the citation at the end of the section.

(Sec. 8, 18 Stat. 127, as amended; 14 U. S. C. 92. Interpret or apply sec. 3, 34 Stat. 324, as amended; 33 U. S. C. 759)

Dated: August 25, 1950.

PART 311—RULES AND REGULATIONS GOVERNING PUBLIC USE OF CERTAIN RESERVOIR AREAS

HEYBURN RESERVOIR AREA, POLECAT CREEK, OKLAHOMA

The Secretary of the Army having determined that use of the Heyburn Reservoir Area, Polecat Creek, Oklahoma, by the general public for boating, fishing, bathing, and other recreational purposes will not be contrary to the public interest and will not be inconsistent with the operation and maintenance of the reservoir for its primary purposes, hereby prescribes the following rules and regulations pursuant to the provisions of section 4 of an act of Congress approved December 22, 1944 (58 Stat. 889; 16 U. S. C. 460d) as amended by the Flood Control Act of 1946 (60 Stat. 641), for the public use of Heyburn Reservoir Area, Oklahoma, by adding a new paragraph (ee) to § 311.1, and rescinding paragraph (a) (4) of § 311.4 and substituting the following in lieu thereof:

§ 311.1 *Areas covered.* • • •

(ee) Heyburn Reservoir, Polecat Creek, Oklahoma.

TITLE 44—PUBLIC PROPERTY AND WORKS

Chapter I—General Services Administration

Subchapter B—Personal Property Management

PART 60—PERSONAL PROPERTY: APPLICATION OF PROCEEDS OF EXCHANGE OR SALE TO PURCHASE OF SIMILAR ITEMS

Sec.
60.0 Purpose and scope.
60.1 Restriction to "similar items".
60.2 Administrative determination required.
60.3 Restrictions as to time for application.
60.4 Written evidence of transaction.
60.5 Solicitation of bids.
60.6 Construction of regulations.

AUTHORITY: §§ 60.0 to 60.6 issued under sec. 205, 63 Stat. 385; 41 U. S. C. Supp. 235. Interpret or apply sec. 201, 63 Stat. 383; 41 U. S. C. Supp., 41 U. S. C. Supp. 231.

§ 60.0 *Purpose and scope.* The provisions of this part are designed to inform and guide the public with respect to the authority of executive agencies to acquire personal property under section 201 (c) of the Federal Property and Administrative Services Act of 1949 (Pub. Law 152, 81st Cong.). Section 201 (c) authorizes any executive agency, under regulations prescribed by the Administrator of General Services, to exchange or sell personal property and apply the exchange allowance or proceeds in payment for similar items acquired, provided that the transaction be evidenced in writing.

NOTE: Personal Property Management Regulation No. 6, dated September 1, 1950, and distributed by the General Services Administration (Office of Management), deals with the same subject but contains additional provisions affecting executive agencies which do not have direct application to the public.

§ 60.1 *Restriction to "similar items".* Items sold or exchanged under section 201 (c) must be "similar" to the items acquired. For the purpose of this part, items shall be deemed "similar" when—

(a) They are substantially identical in all material aspects and characteristics, excluding, however, condition, year, model, size or capacity, and manufacture; or

(b) The agency head, or his representative duly authorized for the purpose, finds in writing that they resemble each other in most material aspects and char-

acteristics and are adaptable to the same or comparable uses; or

(c) They constitute parts of or for assembled items which are similar within the meaning of paragraphs (a) and (b) of this section.

§ 60.2 *Administrative determination required.* An administrative determination to apply the exchange allowance or proceeds of sale in accordance with the provisions of section 201 (c) must be made at the time of transfer or sale.

§ 60.3 *Written evidence of transaction.* Each transaction carried out under the authority of section 201 (c) shall be evidenced in writing which shall indicate the amount of trade-in allowance or proceeds of sale, if any, involved in such transaction.

§ 60.4 *Solicitation of bids.* In disposing of property under section 201 (c), executive agencies are required to solicit both cash and trade-in bids except that

(a) Bids need not be solicited when the personal property sought to be acquired may be procured without solicitation of bids under applicable laws and regulations;

(b) Cash bids need not be solicited when the items sought to be sold or exchanged may be disposed of without solicitation of bids under applicable laws and regulations;

(c) Both types of bids need not be solicited when recent solicitation for identical items has produced only one type of offer under circumstances indicating the futility of further advertising for any other type of offer;

(d) Both types of bids need not be solicited when such solicitation for the items to be sold or exchanged would clearly be ineffective in reducing the cost of the acquisition, e. g., by reason of the existing commercial practice with respect to exchange or sale of such items.

§ 60.5 *Construction of regulations.* The regulations in this part shall not be construed to authorize acquisitions not otherwise authorized by law, or to exempt agencies from procurement requirements prescribed by the Administrator of General Services.

Dated: September 1, 1950.

JESS LARSON,
Administrator of General Services.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 960]

[Docket No. AO-159A-1]

HANDLING OF IRISH POTATOES GROWN IN MICHIGAN, WISCONSIN, MINNESOTA, NORTH DAKOTA AND IN CERTAIN COUNTIES OF IOWA AND OF INDIANA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Minneapolis, Minnesota, April 24–28, 1950, and at Lansing, Michigan, May 1–3, 1950, pursuant to notice thereof in the FEDERAL REGISTER (15 F. R. 1894), upon amendments to a tentatively approved marketing agreement and to Order No. 60 regulating the handling of Irish potatoes grown in Michigan, Wisconsin, Minnesota, and North Dakota (hereinafter jointly called "Order No. 60").

Upon the basis of the evidence introduced at the aforesaid hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on August 11, 1950, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of the filing of such recommended decision, affording opportunity to file written exceptions thereto, was published in the FEDERAL REGISTER (15 F. R. 5434).

Rulings. Exceptions to the recommended decision were filed, on behalf of The Potato Growers of Wisconsin, Inc., Indiana Potato Growers Association, and Southern Minnesota Potato Growers Association, by their attorneys, Jeffris, Mouat, Oestreich, Wood, and Cunningham, and supplemental exceptions were filed, on behalf of the Indiana Potato Growers Association, by W. K. Gast, President of such association. Each of such exceptions was fully and carefully considered, together with the evidence in the record, in arriving at the findings and conclusions set forth herein. In

substance, all of the germane exceptions, filed as aforesaid, are allegations that the record of the public hearing does not warrant or support specified findings and conclusions and that, on the contrary, such record requires other and different findings and conclusions. To the extent that the exceptions are at variance with the findings and conclusions decided upon herein, such exceptions are overruled.

The material issues and the findings and conclusions of the recommended decision set forth in the FEDERAL REGISTER (F. R. Doc. 50-7153; 15 F. R. 5434) are hereby approved, and adopted, and incorporated herein, as the material issues and the findings and conclusions of this decision as if set forth in full herein.

In view of such findings and conclusions, it is hereby further found and concluded that the proposed amendments to Order No. 60 are indispensable to the effective regulation of the handling of Irish potatoes grown in the production area defined in Order No. 60, and that, unless such amendments are made effective, Order No. 60 will no longer tend to effectuate the declared policy of the act after the completion of the referendum to ascertain producer approval or disapproval of said amendments. Accordingly, if the amendments do not receive the requisite producer approval, Order No. 60 will be terminated. Order No. 60 will tend to effectuate the declared policy of the act to some extent during that portion of the marketing season preceding the referendum because only a relatively small quantity of such potatoes will be marketed during this period and the handling of these potatoes can be effectively regulated, whereas the handling of the remainder of the current crop of such potatoes cannot be effectively regulated under Order No. 60 when they are marketed in substantial volume after the referendum, unless the proposed amendments are made effective.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Irish Potatoes Grown in Michigan, Wisconsin, Minnesota, North Dakota, and in Certain Counties of Iowa and of Indiana" and "Order, as Amended, Regulating the Handling of Irish Potatoes Grown in Michigan, Wisconsin, Minnesota, North Dakota and in Certain Counties of Iowa and of Indiana," which have been decided upon as the appropriate and detailed means of effectuating the foregoing findings and conclusions. The aforesaid marketing agreement and the aforesaid order shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the attached agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the said agreement are identical with those contained in the attached order, which will be published with this decision.

Done at Washington, D. C., this 1st day of September 1950.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

AUTHORITY: §§ 960.0 to 960.92 issued under 48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051.

§ 960.0 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), and the rules of practice and procedure covering proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Minneapolis, Minnesota, April 24–28, 1950 and at Lansing, Michigan, May 1–3, 1950, upon proposed amendments to the tentatively approved marketing agreement and Order No. 60 regulating the handling of Irish potatoes grown in Michigan, Wisconsin, Minnesota, and North Dakota (hereinafter jointly called "Order No. 60"). Upon the basis of evidence introduced at such hearing, and the record thereof, it is found that:

(1) The amended order, as hereinafter set forth, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) Such amended order regulates the handling of potatoes grown in the production area in the same manner as, and is applicable only to, persons in the respective classes of industrial and commercial activity specified in, a proposed marketing agreement upon which a hearing has been held;

(3) The said amended order is limited in its application to the smallest regional production area which is practicable, consistent with carrying out the declared policy of the act; and the issuance of several orders applicable to any subdivision of the production area would not effectively carry out the declared policy of the act;

(4) The said amended order prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of potatoes grown in the said area;

(5) All handling of potatoes, as defined in said amended order, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Order relative to handling. It is hereby ordered, pursuant to the findings and determinations set forth in § 960.0 hereof and pursuant to the aforesaid act, that such handling of potatoes, as defined in this order shall, from and after the time hereinafter specified, be in con-

formity to and in compliance with the terms and conditions of this order.

DEFINITIONS

§ 960.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any other officer, or employee of the United States Department of Agriculture, who is, or may hereafter be authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 960.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq., 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051).

§ 960.3 *Person.* "Person" means an individual, partnership, corporation, association, or any organized group or business unit.

§ 960.4 *Production area.* "Production area" means all territory included within the boundaries of the States of Michigan, Wisconsin, Minnesota, North Dakota, the counties of Clay, Emmet, Palo Alto, Pocahontas, Kossuth, Winnebago, Hancock, Wright, Hamilton, Worth, Cerro Gordo, and Mitchell, in the State of Iowa, and Warren, Benton, White, Carroll, Cass, Miami, Wabash, Huntington, Wells, Adams, and all counties lying north thereof, in the State of Indiana.

§ 960.5 *Potatoes.* "Potatoes" means all varieties of Irish potatoes grown within the production area.

§ 960.6 *Handler.* "Handler" is synonymous with shipper and means any person (except a common or contract carrier of potatoes owned by another person) who ships potatoes.

§ 960.7 *Ship or handle.* "Ship" or "handle" means to sell, transport, or in any other way to place potatoes in the current of commerce within the production area or between the production area and any point outside thereof.

§ 960.8 *Producer.* "Producer" means any person engaged in the production of potatoes for market.

§ 960.9 *Fiscal year.* "Fiscal year" means the period beginning on July 1 of each year and ending June 30 following.

§ 960.10 *Committee and area committee.* "Committee" means the administrative committee, called the North Central Potato Committee, established pursuant to § 960.22, and "area committee" means each of the subcommittees of the committee established pursuant to § 960.37.

§ 960.11 *Varieties.* "Varieties" means and includes all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 960.12 *Seed potatoes.* "Seed potatoes" or "seed" means and includes (a) all potatoes officially certified and tagged, marked, or otherwise appropriately identified, under the supervision of an official seed potato certifying agency of the State in which the potatoes are grown, or other agency recognized by the committee and approved by the Secretary, and (b) potatoes which, although uncertified as seed, are shipped as seed in accordance with the rules and regulations prescribed therefor pursuant to § 960.56.

§ 960.13 *Table stock potatoes.* "Table stock potatoes" means and includes all potatoes not included within the definition of "seed potatoes."

§ 960.14 *Pack.* "Pack" means a unit of potatoes contained in a bag, crate, or other type of container and which falls within specific weight limits recommended by the administrative committee and approved by the Secretary.

§ 960.15 *Grade and size.* "Grade" means any one of the officially established grades of potatoes, and "size" means any one of the officially established sizes of potatoes, as defined and set forth in:

(a) United States Standards for Potatoes issued by the United States Department of Agriculture (14 F. R. 1955, 2161), or amendments thereto, or modifications thereof, or variations based thereon;

(b) United States Consumer Standards for Potatoes issued by the United States Department of Agriculture (12 F. R. 7281), or amendments thereto, or modifications thereof, or variations based thereon;

(c) Standards for potatoes issued by appropriate authorities of any State within the production area, or amendments thereto, or modifications thereof, or variations based thereon.

§ 960.16 *Export.* "Export" means shipment of potatoes beyond the boundaries of Continental United States.

§ 960.17 *District.* "District" means each one of the geographical divisions of the production area initially established pursuant to § 960.25 and as reestablished pursuant to § 960.27.

§ 960.18 *Area.* "Area" means each of the geographical subdivisions of the production area initially established pursuant to § 960.26 and as reestablished pursuant to § 960.27.

§ 960.19 *Washed potatoes.* "Washed potatoes" means potatoes which have been cleaned by water and certified by the Federal-State Inspection Service as meeting the degree of cleanliness recommended by the committee and approved by the Secretary.

§ 960.20 *Part and subpart.* "Part" means the order regulating the handling of Irish potatoes grown in the production area, and all rules, regulations, and supplementary orders issued thereunder, and the aforesaid order shall be a "subpart" of such "part."

COMMITTEE

§ 960.22 *Establishment and membership.* (a) The North Central Potato Committee consisting of eighteen members, of whom fourteen shall be producers and four shall be handlers, is hereby established. For each member of the committee there shall be an alternate who shall have the same qualifications as the member.

(b) Persons selected as committee members or alternates to represent producers shall be individuals who are producers in the respective district for which selected, or officers or employees of a corporate producer in such district, and such persons shall be residents of the respective district for which selected.

(c) Persons selected as committee members or alternates to represent handlers shall be individuals who are handlers in the respective State for which selected, or officers or employees of a corporate handler.

§ 960.23 *Term of office.* The term of office of committee members and alternates shall be for two fiscal years, and until their successors are selected and have qualified: *Provided, however,* That the terms of office of members and alternates shall be so determined that one-half of the total committee membership shall terminate at the end of each fiscal year. Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 960.24 *Selection.* The Secretary shall select one producer member of the committee from each district in the States of Michigan, Wisconsin, Minnesota, Iowa, Indiana, and from North Dakota District No. 2; two producer members from North Dakota District No. 1; and one handler member from each of the States of Michigan, Wisconsin, Minnesota, and North Dakota: *Provided,* That no changes in districts, or areas, or both, or representation, have been made pursuant to § 960.27. If any such changes have been made pursuant to recommendations of any one or more area committees and the committee, and approved by the Secretary, selection of committee members shall be in accordance with the districts, areas, and membership as so re-established. An alternate shall be selected for each member and such alternate shall have the same qualifications as the member. Producer members and alternates shall represent the respective district from which they are selected.

§ 960.25 *Districts.* (a) The following districts of the production area are hereby initially established:

North Dakota District No. 1. The counties of Rolette, Pierce, Wells, Kidder, Logan, McIntosh, and all counties lying east thereof in North Dakota;

North Dakota District No. 2. The remaining counties in North Dakota not included in North Dakota District No. 1;

Minnesota District No. 1. The counties of Kittson, Marshall, Polk, Pennington, Red Lake, Norman, Mahnomen, Clay, and Wilkin;

Minnesota District No. 2. The counties of Big Stone, Swift, Kandiyohi, Meeker, Wright, Hennepin, Ramsey, Washington, and all counties lying south thereof in Minnesota;

Minnesota District No. 3. The remaining counties in Minnesota not included in Minnesota District No. 1 and Minnesota District No. 2;

Wisconsin District No. 1. The counties of Trempealeau, Eau Claire, Chippewa, Rusk, Sawyer, Bayfield, and all counties lying west thereof in Wisconsin;

Wisconsin District No. 2. The counties of Clark, Marathon, Shawano, Oconto, and all counties lying north thereof in Wisconsin;

Wisconsin District No. 3. The remaining counties in Wisconsin not included in Wisconsin District No. 1, and Wisconsin District No. 2;

Michigan District No. 1. All the counties in the Upper Peninsula of Michigan;

Michigan District No. 2. The counties of Oceano, Newaygo, Mecosta, Isabella, Midland, Bay, and all counties lying north thereof in Michigan, but not including the Upper Peninsula;

Michigan District No. 3. The remaining counties in Michigan not included in Michigan District No. 1, and Michigan District No. 2;

Iowa District No. 1. The counties of Clay, Emmet, Palo Alto, Pocahontas, Kossuth, Winnebago, Hancock, Wright, Hamilton, Worth, Cerro Gordo, and Mitchell in Iowa; and

Indiana District No. 1. The counties of Warren, Benton, White, Carroll, Cass, Miami, Wabash, Huntington, Wells, Adams, and all counties north thereof in Indiana.

§ 960.26 *Areas.* The following subdivisions of the production area are hereby initially established:

Area No. 1. North Dakota Districts No. 1 and No. 2;

Area No. 2. Minnesota Districts No. 1, No. 2, and No. 3, and Iowa District No. 1;

Area No. 3. Wisconsin Districts No. 1, No. 2, and No. 3;

Area No. 4. Michigan Districts No. 1, No. 2, and No. 3, and Indiana District No. 1.

§ 960.27 *Reestablishment.* (a) Upon the recommendation of the committee, the Secretary may reestablish districts or areas, or both, within the production area, and may reapportion committee membership among such districts or areas, or both.

(b) An area committee may recommend to the committee reestablishment of districts or the reapportionment of committee membership, or both, within the area represented by such area committee. Any two or more area committees may make similar recommendations to the committee regarding reestablishment of districts or areas of the production area, or both, or the reapportionment of committee membership among such districts or areas of the production area, or both: *Provided,* That in recommending any such changes in districts or areas, or both, or representation, such committees shall give consideration to: (1) The relative importance of new production; (2) changes in the relative position, with respect to production, of existing districts; (3) the geographic location of production as it would affect the efficiency of administering this program; and (4) other relevant factors.

§ 960.28 *Nomination.* The Secretary may select the members of the committee, with their respective alternates, from nominations which may be made in the following manner:

(a) The committee shall hold or cause to be held prior to May 1 of each fiscal year, after the effective date of this subpart, a meeting or meetings of producers in each district and a meeting or meetings of handlers in the States of Michigan, Wisconsin, Minnesota, and North Dakota;

(b) In arranging for such meetings the committee may, if it deems desirable, utilize the services and facilities of existing organizations and agencies;

(c) At each such meeting at least two nominees shall be designated for each position as member and for each position as alternate member on the committee.

(d) Nominations for committee members and alternate members shall be supplied to the Secretary in such manner and form as he may prescribe, not later than 30 days prior to the end of each fiscal year;

(e) Only producers may participate in designating nominees for producer committee members and their alternates and only handlers may participate in designating nominees for handler committee members and their alternates. If a person is both a producer and a handler, at least 90 percent of the potatoes handled by such person must be of his own production in order to qualify as a producer member or alternate of the committee and for designating producer nominees for the committee; each person who is both a producer and a handler may vote either as a producer or a handler and may elect, subject to such 90 percent limitation, the group in which he votes; and

(f) Regardless of the number of districts in which a person produces potatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives, in designating nominees for committee members and alternates: *Provided,* That in the event a person is engaged in producing potatoes in more than one district such person shall elect the district within which he may participate as aforesaid in designating nominees: *Provided further,* That an eligible voter's privileges of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled in the respective district in which he elects to vote.

§ 960.29 *Failure to nominate.* If nominations are not made within the time and in the manner specified in § 960.28, the Secretary may, without regard to nominations, select the committee members and alternates, which selection shall be on the basis of the representation provided for in § 960.24.

§ 960.30 *Acceptance.* Any person selected as a committee member or as an alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 960.31 *Vacancies.* To fill committee vacancies, the Secretary may select committee members and alternates from unselected nominees on the current nominee list from the district involved, or from nominations made in the manner specified in § 960.28. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in § 960.24.

§ 960.32 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 960.33 *Procedure.* (a) A majority of the members of the committee shall be necessary to constitute a quorum and a majority of concurring votes of the entire membership of such committee will be required to pass any motion or approve any committee action.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication and any vote cast at such a meeting shall be confirmed promptly in writing: *Provided,* That if any assembled meeting is held, all votes shall be cast in person.

§ 960.34 *Expenses and compensation.* Committee members and alternates shall serve as such members and alternates without compensation, but they shall be reimbursed for expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this part.

§ 960.35 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 960.36 *Duties.* It shall be the duty of the committee:

(a) At the beginning of each fiscal year, to meet and organize, select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(e) To investigate from time to time and to assemble data on the growing harvesting, shipping, and marketing conditions with respect to potatoes, and to engage in such research and service activities which relate to the handling or marketing of potatoes as may be approved by the Secretary;

(f) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(g) To make available to producers and handlers the committee voting record on recommended regulations and on other matters of policy;

(h) At the beginning of each fiscal year to prepare a budget of its expenses for such fiscal year, together with a report thereon;

(i) To cause the books of the committee to be audited by a competent accountant at least once each fiscal year, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part; a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(j) To consult, cooperate, and exchange information with other potato marketing committees and other individuals or agencies in connection with all proper committee activities and objectives under this part.

§ 960.37 *Area Committees.* The producer members representing Area No. 1 on the committee and the handler representing North Dakota on the committee shall constitute the Area Committee for Area No. 1. Likewise, the producer members representing each of the other areas on the committee, together with the appropriate handler representative, shall constitute the area committees for such areas. Each Area Committee may, upon the selection and qualification of a majority of its members, organize and commence to function; and a majority of all members of the respective Area Committee shall be necessary to constitute a quorum of the respective committee. Each Area Committee shall select a chairman and a secretary. The alternate for each member of an Area Committee shall be the person who serves as alternate for such member on the committee. The alternate for a member of an Area Committee shall, in the event of the respective member's absence, act in the place of said member; and in the event of such member's removal, resignation, disqualification, or death, the alternate for said member shall, until a successor for the unexpired term of said member has been selected, act in the place of said member. Each Area Committee shall function in accordance with the provisions of this subpart, and each Area Committee shall submit to the committee such reports and recommendations as the Area Committee deems to be proper, pursuant to the provisions of this subpart, with respect to the administration of the provisions of this part, in the respective area for which such committee is organized. Except as herein otherwise specifically provided, the powers and duties of Area Committees, as subcommittees of the committee, shall be determined by the committee.

BUDGET, EXPENSES, AND ASSESSMENTS

§ 960.40 *Budget.* The committee shall prepare a budget for each fiscal year showing its anticipated expenses and a proposed rate of assessment to cover such expenses. The committee shall also transmit to the Secretary a report accompanying the budget showing the basis for its calculation of expenses and the proposed rate of assessment.

§ 960.41 *Expenses.* The committee is authorized to incur such expenses as the Secretary, upon the basis of the aforesaid budget or other available information, finds may be necessary during each fiscal year to perform its functions under this part and for such other purposes as may be appropriate pursuant to the provisions of this part.

§ 960.42 *Rate of assessment.* The funds to cover such expenses shall be acquired by the levying on handlers of assessments which shall be at a rate recommended by the committee and, on the basis of such recommendation, or other available information, fixed by the Secretary. Each handler who first ships potatoes which are ready for market shall pay assessments, except where relieved therefrom pursuant to §§ 960.53 and 960.54, to the committee, upon demand, which assessments shall be such handler's pro rata share of the expenses which will be appropriately incurred by the committee during each fiscal year. Such handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof, during the applicable fiscal year, and the total quantity of potatoes handled by all handlers as the first handlers thereof, during the same fiscal year.

§ 960.43 *Amended budgets and increased assessment rates.* At any time during or subsequent to a given fiscal year, the committee may recommend the approval of an amended budget and the fixing of an increased rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment to cover expenses which shall be incurred pursuant to an approved budget or amended budget. Such increase shall be applicable to all potatoes handled during such given fiscal year.

§ 960.44 *Refunds.* If at the end of a fiscal year, it shall appear that assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal year, unless he demands payment thereof, in which event such proportionate refund shall be paid to him.

§ 960.45 *Accounting.* All funds received by the committee pursuant to any provision of this part shall be used solely for the purposes specified in this part and shall be accounted for in the following manner:

The Secretary may at any time require the committee and its members to account for all receipts and disbursements, and whenever any person ceases to be a committee member or alternate, he shall account for all receipts and disbursements and deliver all property and funds in his hands, together with all books and records in his possession, to his successor in office or to such person as the Secretary may designate, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor or in such designated person the right to all the property, funds, or claims vested in such member or alternate.

§ 960.46 *Collection of funds.* (a) The committee may, with the approval of the Secretary, maintain in its own name or in the name of its members, a suit against any handler for the collection of such handler's pro rata share of the expenses of the committee.

(b) In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

REGULATION

§ 960.50 *Marketing policy.* The Area Committee for each of the areas included in the production area and the committee, severally, shall, prior to or simultaneously with the making of any recommendation pursuant to § 960.51, submit to the Secretary a detailed report setting forth the marketing policy with respect to the shipment of potatoes which the respective committee deems advisable for the ensuing shipping season. Additional reports shall be submitted, from time to time, in the event that it is deemed advisable by the respective Area Committee or the committee to adopt a new marketing policy in view of changed demand and supply conditions with respect to potatoes. The committee shall publicly announce the submission of each such marketing policy report, and copies thereof shall be made available at the office of the respective Area Committee and the committee for inspection by any producer or handler. In determining each such marketing policy the respective Area Committee and the committee shall give due consideration to the following factors relating to potatoes produced in the area and in other States:

(a) Market prices of potatoes, including prices by grade, size, and quality in different packs, or any other shipping unit;

(b) Supply of potatoes, by grade, size, quality, in the production area, and in other production areas;

(c) Trend and level of consumer income; and

(d) Other relevant factors.

§ 960.51 *Recommendation for regulations.* The committee, pursuant to investigations and analysis of factors enumerated in § 960.50, shall recommend regulations to the Secretary whenever it finds that such regulation, as provided in § 960.52, will tend to effectuate the declared policy of the act. The committee also may recommend modification, suspension, or termination of any regulation in order to facilitate shipments of potatoes for the specified purposes set forth in § 960.53.

§ 960.52 *Issuance of regulations.* The Secretary shall limit the shipment of potatoes whenever he finds from the recommendations and information submitted by the committee, or from other

available information, that such regulation would tend to effectuate the declared policy of the act. Such limitation may:

(a) Regulate, in any or all portions of the production area, the shipment of particular grades, sizes, or qualities of any or all varieties of potatoes during any period; or

(b) Regulate the shipment of particular grades, sizes, or qualities of potatoes differently, for different varieties, for different portions of the production area, for different packs, for washed and unwashed potatoes, or any combination of the foregoing during any period; or

(c) Regulate the shipment of potatoes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity.

§ 960.53 *Modification, suspension or termination.* Upon the basis of recommendations and information submitted by the committees, or other available information, the Secretary shall modify, suspend, or terminate regulations issued pursuant to §§ 960.42, 960.43, 960.52, 960.53, 960.65, or any combination thereof, in order to facilitate shipments of potatoes for the following purposes whenever he finds that it will tend to effectuate the declared policy of the act:

(a) For grading or storage within the production area;

(b) For seed;

(c) For export;

(d) For distribution by the Federal government;

(e) For manufacture or conversion into specified products;

(f) For livestock feed; and

(g) For other purposes which may be specified.

§ 960.54 *Minimum quantity regulation.* The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which shipments will be free from regulations issued pursuant to §§ 960.42, 960.43, 960.52, 960.53, 960.65, or any combination thereof.

§ 960.55 *Notification of regulation.* The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 960.56 *Safeguards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent shipments pursuant to §§ 960.53 and 960.54 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of Certificates of Privilege if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the committee to ship potatoes pursuant to §§ 960.53 and 960.54;

(2) Handlers shall obtain inspection provided by § 960.65 or pay the pro rata share of expenses provided by § 960.42, or both, in connection with potato shipments effected under the provisions of § 960.53: *Provided*, That such inspection or payment of expenses may be required at different times than otherwise specified by the aforesaid sections; and

(3) Handlers shall obtain Certificates of Privilege from the committee for shipments of potatoes effected or to be effected under the provisions of §§ 960.53 and 960.54.

(b) The committee may rescind or deny Certificates of Privilege to any shipper if proof is obtained that potatoes shipped by him for the purposes stated in §§ 960.53 and 960.54, were handled contrary to the provisions of this subpart.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes shipped under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 960.65 *Inspection and certification.* During any period in which shipments of potatoes are regulated pursuant to the provisions of §§ 960.42, 960.43, or 960.52, 960.53, or any combination thereof, no handler shall ship potatoes unless each such shipment is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate, except when relieved from such requirement pursuant to §§ 960.53 and 960.54. Each handler procuring such inspection shall make arrangements with the inspecting agency to forward promptly to the committee a copy of the inspection certificate: *Provided, however*, That no handler shall ship potatoes after such potatoes are regraded, resorted, repacked, or in any other way further prepared for market unless each shipment of such potatoes is inspected as provided in this section.

EXEMPTIONS

§ 960.70 *Policy.* (a) Any producer whose potatoes have been adversely affected by acts beyond his control or by acts beyond reasonable expectation and who, by reason of any regulation issued pursuant to § 960.52, is prevented from shipping during the season, or a specific portion thereof, as large a proportion of his potato crop as the average proportion shipped or to be shipped during comparable portions of the season by all producers in his immediate area of production, may apply to the committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

(b) Any handler who has storage holdings of ungraded potatoes acquired during or immediately following the digging season that have been adversely affected by acts beyond the handler's control or by acts beyond reasonable expectation and who, by reason of any regulation issued pursuant to § 960.52, is prevented from shipping as large a proportion of his storage holdings of ungraded potatoes as the average proportion of ungraded storage holdings shipped by all handlers in said handler's immediate shipping area, may apply to the committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

§ 960.71 *Rules and procedures.* The committee may adopt, with approval of the Secretary, the rules and procedures for handling exemptions. Such rules and procedures should provide for handling applications for exemptions, for issuing certificates of exemption, for committee determinations with respect to areas and averages (as required by § 960.70), and for such other procedures as may be necessary to accomplish policies with respect to exemptions.

§ 960.72 *Applications and issuance.* The committee shall issue certificates of exemption to any qualified applicant who furnishes adequate evidence to such committee:

(a) That the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation;

(b) That by reason of regulations issued pursuant to § 960.52, in case of an applicant who is a producer, he will be prevented from shipping as large a proportion of his production as the average proportion of production shipped by all producers in said applicant's immediate area of production during the season, or a specific portion thereof;

(c) That by reason of regulations issued pursuant to § 960.52, in case of an applicant who is a handler who has storage holdings of ungraded potatoes acquired during or immediately following the digging season, he will be prevented from shipping as large a proportion of such storage holdings as the average proportion of similar storage holdings shipped by all handlers in said applicant's immediate shipping area during the season;

(d) Each certificate shall permit the recipient thereof to ship the potatoes described thereon, and evidence of such certificates shall be made available to subsequent handlers thereof.

§ 960.73 *Investigation.* The committee shall be permitted at any time to make a thorough investigation of any applicant's claim pertaining to exemptions.

§ 960.74 *Appeals.* If any applicant for exemption certificates is dissatisfied with the determination with respect to his application, said applicant may file an appeal with the committee. Such an appeal must be taken promptly after the determination from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to such committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy

of the appeal and a statement of considerations involved in making the final determination.

§ 960.75 *Records.* The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of potatoes covered by such exemption certificates, a record of the amount of potatoes shipped under exemption certificates, a record of appeals for reconsideration of applications, and such information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the administrative committee upon request of the Secretary.

MISCELLANEOUS PROVISIONS

§ 960.80 *Reports.* Upon the request of the committee, with approval of the Secretary, every handler shall furnish to the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its powers and perform its duties under this subpart. The Secretary shall have the right to modify, change, or rescind any requests for reports pursuant to this section.

§ 960.81 *Compliance.* Except as provided in this subpart, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall ship potatoes except in conformity to the provisions of this subpart.

§ 960.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 960.83 *Effective time.* The provisions of this subpart shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 960.84 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal year whenever he finds that such termination is favored by a majority of producers, who during the preceding fiscal year, have been engaged in the production for market of potatoes: *Provided*, That such majority has, during such year, produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced at least 30 days prior to the end of the then current fiscal year.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 960.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together will all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property ,or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 960.86 *Effect of termination or amendment.* (a) Unless otherwise expressly provided by the Secretary, the termination of this subpart or any regulation issued pursuant to this subpart or the issuance of any amendments to either thereof, shall not (1) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (2) release or extinguish any violation of this subpart or of any regulations issued under this subpart or (3) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

(b) The persons who are members and alternates of the committee established pursuant to Order No. 60, on the effective date of this subpart, shall continue in office under this subpart until the end of the then current fiscal year, and until their successors have been selected and have qualified; and all rules and regulations issued pursuant to Order No. 60, shall continue in effect until terminated in accordance with their present terms, or until modified, suspended, or terminated by the Secretary in accordance with the provisions of this subpart.

§ 960.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 960.88 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 960.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 960.90 *Personal liability.* No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

§ 960.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstances, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 960.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

[Docket No. AO-159A-1]

HANDLING OF IRISH POTATOES GROWN IN MICHIGAN, WISCONSIN, MINNESOTA, NORTH DAKOTA, AND IN CERTAIN COUNTIES OF IOWA AND OF INDIANA

ORDER DIRECTING THAT REFERENDUM BE CONDUCTED AMONG PRODUCERS; DETERMINATION OF REPRESENTATIVE PERIOD; DESIGNATING AGENTS TO CONDUCT SUCH REFERENDUM

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 202, 707; 62 Stat. 1247; 63 Stat. 1051), it is hereby directed that a referendum be conducted among producers who, during the period July 1, 1949, to June 30, 1950, both dates inclusive (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the production area as defined in § 960.4 of Order No. 60, as amended, in the production of Irish potatoes for market, to determine whether such producers approve or favor the issuance of an amended order regulating the handling of Irish potatoes grown therein; and said order, as amended, is annexed to the decision of the Secretary of Agriculture filed[1] simultaneously herewith.

The procedure applicable to this referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except Those Applicable to Milk and its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F. R. 5176).

For the purposes of this referendum, the production area defined in § 960.4 of Order No. 60, as amended, means all territory included within the boundaries of the States of Michigan, Wisconsin, Minnesota, North Dakota, the counties of Clay, Emmet, Palo Alto, Pocahontas, Kossuth, Winnebago, Hancock, Wright, Hamilton, Worth, Cerro Gordo, and Mitchell, in the State of Iowa, and Warren, Benton, White, Carroll, Cass, Miami, Wabash, Huntington, Wells, Adams, and all counties lying north thereof, in the State of Indiana.

It is hereby determined for the purposes of this referendum that the aforesaid amended order shall be deemed a marketing order pursuant to the terms of section 4, Public Law 471, 81st Congress, approved March 31, 1950, which states that: "After the enactment of this joint resolution, no price support shall be made available for any Irish potatoes of the 1950 crop with respect to which marketing orders under the Agricultural Marketing Agreement Act of 1937, as amended, have been disapproved by producers."

R. E. Keller, V. A. Ekstrom, S. L. Pobst, E. E. Gallahue, and A. C. Cook, of the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to conduct said referendum jointly or severally.

Copies of the text of the aforesaid order may be examined in the Office of the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington, D. C., and at the county Production and Marketing Administration Office in each of the counties within the specified production area.

Ballots to be cast in the referendum and copies of the text of said order may be obtained from any referendum agent and any appointee hereunder.

"AREA OF PRODUCTION"

REDEFINITION OF TERM

Section 13 (a) (10) of the Fair Labor Standards Act provides a year-round exemption from both the minimum wage and overtime pay provisions for employees engaged in certain enumerated operations on agricultural or horticultural commodities and in making dairy products. One part of section 7 (c) of the act provides a 14 workweek exemption from the overtime pay provisions alone for employees in a place of employment where their employer is engaged in the first processing of agricultural or horticultural commodities during seasonal operations. Exemption under these provisions is dependent upon whether the employee is employed (section 13 (a) (10)) or whether the employer is engaged in such activities (section 7 (c)) "within the area of production" as that phrase is defined in regulations adopted by the Administrator.

The present definitions of "area of production," which have been in effect since December 1946, follow the guides laid down by the U. S. Supreme Court in the case of Addison v. Holly Hill (322 U. S. 607). In that case the Court stated that "area" called for a delimitation of territory in relation to the complicated economic factors that operate between agricultural labor conditions and the labor market of enterprises concerned with agricultural commodities and more or less near their production. The Court also noted the Congressional intent to distinguish between rural communities and urban centers. The present definitions were formulated in conformity with this direction of the Supreme Court after extensive public hearings. The Supreme Court also confirmed the view that it appears clearly to have been the intent of Congress in enacting the law that some employees engaged in these activities must, while others need not, be paid in accordance with the minimum wage and overtime provisions. Some competitive inequalities are therefore inevitable under the statutory provisions.

Representations have recently been made that in particular instances substantial economic discrimination exists as between establishments which meet the requirements of the present definitions and those that do not. In addition, several specific proposals have been received, urging that changes be made in the present definitions to lessen the competitive inequalities that result from this provision of the law.

In view of the representations and requests for redefinition which have been made, particularly since the minimum wage was increased to 75 cents an hour, I have decided to receive and give consideration at this time to specific proposals for changes in the definitions. The purpose of the proposed reconsideration is to attempt to develop a definition which will minimize competitive inequalities and still be in accord with the statutory language and the opinion of the Supreme Court. All proposals received will be studied with a view to holding a public hearing at a later date.

Proposals for changes in the definitions should be addressed to Mr. Wm. R. McComb, Administrator, Wage and Hour and Public Contracts Divisions, Department of Labor Building, Washington 25, D. C. To the extent possible, the proposals should be accompanied by supporting information, including a statement indicating the results which would be achieved if the changes were incorporated in the regulations. The proposals and accompanying statements should be received by the Administrator before October 10, 1950.

Until such time as any revised regulations may become effective, the present definitions of "area of production" will, of course, remain in effect.

Signed at Washington, D. C., this 1st day of September 1950.

WM. R. McCOMB,
Administrator, Wage and Hour and Public Contracts Divisions.

DISASTER COMMMUNICATIONS SERVICE

SUPPLEMENTAL NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of further proposed rule making in the above-entitled matter.

2. On August 3, 1950, the Commission released a notice of proposed rule making (FCC 50-970)[1] proposing the establishment of a Disaster Communications Service. The provisions of § 20.10 of the proposed new Part 20 permit applications for authorizations to operate in the Disaster Communications Service to be submitted in letter form. It is believed that use of a standardized application form will reduce the possibility of errors and will result in more expedient processing. Accordingly, it is proposed to adopt Form 525, a copy of which is attached[2] as the form to be used in filing applications for authorizations in the Disaster Communications Service.

3. This notice is issued pursuant to authority contained in sections 303 (r)

[1] 15 F. R. 5173.
[2] Filed as part of the original document.

and 308 (b) of the Communications Act, as amended.

4. Any interested person who is of the opinion that the proposed form should or should not be adopted, or should not be adopted in the form set forth, may file with the Commission on or before September 15, 1950, a written statement or brief setting forth his comments. The Commission will consider these written comments and if comments are submitted which appear to warrant the Commission's holding an oral argument, notice of time and place of such oral argument will be given.

5. An original and six copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: August 23, 1950.

Released: August 24, 1950.

1¼ PERCENT TREASURY NOTES OF SERIES F-1951

OFFERING OF NOTES

SEPTEMBER 5, 1950.

I. *Offering of notes.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States for notes of the United States, designated 1¼ percent Treasury Notes of Series F-1951, in payment of which any of the following listed Treasury securities, singly or in combinations aggregating $1,000 or multiples thereof, may be tendered:

Treasury Certificates of Indebtedness:

1¼ percent certificates, Series G-1950, dated September 15, 1949, maturing September 15, 1950.

Treasury Bonds:

2 percent bonds of 1950-52, dated April 15, 1943, due September 15, 1952, called for redemption September 15, 1950.

2½ percent bonds of 1950-52, dated September 15, 1938, due September 15, 1952, called for redemption September 15, 1950.

II. *Description of notes.* 1. The notes will be dated September 15, 1950, and will bear interest from that date at the rate of 1¼ percent per annum, payable with the principal at maturity on October 15, 1951. They will not be subject to call for redemption prior to maturity.

2. The income derived from the notes shall be subject to all taxes, now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The notes shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. The notes will not be issued in registered form.

5. The notes will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States notes.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of notes applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for notes allotted hereunder must be made on or before September 15, 1950, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series G-1950, maturing September 15, 1950, or in 2 percent Treasury Bonds of 1950-52 or 2½ percent Treasury Bonds of 1950-52, both called for redemption September 15, 1950, which will be accepted at par, and should accompany the subscription. The full year's interest on the certificates surrendered will be paid to the subscriber following acceptance of the certificates. Final interest due September 15 on bonds surrendered will be paid, in the case of coupon bonds, by payment of September 15, 1950 coupons, which should be detached by holders before presentation of the bonds, and in the case of registered bonds, by checks drawn in accordance with the assignments on the bonds surrendered.

V. *Assignment of registered bonds.* 1. 2 percent Treasury Bonds of 1950-52 or 2½ percent Treasury Bonds of 1950-52 in registered form tendered in payment for notes offered hereunder should be assigned by the registered payees or assignees thereof to "The Secretary of the Treasury for exchange for Treasury Notes of Series F-1951 to be delivered to ------", in accordance with the general regulations of the Treasury Department governing assignments for transfer or exchange, and thereafter should be presented and surrendered with the subscription to a Federal Reserve Bank or Branch or to the Treasury Department, Division of Loans and Currency, Washington, D. C. The bonds must be delivered at the expense and risk of the holders.

VI. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts, to issue allotment notices, to receive payment for notes allotted, to make delivery of notes on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

MEMBER LINES OF ASSOCIATED STEAMSHIP LINES (MANILA) CONFERENCE ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to Section 15 of the Shipping Act, 1916, as amended:

Agreement No. 5600-16, between the member lines of the Associated Steamship Lines (Manila) Conference, modifies the basic agreement of said conference (No. 5600), (1) to provide that only those members who have berthed and loaded a vessel in the Philippine Islands within the preceding six months, rather than within the preceding three months as presently provided in the agreement, shall be entitled to vote on matters pertaining to rates, rules and regulations, (2) to provide that adoption of general matters shall require two-thirds affirmative vote of the total membership vote, instead of majority vote of members present at a meeting as now provided in the agreement, and (3) to include provisions clarifying the voting provisions of the agreement.

Agreement No. 57-32 covers the admission of Waterman Steamship Corporation to associate membership in the Pacific Westbound Conference. As an associate member the Waterman Steamship Corporation will have no vote in conference affairs, but will be permitted to participate in conference contracts with shippers, and will be exempted from posting of the usual surety bond.

Agreement No. 7773, between Aktiebolaget Svenska Amerika Linien, Rederiaktiebolaget Transatlantic, Aktiebolaget Transmarin, Rederiaktiebolaget Helsingborg, and Wilhelmsens Dampskibsaktieselskab, A/S Den Norska Afrika-og Australielinie, A/S Tonsberg, A/S Tankfart I, A/S Tankfart IV, A/S Tankfart V and A/S Tankfart VI, provides for transportation of woodpulp and wallboard under contract for joint account at agreed rates in the trade from Swedish Baltic ports, north of and including Gefle district, to U. S. North Atlantic ports, north of Cape Hatteras, and for apportionment of such cargo between the parties in specified percentages.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification together with request for hearing should such hearing be desired.

Dated: September 1, 1950.

By order of the Federal Maritime Board.

HOUSING AND HOME FINANCE AGENCY

Federal Housing Administration

DELEGATION OF AUTHORITY AND ASSIGNMENT OF DUTIES

Sections 11, 12, 13 and 14 are hereby amended to read as follows:

SEC. 11. *Citation of authority.* Section 1 of Title I of the National Housing Act provides in part as follows:

• • • In order to carry out the provisions of this title and titles II, III, VI, VII and VIII, the Commissioner may establish such agencies, accept and utilize such voluntary and uncompensated services, utilize such Federal officers and employees, and, with the consent of the State, such State and local officers and employees, and appoint such other officers and employees as he may find necessary, and may prescribe their authorities, duties, responsibilities, and tenure and fix their compensation, without regard to the provisions of other laws applicable to the employment or compensation of officers or employees of the United States. The Commissioner may delegate any of the functions and powers conferred upon him under this title and titles II, III, VI, VII and VIII to such officers, agents, and employees as he may designate or appoint • • •.

Section 3 of Reorganization Plan No. 3 of 1947, effective July 27, 1947, provides in part as follows:

Federal Housing Administration. The Federal Housing Administration shall be headed by a Federal Housing Commissioner • • •. There are transferred to said Commissioner the functions of the Federal Housing Administrator.

SEC. 12. *Designation of Acting Commissioner.* Pursuant to the authority cited in section 11 of this order, I hereby designate the officials of the Federal Housing Administration named below in this section to act in my place and stead with the title of "Acting Commissioner" with all of the powers, duties and rights conferred upon me by the National Housing Act, as amended, Reorganization Plan No. 3 of 1947, by any other act of Congress or by any Executive order, in the event of my absence, illness or inability to act, provided that no official named below shall have authority to act as "Acting Commissioner" unless all those whose names appear before his are absent from their official post or unable to act:

1. Walter L. Greene, Deputy Commissioner.
2. Burton C. Bovard, General Counsel.
3. Donald M. Alstrup, Assistant to the Commissioner.
4. Herbert C. Redman, Assistant Commissioner, Field Operations.
5. Curt C. Mack, Assistant Commissioner, Underwriting.
6. Clyde L. Powell, Assistant Commissioner, Rental Housing.
7. Warren J. Lockwood, Assistant Commissioner, Cooperative Housing.
8. Arthur J. Frentz, Assistant Commissioner, Title I.

SEC. 13. *Specific delegations to named positions.* Pursuant to the authority cited in section 11 of this order, the following assignment of duties and delegations of functions and powers are hereby made:

(a) To the position of Deputy Commissioner:

(1) To assist the Commissioner in the general administration of the Administration, and to be responsible to the Commissioner for the general supervision and coordination of all operations.

(2) To approve organizational changes.

(b) To the position of Assistant Commissioner, Field Operations, and (except with respect to the authority contained in subdivisions 9 and 10 hereunder) under his general supervision to the position of Deputy Assistant Commissioner, Field Operations:

(1) To approve or cancel the approval of financial institutions as approved mortgagees, insured institutions, or approved lenders.

(2) To issue commitments for insurance and to execute insurance contracts pursuant to such commitments.

(3) To approve a change in amount, a change of the term, or any other modification of commitments for insurance or of insurance contracts.

(4) To consent to the release of mortgagors.

(5) To consent to the release of portions of the mortgaged property from the lien of the mortgage.

(6) To approve the insurance of mortgages taken as security in connection with the sale of all properties conveyed to the Federal Housing Commissioner, including the authority to determine the value of such properties and facts relating to the eligibility of such mortgages for insurance.

(7) To execute Certificates of Claim and requisitions to the Treasury Department for the issuance of debentures.

(8) To execute assignments, releases or satisfactions of mortgages taken by the Commissioner as security in connection with the sale of acquired properties.

(9) In connection with the sale of properties conveyed to the Commissioner to execute in my official name, as my agent, all deeds or other documents or instruments in connection with the con-

veyances of title thereto and deeds of release, assignments, or satisfactions of mortgages, deeds of trust, or other liens taken as security in connection therewith.

(10) To execute the power and authority vested in the Commissioner under Section IV of the Regulations governing property and obligations held by the Federal Housing Commissioner and approved by the Secretary of the Treasury.

(11) To direct the administration of Field offices and to initiate and recommend to the Commissioner policies and procedures with respect thereto.

(12) To issue Property Eligibility Statements or Commitments or any similar forms which may be provided in connection with new home loans under Regulations issued pursuant to Title I of the National Housing Act.

(13) To reject or accept for insurance loans or advances of credit made under the provisions of section 2 of Title I that require the prior approval of the Federal Housing Commissioner.

(14) To execute applications or other documents in connection with any functions which the Federal Housing Administration may perform for any other agency or agencies of the United States.

(15) With respect to section 609, to issue commitments for insurance and to execute insurance contracts pursuant to such commitments; to approve changes in amount, changes in term, or any other modifications of commitments for insurance or of insurance contracts; to consent to the release of part or parts of property delivered as security for insured loans; to exercise the authority of the Commissioner under the Administrative Rules and Regulations under section 609 in any instance requiring the approval of the Commissioner; to execute in my name proofs of claim against bankrupt, insolvent or decedent estates; and to exercise the power and authority vested in the Commissioner under section 609 (g) of Title VI of the act.

(16) To approve the sale and terms of sale of mortgages taken as security in connection with the sale of property conveyed to the Federal Housing Commissioner under all Sections of the Act other than sections 207, 213, 608, Title VII and Title VIII.

(c) To the position of Assistant Commissioner, Underwriting, and (except with respect to the authority contained in subdivisions 3 and 4 hereunder) under his general supervision to the Deputy Assistant Commissioner, Underwriting:

(1) To be responsible to the Commissioner for all mortgage underwriting activities, including valuation of realty, land planning, architecture and credit analyses, analyses of locations, subdivisions and areas and construction cost determination.

(7) To issue Property Eligibility Statements or Commitments or any similar forms which may be provided in connection with new home loans under Regulations issued pursuant to Title I of the National Housing Act.

(8) In connection with new home loans under the Regulations issued pursuant to section 2 of Title I of the National Housing Act, to approve the sale by insured institutions of acquired property where the insured institution exercises its option to sell the property in the open market in lieu of a conveyance to the Commissioner.

(9) To reject or accept for insurance loans or advances of credit made under the provisions of Title I that may require the prior approval of the Federal Housing Commissioner.

(10) To approve the insurance of mortgages taken as security in connection with the sale of all properties conveyed to the Federal Housing Commissioner, including the authority to determine the value of such properties and facts relating to the eligibility of such mortgages for insurance.

(11) To execute applications or other documents in connection with any functions which the Federal Housing Administration may perform for any other agency or agencies of the United States.

(12) To certify that official long-distance telephone calls made were necessary in the interest of the Government, pursuant to section 4 of the Act approved May 10, 1939 (53 Stat. 738).

(13) In connection with the sale of Commissioner owned property, to consent to the assignment of the interest of the contract purchaser under a contract for deed and to the substitution of mortgagors under a mortgage held by the Commissioner.

(14) To execute contracts for the sale of any properties conveyed to the Federal Housing Commissioner, except properties acquired under sections 207, 213, 608, Title VII and Title VIII, or sales of five or more properties as a group.

(15) To execute any regulatory agreements required by the Administrative Rules under sections 207, 213, 608, Title VII and Title VIII.

(i) To the position of Comptroller and under his general supervision to the position of Deputy Comptroller:

(1) To requisition the advance of funds.

(2) To approve all expenditures and receipt vouchers necessary to carry out the provisions of the National Housing Act.

(3) To endorse checks for deposit or collection.

(4) To certify financial statements.

(5) To certify the findings of the Compliance Committee in regard to the waiver of the Regulations under the provisions of section 2 (c) of the National Housing Act, as amended.

(6) To certify as to delegations of authority by the Commissioner and as to the truth or accuracy of copies of original papers or documents in the possession of the Administration.

(7) To devise accounting procedures and to administer the fiscal policies of the Administration.

(8) To execute vouchers or applications and receipt for any payments received representing refunds of taxes or other payments made by the Commissioner in connection with property acquired under the provisions of the National Housing Act.

(9) To certify that official long-distance telephone calls made were necessary in the interest of the Government, pursuant to section 4 of the act approved May 10, 1939 (53 Stat. 738).

(j) To the position of Director of Research and Statistics, and under his general supervision to the position of Deputy Director of Research and Statistics:

(1) To advise the Commissioner on the economic aspects of mortgage insurance activities. Plan and administer the activities of the Research and Statistics Division. Consult with the representatives of other divisions and other agencies on problems of housing and economic research.

(2) To initiate, and to undertake on request of other officers, actuarial studies regarding insurance operations under Titles I, II, VI, VII, and VIII, including, in collaboration with the Comptroller, studies of the distribution of expenses and income; and to prepare studies of the adequacy of premiums and reserves and such other matters as are required by the Commissioner for the formulation of sound actuarial policy.

(k) To the position of Director of Personnel, and under his general supervision to the position of Deputy Director of Personnel:

(1) To be responsible for the development, establishment and operation of a personnel program.

(2) To make appointments and to remove or separate personnel; to fix the administrative work week; to approve overtime work and to prescribe rules and regulations regarding overtime.

(13) To be responsible for the radio spot announcement program and other radio material and to coordinate and supervise the FHA Home Show and exhibit program."

(n) To the position of Auditor and under his general supervision to the position of Deputy Auditor:

(1) To be responsible for a continuing audit of the fiscal accounts of the Administration, including the fiscal accounts of the Field Offices, and the accounts of approved Mortgagees not under governmental supervision to determine compliance with the supervision requirements of the Administrative Rules.

(o) To the position of Director, Property Management, and under his general supervision to the position of Deputy Director, Property Management:

(1) To operate and manage all properties conveyed to the Federal Housing Commissioner in accordance with general policies promulgated by the Property Sales Committee and approved by the Commissioner, including authority with respect to such property to:

(i) approve all offers to rent or purchase, except that offers to purchase properties acquired under sections 207, 213, 608, Title VII and VIII, or offers to purchase a group of five or more properties acquired under other sections of the act, shall be subject to the approval of the Commissioner and shall be accompanied by the recommendations of the Property Sales Committee.

(ii) employ brokers or managers,

(iii) make repairs, alterations and improvements,

(iv) execute such contracts, leases, assignments, and instruments as may be necessary in the rental or sale of such properties other than deeds or other documents in connection with the conveyance of title, deeds of release, assignments or satisfactions of mortgages, deeds of trust or other liens taken as security in connection therewith,

(v) authorize expenditures.

SEC. 14. *Delegations to committees.* (a) To a Committee to be known as the "Executive Board" consisting of the Commissioner as Chairman; the Deputy Commissioner as Vice-Chairman; Assistant to the Commissioner; the Assistant Commissioner, Field Operations; the Assistant Commissioner, Rental Housing; the Assistant Commissioner, Underwriting; the Assistant Commissioner, Title I; the Assistant Commissioner, Cooperative Housing; the Director, Administrative Services; the General Counsel; the Comptroller; the Director of the Budget Division; the Director of Personnel; the Director of Research and Statistics; the Director, Property Management; the Auditor; the Administrative Officer (Minority Group Housing); and the Zone Commissioners:

(1) To consider and discuss matters of general policy and to advise the Commissioner with respect to matters affecting the activities of the various divisions of the Administration.

The Executive Board or any part thereof shall meet upon call by the Chairman or Vice-Chairman, who will designate and excuse from attendance any member having no direct interest in the matters to be discussed at the meeting.

In the absence of the Chairman, the Vice-Chairman shall preside and in the absence of any member designated by the Chairman or Vice-Chairman as being interested in the matters to be discussed, the principal assistant of such absent member shall attend the meeting and serve in the place of such member.

(b) To a Committee to be known as the "Property Sales Committee", consisting of the Assistant Commissioner, Rental Housing, Chairman; Assistant Commissioner, Field Operations; Assistant Commissioner, Underwriting; Assistant Commissioner, Cooperative Housing; the Director, Property Management; the General Counsel; and the Zone Commissioner having jurisdiction:

(1) To consider and recommend to the Commissioner the approval or disapproval of any offer to purchase a property or mortgage acquired by the Commissioner under the provisions of sections 207, 213, 608, Title VII and Title VIII, and any offer to purchase a group of five or more properties acquired by the Commissioner in connection with any other Section of the Act, and to recommend to the Commissioner general policies to govern the sales and rentals of properties acquired by the Commissioner, and the sale and terms of sale of mortgages taken as security in connection with the sale of such acquired properties. A quorum shall consist of four members, one of which shall be the Legal Division representative. In the absence of any member, an alternate shall not be designated to attend except upon request of the Chairman.

(c) To a Committee to be known as the "Property Management Expenditures Committee", consisting of the following: the Director, Property Management, Chairman; the Assistant Commissioner, Rental Housing; Assistant Commissioner, Field Operations; Assistant Commissioner, Cooperative Housing; General Counsel; the Director, Administrative Services; Comptroller; and the Zone Commissioner having jurisdiction:

(1) To consider and determine whether or not an expenditure is "necessary to carry out the provisions" of Titles I, II, VI, VII and VIII as such term is used in section 1 of the National Housing Act, whenever such a determination is, in the opinion of the General Counsel, necessary to support the legal authority of the Commissioner to make such expenditure. A quorum shall consist of five members, one of which shall be the Legal Division representative. Minutes of each meeting which include a determination by the Committee shall be forwarded to the Commissioner prior to action being concluded in connection with such determination. In the absence of any member, the principal assistant of such absent member shall attend meetings and serve in place of such member. In the absence of the Chairman, the members of the Committee shall choose a temporary Chairman.

(d) To a committee to be known as the "Compliance Committee", consisting of the Assistant Commissioner, Title I; the General Counsel or his designee; the Director, Administrative Services; the Assistant Commissioner, Field Operations; and the Comptroller; any three of which shall constitute a quorum:

(1) To waive compliance with regulations heretofore or hereafter prescribed with respect to the interest and maturity of, and the terms, conditions, and restrictions under which loans, advances of credit, and purchases may be insured under section 2 and section 6 of Title I, if in the judgment of the Committee the enforcement of such regulations would impose an injustice upon an insured institution which has substantially complied with such regulations in good faith and refunded or credited any excess charge made, and if such waiver does not involve an increase of the obligation of the Commissioner beyond the obligation which would have been involved if the regulations had been fully complied with. In the absence of any member, the principal assistant of such absent member shall attend meetings and serve in place of such member.

(e) To a Committee to be known as the "Finance Committee", consisting of the Deputy Commissioner, Chairman; General Counsel; Assistant Commissioner, Field Operations; Assistant Commissioner, Underwriting; Assistant Commissioner, Rental Housing; Assistant Commissioner, Cooperative Housing; Assistant Commissioner, Title I; Auditor; Actuary; Comptroller; and the Director of Research and Statistics:

(1) To study all Federal Housing Administration fiscal matters and prepare recommendations to the Commissioner. Reports of these studies which include recommendations to the Commissioner on fiscal matters shall be prepared and signed by the Chairman of the Committee. Meetings shall be held upon call of the Chairman. In the absence of any member of the Committee an alternate shall not be designated to attend except upon request of the Chairman.

(f) To a Committee to be known as the "Actuarial Advisory Committee", consisting of the Actuary (Chairman); Comptroller; and the Director of Research and Statistics:

(1) To prepare recommendations to the Commissioner with respect to actuarial policy and to initiate basic actuarial studies on the operations of the various insurance funds. Reports on these studies which include recommendations to the Commissioner on actuarial policy shall be approved and signed by the appointed members of the Committee. Meetings shall be held upon call by the Chairman, but not less often than bi-monthly. In the absence of any member of the Committee an alternate designated by the member shall attend and participate in the work of the Committee.

(g) To a Committee to be known as the "Personnel Ceiling Committee," consisting of the Director of Personnel, Chairman; the Director of the Budget Division; and the Assistant to the Commissioner:

(1) To establish a personnel ceiling for each division in the Administration, and to review such ceilings each quarter immediately after receiving the agency personnel ceilings established by the Bureau of the Budget. In the absence of any member of the Committee, an alternate designated by the member shall attend and participate in the work of the Committee.

Office of the Administrator

[Temporary Order 4]

ORGANIZATION DESCRIPTION, INCLUDING DELEGATIONS OF FINAL AUTHORITY

ESTABLISHMENT OF TEMPORARY ORGANIZATION AND INTERIM PROCEDURES FOR HANDLING TRANSFERRED FUNCTIONS RELATING TO LOANS FOR FACTORY-BUILT AND PREFABRICATED HOUSING

(a) *Purpose.* Reorganization Plan No. 23 of 1950, 15 F. R. 4366 (1950), effective September 7, 1950, vests in the Housing and Home Finance Administrator, hereinafter referred to as the "Administrator", the following functions previously vested in the Reconstruction Finance Corporation, hereinafter referred to as the "Corporation":

(1) All functions of the Corporation under section 102 of the Housing Act of 1948, as amended;

(2) All other functions of the Corporation, under the Reconstruction Finance Corporation Act, as amended, or any other law, with respect to financing predominantly for the production, manufacture, distribution, sale, purchase, or erection of prefabricated houses, sections, or panels, or site improvements therefor;

(3) The function of the Corporation of making payments on its notes issued to the Secretary of the Treasury in an amount equal to the funds and the unpaid principal of, and accrued interest on, the loans and obligations payable to the Corporation which are transferred under the provisions of the Plan; and

(4) So much of any other function of the Corporation as is incidental to or necessary for the performance of the functions referred to in items (1) and (2), above, including the issuance of obligations to the Secretary of the Treasury, which may be purchased by the Secretary, under section 7 of the Reconstruction Finance Corporation Act, as amended: *Provided*, That the amount of such obligations issued by the Administrator and outstanding at any one time shall not exceed the sum of (a) the funds and the unpaid principal of, and accrued interest on, the loans and obligations transferred under the Plan and (b) the unexpended balances of authorizations and allocations transferred thereunder, less the amount of any funds transferred under the Plan for such unexpended balances from which sum shall be deducted the outstanding amount of any notes with respect to which the function of making payments is transferred under item (3) above.

The Plan transfers also to the Housing and Home Finance Agency (1) the assets, contracts, loans, liabilities, commitments, property, and records, of the Corporation relating to the functions transferred thereunder, (2) such of the personnel of the Corporation relating to said functions as the Director of the Bureau of the Budget shall determine, and (3) so much of the unexpended balances of authorizations, allocations, and funds, available or to be made available, of the Corporation relating to such functions (including authorizations and allocations for administrative expenses) as the Director of the Bureau of the Budget shall determine; and authorizes such further measures and dispositions as the Director of the Bureau of the Budget shall determine to be necessary to effectuate such transfers.

To assure uninterrupted and immediate performance of the functions which the plan transfers to and vests in the Housing and Home Finance Administrator this order is issued to establish a temporary organization to perform the said functions and to establish interim procedures to be followed in carrying out the programs transferred.

(b) *Establishment of temporary organization.* (1) All functions transferred by the Plan to the Housing and Home Finance Administrator, together with any assets, contracts, loans, liabilities, commitments, obligations, property, records, personnel, funds, authorizations and allocations transferred, shall be administered within the Housing and Home Finance Agency, Office of the Administrator, under the direction and supervision of the Administrator. Primary responsibility for administering such functions within the Office of the Administrator shall be vested in an organization unit in the Office of the Administrator, to be known as the Division of Loans for Prefabricated Housing, headed by a Director.

(2) All officers and employees transferred as a result of the Plan shall, until otherwise assigned, become officers or employees of the Office of the Administrator, Housing and Home Finance Agency.

(c) *Establishment of interim procedures.* (1) Until further notice, all payments due on loans or other obligations transferred to the Administrator pursuant to Reorganization Plan No. 23 of 1950 shall continue to be made to the Reconstruction Finance Corporation Loan Agency Offices or to other appropriate offices of the Corporation in accordance with current applicable instructions and procedures of the Corporation and with relevant provisions of the loan documents; and

(2) Pursuant to arrangements made with the Corporation, some outstanding loans transferred by the Plan will, temporarily and until further notice, con-

tinue to be administered, handled and serviced by the Corporation, including its Loan Agency Offices. Borrowers whose loans fall within this category will be notified to this effect by letter and later will be notified by letter when this arrangement has been discontinued. With respect to such loans, the Corporation, including its appropriate Agencies and officers, is hereby authorized to perform such functions on behalf of the Administrator, including functions referred to in paragraph (d) (1) hereof; and

(3) Except as provided in paragraph (c) (1) above, all communications (including applications for loans, inquiries concerning outstanding or proposed loans, and notices) concerning the programs (including outstanding loans and obligations) transferred to the Administrator pursuant to the Reorganization Plan shall be addressed to the Administrator at 1626 K Street, NW., Washington 25, D. C.

(d) *Limitations.* (1) With respect to any functions transferred to the Administrator under Reorganization Plan No. 23 of 1950, except as otherwise provided herein, no officer or employee of the Office of the Administrator, Housing and Home Finance Agency, other than the Administrator (or Acting Administrator) shall authorize loans or disbursements thereunder; make loan or contractual commitments; execute loan or other agreements, including Participation Agreements and amendatory, supplemental and superseding agreements; modify or extend a period of disbursement or make other modifications of loan or contractual arrangements; or consent to the release or substitution of collateral; and

(2) No officer or employee of the Division of Loans for Prefabricated Housing shall (A) make formal appointment of any person to any position within the Office of the Administrator; or (B) regroup, transfer or distribute any functions within the Office of the Administrator.

(Reorg. Plan No. 3 of 1947, 12 F. R. 4981 (1947); 62 Stat. 1268, 1283–85 (1948), as amended, 12 U. S. C. 1701c (Supp. 1949); 63 Stat. 413, 440 (1949), as amended, 12 U. S. C. 1701d–1 (Supp. 1949); Pub. Law 475, 81st Cong., 2d sess., section 503 (1) (Apr. 20, 1950); Reorg. Plan No. 23 of 1950, 15 F. R. 4366 (1950))

Effective the 7th day of September 1950.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–2450]

OHIO POWER CO. AND CENTRAL OHIO COAL CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 31st day of August A. D. 1950.

The Ohio Power Company ("Ohio"), an electric utility subsidiary of American Gas & Electric Company, a registered holding company, and Ohio's non-utility subsidiary, Central Ohio Coal Company ("Coal Company"), having filed a joint declaration, and an amendment thereto, with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"), and having designated Rules U-42 and U-43 promulgated under the act as applicable to the following proposed transactions:

From time to time prior to December 31, 1951, Coal Company proposes to acquire not to exceed 10,000 shares of its capital stock from Ohio at $100 per share and to promptly retire all shares so acquired. The authorized capital of Coal Company consists of 40,000 shares of $100 par value common stock of which 28,000 shares are outstanding and all of which are owned by Ohio having been acquired by that company at $100 per share for a total aggregate amount of $2,800,000.

In the declaration it is stated that Coal Company at the present time has some $300,000 cash on hand in excess of its required working capital, which funds have been accumulated as a result of depreciation charges on its equipment. Coal Company expects that such depreciation accruals will continue to accumulate excess cash as it is not now contemplated that the Coal Company will have to make any substantial purchases of additional equipment. Coal Company desires to reacquire shares of its capital stock from Ohio with such excess funds.

Declarants have requested that any order of this Commission authorizing the proposed transactions issue as soon as may be practicable and become effective upon issuance.

Said declaration having been filed on July 31, 1950, and the last amendment thereto having been filed on August 10, 1950, and notice of said joint declaration, as amended, having been given in the form and manner prescribed by Rule U-23 promulgated under said act, and the Commission not having received a request for a hearing with respect to said joint declaration within the time specified in said notice, or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the proposed transactions are in accordance with the applicable standards of the act and observing no basis for adverse findings, and the Commission deeming it appropriate that said joint declaration, as amended, be permitted to become effective without the imposition of terms and conditions other than those contained in Rule U-24:

It is ordered, Pursuant to said Rule U-23 and the applicable standards of said act that said joint declaration, as amended be, and the same hereby is, permitted to become effective forthwith,

subject to the terms and conditions contained in Rule U-24.

By the Commission.

SOUTHWESTERN DEVELOPMENT CO. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 31st day of August A. D. 1950.

In the matter of Southwestern Development Company, Amarillo Gas Company, Amarillo Oil Company, and West Texas Gas Company, File No. 70-2451.

Southwestern Development Company ("Southwestern"), a registered holding company, and three wholly-owned subsidiary companies of Southwestern, namely, Amarillo Gas Company ("Amarillo Gas"), Amarillo Oil Company ("Amarillo Oil"), and West Texas Gas Company ("West Texas"), having filed a joint application-declaration and amendments thereto with this Commission pursuant to sections 7, 10, and 12 of the Public Utility Holding Company Act of 1935 regarding the following transactions:

Southwestern proposes to borrow from Guaranty Trust Company of New York the principal amount of $2,750,000 and to issue and sell to Guaranty Trust Company of New York, as evidence of said loan, its five year 2½ percent promissory note due in yearly instalments to and including July 1, 1955, in the same principal amount.

Southwestern proposes to advance the total proceeds of said loan ($2,750,000) to Amarillo Gas, Amarillo Oil, and West Texas in the principal amounts of $400,000, $650,000, and $1,700,000 respectively. The said three subsidiary companies propose to issue and sell to Southwestern their five year 2½ percent unsecured promissory notes in the above respective amounts and Southwestern proposes to acquire said notes. The notes will provide for repayment in yearly instalments to and including July 1, 1955, and in addition, will provide for repayment in whole or in part prior to maturity of any of the principal instalments without premium.

The joint applicants-declarants state that proceeds of the proposed loans will be used by said subsidiary companies to provide necessary additional funds for enlargements and extensions of their natural gas facilities, to provide working capital, and for other corporate purposes.

Notice of the filing of this joint application-declaration having been duly given in the form and manner prescribed by Rule U-23 promulgated under the act, and the Commission not having received a request for hearing within the time specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The joint applicants-declarants having requested that the Commission's order with respect to said joint application-declaration issue at the earliest date possible and become effective upon issuance; and

The Commission finding with respect to said joint application-declaration, as amended, that the requirements of the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application-declaration, as amended, be granted and permitted to become effective forthwith;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the Public Utility Holding Company Act of 1935 that the said joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

LONG ISLAND LIGHTING CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its offices in the city of Washington, D. C., on the 31st day of August A. D. 1950.

Notice is hereby given that a declaration has been filed with this Commission by Long Island Lighting Company ("Long Island"), a registered holding company, pursuant to the Public Utility Holding Company Act of 1935. Declarant has designated section 6 (a) of the act and Rule U-50 promulgated thereunder as applicable to the proposed transaction.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Long Island proposes to issue and sell $20,000,000 principal amount of thirty year first mortgage Series H ____ percent bonds. Within two days after the receipt of a favorable order from this Commission, declarant will issue and sell $15,000,000 principal amount of such bonds and, within one year from the date of the signing of the agreement for the purchase of the bonds, declarant will issue and sell the remaining $5,000,000 principal amount of such bonds. In the event the $5,000,000 principal amount of such bonds is not issued and sold within six months from the date of the signing of the agreement for the purchase of the bonds, declarant proposes that it pay a standby fee of 1 percent per annum for such portion of the second six months' period as is used for standby purposes.

A plan of consolidation and recapitalization for declarant and its principal subsidiary companies, filed pursuant to section 11 (e) of the act, has been approved by this Commission, ordered enforced by the United States District Court for the Eastern District of New York, and affirmed by the United States Court of Appeals for the Second Circuit. A petition for certiorari to review such affirmance has been filed with the United States Supreme Court. The plan of consolidation will not be consummated prior to the disposition of the petition for certiorari.

Declarant proposes that the agreement for the purchase of the bonds will contain a provision permitting it to exchange, without the payment of any premium, the Series H bonds for an equal principal amount of new bonds to be issued by the company that will emerge when the consolidation is consummated. The new bonds, when and if issued, will have the same interest rate, redemption provisions, and maturity date as the Series H bonds, but will be issued under a new indenture, modern in form, terms, and provisions and which will replace the existing obsolete form of indenture.

The proceeds of the issue and sale will be used to pay short term promissory notes of the company and for reimbursement of the company's treasury for moneys used for the construction of additions to the company's properties.

Declarant proposes to sell the said first mortgage bonds privately to institutional investors. The company has requested that the Commission except the issue and sale of said bonds from the competitive bidding requirements of Rule U-50. The names of the proposed purchasers of the bonds, the interest rate, purchase price, and other provisions thereof, will be supplied by amendment.

Declarant states that the transaction is subject to the jurisdiction of the Public Service Commission of the State of New York.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said declaration, and that such declaration shall not be permitted to become effective except pursuant to further order of the Commission.

It is hereby ordered, Pursuant to sections 6 (a), 7 and 18 of the act that a hearing be held on said declaration on September 14, 1950, at 11:00 a. m., e. d. s. t., in the offices of the Securities and Exchange Commission, 425 Second Street N.W., Washington 25, D. C. On such date the hearing room clerk will advise as to the room in which such hearing will be held. Any person desiring to be heard in connection with this proceeding, or proposing to intervene herein, shall file with the Secretary of the Commission, on or before September 12, 1950, a written request relative thereto, as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of the said declaration, and that, on the basis thereof, the following matters and questions are presented for consideration without prejudice, however, to the presentation of additional matters and questions upon further examination:

1. Whether compliance by Long Island with the competitive bidding requirements of Rule U-50 is not necessary or appropriate under the circumstances; and, if an exception is appropriate, whether or not declarant has maintained competitive conditions with respect to the proposed issue and sale.

2. Whether the issue and sale by Long Island of the said first mortgage bonds comply with the applicable requirements of section 7 of the act.

3. What terms and conditions, if any, with respect to the proposed issue and sale of said first mortgage bonds shall be prescribed in the public interest or for the protection of investors or consumers.

4. Whether the fees, commission, and other expenses to be incurred are for necessary services and reasonable in amount.

It is further ordered, That at said hearing evidence shall be adduced with respect to the foregoing matters and questions.

By the Commission.

DELAWARE POWER & LIGHT CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 31st day of August A. D. 1950.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Delaware Power & Light Company ("Delaware"), a registered holding company and an electric utility company. Declarant has designated sections 6 (a) and 7 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than September 15, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 15, 1950, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Delaware proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $12,000,000 principal amount of its First Mortgage and Collateral Trust Bonds __ percent Series due 1980.

The proceeds from the sale of such securities will be used to finance a portion of the construction program of Delaware and its subsidiaries. It is estimated that the construction program for the years 1950 to 1951 inclusive will require expenditures of $38,000,000. Of such estimated requirements, approximately $4,750,000 has been obtained from the sale of 232,520 shares of common stock in April 1950, $19,000,000 will be obtained from treasury funds, retained earnings, and provisions for amortization and depreciation, and $12,000,000 will be obtained from the bonds now proposed to be sold. The company states that it has no present plans for the sale of any additional securities, if such may be required to complete its construction program.

QUEENS BOROUGH GAS AND ELECTRIC CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 31st day of August A. D. 1950.

Notice is hereby given that a declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Queens Borough Gas and Electric Company ("Queens"), a subsidiary of Long Island Lighting Company ("Long Island"), a registered holding company. Declarant has designated section 6 of the act as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than September 18, 1950, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after September 18, 1950, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Queens proposes to issue and sell for cash at principal amount to three commercial banks an aggregate of $2,000,000 principal amount of unsecured notes which will bear interest at the rate of 2½ percent per annum and will mature on December 15, 1950. The proceeds of the sale of the notes are to be used to repay all of the company's presently outstanding bank loans in the amount of $1,500,000 which mature September 26, 1950, and the balance of $500,000 will be employed to finance extensions and additions to the company's utility plant.

A plan of consolidation and recapitalization for Long Island, Queens, and Nassau & Suffolk Light Company ("Nassau"), a subsidiary of Queens, filed pursuant to section 11 (e) of the act, has been approved by this Commission, ordered enforced by the United States District Court for the Eastern District of New York, and affirmed by the United States Court of Appeals for the Second Circuit. A petition for certiorari to review such affirmance has been filed with the United States Supreme Court. Upon consolidation, the interest rate will be reduced to 2¼ percent per annum.

Declarant states that the transaction is not subject to the jurisdiction of any commission other than this Commission.

Declarant requests that the Commission enter its order as soon as practicable.

By the Commission.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PACKAGING AND LABELING OF PENICILLIN TABLETS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. and Sup., 357), the regulations for the certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq. and 1949 Supp.; 15 F. R. 4976, 5333) are amended as indicated below:

1. In § 146.27 *Penicillin tablets*, paragraph (b) *Packaging*, the last sentence is changed to read as follows: "If the penicillin tablets are freely soluble, each immediate container may be packaged in combination with one immediate container of a suitable and harmless aqueous vehicle with or without two or more suitable sulfonamides."

2. In § 146.27, subparagraph (1) of paragraph (c) *Labeling* is amended by deleting the "and" after the semicolon in subdivision (iv), by renumbering subdivision (v) as (vi), and by inserting the following new subdivision (v) between subdivision (iv) and renumbered subdivision (vi):

(v) If it is a packaged combination of penicillin tablets and a vehicle with or without sulfonamides, a statement giving the method of dissolving the penicillin; and

This order, which provides for the packaging of penicillin tablets with a vehicle containing two or more sulfonamides, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will be benefited by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to public interest, and I so find, since it was drawn in collaboration with interested members of the industry and since it would be against public interest to delay providing for the packaging of penicillin tablets with a vehicle containing two or more sulfonamides.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup., 357)

Dated: September 1, 1950.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5806]

PART 183—PRODUCTION OF DISTILLED SPIRITS

PART 184—PRODUCTION OF BRANDY

PART 185—WAREHOUSING OF DISTILLED SPIRITS

TAXPAYMENT BY STAMPS

1. Regulations 4 (26 CFR Part 183; 15 F. R. 5334), "Production of Distilled Spirits," are hereby amended by adding a new section, as follows:

SUBPART W—TAXPAYMENT, REMOVAL, AND TRANSFER OF DISTILLED SPIRITS FROM CISTERN ROOM

RELEASE OF SPIRITS FOR TRANSFER

§ 183.552a *Taxpayment by stamps.* If the spirits are to be removed by pipe line to a contiguous rectifying plant or tax-paid bottling house, distilled spirits stamps prescribed by Regulations 10 (26 CFR Part 185) for the taxpayment of distilled spirits bottled in bond may be used, in lieu of a certificate of taxpayment (Form 1595), to taxpay the spirits. When spirits are to be so taxpaid, the distiller, upon receipt of the copies of Forms 179 and 1520 from the storekeeper-gauger pursuant to § 183.546, will cancel the necessary number of stamps in the exact amount of the tax due by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the distillery, and the date of Form 179. The distiller will then attach the stamps to one copy of Form 179 and submit all copies of Forms 179 and 1520 to the Government officer. The Government officer will further cancel the stamps by signing them, followed by his title, and will execute a certificate of receipt on Form 179 (using the receipt of the collector, properly modified) evidencing the receipt and cancellation of stamps for the amount of tax due. The copy of Form 179 to which the stamps are attached and the accompanying copy of Form 1520 will be attached to the board on the weighing tank and remain thereon until the spirits covered by such stamps have been removed. The release of the spirits from the tank and the disposition of the forms will be in accordance with the provisions of § 183.552. The distiller shall keep a record on Form 1697, properly modified, of all distilled spirits stamps received and used at the distillery for taxpayment of spirits authorized by this section. The

form shall be disposed of in accordance with the instructions printed thereon.

(Interprets or applies 53 Stat. 298 as amended, 335 as amended, 374, 375, 398; 26 U. S. C. 2800, 2883, 3172, 3175, 3300)

2. Regulations 5 (26 CFR Part 184; 15 F. R. 5552), "Production of Brandy," are hereby amended by adding a new section, as follows:

SUBPART X—TAXPAYMENT, REMOVAL, AND TRANSFER OF BRANDY FROM DISTILLERY

RELEASE OF BRANDY FOR TRANSFER

§ 184.593a *Taxpayment by stamps.* If the brandy is to be removed by pipeline to a contiguous rectifying plant or tax-paid bottling house, distilled spirits stamps prescribed by Regulations 10 (26 CFR Part 185) for the taxpayment of distilled spirits bottled in bond may be used, in lieu of a certificate of taxpayment (Form 1595), to taxpay the spirits. When spirits are to be so taxpaid, the distiller, upon receipt of the copies of Forms 179 and 1520 from the storekeeper-gauger pursuant to § 184.587, will cancel the necessary number of stamps in the exact amount of the tax due by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the distillery, and the date of Form 179. The distiller will then attach the stamps to one copy of Form 179 and submit all copies of Forms 179 and 1520 to the Government officer. The Government officer will further cancel the stamps by signing them, followed by his title, and will execute a certificate of receipt on Form 179 (using the receipt of the collector, properly modified) evidencing the receipt and cancellation of stamps for the amount of tax due. The copy of Form 179 to which the stamps are attached and the accompanying copy of Form 1520 will be attached to the board on the weighing tank and remain thereon until the spirits covered by such stamps have been removed. The release of the spirits from the tank and the disposition of the forms will be in accordance with the provisions of § 184.593. The distiller shall keep a record on Form 1697, properly modified, of all distilled spirits stamps received and used at the distillery for taxpayment of brandy authorized by this section. The form shall be disposed of in accordance with the instructions printed thereon.

(Interprets or applies 53 Stat. 298, as amended, 335, as amended, 374, 375, 398; 26 U. S. C. 2800, 2883, 3172, 3175, 3300)

3. Regulations 10 (26 CFR Part 185; 15 F. R. 5233), "Warehousing of Distilled Spirits," are hereby amended by adding a new section, as follows:

SUBPART CC—TAXPAID WITHDRAWALS BY GAUGE TANK

§ 185.626a *Taxpayment by stamps.* If the spirits are to be removed by pipe line to a contiguous rectifying plant or tax-paid bottling house, or are to be drawn into packages to which wholesale liquor dealer's stamps will be affixed, distilled spirits stamps prescribed by § 185.672 may be used, in lieu of a certificate of taxpayment (Form 1595), to taxpay the spirits. When spirits are to be so taxpaid, the proprietor, upon receipt of the copies of Forms 179 and 1520 from the storekeeper-gauger pursuant to § 185.622, will cancel the necessary number of stamps in the exact amount of the tax due by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the warehouse, and the date of Form 179. The proprietor will then attach the stamps to one copy of Form 179 and submit all copies of Forms 179 and 1520 to the Government officer. The Government officer will further cancel the stamps by signing them, followed by his title, and will execute a certificate of receipt on Form 179 (using the receipt of the collector, properly modified) evidencing the receipt and cancellation of stamps for the amount of tax due. The copy of Form 179 to which the stamps are attached and the accompanying copy of Form 1520 will be attached to the board on the gauging tank and remain thereon until the spirits covered by such stamps have been removed. The release of the spirits from the tank and the disposition of the forms will be in accordance with the provisions of § 185.626. The proprietor shall keep a separate record on Form 1697, properly modified, of all distilled spirits stamps received and used at the warehouse for taxpayment of spirits authorized by this section. The form shall be disposed of in accordance with the instructions printed thereon.

(Interprets or applies 53 Stat. 298 as amended, 335 as amended, 374, 375, 398; 26 U. S. C. 2800, 2883, 3172, 3175, 3300)

4. The purpose of these amendments is to permit distilled spirits stamps (prescribed by § 185.672 of Regulations 10 (26 CFR Part 185; 15 F. R. 5233) for the taxpayment of distilled spirits bottled in bond) to be used for the taxpayment of distilled spirits transferred by pipeline from registered and fruit distilleries and internal revenue bonded warehouses to contiguous rectifying plants and tax-paid bottling houses, and for distilled spirits taxpaid in bulk gauging tanks in internal revenue bonded warehouses and drawn into packages to which wholesale liquor dealer's stamps are to be affixed. Such distilled spirits stamps may be used in lieu of a certificate of taxpayment, Form 1595, prescribed by existing regulations. Since the stamps can be purchased in advance, taxpayment can be accomplished immediately following the gauging of the spirits and therefore the delay incident to obtaining a certificate of taxpayment from the collector after the spirits are gauged, will be obviated.

5. It is found that compliance with the notice, public rule-making procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1000, et seq.) is unnecessary in connection with the issuance of these regulations for the reason that the changes made are of a liberalizing character.

6. This Treasury decision will be effective September 1, 1950, or upon the date of publication in the FEDERAL REGISTER, whichever date is later.

(53 Stat. 375, 467; 26 U. S. C. 3176, 3791)

Acting Commissioner of Internal Revenue.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 669]

ALASKA

WITHDRAWING PUBLIC LANDS FOR USE OF THE ALASKA RAILROAD FOR RECREATIONAL PURPOSES AND FOR THE PROTECTION OF HYDROELECTRIC POWER FACILITIES

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Subject to valid existing rights, the following-described lands in the Territory of Alaska are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Alaska Railroad, Department of the Interior, for recreational purposes and for the protection of hydroelectric power facilities:

TRACT NO. 1

Beginning at a point in the center line of the main track of the Alaska Railroad at Engineers' survey station 10961 at mileage 245.39, latitude 62°34'34" N., longitude 150°03'57" W., thence by metes and bounds:

S. 58° 54' E., 1 mile;
N. 31° 06' E., 6 miles.
N. 58° 54' W., 1.3 miles to a point on the mean high water line on the east bank of the Susitna River, crossing the main track of the Alaska Railroad at Engineers survey station 11296, mileage 251.74 (approximately).

Southerly to southwesterly approximately 6.5 miles following the mean high water line of the east bank of the Susitna River to a point N. 58° 54' W. from the point of beginning;

S. 58° 54' E., 0.02 mile to point of beginning.

The area described contains approximately 4,970 acres.

TRACT NO. 2

Beginning at a point on the mean high water line on the east bank of the Susitna River opposite mile post 248 in latitude 62°36'40" N., longitude 150°02'35" W., from which Engineers' survey station 11098/50 in the center line of the main track of the Alaska Railroad bears S. 81°54' E., 0.05 mile, thence by metes and bounds:

West, 3 miles;
North, 1.5 miles;
East, 4.33 miles to a point on the mean high water line on the east bank of the Susitna River;
Southwesterly, 2.20 miles following the mean high water line on the east bank of the Susitna River to point of beginning.

The area described contains approximately 3,520 acres, including land and water areas.

This order shall be subject to (1) Executive Order No. 2578 of April 4, 1917, reserving lands in connection with the construction and operation of railroad lines, and (2) Executive Order No. 4592 of February 21, 1927, in part reserving lands as a bird, fish and game refuge, so far as such orders affect any of the above-described lands.

OSCAR L. CHAPMAN,
Secretary of the Interior.

ALASKA

RESERVING LANDS FOR THE USE OF THE ALASKA RAILROAD

By virtue of the authority contained in the act of March 12, 1914, 38 Stat. 305, 307 (48 U. S. C., sec. 304) and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Subject to valid existing rights the following-described public lands are hereby withdrawn from sale or other disposal and reserved for the use of the Alaska Railroad, Department of the Interior, as a railroad reserve:

Those lands between the west right-of-way line of the Alaska Railroad (a line parallel to and 100 feet west of the center line) and the shore line of Knik Arm, and extending from the north boundary of Anchorage Townsite (U. S. Survey 409), withdrawn by Executive Order 1919½ of April 21, 1914 and Executive Order 2216 of June 22, 1915, southwesterly to the south boundary of the South Addition to Anchorage, (U. S. Survey 408), withdrawn by Executive Order 1919½ of April 21, 1914 and Executive Order 2242 of August 31, 1915, as such townsite and Addition are shown on a townsite plat approved October 1, 1917.

Production and Marketing Administration

[7 CFR, Part 35]

UNITED STATES STANDARDS FOR GRADES OF MILK FOR USE IN THE MANUFACTURE OF DAIRY PRODUCTS

EXTENSION OF TIME

Notice is hereby given of the extension until October 31, 1950, of the period of time within which written data, views, and arguments should be submitted by interested parties for consideration prior to the issuance of U. S. Standards for Grades of Milk for Use in the Manufacture of Dairy Products.

The proposed standards are set forth in the notice (F. R. Doc. 50-7204; 15 F. R. 5475) which was published in the FEDERAL REGISTER on August 17, 1950.

Done at Washington, D. C., this 5th day of September 1950.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 3]

[Docket Nos. 8736, 8975, 8976, 9175]

TELEVISION BROADCAST SERVICE

NOTICE OF FURTHER PROPOSED RULE MAKING

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and Engineering Standards Concerning the Television Broadcast Service, Docket No. 9175; utilization of frequencies in the band 470 to 890 mcs. for television broadcasting, Docket No. 8976; second notice of further proposed rule making.

1. Notice is hereby given of further proposed rule making in the above-entitled matters.

2. The Commission proposes to amend Part 3, Subpart E, of its rules and regulations (Rules Governing Television Broadcast Stations) and sections 1 and 2 of its Standards of Good Engineering Practice Concerning Television Broadcast Stations, in accordance with the "First Report of the Commission (Color Television Issues)" (FCC 50-1064) issued in these proceedings simultaneously with this notice.[1] Because of the size of the report, it is not attached to this notice, but copies of the report are available on request at the offices of the Commission. However, for information of interested persons, paragraph 151 of that report, relative to the adoption of bracket standards, is quoted, as follows:

151. In order to accomplish this purpose, the Commission simultaneously with the release of this Report is issuing a Notice of Proposed Rule Making providing for bracket standards in the present monochrome system. These bracket standards provide for a television composite video signal of substantially the type and proportion now employed in monochrome, but with the number of lines variable from 15,000 to 32,000 per second, and number of fields ranging from 50 to 150 per second.[2] Receivers built to incorporate such bracket standards would be equipped with a manual or automatic switch to select instantaneously between two sets of standards falling within the above ranges, one of which will be the present monochrome standards, and the other the CBS proposed standards. The receiver would produce pictures of equivalent size, geometrical linearity and brightness on each of the two positions of the switch. Interested persons are given until September 29, 1950, to submit comments. In addition, manufacturers are requested to submit a statement as to whether if the bracket standards are adopted they would, commencing with the effective date of the order adopting the bracket standards as final—30 days after publication of the order in the FEDERAL REGISTER—build all their television receivers so as to be capable of operating within the above brackets. If, on the basis of the comments submitted, the Commission is able to adopt the bracket standards as final without a hearing and if the Commission receives assurances from a sufficient number of manufacturers to insure that such bracket standards will be incorporated in the great majority of television receivers, then we will be in a position to postpone a decision in this proceeding since we will have the time to explore more fully the matters set forth above, confident in the knowledge that adequate provision has been made to prevent aggravation of the compatibility question. If the bracket standards cannot be made final without a hearing or if assurances are not received from a sufficient number of manufacturers concerning their plans for incorporating bracket standards in their receivers, the Commission will not feel free to postpone a decision, for every day that passes would aggravate the compatibility problem. In that event, a final decision would be issued adopting the CBS color standards.

[1] Available for inspection at the Commission's Office of Information.

[2] The notice provides that if the brackets are adopted, television broadcasters will continue, until further order of the Commission, to broadcast in accordance with present standards—15,750 lines per second and 60 fields per second.

3. The amendments proposed by this notice provide for bracket standards as follows:

a. The scanning line frequency shall be within the bracket 15,000 to 32,000 per second.[3]

b. The field frequency shall be within the bracket 50 to 150 per second.[3]

In other respects the transmission standards would not be changed by this notice.

4. On or before September 29, 1950, any interested person who is of the opinion that the amendments proposed in paragraph 3 of this notice should or should not be adopted, or should not be adopted in the form set forth, may file a written statement setting forth his comments or proposed amendments.

[3] Until further order, television stations shall utilize the following standards: the number of scanning lines shall be 15,750 per second, and the number of fields shall be 60 per second.

5. All manufacturers of television receivers are requested by the Commission to submit comments in accordance with paragraph 4 of this notice, and to include in such comments an affirmative statement as to whether such manufacturers would, commencing with the effective date of the adoption of bracket standards,[2] design and manufacture all their television receivers so that:

(a) Such receivers would be capable of operating within the brackets set forth in paragraph 3 of this notice;

(b) Such receivers would be equipped with a manual or automatic switch so as to be able to select one of the following two sets of standards:

(i) 15,750 lines per second and 60 fields per second.

(ii) 29,160 lines per second and 144 fields per second.

(c) Such receivers would be capable of producing monochrome pictures of equivalent size, geometric linearity and brightness on each of the above two sets of standards.

6. In accordance with § 1.754 of the Commission's rules and regulations, an original and 14 copies of such written statement shall be filed with the Commission.

7. Authority to issue the proposals herein is vested in the Commission by sections 4 (i), 301, 303 (a), (b), (c), (d), (e), (f), (g), (h) and (r) of the Communications Act of 1934, as amended.

Adopted: September 1, 1950.

Released: September 1, 1950.

NOTICE OF FURTHER PROPOSED RULE MAKING, AND NOTICE OF HEARING AND ORDER OF TESTIMONY

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and Engineering Standards Concerning the Television Broadcast Service, Docket No. 9175; utilization of frequencies in the band 470 to 890 mcs. for television broadcasting, Docket 8976; fifth notice of amendment of notice of further proposed rule making, and notice of hearing and order of testimony (general issues).

1. Testimony relating to the general issues listed in the appendix below will be heard by the Commission on October 2, 1950, at 10:00 a. m. in the U. S. Department of Commerce Auditorium, 14th Street between E Street and Constitution Avenue NW., Washington, D. C.

2. Parties listed in the appendix below will be permitted to testify if they so desire, in support of general comments contained in their filed statements. Parties who have filed statements herein which combine general proposals and proposals for the allocation of specific channels to specific communities will not be permitted to testify concerning such specific proposals at this time.[1] At a later date, the Commission will issue a Notice scheduling the hearing on such specific proposals and listing the parties entitled to participate therein. Parties listed in the appendix below who desire to rest on their written comments heretofore filed, and who do not desire to testify, are requested to so advise the Commission Counsel in advance of the commencement of this portion of the hearing. Accordingly, parties desiring to testify should take into account that all listed parties may not desire to be heard, and should plan their availability with this in mind.

3. Commencing on June 5, 1950, the Commission heard testimony with respect to paragraph 11 of the "Notice of Further Proposed Rule Making" (FCC 49-948) issued herein on July 11, 1949, concerning the following issue:

> To receive evidence and data with respect to the question whether there should be an allocation of the band 470-500 Mcs. to multichannel broadband common carrier mobile radio operation in lieu of television broadcasting.

Parties who presented testimony in support of the above allocation and who completed their direct cases were Bell Telephone Laboratories, Inc., United States Independent Telephone Association, National Mobile Radio System and Mutual Telephone Company. Parties who opposed said allocation were Television Broadcasters Association, Allen B. DuMont Laboratories, Inc., and Philco Corporation and Philco Television Broadcasting Corporation. The three opposing parties were permitted to make limited presentations and were granted leave to "make a complete showing on their affirmative case in connection with the further hearings to be had herein relating to the promulgation of television rules and standards and the allocation of television channels in the UHF band." The above ruling provided further that "At the time of such presentation, the common carrier parties who have appeared herein with respect to the issue now being tried will be afforded an opportunity to participate further in the consideration of this question through cross-examination of the witnesses presented in behalf of the broadcasters." Accordingly, the names of the above supporting parties have been listed in the appendix below as parties entitled to cross-examine TBA, DuMont and Philco and to offer rebuttal evidence.

4. Immediately upon the conclusion of the direct testimony of any of the parties listed in the appendix below, such parties will be subject to cross-examination by the Commission, its staff, the four supporting parties listed in paragraph 3 above, and all parties who have filed oppositions to the proposals of the party presenting its direct testimony.

5. Attention is again called to paragraph "15 (d)" of the Notice of Further Proposed Rule Making herein (FCC 49-948) which requires parties to have available at the hearing for distribution among the Commission and its staff 20 copies of all exhibits offered in evidence. In addition, participants should plan, if possible, to have available 100 additional copies of each exhibit for distribution to interested parties and persons attending the hearing.

6. The appendix below lists the issues to be considered by the Commission and the order in which the interested parties will testify. Parties who have duly filed statements or oppositions concerning any of the general issues and whose names do not appear on the appendix below should promptly communicate with Commission Counsel their desire to be listed.

7. Attention is called to the discussion with respect to horizontal interlace in the First Report of the Commission (Color Television Issues) (FCC 50-1064) issued this date.[3] The Commission is of the opinion that horizontal interlace gives promise of being an important development in television broadcasting. Interested persons are urged to conduct a series of field tests to determine whether horizontal interlace can be utilized in the present monochrome system. Any person desiring to offer any specific proposal for the use of horizontal interlace in the present monochrome system may present evidence on this phase of the proceedings at the conclusion of the other matters listed in the appendix below. Notice of intention to offer such evidence shall be given by October 31, 1950, unless a later date is prescribed by the Commission.

Adopted: September 1, 1950.

Released: September 1, 1950.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE,
Secretary.

[2] An order of the Commission adopting the bracket standards would become effective 30 days after its publication in the FEDERAL REGISTER.

[1] The overall allocation plan proposed by Allen B. DuMont Laboratories, Inc. will be considered at the inception of the subsequent portion of the hearing relating to allocation of specific channels to specific communities. Parties who have filed comments with respect to the specific allocations proposed by DuMont will be heard at that time.

CLASSIFICATION ORDER

AUGUST 31, 1950.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 319 dated July 19, 1948 (43 CFR 50.451 (b) (3), 13 F. R. 4278), I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. Section 682a), as hereinafter indicated, the following described lands in the Phoenix, Arizona Land District, embracing 210 acres,

ARIZONA SMALL TRACT CLASSIFICATION NO. 22

For lease and sale for all purposes authorized by the act except business sites:

T. 7 N., R. 2 E., G. & S. R. B. & M., Arizona, Sec. 34, E½W½SE¼, SE¼NE¼, E½SE¼.

For lease and sale for business or combination home and business sites:

T. 7 N., R. 2 E., G. & S. R. B. & M., Arizona, Sec. 34, W½W½SE¼, E½E½SE¼SW¼.

2. These lands are situated 35 miles north of Phoenix, Arizona, via U. S. Highway No. 69, commonly known as the Black Canyon Road. The areas classified are also traversed by dirt roads and trails diverging from the highway at different points. A country store, filling station and cafe known as New River are located in the NE¼SW¼ of Section 34, a short distance north and west of the lands described above. New River is a Greyhound bus station on the new route over U. S. Highway 69. The altitude of the lands varies from 1,700 to 1,800 feet. Precipitation is approximately 8 inches per annum, and temperatures range from a low of 20° F. to a high of 115° F. The topography is rolling to fairly rough and the soil is a red sandy clay interspersed with considerable rock. Vegetation consists of mesquite, creosote bush, palo verde, and various grasses and weeds in season. Potable water in quantities adequate for domestic use may be found at depths varying from 12 to 100 feet, depending upon the contour of the lands. An electric power transmission line traverses lands near the area classified and electric power may be made available from this source. Settlers must provide their own fuel and construction of outdoor sanitary facilities will be necessary. Business, educational and religious facilities are available at Glendale 25 miles to the south, and at Phoenix 35 miles to the south. School busses operate out of New River into Glendale.

3. As to applications regularly filed prior to 8:30 a. m. Mountain Standard Time on August 31, 1950, and which are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

4. As to the land not covered by applications referred to in paragraph 3, this order shall not become effective to permit leasing under the Small Tract Act of June 1, 1938, as amended, until 8:30 a. m. on November 2, 1950. At that time such lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application as follows:

(a) Ninety-one day preference period for qualified veterans of World War II from 8:30 a. m. on November 2, 1950, to close of business on January 31, 1951.

(b) Advance period for veterans' simultaneous filings from 8:30 a. m. on August 31, 1950 to 8:30 a. m. on November 2, 1950.

5. Any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally commencing at 8:30 a. m. on February 1, 1951.

(a) Advance period for simultaneous non-preference right filings from 8:30 a. m. August 31, 1950, to 8:30 a. m. on February 1, 1951.

6. Applications filed within the periods mentioned in paragraphs 4 (b) and 5 (a) above will be treated as simultaneously filed.

7. A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based, and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

8. All of the land will be leased in tracts of approximately 5 acres, each being approximately 330 feet by 660 feet; and the longer dimensions of the tracts may extend either north and south or east and west, provided the tract conforms to or is made to conform to the area and dimensions specified above, and, provided the tract is not described in such a manner as to break up a ten-acre rectangular subdivision. This proviso applies to all leases issued, preference and non-preference alike. The longitudinal directions of tracts described in applications filed prior to the date of this order shall not be disturbed unless they have been filed in such a manner as to violate the rectangular subdivision rule.

9. Leases will be for a period of 5 years.

(a) Where applications are filed for homesites only, the annual rental of $5.00 will be payable for the entire lease period in advance of the issuance of the lease.

(b) Where applications are filed for business sites only, the minimum rental of $20.00 per annum shall be charged, payable for the first year in advance of the issuance of the lease, and payable for all succeeding years not later than 30 days in advance of the expiration of the preceding lease year, or the entire rental for the 5-year lease period may be paid in advance at the option of the lessee.

(c) Where applications are filed for combination home and business sites the rental for homesite purposes shall be $5.00 per annum payable for the entire lease period in advance, and $20.00 additional per annum for the privilege of using the land for business purposes, the rental for business purposes to be paid on the same terms and conditions as set forth in 10 (b).

(d) In any and all cases where applications are filed and leases issued for business sites only, the $20.00 business rental shall be the minimum rental for that purpose, and the lessee shall be obligated to pay additional rental at the rate fixed by the schedule of rentals in effect at the date of the approval of his lease, if his gross receipts from the business conducted on the leased tract shall exceed $2,000 per annum. In any and all cases where applications are filed and leases issued for combination home and business sites, the minimum rental shall be $25.00 per annum, i. e. $5.00 for the homesite and $20.00 for the business site.

(e) Such lessees or their authorized representatives shall, within 60 days after the expiration of each lease year, submit to the Manager of the Arizona Land and Survey Office a statement of the amount of his gross receipts for the preceding year. Authorized representatives of the Department of the Interior shall, at all times within customary business hours, have the right to inspect and examine the lessee's accounts and to inspect the premises leased.

10. Leases will contain an option-to-purchase clause at appraised values as follows:

For those tracts lying in the SE¼NE¼ and E½SE¼ of the Section, $50.00 per 5-acre tract.

For those tracts lying in the E½W½-SE¼ of the Section, $75.00 per 5-acre tract.

For those tracts lying in the W½W½-SE¼ of the Section, $100.00 per 5-acre tract.

For those tracts lying in the E½E½-SE¼SW¼ of the Section, $150.00 per 5-acre tract.

(a) Applications for purchase may be filed at or after the expiration of one year from the date the lease issued, provided that improvements appropriate to the purpose for which the lease is issued, and which meet with the approval of the Regional Administrator shall have been constructed upon the lands prior to filing of the application for purchase.

(b) Leases issued under the terms of this order shall not be subject to assignment unless and until improvements as mentioned above in (a) shall have been completed.

(c) Leases for lands upon which the improvements above mentioned shall not have been constructed at or before the expiration thereof shall not be renewed.

11. Lessees and/or their successors in interest shall comply with all Federal, State, County and municipal laws and ordinances, especially those governing health and sanitation, and failure or refusal to do so may be cause for cancellation of the lease in the discretion of the authorized officer of the Bureau of Land Management.

12. Rights-of-way for road and street purposes 33 feet in width are reserved from each tract and said 33 foot strip may be taken for street, road or alley from any edge of any of said tracts, but not more than one such strip for right-of-way shall be taken from any tract without the consent of the lessee first had and obtained, or unless such right-of-way shall be condemned by proper eminent domain proceedings in a court of competent jurisdiction. The said rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to issuance of patent. If not so located, they may be subject to location after patent is issued. All rights-of-way herein mentioned and reserved may be utilized by the Federal Government, or the State, County or municipality in which the tract is situated, or by any agency thereof.

13. All structures with the exception of fences and like movable installations shall be set back from the exterior boundaries of the tract not less than 33 feet, and if there is a road or street in existence, or an identified and definitely established right-of-way for such road or street, then and in that event, all permanent structures will be set back not less than 33 feet from the outside line of the said established road, street, or definitely identified right-of-way.

14. Survey of individual tracts shall be at the expense of the applicant.

15. All leases and patents issued shall contain a reservation to the United States of all fissionable material sources, and all minerals, together with the right to prospect for, mine and remove the same under applicable laws and regulations.

16. All inquiries regarding those lands shall be addressed to the Manager, United States Land and Survey Office, 100 U. S. Courthouse, Phoenix, Arizona.

E. R. SMITH,
Regional Administrator.

IDAHO

SMALL TRACT CLASSIFICATION ORDER NO. 9

AUGUST 29, 1950.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 319, dated July 19, 1948 (43 CFR 50.451 (b) (3), 13 F. R. 4278), I hereby classify, as hereinafter indicated, under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, the following described public lands in the Boise, Idaho land district, embracing 28 acres more or less:

IDAHO SMALL TRACT CLASSIFICATION NO. 9

For lease only for cabin, business and recreation sites.

BOISE MERIDIAN

T. 2 S., R. 17 E.,
Sec. 1: All of lot 3, SE¼NW¼, E½SW¼ situated above the flow line of Magic Reservoir, in accordance with the Cadastral Engineer's field sketch made under Group 332, Idaho, of July 27, 1949.

The land in SE¼NW¼ will be leased in tracts approximating 41.25 x 82.5 feet, the longer dimension extending east and west. The land in E½SW¼ will be leased in tracts approximating 165 x 165 feet. The tracts applied for must conform in description with the rectangular system of surveys as one compact unit, i. e., N½ or S½ of a quarter-quarter-quarter-quarter-quarter section when in the SE¼NW¼ and the quarter-quarter-quarter-quarter-quarter section when in the E½SW¼.

Certain of the tracts will be reserved from lease application for use by the public in general or for special purposes.

The tracts are situated along or adjacent to the west shore line of Magic Reservoir. Shoshone, Idaho, the nearest town, is distant approximately 28 miles; 18 miles of which is paved, 9 miles semi-improved and one mile of dirt road. The topography is slightly rolling and slopes are normal to fairly steep down to the flow line of Magic Reservoir.

2. Pursuant to § 257.9 of the Code of Federal Regulations (43 CFR Part 257), a preference right to a lease is accorded to those applicants whose applications (a) were regularly filed, under the regulations issued pursuant to the act, prior to 9:00 a. m. on July 1, 1950 and (b) are for the type of site for which the land subject thereunder has been classified. As to such applications, this order shall become effective upon the date it is signed.

3. As to the land not covered by applications referred to in paragraph 2, this order shall not otherwise become effective to change the status of the lands until 10:00 a. m. on the 35th day after the date of this order. At that time the land shall, subject to valid existing rights, become subject to application as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the lands affected by this order shall be subject to application by qualified veterans of World War II. All applications filed under this paragraph either at or before 10:00 a. m., on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m., on the 35th day, shall be considered in the order of filing.

(b) Commencing at 10:00 a. m., on the 126th day after the date of this order, any lands remaining shall become subject to application under the Small Tract Act by the public generally. All such applications filed either at or before 10:00 a. m., on the 126th day, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostat, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations or constitutes evidence of any facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

4. Leases for recreation and cabin sites will be for a period of five years at an annual rental of $7.50 payable for the entire lease period in advance of issuance of the lease. Rental for a business site lease is based on gross income with a minimum of $20 annual rental.

5. The tracts will be subject to rights-of-way on or near the edges thereof for road purposes and public utilities. Such rights-of-way strip 30 feet in width is reserved from those tracts abutting the west boundary of the E½SW¼. Such other right-of-way strips not exceeding 20 feet in width may be reserved at the discretion of the authorized officer of the Bureau of Land Management. Such rights-of-way may be utilized by the Federal Government, or by the State, county or municipality in which the tract is situated, or by any agency thereof. Tracts are also subject to existing rights-of-way for pipe lines and other utilities.

6. All inquiries relating to these lands should be addressed to the Manager, Land and Survey Office, Federal Building, Boise, Idaho.

NEW MEXICO

CLASSIFICATION ORDER, AMDT. NO. 2

AUGUST 31, 1950.

1. Pursuant to authority delegated to me by the Director, Bureau of Land Management, by Order No. 319, dated July 19, 1948 (43 CFR, 50.451 (b) (3), 13 F. R. 4278), and in accordance with the provisions of the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended, I hereby amend the above captioned order originally approved as of March 22, 1944, as amended May 12, 1949. The original and first amended orders excepted from classification Tracts Nos. 12, 23 and 24 in that part of the NE¼ of Section 19, T. 1 N., R. 12 W., N. M. P. M., in Catron County, lying north of and adjacent to the right-of-way of U. S. Highway No. 60, as shown on the plat of survey approved February 7, 1944, and now on file in the Land and Survey Office, Santa Fe, New Mexico, and reserved said tracts for community use. It appears that the tracts in question are not needed or used for commu-

nity purposes, and are more suitable for business and residence purposes, and are in demand for such purposes; now, therefore:

I hereby amend the original and amended orders above mentioned and classify, as hereinafter indicated, the following described public lands in the New Mexico Land District, comprising 7.29 acres,

SMALL TRACT CLASSIFICATION ORDER NO. 36

NEW MEXICO NO. 3, AMENDMENT NO. 2

For lease and sale for home and business sites, or combination home and business sites:

Tracts 12, 23 and 24 as shown on the above-mentioned plat on file in the Land and Survey Office.

2. As to applications regularly filed prior to 8:00 a. m. on August 23, 1950, and which are for the type of site for which the lands are classified, this order shall become effective upon the date it is signed.

3. As to the land not covered by applications referred to in paragraph 2, this order shall not become effective to permit the leasing of the lands under the small tract act until 10:00 a. m. on November 2, 1950. At that time such lands shall, subject to valid existing rights, and the provisions of existing withdrawals, become subject to application as follows:

(a) Ninety-one day preference period for qualified veterans of World War II from 10:00 a. m. on November 2, 1950, to close of business on January 31, 1951.

(b) Advance period for veterans' simultaneous filings extends from 8:00 a. m. on August 23, 1950, to close of business on January 31, 1951.

4. Any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally commencing at 10:00 a. m. on February 1, 1951.

(a) Advance period for simultaneous nonpreference right filings from 8:00 a. m. August 23, 1950, to close of business on February 1, 1951.

5. Applications filed within the periods mentioned in paragraphs 3 (b) and 4 (a) shall be treated as simultaneously filed.

6. Leases, either preference or nonpreference will be issued for the tracts only in accordance with the survey plat on file in the Land and Survey Office.

7. Rentals charged for said leases shall be in accordance with the rentals prescribed in the first amendment to this order, dated May 12, 1949.

8. Leases will contain an option to purchase clause at appraised values as follows:

Tract No.	Acreage	Value
12	2.31	$480
23	2.49	150
24	2.49	150

9. All the tracts described herein shall be subject to the right-of-way as shown by the approved survey plat.

10. As to all other matters concerning these 3 tracts, the terms and conditions of the original order, as amended May 12, 1949, shall be and remain in full force and effect.

E. R. SMITH,
Regional Administrator.

Sec. 36, NE¼, NE¼NW¼, N½SE¼, SE¼SE¼.

The areas described aggregate 8,959.27 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

WILLIAM ZIMMERMAN, JR.,
Assistant Director.

NOTICE FOR FILING OBJECTIONS TO ORDER WITHDRAWING PUBLIC LANDS FOR USE OF ALASKA RAILROAD FOR RECREATIONAL PURPOSES AND FOR PROTECTION OF HYDROELECTRIC POWER FACILITIES[1]

For a period of 60 days from the date of publication of the above entitled order, persons having cause to object to the terms thereof may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order 24]

SCOBEY FIREPROOF STORAGE CO.

APPROVAL OF APPLICATION TO REVISE AND RELOCATE BOUNDARY, CHANGE DESIGN OF MAIN WAREHOUSE, AND RETAIN EXISTING TEMPORARY STRUCTURES IN FOREIGN TRADE ZONE

In the matter of the application of the Scobey Fireproof Storage Company to revise and relocate boundary, change design of main warehouse, and retain existing temporary structures in Foreign-Trade Zone No. 6, Municipal Airport, San Antonio, Texas.

Pursuant to authority contained in the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998–1003; 19 U. S. C. 81a–81u), the Foreign-Trade Zones Board has adopted the following order which is promulgated for the information and guidance of all concerned:

Under date of June 2, 1950, the Scobey Fireproof Storage Company duly filed with this Board its application to revise and relocate boundaries, change design of main warehouse, and to retain certain existing temporary structures in Foreign-Trade Zone No. 6, Municipal Airport, San Antonio, Texas.

Accordingly, after full consideration and a finding that the proposals are in the public interest, it is hereby ordered as follows:

1. Permission is granted to revise and relocate the boundaries, change design of main warehouse, and to retain certain existing temporary structures within Foreign-Trade Zone No. 6, Municipal Airport, San Antonio, Texas.

2. The Secretary of Commerce as Chairman and Executive Officer of the Board is authorized to amend applicant's grant to establish, operate, and maintain a foreign-trade zone at Municipal Airport, San Antonio, Texas (Order No. 21; 14 F. R. 7363; Dec. 8, 1949), to conform with Revised Exhibits Nos. 1, 3, and 6 (revised June 1, 1950) and filed with the Board June 19, 1950, and Revised Exhibit No. 10 (Map D, undated), filed with the Board June 12, 1950.

It is found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. No. 404, 79th Cong.) is unnecessary in connection with the issuance of this order because its application is restricted to one foreign-trade zone, and is of a nature that it imposes no burden on parties of interest. The effective date of this order is, therefore, upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 31st day of August 1950.

[SEAL] CHARLES SAWYER,
Secretary of Commerce, Chairman, Foreign-Trade Zones Board.

Attest:

THOS. E. LYONS,
Executive Secretary,
Foreign-Trade Zones Board.

[Order 25]

BOARD OF STATE HARBOR COMMISSIONERS FOR PORT OF SAN FRANCISCO, CALIF.

APPROVAL OF APPLICATION TO EXPAND AREA OF FOREIGN-TRADE ZONE

In the matter of the application of the Board of State Harbor Commissioners for the Port of San Francisco to expand the area of Foreign-Trade Zone No. 3 to include all of Pier 45 (the Embarcadero) and adjacent slips.

Pursuant to authority contained in the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998–1003; 19 U. S. C. 81a–81u), the Foreign-Trade Zones Board has adopted the following order which is promulgated for the information and guidance of all concerned:

Under date of April 24, 1950, the Board of State Harbor Commissioners for the Port of San Francisco duly filed with this Board its application to expand the area of Foreign-Trade Zone No. 3 to include all the area of Pier 45 (the Embarcadero) and the structures thereon and a portion of adjacent slips.

Accordingly, after full consideration and a finding that the proposal is in the public interest, it is hereby ordered as follows:

1. Permission is granted to expand the area of Foreign-Trade Zone No. 3 at the Port of San Francisco, California, to include all the area of Pier 45 (the Embarcadero) and the structures thereon and a portion of adjacent slips.

2. The Secretary of Commerce as Chairman and Executive Officer of the Board is authorized to amend applicant's grant to establish, operate, and maintain a foreign-trade zone at San Francisco, California (Order No. 16; 13 F. R. 1459; March 19, 1948), to conform with Revised Exhibits Nos. 1, 6, 8, 10 (Expansion, submitted April, 1950), and 13, all filed with the Board May 2, 1950.

It is found that compliance with the notice, public rule making procedure, and effective date requirements of the Administration Procedure Act (Pub. No. 404, 79th Cong.) is unnecessary in connection with the issuance of this order because its application is restricted to one foreign-trade zone, and is of a nature that it imposes no burden on parties of interest. The effective date of this order is, therefore, upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 31st day of August 1950.

[SEAL] CHARLES SAWYER,
Secretary of Commerce, Chairman, Foreign-Trade Zones Board.

Attest:

THOS. E. LYONS,
Executive Secretary,
Foreign-Trade Zones Board.

FEDERAL POWER COMMISSION

[Docket No. G-1467]

CITY OF CARLISLE, KY.

NOTICE OF APPLICATION

SEPTEMBER 1, 1950.

Take notice that the City of Carlisle, Kentucky (Applicant), a municipal corporation of the State of Kentucky, filed on August 21, 1950, an application pursuant to section 7 (a) of the Natural Gas Act, for an order directing Central Kentucky Natural Gas Company, a Kentucky corporation with its principal place of business at Charleston, West Virginia,

a natural-gas company, to establish physical connection of its transportation facilities with the facilities proposed to be constructed and operated by Applicant, and to sell natural gas to Applicant for resale in the City of Carlisle, Kentucky, and environs.

Applicant proposes to construct and operate approximately 7000 feet of 3-inch transmission line and a gas distribution system in the City of Carlisle to supply approximately 450 consumers natural gas in the maximum and minimum volumes for 1951–55 inclusive as follows:

Year	Maximum day demand	Minimum day demand
	Mcf.	*Mcf.*
1951	165	20
1952	255	45
1953	350	70
1954	445	90
1955	465	100

The application recites that the volumes (Mcf) to be required annually for all classes of consumers (no industrial) are estimated to be: 1st year—18,200; 2d year—28,200; 3d year—38,700; 4th year—49,100; 5th year—50,550; that on the basis of estimated sales, income, and operating costs, operating profits available for bond liquidation will be as follows:

	1st year	2d year	3d year	4th year	5th year
Bond service	$5,540	$9,013	$14,036	$18,708	$19,780

The estimated over-all cost of the system proposed by Applicant is $80,000, inclusive of the cost of regulator stations, customers meters and regulators, 6,000 feet of 3-inch transmission line and $8,000 of engineering and bond expense; the cost of which will be financed from the sale of $80,000 of revenue bonds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 20th day of September 1950. The application is on file with the Commission for public inspection.

[Docket No. G–1466]

WALNUT GAS & ELECTRIC CO.

NOTICE OF APPLICATION

SEPTEMBER 1, 1950.

Take notice that on August 17, 1950, Clell L. McClung and Marguerite L. McClung, doing business under the name of The Walnut Gas & Electric Company with their principal place of business at Walnut, Kansas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described natural-gas facilities:

A 3-inch natural-gas transmission pipeline extending from the town of Walnut, Kansas, to a point of connection on an 8-inch gas pipeline of Cities Service Gas Company.

The application recites the proposed facility will be used to transport natural gas from the point of connection with Cities Service Gas Company to the town of Walnut, Kansas, for resale to approximately 240 to 275 customers of Applicant; that the requirements of said customers have heretofore been served from approximately 70 local gas wells which are depleting so rapidly that by the winter of 1950–1951 reliance will be almost entirely on gas purchased from Cities Service Gas Company.

The estimated total over-all capital cost of the facility is $35,000, which amount Applicant proposes to borrow on a participating loan from the Farmers State Bank of Walnut, Kansas, and the Reconstruction Finance Corporation, at an average interest rate of 4.7 percent.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 20th day of September 1950. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

LEGEIS CO.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of September 1950.

In the matter of Mortimer M. Siegel, doing business as LeGeis Company, 32 Broadway, New York City, N. Y.

I. The Commission's public official files disclose that Mortimer M. Siegel, doing business as LeGeis Company, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948 or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A–5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A–5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A–5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 25th day of September 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before September 18, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a

written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to September 25, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

C. H. LOUGHMAN

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of September 1950.

In the matter of Charles H. Loughman, doing business as C. H. Loughman, 15 Broad Street, New York City, N. Y.

I. The Commission's public official files disclose that Charles H. Loughman, doing business as C. H. Loughman, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered,* That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 25th day of September 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before September 18, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to September 25, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of September 1950.

In the matter of Hubert H. Hevey, 116 Arlington Avenue, Syracuse, N. Y.

I. The Commission's public official files disclose that Hubert H. Hevey, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948 or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered,* That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 25th day of September 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before September 18, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to September 25, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or

JOHN A. HASTINGS

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of September 1950.

In the matter of John A. Hastings, 420 Lexington Avenue, New York 17, N. Y.

I. The Commission's public official files disclose that John A. Hastings, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 25th day of September 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before September 18, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to September 25, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

D. H. DUNN CO.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 1st day of September 1950.

In the matter of Davis H. Dunn, doing business as D. H. Dunn Company, 99 Woodcrest Avenue, White Plains, New York.

I. The Commission's public official files disclose that Davis H. Dunn, doing business as D. H. Dunn Company, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948 or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in Paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in Paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 25th day of September 1950 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before September 18, 1950. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to September 25, 1950.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

NORTH AMERICAN INVESTMENT CORP. ET AL.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 1st day of September A. D., 1950.

In the matter of North American Investment Corporation, Commonwealth Investment Company, and North American Securities Company; File No. 812-681.

Notice is hereby given that North American Investment Corporation (Investment), a registered closed-end management investment company, Commonwealth Investment Company (Commonwealth), a registered open-end management investment company, and North American Securities Company (Securities), a wholly-owned subsidiary of Investment and the principal underwriter of Commonwealth, have filed a joint application under section 6 (c) of the Investment Company Act of 1940 for an order of the Commission granting an exemption from the provisions of section 15 (a) of the act to the extent that Securities may be permitted to serve until February 1951 as the investment adviser of Investment and Commonwealth, respectively, under written contracts which Securities proposes to enter into with each of these registered investment companies without such contracts having been approved by the stockholders of the registered investment companies.

The application discloses that Investment was organized in 1925 and has been engaged continuously since that time in the business of investing and reinvesting the funds received from the original issue of its securities. It has maintained a trained staff to manage its portfolio which has a value at the present time of approximately $5,500,000. Since 1932 it has furnished investment advice to and managed the portfolio of Commonwealth pursuant to a written contract providing for a fee payable to Investment of ⅛ of 1 percent quarterly of the net asset value of Commonwealth.

In the past Investment has qualified as a regulated investment company under Section 361 of the Internal Revenue Code, more than 90 percent of its gross income being derived from dividends, interest and capital gains and less than 10 percent of its gross income being derived from its chief other source of income, namely, from payments under the contract with Commonwealth. However, due to the rapid and substantial current growth of Commonwealth which now has net assets approximating $19,000,000, it appears that the payments to Investment under the contract with Commonwealth will exceed 10 percent of its gross income in the current year and cause Investment to lose its status as a regulated investment company. In order to prevent Investment from losing such status it is proposed that Investment will cease carrying on the business of investment management and that Securities, an ordinary business corporation wholly engaged in related activities, will undertake the investment management activities heretofore performed by Investment. Accordingly, it is proposed that: (1) The trained staff of Investment will leave Investment's employ and will be employed and paid solely by Securities which will undertake all of the investment advisory functions, together with expenses incident thereto, previously performed and carried on by Investment, (2) the existing investment advisory contract between Investment and Commonwealth will be terminated and Commonwealth and Securities will enter into an investment advisory contract providing for compensation to Securities identical with that contained in the existing contract between Commonwealth and Investment, and (3) Securities will enter into a contract with its parent, Investment, to provide Investment with similar investment advisory services for a fee identical with that to be contained in the contract between Securities and Commonwealth.

Investment is of the opinion that the delay entailed in calling a special meeting of stockholders to approve the investment advisory contracts will result in the loss of Investment's status as a regulated investment company and that the postponement of shareholder approval of the contracts until the regular annual shareholders' meetings of Investment and Commonwealth in February 1951 will result in a saving of considerable expense.

For a more detailed statement of the matters of fact and law asserted all persons are referred to said application which is on file at the office of the Commission in Washington, D. C.

Notice is further given that an order granting the application may be issued, in whole or in part and upon such conditions as the Commission may deem necessary and appropriate, at any time on or after September 18, 1950, unless prior thereto a hearing upon the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may not later than September 15, 1950, at 5:30 p. m., e. d. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

Secretary.

VOLUME 15 NUMBER 175

Washington, Saturday, September 9, 1950

TITLE 3—THE PRESIDENT

PROCLAMATION 2901

TERMINATION OF MEXICAN TRADE AGREEMENT PROCLAMATION AND SUPPLEMENTING PROCLAMATIONS NO. 2769 [1] OF JANUARY 30, 1948, NO. 2764 [2] OF JANUARY 1, 1948, AND NO. 2761A [3] OF DECEMBER 16, 1947.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

1. WHEREAS, pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 of the Tariff Act of 1930, as amended by section 1 of the act of June 12, 1934, by the joint resolution approved June 7, 1943, and by sections 2 and 3 of the act of July 5, 1945 (ch. 474, 48 Stat. 943; ch. 118, 57 Stat. 125; ch. 269, 59 Stat. 410 and 411), the period for the exercise of the authority under the said section 350 having been extended by section 1 of the said act of July 5, 1945 (ch. 269, 59 Stat. 410), until the expiration of three years from June 12, 1945, on October 30, 1947, I entered into a trade agreement with the Governments of the Commonwealth of Australia, the Kingdom of Belgium, the United States of Brazil, Burma, Canada, Ceylon, the Republic of Chile, the Republic of China, the Republic of Cuba, the Czechoslovak Republic, the French Republic, India, Lebanon, the Grand Duchy of Luxemburg, the Kingdom of the Netherlands, New Zealand, the Kingdom of Norway, Pakistan, Southern Rhodesia, Syria, the Union of South Africa, and the United Kingdom of Great Britain and Northern Ireland, which trade agreement consists of the General Agreement on Tariffs and Trade and the related Protocol of Provisional Application thereof, together with the Final Act Adopted at the Conclusion of the Second Session of the Preparatory Committee of the United Nations Conference on Trade and Employment which authenticated the texts of the said General Agreement and the said Protocol;

2. WHEREAS by Proclamation No. 2761A of December 16, 1947 (61 Stat. 1103), I proclaimed such modifications of existing duties and other import restrictions of the United States of America and such continuance of existing customs or excise treatment of articles imported into the United States of America as were then found to be required or appropriate to carry out the said trade agreement specified in the first recital of this proclamation on and after January 1, 1948, which proclamation has been supplemented by Proclamation No. 2769 of January 30, 1948 (13 F. R. 467), and the other supplemental proclamations referred to in the second recital of Proclamation No. 2867 of December 22, 1949 (14 F. R. 7723), as well as by the said Proclamation of December 22, 1949, and by Proclamations Nos. 2874, 2884, and 2888 of March 1, April 27, and May 13, 1950 (15 F. R. 1217, 2479, and 3043);

3. WHEREAS the second Item 771 of Part I of Schedule XX annexed to the said General Agreement provides as follows:

771	White or Irish potatoes, other than certified seed potatoes, as defined in the preceding item	37½¢ per 100 lb.
	Provided, That the quantity of such potatoes entitled to entry at such rate of duty shall not exceed— for the period from January 1 to September 14, inclusive, in 1948, 1,000,000 bushels of 60 pounds each, less the quantity of such potatoes entered and subject to duty at a tariff-quota rate during the period from September 15 to December 31, inclusive, in 1947, or for any 12-month period beginning on September 15 in 1948 or any subsequent year, 1,000,000 bushels of 60 pounds each; and any such potatoes not subject to that rate of duty shall be dutiable at	75¢ per 100 lb.
	Provided further, That if for any calendar year the production of white or Irish potatoes, including seed potatoes, in the United States, according to the estimate made as of September 1 by the United States Department of Agriculture, is less than 350,000,000 bushels of 60 pounds each, an additional quantity of such potatoes, other than certified seed potatoes, equal to the amount by which such estimated production is less than 350,000,000 bushels may be entered during the 12-month period beginning on September 15 of that year at	37½¢ per 100 lb.
	Provided further, That in computing the quantities of imports specified in the two foregoing provisos white or Irish potatoes produced in the Republic of Cuba shall not be included.	

4. WHEREAS, on April 3, 1950, by a decision of the contracting parties to the said General Agreement, acting jointly, pursuant to paragraph 5 (a) of Article XXV of the said General Agreement, the obligations of the United States under the said General Agreement were waived to the extent necessary to permit

the use, in place of the amount of 350,000,000 bushels specified in the second proviso to the said second Item 771, the amount of 335,000,000 bushels in determining the additional quantity subject to the reduced duty provided for therein during the twelve-month period beginning on September 15, 1950:

5. WHEREAS, pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 (a) of the Tariff Act of 1930, as amended by the said act of June 12, 1934, the period for the exercise of the authority under the said section 350 having been extended by the Joint resolution approved April 12, 1940, until the expiration of three years from June 12, 1940 (ch. 96, 54 Stat. 107), the President of the United States of America entered into a trade agreement with the President of the United States of Mexico on December 23, 1942 (57 Stat. 835) and proclaimed such trade agreement by proclamations dated December 28, 1942 (57 Stat. 833) and December 31, 1942 (57 Stat. 909):

6. WHEREAS the Government of the United States has agreed with the Government of the United Mexican States that the said trade agreement shall cease to be effective after December 31, 1950:

7. WHEREAS the final sentence of said section 350 (a) authorizes the President of the United States to terminate in whole or in part any trade-agreement proclamation made under said section 350 (a):

8. WHEREAS I determine that, following the termination of the said trade agreement specified in the fifth recital of this proclamation, the addition of the following items in the correct numerical order to the list in the seventh recital of the said proclamation of January 30, 1948, is required or appropriate to carry out on and after January 1, 1951, the said General Agreement specified in the first recital of this proclamation:

9. WHEREAS, pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 of the Tariff Act of 1930, as amended by the acts specified in the first recital of this proclamation, the period for the exercise of the authority under the said section 350 having been extended by section 1 of the said act of July 5, 1945 (ch. 269, 59 Stat. 410), until the expiration of three years from June 12, 1945, on October 30, 1947, I entered into an exclusive trade agreement with the Government of the Republic of Cuba (Treaties and Other International Acts Series 1703), which exclusive trade agreement includes certain portions of other documents made a part thereof and provides for the customs treatment in respect of ordinary customs duties of products of the Republic of Cuba imported into the United States of America:

10. WHEREAS by Proclamation No. 2764 of January 1, 1948 (3 C. F. R., 1948 Supp., p. 11), I proclaimed such modifications of existing duties and other import restrictions of the United States of America in respect of products of the Republic of Cuba and such continuance of existing customs and excise treatment of products of the Republic of Cuba imported into the United States of America as were then found to be required to carry out the exclusive trade agreement on and after January 1, 1948, which proclamation has been supplemented by the supplemental proclamations referred to in the fourth recital of the said proclamation of December 22, 1949, by the said proclamation of December 22, 1949, by the said proclamation of March 1, 1950, by the said proclamation of April 27, 1950, and by the said proclamation of May 13, 1950:

11. WHEREAS I determine that, following the termination of the said trade agreement specified in the fifth recital of this proclamation, the rates of duty for the following descriptions of products in the ninth recital of the said proclamation of January 1, 1948, as amended and rectified, which are required or appropriate to carry out on and after January 1, 1951, the provisions of subparagraph (c) of numbered paragraph 2 of the said exclusive trade agreement specified in the ninth recital of this proclamation, are the rates specified below in the column at the right of the respective descriptions of products:

12. WHEREAS, pursuant to the authority vested in the President by the Constitution and the statutes, including section 350 (a) of the Tariff Act of 1930, as amended by the said act of June 12, 1934, the period for the exercise of the authority under the said section 350 having been extended by the joint resolution approved March 1, 1937, until the expiration of three years from June 12, 1937 (ch. 22, 50 Stat. 24), the President of the United States of America entered into a definitive trade agreement on November 6, 1939, with the President of the Republic of Venezuela (54 Stat. 2377), which definitive agreement was proclaimed by the President on November 16, 1939, and entered into full force on December 14, 1940, as proclaimed by the President on November 27, 1940 (54 Stat. 2402);

13. WHEREAS the item listed under Internal Revenue Code Section 3422 of Schedule II of the said definitive agreement with Venezuela referred to in the twelfth recital of this proclamation provides as follows:

Internal Revenue Code Section	Description of article	Rate of import tax
3422	Crude petroleum, topped crude petroleum, and fuel oil derived from petroleum including fuel oil known as gas oil..... *Provided*, That such petroleum and fuel oil entered, or withdrawn from warehouse, for consumption in any calendar year in excess of 5 per centum of the total quantity of crude petroleum processed in refineries in continental United States during the preceding calendar year, as ascertained by the Secretary of the Interior of the United States, shall not be entitled to a reduction in tax by virtue of this item, but the rate of import tax thereon shall not exceed..... *Provided further*, That if this item becomes effective after the beginning of a calendar year the quantity of such petroleum and fuel oil which may be entered or withdrawn from warehouse for consumption at the reduced rate during the remainder of such calendar year shall be one-twelfth of the foregoing quantity multiplied by the number of months (treating any part of a month as a full month) during which this item shall be in effect during such calendar year.	1½¢ per gal. 1½¢ per gal.

14. WHEREAS the first item listed under Internal Revenue Code Section 3422 found in Part I of Schedule XX of the said General Agreement specified in the first recital of this proclamation provides as follows:

Internal Revenue Code Section	Description of article	Rate of import tax
3422.....	Topped crude petroleum, fuel oil derived from petroleum including fuel oil known as gas oil, and all liquid derivatives of crude petroleum (except lubricating oil and such derivatives specified hereinafter in any item 3422)..... *Provided*, That in no event shall the rate of import tax applicable under section 3422, Internal Revenue Code, or any modification thereof, to topped crude petroleum or fuel oil derived from petroleum be less than the rate of such tax applicable to crude petroleum.	½¢ per gal.

15. WHEREAS upon the termination of the said proclamation of December 31, 1942, the said item 3422 set forth in the thirteenth recital of this proclamation and the said first item 3422 set forth in the fourteenth recital hereof will become fully effective;

16. WHEREAS I determine that it is required or appropriate to carry out the said trade agreements specified in the first and twelfth recitals of this proclamation on and after January 1, 1951, that crude petroleum, topped crude petroleum, and fuel oil derived from petroleum, including fuel oil known as gas oil, entered, or withdrawn from warehouse, for consumption in any calendar year in excess of an aggregate quantity of all such products equal to 5 per centum of the total quantity of crude petroleum processed in refineries in continental United States during the preceding calendar year, as provided in said item 3422 set forth in the thirteenth recital of this proclamation shall be subject to import tax at the rate of ½¢ per gallon;

NOW THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, acting under and by virtue of the authority vested in me by the Constitution and the statutes, including the said section 350 of the Tariff Act of 1930, as amended, do proclaim as follows:

PART I

(a) The said proclamation of December 16, 1947, as amended and rectified, is hereby terminated in part so that any additional quantity of potatoes other than certified seed potatoes, subject to the rate of 37½ cents per 100 pounds pursuant to the second proviso of the said second item 771 in Part I of Schedule XX of the said General Agreement, shall, during the twelve-month period beginning on September 15, 1950, not exceed the amount, if any, by which the estimate by the United States Department of Agriculture provided for in the said second proviso is less than 335,000,000 bushels of 60 pounds each.

(b) The said proclamations of December 28, and 31, 1942, relating to the said trade agreement with the United Mexican States, shall be terminated in whole as of the close of December 31, 1950.

PART II

To the end that the said trade agreement specified in the first recital of this proclamation may be carried out, the list set forth in the seventh recital of the said proclamation of January 30, 1948, as amended and rectified, shall on and after January 1, 1951, be further amended in the manner indicated in the eighth recital of this proclamation.

PART III

To the end that the said exclusive trade agreement specified in the ninth recital of this proclamation may be carried out, the list set forth in the ninth recital of the said proclamation of January 1, 1948, as amended and rectified, shall on and after January 1, 1951, be further amended in the manner indicated in the eleventh recital of this proclamation.

PART IV

To the end that the said trade agreements specified in the first and twelfth recitals of this proclamation may be carried out, crude petroleum, topped crude petroleum, and fuel oil derived from petroleum, including fuel oil known as gas oil, entered, or withdrawn from warehouse, for consumption in any calendar year beginning with the calendar year 1951, in excess of an aggregate quantity of all such products equal to 5 per centum of the total quantity of crude petroleum processed in refineries in continental United States during the preceding calendar year, specified in the said item 3422 set forth in the thirteenth recital of this proclamation, shall be subject to import tax at the rate of ½ cent per gallon.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this sixth day of September, in the year of our Lord nineteen hundred and fifty, and of the Independence of the United States of America the one hundred and seventy-fifth.

[SEAL]

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

RULES AND REGULATIONS

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter A—Farm Housing Loans and Grants

PART 304—CONSTRUCTION AND REPAIR

SUBPART A—MINIMUM STANDARDS

MISCELLANEOUS AMENDMENTS

1. Paragraphs (c), (f), and (g) of § 304.1 in Title 6, Code of Federal Regulations (14 F. R. 6549), are revised to read as follows:

§ 304.1 *General.* • • •

(c) *Section 504 assistance.* Repairs and improvements in connection with 504 assistance will be structurally sound but will conform with the minimum construction standards only insofar as necessary to make the dwelling safe and sanitary and to remove hazards to the health of the applicant, his family, or the community and to remove hazards and make farm buildings safe.

• • • • • •

(f) *Plans and specifications.* Plans and specifications will be accurate and sufficiently complete to describe the intended improvements and the size, grade, and quality of materials and quality of workmanship to be incorporated in the improvements. In general, the following information will be required:

(1) *Dwelling*—(i) *Floor plans.* In all floor plans, including basement or foundation plan, direction, size, and spacing of all framing members will be shown.

(*a*) *Heating.* Either on separate drawings or an appropriate floor plan, the following will be shown:

(*1*) Size and layout of heating units, flues, pipes, ducts, registers, radiators, and any special arrangements;

(*2*) Capacity in BTU's per hour of the heating plant;

(*3*) Domestic hot water equipment, size, and layout.

(*b*) *Plumbing fixtures.* Location and size to scale will be shown.

(*c*) *Electricity.* Location of entrance panel, switches, and outlets will be shown and types will be indicated.

(*d*) *Equipment.* Location and size to scale will be shown.

(ii) *Exterior elevations.* Openings and sizes, wall finish materials, flashing, finish grades, depth of footings, finish floor and ceiling heights, roof pitch, and heights of chimneys will be shown in exterior elevations of front, rear, and sides.

(iii) *Details.* Details of wall construction above and below grade, including footing, floor, and roof construction drawn to scale at not less than ½" equals 1'—0" will be shown. Design and construction including any special items such as cabinet work or mill work, together with design and construction of individual water supply or sewage disposal systems, if any, will be indicated. If standard methods of construction or stock details can properly be used, they may be described in the specifications.

(iv) *Specifications.* Specifications will fully describe the quality, kind, and grade of materials and equipment, quality of workmanship, and methods of assembly and installations.

(2) *Farm buildings*—(i) *Floor plans.* All floor plans and foundation plans will show direction, size, and spacing of all framing members.

(*a*) If heating, plumbing, electrical, and other equipment is specified, it will be shown in the same manner as required for dwellings.

(ii) *Exterior elevations.* Openings and sizes, wall finish materials, finish grades, depth of footing, finish floor and ceiling heights, and roof pitch will be shown in exterior elevations of at least the front and one side.

(iii) *Details.* Details of wall construction above and below grade, including footing, floor, and roof construction drawn to scale at not less than ½" equals 1'–0" will be shown.

(iv) *Specifications.* Specifications will fully describe the quality, kind, and grade of materials and equipment, quality of workmanship, and methods of assembly and installations.

(g) *Special methods of construction.* New or special methods of construction, not generally considered conventional, will be treated as special cases. After a complete analysis by the Engineer, the plans and specifications with the recommendations of the State Director will be forwarded to the National Office where a review will be made of the case and a ruling issued on the acceptability of the method.

(Sec. 510, 63 Stat. 437; 42 U. S. C. 1480. Interprets or applies secs. 504, 506, 509, 63 Stat. 434, 435, 436; 42 U. S. C. 1474, 1476, 1479)

2. Paragraph (a) and subparagraphs (3), (7), (8), and (15) of paragraph (b) of § 304.2 in Title 6, Code of Federal Regulations (14 F. R. 6549), are revised to read as follows:

§ 304.2 *Minimum construction standards*—(a) *Site.* For new buildings, a site shall be selected which is well drained and not subject to hazards such as the probability of flood or erosion. All new buildings shall be suitably located in relation to other buildings. A satisfactory road to the building site shall be available.

(1) *Finish grading.* All debris will be removed from the rough graded area before finish grading. Finish grade elevations around buildings will provide continuous slopes away from foundation walls. The finished surface of all areas will be reasonably smooth and even. The height and steepness of slopes will be such as to provide stability and reasonable freedom from erosion. Where necessary, precaution methods will be taken such as installations of retaining walls, sodding, or planting to stabilize the soil. Areas where lawns and planting are required will have suitable topsoil of adequate depths to support plant growth.

(2) *Landscaping.* Lawns and planting commensurate with the type of dwelling will be arranged to provide an attractive setting for the dwelling.

(b) *Dwelling.* • • •

(3) *Closets.* All bedrooms will be provided with at least one clothes closet, minimum size two feet deep and having a floor area of at least six square feet. Where practicable, a coat closet near the entrance and a linen closet near the bedrooms should be provided.

• • • • • •

(7) *Light and ventilation.* Natural light and ventilation will be provided in all habitable rooms by means of windows and doors. The glazed window area for each habitable room will be at least 10 percent of the floor area. For adequate ventilation, the window area which can be opened will be at least five percent of the floor area. The heater room will be provided with sufficient ventilation to assure proper combustion and safety. In the attic and basementless areas, sufficient vents will be installed to prevent conditions conducive to decay and deterioration. Screened vent openings will be installed in basementless foundation walls to assure a total ventilating area equivalent to one-half percent of the enclosed area, plus one-half square foot for each 25 lineal feet of wall enclosing that area. Locate one vent at or near each corner to provide through ventilation wherever possible. Each area to be ventilated will have at least two vents. All window and door openings to the exterior, except to screened porches, will be properly screened.

(8) *Access to attic and basementless areas.* Access will be provided to the attic by means of scuttles, or disappearing or permanently installed stairs. Access to basementless areas will be provided by a screened opening in the wall not less than 18 inches by 24 inches.

• • • • • •

(15) *Electrical.* Except in areas where electricity is not presently available and it appears unlikely that it will be available in the foreseeable future, all new houses will be wired for electricity when built. Consideration will be given to future as well as to present needs for electrical service on the farm in arranging for the service entrance installations.

(i) *Installations.* The installation of all electrical work will comply with all regulations applying to electrical installations in effect in the locality, or in the absence of such regulations, in accordance with the National Electric Code or the Specifications for Farmstead Wiring by the Rural Electrification Administration, and the regulations of the power supplier furnishing the service.

(ii) *Circuits.* At least one circuit for each 500 square feet of floor area, minimum, two per dwelling will be installed. Provision for at least one future circuit will be made.

(iii) *Outlets.* (*a*) Ceiling light outlets will be installed in kitchen, work room, hall, dining room, living room, bedrooms, and basement unless omission is acceptable to the Engineer and other acceptable lighting is provided.

(b) One wall light outlet and convenience outlet will be installed in bathroom.

(c) An outside light outlet will be installed at each main entrance and porch.

(d) Convenience outlets will be installed as follows:

(1) In living room with ceiling outlet, minimum of two duplex outlets; in living room where omission of ceiling outlet is approved, minimum of three duplex outlets;

(2) In dining room or dining space, one duplex outlet;

(3) In kitchen, two duplex outlets;

(4) In each bedroom, one duplex outlet;

(5) For each unit of equipment such as an electric range, a special purpose outlet.

(iv) *Switches.* (a) Each ceiling fixture in habitable rooms, halls, and basements will be controlled by a wall switch.

(b) When ceiling fixtures are not installed, at least one outlet per habitable room will be controlled by a wall switch.

(c) Bathroom fixture will be controlled by a wall switch not readily accessible from tub or shower.

(d) At least one three-way switch conveniently located on each floor to control at least one light which illuminates the stairs will be provided for a dwelling occupying more than one floor.

(e) Exterior fixtures will be controlled by wall switches inside the entrance doors.

(f) Switches will not be placed behind doors.

PART 717—HOLDING OF REFERENDA ON MARKETING QUOTAS

MISCELLANEOUS AMENDMENTS

The regulations governing the Holding of Referenda on Marketing Quotas, 1022-1 (formerly designated MQ-650), as amended (6 F. R. 5616, 7 F. R. 9829, 13 F. R. 6212 and 14 F. R. 4839), are amended as follows:

1. Section 717.1 (e) is amended to read as follows:

(e) *County Committee.* The group of persons elected within a county to assist in the administration of the agricultural conservation program in such county.

2. Section 717.2 (b) is amended by striking out the first two sentences and inserting in lieu thereof the following: "In each county with 100 or more farms on which there are producers who are eligible to vote in the referendum, the county committee shall designate a community referendum committee for each community or neighborhood in the county in which there are producers who are eligible to vote in the referendum. Each referendum committee shall consist of three members and one alternate chosen from among the farmers who reside in the community or neighborhood and who are eligible to vote in the referendum or if two or more referendums are held in the same community or neighborhood on the same day, eligible to vote in any of such referendums."

3. Section 717.3 (b) is amended by striking out "651" and inserting "4" in lieu thereof.

4. Section 717.7 (d) is amended by striking out "653" and inserting "7" in lieu thereof.

5. Section 717.8 is amended by striking out "652" and inserting "6" in lieu thereof.

6. Section 717.10 (b) is amended by striking out "651" and "652" and inserting "4" and "6", respectively, in lieu thereof.

7. Section 717.11 (b) is amended by striking out "653" and "652" and inserting "7" and "6", respectively, in lieu thereof.

8. Section 717.11 (c) is amended by striking out "651", "652", and "653" and inserting "4", "6", and "7", respectively, in lieu thereof, and the last sentence is amended by striking out the word "permanently" and inserting after the word "filed" the language "for a period of five years."

9. Section 717.12 is amended by striking out "653" and "654" and inserting "7" and "8", respectively, in lieu thereof, and the last sentence is amended by striking out the word "permanently" and inserting after the word "filed" the language "for a period of five years."

10. Section 717.13 (a) is amended by striking out "654" and inserting "8" in lieu thereof.

11. Section 717.11 (b) is amended by striking out the word "permanently" in the third sentence thereof.

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 814.4, Amdt. 1]

PART 814—ALLOTMENT OF SUGAR QUOTAS

DIRECT CONSUMPTION PORTION FOR PUERTO RICO, 1950

Basis and purpose. This amendment is issued under section 205 (a) of the Sugar Act of 1948 (7 U. S. C., Supp. I, 1115 (a)) for the purpose of revising Sugar Regulation 814.4 (15 F. R. 2212) to reallot deficits in the allotments of certain allottees.

Except for a quantity of 900 short tons of sugar, raw value, set aside as an unallotted reserve for marketing of raw sugar for direct-consumption, the direct-consumption portion of the 1950 sugar quota for Puerto Rico, amounting to 126,033 short tons, raw value, was allotted to five Puerto Rican refiners in Sugar Regulation 814.4. One of the allottees, the Estate of Arturo Lluberas y Sobrinos, has notified the Department in writing that it will be unable to fill its 1950 allotment by an amount of 941 short tons of sugar, raw value. The Central Aguirre Sugar Company, a trust, has notified the Department in writing that it can fill only the additional quantity of about 32 short tons, raw value, already shipped. The other three allottees have notified the Department that they will be able to fill more than their original allotments during the calendar year 1950. In order to afford interested parties an opportunity to market the full amount of that portion of the Puerto Rican sugar quota which may be filled by direct-consumption sugar, it is necessary to reallot the quantity released.

Since section 205 (a) of the act requires that any amendment or revision of an allotment order be made on the same basis as the original allotment, the Department has asked for and obtained from each of the interested parties a waiver of its right to a public hearing in regard to the amendment made herein. The deficits in question, therefore, have been allotted as follows: (a) An additional quantity of 32 short tons, raw value, to the Central Aguirre Sugar Company, a trust, which quantity is less than that which would result from the use of the same basis used in the original allotment order and (b) the balance of 909 short tons, raw value, to Central Roig Refining Company, Porto Rican American Refinery, Inc., and Western Sugar Refining Company, the individual quantities determined on the same basis used in the original allotment order.

In order to afford interested parties adequate opportunity to ship the additional sugar allotted herein, and to protect the interest of consumers of sugar, it is essential that the revised allotments be made effective as soon as possible. Accordingly, it is hereby found that compliance with the effective date requirement of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest and this amendment shall become effective on the date of its publication in the FEDERAL REGISTER.

Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the Sugar Act of 1948, paragraph (a) of § 814.4 (15 F. R. 2212) is hereby amended to read as follows:

§ 814.4 *Allotment of the direct-consumption portion of 1950 sugar quota for Puerto Rico*—(a) *Allotments.* The direct consumption portion of the 1950 sugar quota for Puerto Rico (126,033 short tons, raw value) is hereby allotted to the following companies in the amounts which appear opposite their respective names:

Refiner	Direct consumption allotment (short tons, raw value)
1. Arturo Lluberas, Estate of, y Sobrinos	520
2. Central Aguirre Sugar Co., a trust	5,453
3. Central Roig Refining Co	20,003
4. Porto Rican American Refinery, Inc	79,981
5. Western Sugar Refining Co	19,176
Total	125,133
Unallotted Reserve for marketing of raw sugar for direct consumption	900
	126,033

[Cauliflower Order 2—1950]

PART 910—FRESH PEAS AND CAULIFLOWER GROWN IN ALAMOSA, RIO GRANDE, CONEJOS, COSTILLA AND SAGUACHE COUNTIES IN COLORADO

PROHIBITION OF LOADING

§ 910.313 *Cauliflower Order 2—1950*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 10, as amended (7 CFR, Part 910), regulating the handling of fresh peas and cauliflower grown in the counties of Alamosa, Rio Grande, Conejos, Costilla and Saguache in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Administrative Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the prohibition of loading of cauliflower, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than September 10, 1950. Although shipments of cauliflower, grown as aforesaid, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since July 20, 1950, and will so continue until October 16, 1950, there has rapidly developed a serious market glut which could not have been anticipated and which requires prompt remedial action in accordance with the amended marketing agreement and order; the recommendation and supporting information for the additional regulation, in the manner and during the period herein provided, was promptly submitted to the Department after the meeting of the Administrative Committee on September 6; such meeting was held to consider recommendations for this section, after giving due notice of such meeting; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to prohibit the loading of cauliflower and thereby tend to alleviate the aforesaid market glut in such cauliflower; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., m. s. t., September 10, 1950, and ending at 12:01 a. m., m. s. t., September 13, 1950, the loading of cauliflower grown in the Counties of Alamosa, Rio Grande, Conejos, Costilla, or Saguache, in the State of Colorado, is prohibited.

(2) As used in this section, "cauliflower" and "loading" shall each have the same meaning as when used in said amended marketing agreement and order.

[Orange Reg. 182]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.480 *Orange Regulation 182*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than September 11, 1950. Shipments of oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and, unless such regulation is terminated sooner, will so continue until September 15, 1950; the recommendation and supporting information for regulation in the manner herein prescribed, beginning on September 11, 1950, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 5; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the termination of the present regulation and the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions, including such termination and effective time, has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the uninterrupted regulation of the handling of oranges during the current marketing season; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Orange Regulation 181 (7 CFR 933.478; 15 F. R. 4183) is hereby terminated as of the effective time of this regulation.

(2) During the period beginning at 12:01 a. m., e. s. t., September 11, 1950, and ending at 12:01 a. m., e. s. t., September 25, 1950, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida

which grade U. S. No. 2 Bright, U. S. No. 2, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida which are of a size smaller than a size that will pack 252 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(3) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2 Bright," "U. S. No. 2," "U. S. No. 2 Russet," "U. S. No. 3," "standard pack," "container," and "standard nailed box" shall each have the same meaning as when used in the revised United States Standards for Oranges (7 CFR 51, 192; 14 F. R. 6831).

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.481 *Grapefruit Regulation 126*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than September 11, 1950. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and, unless such regulation is terminated sooner, will so continue until September 15, 1950; the recommendation and supporting information for regulation in the manner herein prescribed, beginning on September 11, 1950, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on September 5; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the termination of the present regulation and the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions, including such termination and effective time, has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the uninterrupted regulation of the handling of grapefruit during the current marketing season; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Grapefruit Regulation 125 (7 CFR 933.479; 15 F. R. 4393) is hereby terminated as of the effective time of this regulation.

(2) During the period beginning at 12:01 a. m., e. s. t., September 11, 1950, and ending at 12:01 a. m., e. s. t., September 25, 1950, no handler shall ship:

(i) Any grapefruit of any variety, grown in the State of Florida, which do not grade at least U. S. No. 2;

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any seedless grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iv) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(v) Any pink seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 112 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(3) As used in this section "handler," "variety," and "ship," shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 2," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Grapefruit (7 CFR 51.191; 14 F. R. 6828).

[Lemon Reg. 346, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.453 (Lemon Regulation 346, 15 F. R. 5952 are hereby amended to read as follows:

(ii) District 2: 350 carloads.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.454 *Lemon Regulation 347*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612) regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitaton of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 6, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 10, 1950, and ending at 12:01 a. m., P. s. t., September 17, 1950, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 300 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

AUTHORITY: §§ 939.0 to 939.81 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c.

§ 939.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein. (For original findings relative issuance Order No. 39, see F. R. Doc. 39-3103; 4 F. R. 3694.)

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held at Portland, Oregon, beginning on April 10, 1950, at Yakima, Washington, beginning on April 13, 1950, and at Sacramento, California, beginning on April 17, 1950, upon proposed amendments to the marketing agreement and Order No. 39, effective August 26, 1939, regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in the States of Oregon, Washington, and California. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order as hereby amended regulates the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in the States of Oregon, Washington, and California in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreement upon which hearings have been held;

(3) The said order as hereby amended is limited in its application to the smallest regional production area that is practicable, consistent with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such regional production area would not effectively carry out the declared policy of the act; and

(4) The said order as hereby amended prescribes such different terms, applicable to different production and marketing areas, as are necessary to give due recognition to differences in the production and marketing of such pears.

(b) *Determinations.* It is hereby determined that:

(1) The agreement amending the marketing agreement regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in the States of Oregon, Washington, and California, upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who were not engaged in processing, distributing, or shipping the pears covered by this order) who, during the period July 1, 1949, through June 30, 1950, handled not less than 50 percent of the volume of pears covered by said order as hereby amended;

(2) The aforesaid agreement amending the marketing agreement has been executed by handlers who were signatory parties to said marketing agreement and who, during the preceding fiscal period, shipped not less than 67 percent of the volume of pears, covered by said order as hereby amended, shipped by all signatory handlers to said marketing agreement during such representative period;

(3) The issuance of this order, amending the aforesaid order, is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (July 1, 1949, through June 30, 1950), have been engaged within the State of Oregon, the State of Washington, or the State of California in the production for market of Beurre D'Anjou, Beurre Bosc, Doyenne du Comice, Beurre Easter, and Beurra Clairgeau varieties of pears; and

(4) The issuance of this order, amending the aforesaid order, is favored or approved by producers who, during said representative period, have produced for market at least two-thirds of the volume of the said varieties of pears produced for market within the States of Oregon, Washington, and California.

It is, therefore, ordered, That, on and after the effective date hereof, the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in the States of Oregon, Washington, and California shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order as hereby amended; and such order is hereby amended to read as follows:

DEFINITIONS

§ 939.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States.

§ 939.2 *Act.* "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

§ 939.3 *Person.* "Person" means an individual, partnership, corporation, association, legal representative, or any organized group of individuals.

§ 939.4 *Pears.* "Pears" means and includes any and all of the Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in the States of Oregon, Washington, and California.

§ 939.5 *Size.* "Size" means the number of pears which can be packed in a standard western pear box 18" long, 11½" wide and 8½" deep (inside measurements) when packed in accordance with the packing requirements of the U. S. Standards for Pears, effective July 1, 1939, or as such standards hereafter may be modified or as "size" may be more specifically defined in a regulation issued hereunder.

§ 939.6 *Grower.* "Grower" means any person engaged in the production of pears, either as owner or as tenant.

§ 939.7 *Handler.* "Handler" means any person (except a common carrier of pears owned by another person) who, as owner, agent, broker, or otherwise, ships or handles pears, or causes pears to be shipped or handled, in fresh form by rail, truck, boat, or any other means whatsoever.

§ 939.8 *Ship or handle.* "To ship" or "to handle" means to sell, deliver, handle for shipment, transport, or offer for transportation pears in the current of commerce, or so as directly to burden, obstruct, or affect commerce, from the State of Oregon, the State of Washington, or the State of California to any point outside thereof.

§ 939.9 *Fiscal period.* "Fiscal period" means the period beginning July 1 of any year and ending June 30 of the following year.

§ 939.10 *Area.* "Area" means and includes the States of Oregon, Washington, and California.

§ 939.11 *District.* "District" means the applicable one of the following-described subdivisions of the area covered by the provisions of this subpart:

(a) Medford District shall include the counties of Jackson, Josephine, Curry, Coos, Douglas, Lane, and Klamath in the State of Oregon.

(b) Hood River-White Salmon-Underwood District shall include all of the State of Oregon not included in the Medford District, and the counties of Skamania and Klickitat in the State of Washington.

(c) Wenatchee District shall include the counties of Chelan, Okanogan, Douglas, and Spokane in the State of Washington.

(d) Yakima District shall include all of the State of Washington not included in the Wenatchee District or in the Hood River-White Salmon-Underwood District.

(e) Placerville District shall include all counties north of the northern boundaries of San Francisco, Contra Costa, San Joaquin, Calaveras, and Alpine Counties in the State of California.

(f) Santa Clara District shall include all of the State of California not included in the Placerville District.

§ 939.12 *Export market.* "Export market" means any destination which is not within the 48 States, or the District of Columbia, of the United States.

CONTROL COMMITTEE

§ 939.20 *Establishment.* A Control Committee, consisting of 12 individual persons as its members, is hereby established to administer the terms and provisions of this subpart as specifically provided in §§ 939.20 to 939.35. There shall be two alternates, designated as the "first alternate" and the "second alternate," respectively, for each member of the committee. Six members of the Control Committee and their respective alternates shall be growers of pears, and six members and their respective alternates shall be handlers of pears. Each district shall be represented on the committee by one grower member and one handler member.

§ 939.21 *Nomination and selection of members and their respective alternates.* The grower members and their respective alternates for each district shall be selected by the Secretary from nominees elected by the growers in such district, and the handler members and their respective alternates for each district shall be selected by the Secretary from nominees elected by the handlers in such district.

§ 939.22 *Meetings for election of nominees.* Nominations for members of the Control Committee and their alternates shall be made at meetings of growers and handlers held in each of the districts designated in § 939.11 at such times and places as the Control Committee shall designate. At each of such meetings the growers or handlers eligible to participate therein shall select a chairman and a secretary of that meeting. In the election of nominees, each grower and each handler shall be entitled to vote in accordance with the provisions of § 939.23. The chairman of the meeting shall announce at the meeting the name of each person for whom votes have been cast, whether as a member or as an alternate for a member, and the number of votes cast for each such person; and the chairman or the secretary of such meeting shall forthwith transmit such information to the Secretary or his designated representative.

§ 939.23 *Voting.* Only growers in attendance at meetings for election of nominees shall participate in the nomination of grower members and their alternates, and only handlers in attendance at meetings for election of nominees shall participate in the nomination of handler members and their alternates. A grower may participate only in the election held in the district in which he produces pears, and a handler may participate only in the election held in the district or districts in which he handles pears. No person may vote both as a handler and as a grower. Each grower and each handler shall be entitled to cast one vote, on behalf of himself, his agents, partners, affiliates, subsidiaries, and representatives, for each nominee to be elected.

§ 939.24 *Eligibility for membership.* Each grower member and each of his alternates shall be a grower who grows pears in the district in which and for which he is nominated and selected. Each handler member and each of his alternates shall be a handler, or an officer or employee of a handler, handling pears in the district in and for which he is nominated and selected.

§ 939.25 *Failure to nominate.* In the event nominations are not made pursuant to §§ 939.21 and 939.22 on or before June 1 of any year, the Secretary may select members and alternates for members without regard to nominations.

§ 939.26 *Qualifications.* Any person selected by the Secretary as a member or as an alternate for a member of the Control Committee shall qualify by filing a written acceptance with the Secretary within 15 days after being notified of such selection.

§ 939.27 *Term of office.* Each member and each alternate for a member shall serve during the fiscal period for which he has been selected or until his successor is selected and has qualified.

§ 939.28 *Alternates for members of the Control Committee.* The first alternate for a member shall act in the place and stead of the member for whom he is an alternate during such member's absence. In the event of the death, removal, resignation, or disqualification of a member, his first alternate shall act as a member until a successor for the member is selected and has qualified. The second alternate for a member shall serve in the place and stead of the member for whom he is an alternate whenever both the member and his first alternate are unable to serve.

§ 939.29 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate for a member of the Control Committee to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or qualified alternate for a member, a successor for his unexpired term shall be nominated and selected in the manner set forth in §§ 939.20 to 939.35. If nominations to fill any such vacancy are not made within 20 days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations.

§ 939.30 *Compensation and expenses.* The members and alternates for members of the Control Committee shall serve without compensation, but may be reimbursed for expenses necessarily incurred by them in the performance of their respective duties.

§ 939.31 *Powers of Control Committee.* The Control Committee shall have the following powers:

(a) To administer, as specifically provided in §§ 939.20 to 939.35, the terms and provisions of this subpart;

(b) To make administrative rules and regulations in accordance with, and to effectuate, the terms and provisions of this subpart; and

(c) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this subpart.

§ 939.32 *Duties of Control Committee.* The duties of the Control Committee shall be as follows:

(a) To act as intermediary between the Secretary and any grower or handler;

(b) To keep minutes, books, and records which will reflect clearly all of the acts and transactions of the Control Committee, which minutes, books, and records shall be subject at any time to examination by the Secretary or by such person as may be designated by the Secretary;

(c) To investigate, from time to time, and to assemble data on the growing, harvesting, shipping, and marketing conditions relative to pears, to engage in such research and service activities relative to the handling of pears as may be approved by the Secretary, and to furnish to the Secretary such available information as may be requested;

(d) To perform such duties as may be assigned to it from time to time by the Secretary in connection with the administration of section 32 of the act to amend the Agricultural Adjustment Act, and for other purposes, Public Act No. 320, 74th Congress, approved August 24, 1935 (49 Stat. 774), as amended;

(e) To cause the books of the Control Committee to be audited by one or more competent accountants at the end of each fiscal year and at such other times as the Control Committee may deem necessary or as the Secretary may request, and to file with the Secretary copies of any and all audit reports made;

(f) To appoint such employees as it may deem necessary, and to determine the salaries and define the duties of such employees;

(g) To give the Secretary, or the designated agent of the Secretary, the same notice of meetings of the Control Committee as is given to the members of the Control Committee;

(h) To select a chairman of the Control Committee and, from time to time, such other officers as it may deem advisable; and

(i) To submit to the Secretary each fiscal period a budget of its expenses during that fiscal year.

§ 939.33 *Procedure of Control Committee*—(a) *Quorum and voting.* A quorum shall consist of nine members, or alternates then serving in the place and stead of any members, in attendance at the meeting. Except as otherwise provided in § 939.52, all decisions of the Control Committee shall be made by not fewer than seven affirmative votes.

(b) *Mail voting.* The Control Committee may provide for members voting by mail, telephone, or telegraph, upon due notice to all members. Promptly after voting by telephone or telegraph, each member thus voting shall confirm in writing, the vote so cast.

§ 939.34 *Rights of the Secretary.* The members and alternates for members of the Control Committee and any agent or employee appointed or employed by the Control Committee shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the Control Committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time, and, upon such disapproval, shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 939.35 *Funds and other property.* (a) All funds received by the Control Committee pursuant to any of the provisions of this subpart shall be used solely for the purposes herein specified, and the Secretary may require the Control Committee and its members to account for all receipts and disbursements.

(b) Upon the death, resignation, removal, disqualification, or expiration of the term of office of any member or employee of the Control Committee, all books, records, funds, and other property in his possession belonging to the Control Committee shall be delivered to his successor in office or to the Control Committee, and such assignments and other instruments shall be executed as may be necessary to vest in such successor or in the Control Committee full title to all the books, records, funds, and other property in the possession or under the control of such member or employee pursuant to this subpart.

EXPENSES AND ASSESSMENTS

§ 939.40 *Expenses.* The Control Committee is authorized to incur such expenses as the Secretary finds may be necessary to carry out its functions under this subpart. The funds to cover such expenses shall be acquired by the levying of assessments as provided in § 939.41.

§ 939.41 *Assessments.* Assessments will be levied only upon the handler who first handles pears which subsequently are shipped from the State of Oregon, the State of Washington, or the State of California. Such handler shall pay to the Control Committee, upon demand, such handler's pro rata share of the expenses which the Secretary finds necessarily will be incurred by the Control Committee for the maintenance and functioning of the Control Committee during each fiscal period. Such handler's pro rata share of such expenses shall be that proportion thereof which the total quantity of pears first handled by that handler during such fiscal period is of the total quantity of pears first handled by all handlers during that fiscal period. The Secretary shall fix the rate of assessment to be paid by such handler, which rate may be adjusted from time to time by the Control Committee, with the approval of the Secretary, in order to cover any later findings by the Secretary of estimated expenses or the actual expenses of the Control Committee during said fiscal period.

§ 939.42 *Handler accounts.* At the end of each fiscal period the Control Committee shall credit each handler assessed with any amount paid by such handler in excess of his pro rata share of the expenses, or shall debit such handler with the deficiency between his pro rata share and the amount paid by him. Any such debits shall become due and payable upon demand by the Control Committee.

§ 939.43 *Use of funds.* From the funds acquired pursuant to § 939.41 the Control Committee shall pay the salaries of its employees, if any, and pay the expenses necessarily incurred in the performance of the duties of the Control Committee.

§ 939.44 *Collection of unpaid assessments.* The Control Committee, with the approval of the Secretary, may institute and maintain, in its own name or in the names of its members, legal proceedings against any handler assessed for the collection of such handler's pro rata share of the aforesaid expenses.

REGULATION OF SHIPMENTS

§ 939.50 *Recommendation by the Control Committee.* (a) It shall be the duty of the Control Committee to investigate, from time to time, supply and demand conditions relative to pears and each grade, size, and quality of each variety thereof. Such investigations by the Control Committee shall be with respect to the following: (1) Estimated production of each variety of pears and of each grade, size and quality thereof; (2) prospective supplies and prices of Bartlett pears and other fruits, both in fresh and processed form, which are competitive to the marketing of pears; (3) prospective exports of pears and imports of pears from other producing areas; (4) probable harvesting period for each variety of pears; (5) the trend and level of consumer income; (6) general economic conditions; and (7) other relevant factors.

(b) On or before August 1 of each year, the Control Committee shall recommend regulations to the Secretary if it finds, on the basis of the foregoing investigations, that such regulation as is provided in § 939.51 will tend to effectuate the declared policy of the act.

(c) In the event the Control Committee at any time finds that by reason of changed conditions any regulation issued pursuant to § 939.51 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

§ 939.51 *Issuance of regulations; and modification, suspension, or termination thereof.* (a) Whenever the Secretary finds, from the recommendations and information submitted by the Control Committee, or from other available information, that regulation, in the manner specified in this section, of the shipment of pears would tend to effectuate the declared policy of the act, he shall so limit the shipment of pears during a specified period or periods. Such regulation: (1) May limit the total quantity of any grade, size, quality, or combinations thereof, of any variety of pears grown in any district and may prescribe different requirements applicable to shipments to different export markets; or (2) may prescribe minimum standards of quality for any variety of pears and limit the shipment thereof to those meeting such minimum standards.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the Control Committee, or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of pears grown in any district in order to effectuate the declared policy of the act, he shall so modify, suspend, or terminate such regulation. If the Secretary finds, from the recommendations and information submitted by the Control Committee, or from other available information, that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate such modification or suspension.

§ 939.52 *Prerequisites to committee recommendations.* (a) Decisions of the Control Committee with respect to any recommendation to the Secretary pursuant to the provisions of § 939.50 shall be made by an affirmative vote of not less than 80 percent of the applicable total number of votes, computed in the manner hereinafter prescribed in this section, of all committee members.

(b) With respect to a particular variety of pears, the applicable total number of votes shall be the aggregate of the votes allotted to the members of the committee in accordance with the following: Each member shall have one vote as an individual and, in addition, shall have an equal share of the vote of the district represented by such member; and such district vote shall be computed by the Control Committee as soon as practical after the beginning of each fiscal period on the basis of one vote for each 25,000 boxes of the average quantity (rounded to the nearest 25,000 boxes) of such variety produced in the particular district and shipped therefrom during the immediately preceding three fiscal periods to destinations outside the State in which produced. The votes so allotted to a member of the committee may be cast by such member on each recommendation relative to the variety of pears on which such votes were computed.

§ 939.53 *Notification.* (a) The Control Committee shall give prompt notice to growers and handlers of each recommendation to the Secretary pursuant to the provisions of § 939.50.

(b) The Secretary shall immediately notify the Control Committee of the issuance of each regulation and of each modification, suspension, or termination of a regulation and the Control Committee shall give prompt notice thereof to growers and handlers.

§ 939.54 *Exemption certificates.* (a) As soon as practicable after the beginning of each fiscal period the Control Committee shall adopt and announce the procedural rules by which exemption certificates may be issued to growers. The Control Committee shall determine the percentage which the grades and sizes of each variety of pears permitted to be shipped from each district under the regulation bears to the total quantity of each variety of pears which could be shipped from that district in the absence of regulation. An exemption certificate may thereafter be granted to any grower who furnishes proof that he will be prevented, because of the regulation in effect, from shipping a percentage of a particular variety of his pears equal to the percentage of pears of that particular variety permitted to be shipped from his district as determined by the Control Committee. Such exemption certificate shall permit the grower to ship that quantity of the particular variety of pears of the regulated grades and sizes of such variety as will enable him to ship as large a percentage of such variety of his pears as the average percentage of that particular variety of pears that is permitted to be shipped by all growers in his district.

(b) In the event the Control Committee shall determine and report to the Secretary that, by reason of general crop failure or other extraordinary conditions within a particular district, it is not feasible and would not be equitable to issue exemption certificates to growers within that district on the basis of the average percentage of the pears grown in the district which may be shipped in compliance with the requirements of § 939.51, the Secretary may prescribe such other basis for the issuance of such certificates to growers within that district as he may find to be feasible, equitable, and proper.

(c) The Secretary shall have power to modify, change, alter, or amend any procedural rules and any exemption granted under this section.

INSPECTION

§ 939.60 *Inspection and certification.* No handler shall ship any pears not theretofore inspected, and a certificate issued with respect thereto, by a duly authorized representative of the Federal-State Inspection Service: *Provided*, That such inspection and certification of shipments of pears may be performed by such other inspection service as the Control Committee, with the approval of the Secretary, may designate. Promptly after shipment of any pears, the handler shall submit, or cause to be submitted, to the Control Committee a copy of the inspection certificate issued on such shipment.

EXCEPTIONS

§ 939.65 *Exemption from regulation.* (a) Nothing contained in this subpart shall limit or authorize the limitation of shipment of pears for consumption by charitable institutions or distribution by relief agencies or conversion into by-products, nor shall any assessment be computed on pears so shipped. The Control Committee may prescribe regulations to prevent pears shipped for either of such purposes from entering commercial fresh-fruit channels of trade contrary to the provisions of this subpart.

(b) The Control Committee shall prescribe rules and regulations, to become effective upon the approval of the Secretary, whereby shipments of pears in individual gift packages may be exempted from the provisions of this subpart.

(c) The Control Committee may, with the approval of the Secretary, designate storage warehouses within the area and prescribe rules and regulations whereby pears may be shipped to such storage warehouses exempt from the provisions of this subpart: *Provided*, That pears so shipped shall not thereafter be handled contrary to the provisions of this subpart.

MISCELLANEOUS PROVISIONS

§ 939.70 *Reports.* Upon the request of the Control Committee, subject to the disapproval of the Secretary, each handler shall furnish to the Control Committee, in such manner and at such times as it prescribes, such information as will enable it to perform its duties under this subpart.

§ 939.71 *Compliance.* Except as provided in § 939.65, no handler shall ship any pears contrary to the applicable restrictions and limitations specified in, or effective pursuant to, the provisions of this subpart.

§ 939.72 *Duration of immunities.* The benefits, privileges, and immunities conferred by virtue of this subpart shall cease upon termination hereof, except with respect to acts done under and during the existence of this subpart.

§ 939.73 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remaining provisions and the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 939.74 *Derogation.* Nothing contained in this subpart is or shall be construed to be in derogation of, or in modification of, the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 939.75 *Liability of Control Committee members.* No member or alternate for a member of the Control Committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any party under this subpart or to any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate for a member, or employee, except for acts of dishonesty.

§ 939.76 *Agents.* The Secretary may name, by a designation in writing, any person, including any officer or employee of the Government, or any bureau or division in the Department of Agriculture to act as his agent or representative in connection with any of the provisions of this subpart.

§ 939.77 *Effective time.* The provisions of this subpart shall become effective August 26, 1939, and shall continue in force until terminated in one of the ways specified in § 939.78.

§ 939.78 *Termination.* (a) The Secretary may at any time terminate this subpart.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such operation obstructs or does not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of the growers of pears who, during such fiscal period, have been engaged in the area in the production of pears for market: *Provided*, That such majority have produced for market during such period more than 50 percent of the volume of pears produced for market in the area; but such termination shall be effective only if announced on or before June 30 of that fiscal period.

(d) The provisions of this subpart shall terminate, in any event, whenever the provisions of the act authorizing the same cease to be in effect.

§ 939.79 *Proceedings after termination.* (a) Upon the termination of this subpart, the members of the Control Committee then functioning shall continue as joint trustees for the purpose of liquidating all funds and property then in the possession or under the control of the Control Committee, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The joint trustees shall continue in such capacity until discharged by the Secretary; from time to time account for all receipts and disbursements; deliver all funds and property on hand, together with all books and records of the Control Committee and of the joint trustees, to such person as the Secretary shall direct; and, upon the request of the Secretary, execute such assignments or other instruments necessary and appropriate to vest in such person full title to all of the funds or claims vested in the Control Committee or in said joint trustees.

(c) Any funds collected pursuant to this subpart and held by such joint trustees or such person over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the joint trustees or such other person in the performance of their duties under this subpart, as soon as practicable after the terminaton hereof, shall be returned to the handlers pro rata in proportion to their contributions thereto.

(d) Any person to whom funds, property, or claims have been delivered by the Control Committee or its members, upon direction of the Secretary, as provided in this section, shall be subject to the same obligations and duties with respect to said funds, property, or claims

as are imposed upon the members of said Committee or upon said joint trustees.

§ 939.80 *Amendments.* Amendments to this subpart may be proposed from time to time by the Control Committee or by the Secretary.

§ 939.81 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart or the issuance of any amendment to either, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued hereunder, or (b) release or extinguish any violation of this subpart or of any regulation issued hereunder, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

Issued at Washington, D. C., this 6th day of September 1950, to become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[Orange Reg. 339]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.485 *Orange Regulation 339*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 65, as amended, (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on September 7, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. S. t., September 10, 1950, and ending at 12:01 a. m., P. S. t., September 17, 1950, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate District No. 1: Unlimited movement;

(*b*) Prorate District No. 2: 1,150 carloads;

(*c*) Prorate District No. 3: Unlimited movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1: No movement;

(*b*) Prorate District No. 2: No movement;

(*c*) Prorate District No. 3: No movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as given to the respective term in § 966.107 of the current rules and regulations (14 F. R. 6588) contained in this part.

Orange Regulation 332 (7 CFR 966.478 15 F. R. 3863) fixes the sizes of designated oranges which may be handled during the aforesaid period.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 8th day of September 1950.

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

Subchapter B—Immigration Regulations

PART 121—TREATY TRADERS

PERIOD OF TIME FOR WHICH ADMITTED; ANNUAL REPORT OF STATUS

JUNE 22, 1950.

Reference is made to the notice of proposed rule making which was published in the FEDERAL REGISTER of March 24, 1950 (15 F. R. 1656), pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) and in which there were stated in full the details of proposed amendments to the regulations (8 CFR Part 121) relating to aliens coming to the United States temporarily to carry on trade pursuant to treaties. No representations have been received concerning the proposed amendments. The regulations as stated below are hereby adopted. The provisions of the adopted regulations are the same as those stated in the notice of proposed rule making except (1) the words "or Form I-638" have been omitted from paragraph (e) of § 121.3 because the use of that form has been discontinued, (2) a correction has been made in the proviso in paragraph (b) of § 121.6 to make the regulations under 8 CFR 121 effective upon traders or dependents seeking readmission on or after December 7, 1948, instead of only after December 7, 1948, and (3) the clause, "or shall take any other action necessary to insure that the trader or dependent either departs or is removed from the United States", occurring at the end of § 121.12 (d), has been deleted for the reason that it is considered unnecessary and confusing.

1. Section 121.2, Chapter I, Title 8 of the Code of Federal Regulations, is amended to read as follows:

§ 121.2 *Period for which admitted.* A trader or dependent shall be admitted to the United States for so long a period as he maintains his status as a trader or dependent; *Provided,* That the period shall be deemed not to exceed the time during which the trader or dependent continues to fulfill all of the conditions of admission prescribed in § 121.3.

2. Paragraphs (b), (d), and (e) of § 121.3 are amended and a new paragraph (g) is added to that section so that taken with the introductory sentence those four paragraphs will read as follows:

§ 121.3 *Conditions of admission.* The conditions under which an alien may be admitted to the United States as a trader or dependent shall be that he:

• • • • •

(b) Agrees that he will not remain in the United States beyond the date 60 days prior to the end of the period during which he will be eligible for readmission to the country whence he came or for admission to some other country, as evidenced by a valid passport or other travel document; agrees to leave the United States as soon as he ceases to maintain his status as a trader or dependent; and establishes that he has the ability to leave.

• • • • •

(d) Presents whatever document or documents are required by the applicable Executive order or orders, or by Part 176 of this chapter or any other applicable regulations prescribing the documents to be presented by aliens entering the United States as traders or dependents, such document or documents to include, if required, evidence of compliance with all applicable provisions of Title III of the Alien Registration Act, 1940 (54 Stat. 673; 8 U. S. C. 451), relating to registration and fingerprinting.

(e) Furnishes bond on Form I-338 in a sum of not less than $500 to insure that he will depart from the United States upon failure to comply with the conditions under which he is admitted, if such bond is required by an officer in charge or by a board of special inquiry or pursuant to an order entered on appeal from the decision of such board, and agrees to furnish such bond at any time subsequent to admission into the United States if required to do so by the appropriate district director.

• • • • •

(g) Agrees to make a report to the appropriate district director annually showing that he:

(1) Continues to be eligible for readmission to the country whence he came or for admission to some other foreign country; and

(2) Has fulfilled and will continue to fulfill all applicable conditions of admission prescribed by this section.

The provisions of this section shall be applicable to traders and dependents admitted into the United States on or after December 7, 1948.

3. Section 121.4, relating to extensions of stay, is revoked.

4. Paragraph (a) of § 121.5, *Arrest and deportation*, is amended to read as follows:

(a) An alien admitted as a trader or dependent shall be deemed to have remained in the United States for a period longer than that permitted under law and regulations within the meaning of section 14 of the Immigration Act of 1924 if he violates, or fails or ceases to fulfill, any of the conditions of his admission to or stay in the United States.

5. Paragraph (b) of § 121.6, *Effect of prior regulations*, is amended to read as follows:

(b) The provisions of this part shall not be applicable to cases of aliens who were in the United States in the status of traders or dependents prior to December 7, 1948. Applicable regulations in effect prior to that date shall continue to be applicable to their cases: *Provided*, That any such aliens who have left the United States shall, upon seeking readmission as traders or dependents on or after December 7, 1948, be subject to the regulations in this part to the same extent that they would be if they were making original applications for admission.

6. Section 121.12 is amended to read as follows:

§ 121.12 *Maintenance-of-status report.* (a) A trader or dependent shall make an annual report as to his status to the appropriate district director, as required under § 121.3 (g). Such annual report shall be submitted on Form I–126 to the district director of the district in which he is engaged in trade or is staying at the time the report is submitted. All available data specified in Form I–126 shall be furnished by the applicant. The report shall be accompanied by the applicant's passport and by any visitor's permit (Form 257a or I–94) issued to him.

(b) After examination of the report on Form I–126 and accompanying documents and after making such inquiry as may be necessary, the district director shall make a decision as to whether or not the alien is complying with the conditions of his admission into the United States. Such decision shall be final, except that (1) the Commissioner may from time to time require certain classes of cases or individual cases to be submitted to him for review or for decision; and (2) if the trader or dependent has gone to another district the district director may send the case, with pertinent files and information, to the director of the other district for final action. The district director shall send to the trader or dependent written notice of the decision, accompanied by any passport and Form 257a or I–94 submitted with the report. If one of those forms is submitted with the report and the decision is favorable to the trader or dependent, notice of the decision may be given by placing on the form a signed endorsement, which shall include the date of the decision. If the decision is unfavorable to the trader or dependent, the district director making the decision shall take appropriate action with a view to enforcing the alien's departure or removal from the United States, and the notice to the alien of such decision shall include information as to the intended action.

(c) When the district director notifies a trader or dependent of the decision made under paragraph (b) of this section, he shall also notify the officer in charge at the port where the trader or dependent was admitted of the terms of the decision.

(d) If the officer in charge at the port of entry where the trader or dependent was admitted has not received any notice required under paragraph (c) of this section or has not ascertained and cannot ascertain that the trader or dependent has departed from the United States, such officer shall report the facts to the director of the district in which the alien is believed to be engaged in trade or is staying.

7. The following section is added:

§ 121.14 *Printed instructions for traders and dependents.* To the extent practicable, traders and dependents shall at the time of their admission be given printed instructions showing the conditions of their admission and how they are expected to comply with immigration regulations while in the United States.

The regulations stated above shall become effective on the thirty-first day following their publication with this order in the FEDERAL REGISTER.

The general basis for the regulations is the determination that it is advantageous to the Government and to persons concerned to define fully the conditions covering the admission, reports of status, and departure of aliens coming to the United States as treaty traders under section 3 (6) of the Immigration Act of 1924, as amended. The general purpose of the regulations is to change the period for which an alien treaty trader or dependent may be admitted to the United States from one year to an indefinite period, the length of such period to be governed by his maintenance of status as a trader or dependent.

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of Industry and Commerce

[5th Gen. Rev. of Export Regs., Amdt. 16]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

FERROUS OR NONFERROUS COMMODITIES AND SUGAR

1. Section 373.11 *Special provisions for ferrous or nonferrous commodities, including ores, concentrates, or unrefined products* is amended in the following particulars:

A new paragraph (d) is added thereto to read as follows:

(d) *Nonferrous metal alloys.* The following provisions are applicable to all nonferrous metal alloys (including bimetals, thermometals, etc.) on the Positive List with the processing code NONF: applications for licenses to export such commodities must contain, in item 9 (b) of Form IT–419, a complete commodity description, including the percentage of each alloying element present or the recognized standard commercial brand or trade name of the commodity (such as are published in "Engineering Alloys" by the American Society for Metals).

2. A new section (§ 373.15) is added to read as follows:

§ 373.15 *Special provisions for sugar.*—(a) *Application requirements.* Applications for licenses to export sugar, Schedule B No. 161905, must be accompanied by the following certification:

I (we) hereby certify that the sugar covered by this application is refined sugar produced from raw sugar imported for the purpose of refining and reexport, in compliance with a bond (Form SU–17 of the U. S. Department of Agriculture), filed by _____ (name of refiner) with the U. S. Department of Agriculture, covering entry No. ------ pursuant to the Sugar Act of 1948.

(b) *Definition.* As used in this section, "refined" sugar includes all sugar classified under Schedule B No. 161905 except raw sugar.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter A—General

PART 200—GENERAL

SUBPART B—FEDERAL HOUSING ADMINISTRATION PROCEDURE

MORTGAGE INSURANCE ON COOPERATIVE PROJECTS

Subpart B is hereby amended by adding the following new § 200.11:

§ 200.11 *Mortgage insurance on cooperative projects*—(a) *Purpose.* To encourage the construction of good housing at cost by corporations formed on a cooperative basis and which cover property held by a nonprofit cooperative ownership housing corporation or nonprofit cooperative ownership housing trust, the permanent occupancy of the dwellings of which is restricted to members of such corporation or to beneficiaries of such trust; or a nonprofit corporation or nonprofit trust organized for the purpose of construction of homes for members of the corporation or for beneficiaries of the trust. Provisions are made in section 213 to offer special inducements to veterans of World War II in that the maximum mortgage amount is allowed if at least 65 percent of the membership of the corporation or number of beneficiaries of the trust consist of veterans of World War II; if less than 65 percent of the membership of the corporation are veterans, the maximum ratio of loan to cost shall be increased by $\frac{1}{20}$ of 1 per centum of the membership of the corporation or number of beneficiaries of the trust which consist of veterans of World War II, if evidence satisfactory to the Commissioner is furnished to establish that the benefits of such increase will accrue to the members of the corporation or beneficiaries of the trust who are veterans of World War II.

(b) *Applicant.* The original applicant may consist of a group of as few as five persons who have joined together to form a cooperative project and appli-

cation may initially be filed without joinder therein by any approved mortgagee. Following the issuance of a Statement of Eligibility and prior to issuance of a Commitment, an approved mortgagee must join in the application.

(c) *Application.* The application for management type projects must be made on FHA Form 3201 and for sales type projects on Form 3202, together with the required exhibits. The application may be submitted directly to the FHA Insuring Office or, if desired, may be processed through an FHA approved mortgagee.

(d) *Processing and closing.* The administrative, fiscal and legal procedure for the processing and closing of cases under section 213 of the National Housing Act will be similar to the procedures used for section 207, Title II of the act. With few exceptions, substantially the same forms presently in use under section 207 or under section 603 of the act will be used except that these forms will be modified by deleting all reference to the section of the act for which previously used and inserting in lieu thereof the words "section 213."

(Sec. 2, 48 Stat. 1246, as amended; 12 U. S. C. and Sup., 1703. Interprets or applies sec. 114, Pub. Law 475, 81st Cong.)

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

JAPAN

In § 127.286 *Japan* (39 CFR 127.286; 15 F. R. 3685, 5862) make the following changes:

1. Amend paragraph (a) (6) *Observations* by the addition of subdivision (iii) to read as follows:

(iii) Correspondence with the Japanese Government or any agency thereof is permitted only on such subjects and under such conditions as may be prescribed by the military authorities. Those authorities have given general permission for individuals in the United States to correspond on philatelic matters and to obtain stamps from the Philatelic Section, Ministry of Postal Services, Tokyo, as well as individuals or commercial agencies in Japan. Individuals in the United States may also exchange information with interested agencies of the Japanese Government concerning scientific research.

2. Amend subdivision (i) of paragraph (a) (7) to read as follows:

(i) Dutiable articles (merchandise) except postage stamps, in letters and packages prepaid at the letter rate. Letters or letter packages containing stamps must bear the green label, Form 2976 (Cl), and the endorsement "Contains postage stamps" directly below the label. Form 2976-A should be enclosed.

3. Amend subdivision (ii) of paragraph (a) (7) by deleting subdivision (ii) (c) and (ii) (*d*) and by substituting in lieu thereof the following:

(c) The articles prohibited as parcel post are likewise prohibited in the regular mails.

4. Amend subdivision (ii) (b) and (ii) (c) of paragraph (b) (4) to read as follows:

(b) Gift parcels may contain only the following relief items: Nonperishable foods, mailable medicines in noncommercial quantities, clothing and clothes-making materials and shoes. The items mentioned must be for the personal use of the addressee or his family, or for the use of a charity hospital or a bona fide asylum for orphans or the aged. The controlling authorities in Japan have limited as indicated below the quantities

of the various items which may be included in a single gift parcel:

Assorted foodstuffs	Up to 22 pounds.
Medicines:	
Penicillin	Up to 9 million units.
Santonin	Up to 1 gram.
Phenacetin	Up to ½ pound.
Streptomycin	Up to 100 grams.
Vitamins and the like	100 ampules or 1 pound of tablets.
Aspirin	2 ounces.
Sulfa drugs	150 tablets.
Others	Reasonable amounts not in commercial quantities.
Clothing, new:	
Suits or dresses, adult	1 of each size.
Suits or dresses, children	2 of each size.
Shirts	3 of each size.
Underwear	6 pair.
Gloves	3 pair.
Socks and stockings	1 dozen pairs.
Hats, caps, and the like	2 items.
Boots or shoes	2 pairs of each size.
Handkerchiefs	1 dozen.
Sheets and such covering	5 items.
Towels	1 dozen.
Textiles for clothing, woolen	Sufficient for 2 suits.
Cotton or silk cloth	Sufficient for 2 dresses.
Woolen yarn	5 pounds.
Cotton thread (yarn)	2 dozen small rolls.
Sewing needles	2 small packets.

Used clothing, in moderate quantities, using above new goods standard as basis.

(c) Gift parcels whose contents conform to the foregoing will be delivered free of customs duties, but will be subject to a customs-clearance fee. Parcels sent as gifts which contain medicines in excess of the permitted amounts or in quantities exceeding the personal needs of the addresses will be treated as undeliverable. If such parcels contain tobacco products, soap, fountain pens, watches, or any other items not classed as relief material, the offending items will be charged with customs duty, and if the duty is not paid the entire parcel will be treated as undeliverable. Excessive amounts of clothing will likewise be subject to customs duty.

5. Amend subdivision (i) of paragraph (c) (2) to read as follows:

(i) Each parcel must be mailed as a gift by an individual sender to an individual addressee for the personal use of himself or his immediate family. The contents of "U. S. A. Gift Parcels" are limited as indicated under "Gift Parcels" in the caption "Parcel Post".

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369; and the terms of postal conventions and agreements entered into pursuant to R. S. 398, 48 Stat. 943; 5 U. S. C. 372)

§ 151.5 *Trial examiners.* Trial examiners, one of whom shall be known as the Chief Trial Examiner, shall be designated by the Solicitor to preside at the hearings of cases instituted under the rules in this subpart. Trial examiners shall rule upon procedural motions and requests and similar matters; hold conferences for the settlement or simplification of the issues; rule upon offers of proof and receive oral or documentary evidence; regulate the course of the hearing and the conduct of attorneys and witnesses; require, when they deem necessary, oral argument upon any question raised in the course of the hearing or at the close thereof, and limit such argument as to time and subject matter. Hearings shall be conducted in such a way as to afford to the parties a reasonable opportunity to be heard on matters relevant to the issues involved and to obtain a clear and orderly record.

§ 151.6 *Hearings.* Hearings are held in Room 3237, Post Office Department, Washington, D. C., and in such other rooms as may be designated by the Solicitor.

§ 151.7 *Admission to practice.* Attorneys appearing in behalf of respondents shall be required, prior to such appearance, to obtain permission to practice before the Post Office Department in accordance with the "Procedure Governing the Admission of Attorneys to Practice before the Post Office Department" (Subpart B of this part): *Provided*, That the Solicitor may waive this requirement when in his discretion the circumstances so warrant. Upon request the Solicitor will furnish an applicant a copy of the rules of admission to practice.

§ 151.8 *Complaints.* Whenever the Chief of the Fraud Section of the Office of the Solicitor shall have reasonable cause to believe that any person, partnership, corporation, or association, is using the mails in the operation of an enterprise which is in violation of the provisions of any of the statutes referred to in § 151.1, he shall prepare and file with the Chief Trial Examiner a complaint naming the party or parties accused, specifying the alleged violations in such manner as to enable the accused to make answer thereto, and recommending that an order be issued against such party by the Postmaster General pursuant to the provisions of the statutes under which the proceedings are brought. The party accused shall be known as the respondent.

§ 151.9 *Notice of hearing.* If the Chief Trial Examiner shall determine that the complaint states facts sufficient to show probable cause to believe that the statutes therein invoked are being violated as alleged in the complaint, he shall issue to the respondent a notice of a hearing to be held upon a specified date at which he may appear and make defense to the complaint and oppose the recommendation of the Chief of the Fraud Section that an order be issued against him by the Postmaster General pursuant to the provisions of the statutes under which the proceedings are brought.

§ 151.10 *Service of complaint and notice.* (a) A duplicate original of the notice of hearing shall be transmitted to the postmaster at the office of ad-

dress of the respondent, and shall be delivered to the respondent by said postmaster or an employee of his post office; and a receipt acknowledging delivery of the notice shall be secured from the respondent or his agent, which receipt shall be forwarded to the Solicitor of the Post Office Department and shall become a part of the record in the case. Accompanying the notice of hearing shall be a copy of the complaint, a copy of the postal statutes involved, and a copy of the rules of practice in this subpart.

(b) In the event that no person can be found upon whom service of the notice of hearing and the aforesaid accompanying documents can be effected pursuant to paragraph (a) of this section, or in the event of the refusal of the respondent to execute the receipt provided for by paragraph (a) of this section, the notice of hearing may be delivered in the usual manner with other mail addressed to the respondent, and a statement to that effect showing the time and place of such delivery signed by the postal employee who so delivered the notice of hearing shall constitute evidence of service thereof.

§ 151.11 *Answers.* (a) The original and two copies of the respondent's answer shall be filed with the Chief Trial Examiner on or before the date fixed for the filing thereof in the notice of hearing. The answer shall contain a concise statement admitting, denying, or explaining each of the charges set forth in the complaint. The answer shall be signed by the respondent or his attorney, or, in the case of a corporation or association, by a responsible officer thereof. The answer shall set forth the respondent's address, and the name and address of his attorney, if he is so represented. If the respondent does not intend to appear at the hearing, he should so state in his answer.

(b) If the respondent fails to file an answer as directed in the notice of hearing, he shall be deemed to be in default, and further proceedings shall be had in accordance with § 151.22 (b).

(c) Answers, motions and all other pleadings shall be filed with the Chief Trial Examiner.

§ 151.12 *Compromises.* (a) If the respondent desires to dispose of the charges without a hearing, he may apply to the Solicitor for permission to file an affidavit providing for the discontinuance and abandonment of the enterprise charged to be unlawful upon such terms and conditions as may be prescribed by the Solicitor.

(b) An application for permission to file an affidavit of discontinuance should be filed before the date set for the hearing on the charges. Permission to dispose of a pending case on such basis shall rest in the discretion of the Solicitor and the granting of an application shall depend upon the nature of the charges and the circumstances involved.

§ 151.13 *Appearances.* (a) A respondent may appear and be heard in person or by attorney. A partnership may appear and be represented by a member thereof or by attorney. A corporation or association may appear by a duly authorized officer or by attorney.

(b) An attorney representing a respondent must file a written authorization from the respondent to represent him in the proceeding, prior to any participation therein.

(c) Where a respondent is represented by a duly authorized attorney the service of all subsequent pleadings, notices, and other papers shall be effected by mailing the same to his attorney at the post office address stated in his written authorization.

§ 151.14 *Amendment of pleadings.* An amendment of a pleading may be offered by any party at any time prior to the close of the hearing and such amendment may be allowed in the discretion of the trial examiner.

§ 151.15 *Continuances.* A continuance will be granted only for substantial cause shown, and then only for a short period.

§ 151.16 *Evidence.* (a) Except as otherwise provided in the rules of practice in this subpart, the rules of evidence governing civil proceedings in matters not involving trial by jury in the courts of the United States shall govern: *Provided, however,* That such rules may be relaxed by the trial examiner to insure an adequate and fair hearing.

(b) The testimony of witnesses shall be under oath or affirmation and witnesses shall be subject to cross-examination.

(c) Agreed statements of fact may be received in evidence.

(d) Official notice or knowledge may be taken of all matters of which judicial notice or knowledge may be taken by the Federal Courts.

(e) Medical or other scientific books or essays will not be admitted in evidence in lieu of oral expert testimony.

(f) Affidavits containing opinions or statements of an affiant will not be received in evidence, except as provided in § 151.18.

(g) Testimonials will not be received as evidence of the efficacy or quality of any product or thing sold through the mails.

§ 151.17 *Objections.* Objections to the admission of evidence shall include a brief statement of the grounds thereof. Formal exceptions to the rulings of the trial examiner are unnecessary. The record shall not include argument upon objections to the admission of evidence or to rulings of the trial examiner except as ordered by the trial examiner.

§ 151.18 *Written statements.* The trial examiner may receive in evidence, in lieu of oral testimony, the written statement of a competent witness: *Provided,* That such statement is relevant to the issues; *And further provided,* That the witness whose statement is offered shall testify under oath at the hearing that the statement is in all respects true, and, in the case of expert witnesses, that the statement correctly states his opinion or knowledge concerning the matters in issue.

§ 151.19 *Subpenas.* The Post Office Department is not authorized by law to issue subpenas requiring the attendance or testimony of witnesses.

§ 151.20 *Witness fees.* The Post Office Department cannot pay witness fees or expenses to witnesses for a respondent.

§ 151.21 *Prehearing procedure.* (a) In any proceeding the Chief Trial Examiner in his discretion may direct the parties or their attorneys to appear before a trial examiner for a conference to consider:

(1) The simplification of the issues;

(2) The necessity or desirability of amendments to the pleadings;

(3) The possibility of obtaining admissions of fact and of consenting to the admissibility of documentary evidence without formal identification;

(4) The limitation of the number of witnesses to be heard on any issue;

(5) Such other matters as may aid in the disposition of the proceeding.

(b) The trial examiner shall make an order which recites the action taken at the conference, the amendments allowed to the pleadings, and the agreements made by the parties as to any of the matters considered, and which limits the issues for hearing to those not disposed of by admissions or agreements of counsel; and such order when entered shall control the subsequent course of the proceeding, unless modified at the hearing to prevent manifest injustice.

§ 151.22 *Transcript.* (a) The Post Office Department shall cause a record and transcript to be made of all proceedings in which the respondent files an answer and appears at the hearing either in person or by counsel. The transcript, together with all pleadings, orders, exhibits, briefs, and other documents filed in the proceeding, shall constitute the official record of the case upon which the final decision will be based.

(b) If the respondent desires a copy or copies of the transcript of proceedings, he shall apply therefor in writing to the trial examiner prior to the completion of the hearing. Payment by the respondent for such copy or copies of the transcript, at the rate of twenty-five cents per page per copy shall be made in full to the Department prior to the delivery thereof to him. If more than one copy of the transcript is desired by the respondent, he shall deposit with the Department such part of the estimated cost of such copies as shall be fixed by the trial examiner.

(c) In proceedings in which the respondent fails to file an answer or, having made answer, fails to appear at and participate in the hearing, the trial examiner may prepare and certify a summary of the proceedings and the testimony of the witnesses appearing for the Government, identifying therein documentary evidence received. This summary of the proceedings and the testimony, together with all pleadings, orders, exhibits, briefs, and other documents filed in the proceedings, shall constitute the official record upon which the final decision will be based.

§ 151.23 *Oral argument.* The trial examiner may permit oral argument on behalf of the parties to the proceeding at the conclusion of the hearing, and he shall limit such oral argument as to time and subject matter. The Government shall have the right to open and close the arguments.

§ 151.24 *Briefs.* The trial examiner in his discretion may permit the filing of briefs in any case where answer has been filed, and he shall give notice of such permission to each party from whom he desires a brief, fixing the time in said notice within which briefs must be filed; and he may indicate in such notice what issues of law or fact he desires to be argued in such briefs.

§ 151.25 *Petitions to reopen proceedings.* (a) An application to reopen the proceedings for the purpose of offering additional evidence or for further argument must be made by petition, expeditiously filed with the trial examiner, stating specifically the grounds relied upon.

(b) A petition to reopen the hearing for the purpose of offering further evidence must (1) state the relevancy, nature, and purpose of the evidence and the names and addresses of the witnesses by whom it will be adduced; (2) show that such evidence would not be merely cumulative, and that the failure previously to present such evidence was not due to lack of reasonable diligence; and (3) show good reason why the petition should be granted.

(c) Such petition shall be accompanied by a sworn statement of the party or his attorney that the petition is filed in good faith and not for purposes of delay.

§ 151.26 *Decision and order.* Upon the basis of the official record, the trial examiner shall make findings of fact pertinent to the issues involved, together with his recommendation as to the action to be taken. The summary of the proceedings and testimony provided for in § 151.22 (b) may be included in the written findings of fact and certified by the trial examiner. The trial examiner's finding and recommendation, together with the official record, shall be transmitted to and considered by the Solicitor, who shall then state in writing his own recommendation. In cases where the Solicitor recommends the issuance of an order authorized under the statutes referred to in § 151.1, he shall transmit his recommendation, together with the official record, to the Postmaster General for final decision and action.

§ 151.27 *Supplementary orders.* Whenever substantial evidence is received by the Solicitor that any person or concern is evading or attempting to evade the provisions of any order theretofore issued by the Postmaster General after notice and hearing under any of the statutes referred to in § 151.1, such evidence shall be submitted forthwith to a trial examiner who shall make findings of fact based thereon, together with his recommendation as to the action to be taken. The trial examiner's findings and recommendation, together with said evidence, shall be transmitted to and considered by the Solicitor, who shall then state in writing his own recommendation. In any case where the Solicitor recommends the issuance of the appropriate supplemental order by the Postmaster General against a name or names then and there being employed for the purpose of continuing the use of the mails in the operation of the unlawful scheme against which the existing order was directed or any part thereof, the Solicitor shall transmit his recommendation, together with said evidence, to the Postmaster General for final decision and action.

§ 151.28 *Foreign orders.* Whenever substantial evidence is received by the Solicitor that any person or concern in a foreign country is using or causing the United States mails to be used in the operation of any enterprise in violation of any of the statutes referred to in § 151.1, such evidence shall be submitted forthwith to a trial examiner who shall make findings of fact based thereon, together with his recommendation as to the action to be taken. The trial examiner's findings and recommendation, together with said evidence, shall be transmitted to and considered by the Solicitor, who shall then state in writing his own recommendation. In any case where the issuance of an order by the Postmaster General, directed against the operation of such unlawful enterprise, is recommended by the Solicitor, he shall transmit his recommendation, together with said evidence to the Postmaster General for final decision and action.

§ 151.29 *Revocation and modification of orders.* Any person or concern against whom an order has been issued by the Postmaster General under any of the statutes referred to in § 151.1, may file application for the revocation or modification of such order by the elimination therefrom of any name or names against which the provisions of the order apply. The application should be addressed to the Solicitor of the Post Office Department, Washington 25, D. C. The applicant must make a sworn statement to the effect that the unlawful enterprise against which the order is directed is no longer being conducted under the name or names sought to be relieved of the provisions of the order and that the unlawful scheme will not be resumed in the future under such names or any other names. If, after investigation and consideration of such application, it shall appear that the application has been made in good faith and that the granting thereof will not result in further operation of the unlawful enterprise involved, the Solicitor may recommend to the Postmaster General the revocation of the order in question or so much thereof as may be proper under the facts of the particular case and the exigencies of properly enforcing the postal laws involved therein. Applications will be promptly considered and will be handled as expeditiously as practicable and with due recognition of the pertinent circumstances and the nature of the business involved.

The foregoing rules of procedure shall be effective upon publication in the FEDERAL REGISTER.

[SEAL] J. M. DONALDSON,
Postmaster General.

AUTHORITY: §§ 52.1 to 52.18 issued under sec. 215, 58 Stat. 690; 42 U. S. C. 216. Interpret or apply sec. 402, 58 Stat. 707; 42 U. S. C. 282.

§ 52.1 *Definitions.* As used in this part:

(a) "Act" means the Public Health Service Act approved July 1, 1944, 58 Stat. 682, as amended.

(b) "Allotment" means funds allotted to a State on the basis of the formula prescribed in the regulations of this part and to be expended under plans submitted by the State health authority. (Sec. 52.2 to 52.14, relate to allotted funds.)

(c) "Exception" means the amount of Federal funds expended contrary to this part or the State plan.

(d) "Federal funds" means funds appropriated by Congress for carrying out the purposes of title IV of the act.

(e) "Extent of cancer problem" means the ratio which the average annual number of deaths from cancer during the years 1942–46, inclusive, in each State bears to the total cancer mortality in the United States.

(f) "Financial need" as applied to any State means the relative per capita income, as shown by data supplied by the Bureau of Foreign and Domestic Commerce for the period 1943–47, inclusive.

(g) "Grantee" includes any State agency administering a cancer program and any university, hospital, laboratory, institution, or professional nonprofit organization whether public or private dealing with the cancer problem which receives a grant of Federal funds under the regulations in this part.

(h) "Official forms" means forms and instructions supplied by the Public Health Service to the State health authority for use in the submittal of State plans or information required with respect to the operation of such plans.

(i) "Political subdivision" includes counties, health districts, municipalities, and other subdivisions of the State established for governmental purposes.

(j) "Population" as applied to any State or political subdivision, means the total population thereof, as of July 1, 1947, according to the estimates of the Bureau of the Census.

(k) "Program" means the activities and services planned for the prevention, control, and eradication of cancer.

(l) "Project grant" means funds allotted to a grantee for carrying out specific programs of a noncontinuing nature, relating to the prevention, control, and eradication of cancer, including training. (Secs. 52.15 to 52.18 relate specifically to projects.)

(m) "Public Health Service" means the Public Health Service in the Federal Security Agency.

(n) "State" includes any State, the District of Columbia, Hawaii, Alaska, Puerto Rico, or the Virgin Islands.

(o) "State health authority" means the official State agency administering the State health program.

(p) "State plan" refers to the information and proposals, including budgets, submitted by the State health authority pursuant to the regulations in this part for activities of the States and political subdivisions thereof for the prevention, control, and eradication of cancer.

§ 52.2 *Basis of allotments.* Of the total sum determined by the Surgeon General to be available for the fiscal year 1951 for grants to States on a formula basis, allotments to the several States shall be as follows:

Sixty percent on the basis of population weighted by financial need.

35 percent on the basis of the extent of the cancer problem.

5 percent on the basis of relative population density.

§ 52.3 *Allotments; time of making; duration.* (a) Allotments for the first six months shall be made prior to the beginning of the fiscal year or as soon thereafter as practicable, and shall equal not less than 60 percent nor more than 70 percent of the total sum determined to be available for allotment. At the end of the second quarter, the amounts of allotments for the first six-month period which have not been certified for payment to the respective States pursuant to § 52.7 shall become available for allotment among the States in the same manner as moneys which had not previously been allotted.

(b) Allotments for the remaining six months shall be made prior to the beginning of the third quarter or as soon thereafter as practicable, and shall equal the total sum remaining unpaid and unalloted from the amount available for allotment during the fiscal year.

(c) The Secretary of the Treasury and the respective State health authorities shall be notified of the amounts of allotments and of the period for which they are made.

§ 52.4 *State plans; mode of submittal.* (a) Each State making application for grants for a cancer control program shall submit plans through its State health authority. A State making such an application may consolidate its plan with the plans submitted in accordance with section 314 of the act: *Provided*, That the information specifically required for a State plan is distinguished with respect to each purpose.

(b) The State plan shall be prepared in accordance with official forms supplied by the Public Health Service for the purpose and may be amended with the approval of the Surgeon General or his designee.

§ 52.5 *State plans; contents.* A state plan for a cancer-control program shall include:

(a) A description of the current organization for and health services included in the program and the proposals for extending, improving, and otherwise modifying such organization and services;

(b) Provision for cancer services in substantial accordance with nationally accepted standards;

(c) A budget by project totals for carrying out the services described under paragraph (a) of this section;

(d) A statement that the plan if approved will be carried out as described and in accordance with the regulations in this part.

§ 52.6 *State plans; time of submittal and approval.* (a) State plan shall be submitted prior to July 1, 1950, or as soon thereafter as practicable.

(b) A plan or amendment thereto shall not be approved for any period antedating receipt of such plan by the Public Health Service: *Provided*, That exceptions to this rule may be made by the Surgeon General when necessary to meet emergencies.

(c) The budget for cancer services shall not be approved unless each item thereof relates to activities described in the State plan.

§ 52.7 *Payments to States.* Payments from allotments to a State having an approved plan shall not exceed the allotment to such State or the total estimated expenditure necessary for carrying out the State plan, whichever is less. Subject to the foregoing limitations, payments shall be made as follows:

(a) Payment for the first quarter shall be based upon an application for funds showing the State's estimated requirement for such quarter.

(b) Payment for the second quarter shall be the amount of the difference between the unpaid balance of the allotment of the respective State for the first six months and the unencumbered cash balance of the Federal funds in the State Treasury at the beginning of the first quarter, adjusted for exceptions.

(c) Payment for subsequent quarters from the allotment for the final six-month period shall be made once in each quarter and shall be based upon an application for funds showing the estimated requirements for such quarter and the estimated unencumbered balance of Federal funds in the State Treasury at the beginning of the quarter for which payment is to be made. All such payments shall be in the amount of the difference between the estimated requirement and the estimated unencumbered cash balance adjusted for exceptions, except that the amount paid for either the third or the fourth quarter, together with the estimated unencumbered balance of Federal funds in the State Treasury at the beginning of the quarter, shall not exceed 35 percent of the total amount available to the State for the year.

(d) Any amount in excess of 35 percent of the total allotment to a State remaining unpaid after the third quarter payment, and any unpaid balance in the allotment of a State remaining unpaid after the final payment to a State, shall be available for special project grants.

(e) Payments from allotments shall not be certified unless an application for payment and all reports and documents prescribed by the regulations in this part to be due have been received.

§ 52.8 *Required expenditure of State and local funds.* (a) Moneys paid to any State for carrying out an approved State plan shall be paid on the condition that there be expended in the State, during the fiscal year 1951 and for purposes specified in the State plan, public funds of the State and its political subdivisions (excluding any funds derived by loan or grant from the United States) and contributions made available by voluntary agencies for carrying out the State plan in an amount equal to 50 percent of the amount of Federal funds to be expended pursuant to the State plan.

Required expenditures of State and local funds may include funds available specifically for cancer programs and funds for generalized service to the extent that such expenditures contribute to the cancer program and are not used to meet the requirements for State and local expenditures of other Federal grant programs.

(b) Federal funds paid to a State for its cancer control program shall not be used to conserve State and local funds otherwise available for such purpose.

§ 52.9 *Expenditure of Federal funds.* (a) Federal funds paid to a State shall be expended solely for the purposes specified in plans approved by the Surgeon General or his designee, and in accordance with the regulations in this part.

(b) Except as otherwise authorized by the Surgeon General, the provisions of State law which are applicable to the expenditure of moneys appropriated by the State shall apply to the expenditure of Federal moneys paid to the State.

(c) All encumbrances of Federal funds shall be liquidated within two years after the end of the fiscal year in which the encumbrance was incurred unless otherwise authorized by the Surgeon General. The amount of encumbrances not so liquidated, adjusted by such amounts as otherwise authorized, will be treated for the purpose of determining payments under the regulations in this part as constituting a part of the unencumbered cash balance at the end of the second succeeding fiscal year.

§ 52.10 *Use of Federal funds for training.* Use of Federal funds for training personnel for State and local health work shall be authorized by the State health authority in accordance with "Minimum Standards for Sponsored Training of the Public Health Service." Records of authorized training shall be maintained in the State health agency and shall be audited for compliance with these standards.

§ 52.11 *Personnel administration on a merit basis.* A system of personnel administration on a merit basis shall be established and maintained for personnel employed in the program, the budget of which provides for the expenditure of Federal funds or of State or local funds for matching purposes. Standards for evaluating compliance with this requirement shall be contained in "merit system standards of the Public Health Service" in effect at the time of the expenditure.

§ 52.12 *Fiscal accounting and controls.* (a) The principal State accounting officer shall maintain either (1) a separate and distinct fund account for Federal cancer funds; or (2) a separate and distinct fund account for each State agency in which all Public Health Service grants may be commingled with other Federal grants (but no other funds) available to such agency.

(b) The State and local public health agencies receiving cancer funds under the regulations in this part shall establish and maintain efficient methods for conducting fiscal affairs (including financial and property controls). Each State agency shall maintain a separate and distinct fund account for the Public Health Service cancer grant.

§ 52.13 *Reports.* The Surgeon General may require the submission of information pertinent to the operation of the State plan and to the purpose of the grant, including the following, which wherever possible may be consolidated with data furnished in accordance with section 314 of the act: *Provided*, That the information specifically required for the cancer control program is identified:

(a) A certification on an official form as to the amount of State and local funds available for carrying out the State plan shall be due in duplicate prior to October 1, 1950.

(b) Quarterly reports on official forms showing (1) total receipts, expenditures, unliquidated encumbrances, and balances of Federal funds, and (2) for the first three quarters, total quarterly expenditures from Federal grants and other sources for each activity shown in the budget for cancer control shall be due in duplicate 45 days after the close of the quarter.

(c) An annual report on an official form showing total expenditures from Federal funds and other sources for each activity shown in the budget for cancer control shall be due in duplicate on October 1, 1950.

(d) A report on an official form showing personnel, facilities, and services for each local health organization included in the current State plan shall be due in duplicate on February 15, 1951.

§ 52.14 *Audits.* Audits of the activities and program described in the State plan may be made after prior consultation with the State health authority. Records, documents, and information available to the State health authority pertinent to the audit shall be accessible for purposes of audit.

§ 52.15 *Project grants; eligibility; submission of plan; approval.* State health agencies, uhiversities, hospitals, laboratories, institutions, or professional nonprofit organizations, public or private, will be eligible to apply for funds for projects relating to cancer control. The applicant shall submit plans for such projects through the State health authority.

§ 52.16 *Project plans; contents.* A project plan with respect to a cancer grant shall describe:

(a) The current organization and functions of the applicant, personnel available for cancer activities, objectives of the project and techniques for operation; and

(b) The amount of funds available to the applicant for the project, the amount of Federal funds required, the personnel needed, the cost of permanent equipment, consumable supplies, travel, and other expenses (itemized) and the period during which the project will be operated.

§ 52.17 *Payment to project grantees; unused funds.* Upon the approval of a project plan the total amount of the project will be paid directly to the grantee. A separate and distinct fund account shall be maintained by the grantee for the Federal funds paid under this part. Any balances of the grant remaining unspent at the close of the project shall be returned to the Treasury of the United States.

§ 52.18 *Project expenditures; required reports; audits.* Federal funds paid to a project grantee shall be expended solely for the purposes specified in the project plan approved by the Surgeon General and in accordance with the regulations in this part. Progress and financial reports shall be submitted to the Surgeon General by the grantee at the end of the approved project year. Audit of the activities described in the project plan may be made after prior consultation with the grantee. Records, documents, and information available to the grantee pertinent to the audit shall be accessible for purposes of audit.

Effective date; prior regulations superseded. The regulations in this part which become effective upon the date of their publication in the FEDERAL REGISTER, shall apply for the fiscal year 1951, and with respect to such fiscal year, shall supersede the regulations heretofore contained in this part.

Dated: August 28, 1950.

[SEAL] LEONARD A. SCHEELE,
Surgeon General.

Approved: September 1, 1950.

JOHN L. THURSTON,
Acting Federal Security Administrator.

Section 73.32 (n) (order April 28, 1950) is amended to read as follows:

(n) Each outlet of portable tanks used for the transportation of liquefied compressed gases, except carbon dioxide, shall be provided with a suitable automatic excess-flow valve. These valves shall be located inside the tank or at a point outside the tank where the line enters or leaves the tank. The valve seat shall be located inside the tank or shall be located within a welded flange or its companion flange, or within a nozzle, or within a coupling. The installation shall be made in such a manner as reasonably to assure that any undue strain which causes failure requiring functioning of the valve shall cause failure in such a manner that it will not impair the operation of the valve. Exception: Safety device connections and liquid level gauging devices which are so constructed that the outward flow of tank contents shall not exceed that passed by a No. 54 drill size opening are not required to be equipped with excess-flow valves.

Section 73.33 (c) (order February 13, 1950) is amended to read as follows:

(c) Any cargo tank of ICC Specification MC320 constructed or put in service on and after February 1, 1942, and prior to May 15, 1950, fulfilling the requirements of that specification may be continued in service for the transportation of a liquefied petroleum gas if it is retested every five years in accordance with the requirements of paragraph (k) (1) of this section: *Provided*, That it is in and can be maintained in safe operating condition for the transportation of that gas, and shall be marked "ICC Specification MC320" on the plate required by Specification MC330.

Section 73.33 (m) (5) (order February 13, 1950) is amended to read as follows:

(5) All hose, wherever used, shall be designed for a bursting pressure not less than four times the design working pressure of the tank with which it is used, and not less than four times that pressure to which, in any instance, it may be subjected in service by the action of a pump or other device, the action of which may be to subject the hose to pressures greater than the design working pressure of the tank. Any coupling used on hose to make connections shall be designed for a working pressure, not less than 20 percent in excess of the design working pressure of the hose, and shall be so designed that there will be no leakage when connected.

Section 73.33 (o) (order April 28, 1950), is amended to read as follows:

(o) Each outlet of cargo tanks used for the transportation of liquefied compressed gases, except carbon dioxide, shall be provided with a suitable automatic excess-flow valve or in lieu thereof may be fitted with quick closing internal valves. The quick closing internal valve shall be operated by an independent fluid medium. These valves shall be located inside the tank or at a point outside the tank where the line enters or leaves the tank. The valve seat shall be located inside the tank or shall be located within a welded flange or its companion flange, or within a nozzle, or within a coupling. The installation shall be made in such a manner as reasonably to assure that any undue strain which causes failure requiring functioning of the valve shall cause failure in such a manner that it will not impair the operation of the valve. Exception: Safety device connections and liquid level gauging devices which are so constructed that the outward flow of tank contents shall not exceed that passed by a No. 54 drill size opening are not required to be equipped with excess-flow valves.

SUBPART B—EXPLOSIVES, DEFINITIONS AND PREPARATION

Section 73.61–5 (g) (1) (i) (order February 3, 1950), is amended to read as follows:

(i) Pasteboard cartons containing not more than 100 caps each. Gross weight not to exceed 150 pounds, except for export shipment.

Section 73.65 Note to (a) (3) (order February 3, 1950), is canceled.

Section 73.68 (p) (order February 3, 1950), is amended to read as follows:

(p) Toy paper caps, consisting of paper cap ammunition for toy pistols, in sheets, strips, rolls; or individual caps, must not contain more than an average of twenty-five hundredths of a grain of explosive composition per cap and must be packed in inside packages constructed of cardboard not less than 0.013 inch in thickness or of metal not less than 0.008 inch in thickness which shall provide a complete enclosure and the minimum dimensions of each side or end of such package shall be not less than ⅛ inch in height. Unless greater weight of composition is approved by the Bureau of Explosives, the number of caps in these inside packages shall be limited so that not more than 10 grains of explosive composition shall be packed into one cubic inch of space and not exceeding 17.5 grains of the explosive composition of toy caps shall be packed in any inside container. These inner containers must be packed in outside containers as specified in § 73.77.

Section 73.76 (b) (2) (order February 3, 1950), is amended to read as follows:

(2) *Spec. 12B.* Fiberboard boxes, provided that ends of boxes are reinforced to prevent penetration of spikes through the outside container when the completed package, prepared for shipment, is subjected to two drops from a height of 4 feet on a solid surface and so as to strike diagonally with the spikes in a downward position. Gross weight not to exceed 65 pounds, except that gross weight not to exceed 75 pounds is authorized in boxes made in accordance with paragraph 32 of Spec. 12B.

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS

Section 73.154 (formerly sec. 154, order August 16, 1940), is amended by adding paragraph (zz) as follows:

(zz) Sodium, metallic, dispersion in organic solvent.

Section 73.158 (b) (order November 4, 1946), is amended to read as follows:

(b) *Spec. 15A or 15B.* Wooden boxes with inside fiber containers securely closed by taping or gluing, not over 1 pound capacity each. Each inside container surrounded by asbestos or fire-resistant cushioning material which will protect contents with equal efficiency; net weight in outside container must not exceed 50 pounds.

Section 73.190 (b) (7) (formerly sec. 190 (b) (7), order August 16, 1940), is amended to read as follows:

(b) (7) *Spec. 103 or 103W.* Tank cars, without bottom discharge outlet and with approved dome fittings, external heater systems, and with insulation at least 4 inches in thickness, except that thickness of insulation may be reduced to 2 inches over external heater coils. The material must be immersed in water and must be loaded at a temperature not exceeding 140° F. and then cooled until the water has a temperature not exceeding 105° F. before car is offered to carrier. The water must be loaded in the dome to not more than 50 percent of the capacity of the dome.

[Note remains the same.]

Section 73.207 (c) (order April 19, 1948), is amended to read as follows:

(c) Sodium sulfide containing 35 percent or more combined water by weight, fused or concentrated but not ground (may be chipped, flaked, or broken), is exempt from specification packaging and labeling requirements, when packed in steel barrels or drums that are equipped with moisture-tight closures.

Add section 73.217 (order August 16, 1940), as follows: § 73.217 *Sodium, metallic dispersion in organic solvent.* (a) Sodium, metallic dispersion in organic solvent must be packed in specification containers as follows:

(1) Spec. 15A.—Wooden boxes with inside containers which must be metal cans not exceeding one quart capacity, and each such can must be packed in another metal can and cushioned on all sides with at least one inch of soda ash. Both the inner and outer metal can shall be equipped with an airtight closing device secured by positive means (not friction). Gross weight of completed package must not exceed 100 pounds.

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS

Section 73.261 (b) (2) (formerly sec. 261 (b) (2), order October 27, 1947), is amended to read as follows:

(b) (2) Fire-extinguisher charges consisting of sulfuric acid in strong 8-fluid ounce or smaller bottles, securely closed and packed with bicarbonate of soda completely surrounding the bottles of acid in outside fiberboard or wooden boxes. Closure must consist of a metal cap lined with an acid-resistant washer or a composition stopper of material that will not be attacked by the acid.

Section 73.263 (a) (1) (formerly sec. 263 (a) (1), order August 16, 1940), is amended to read as follows:

§ 73.263 *Hydrochloric (muriatic) acid, hydrochloric acid mixtures, and sodium chlorite solution.* (a) (1) Hydrochloric (muriatic) acid, hydrochloric acid mixtures, and sodium chlorite solution not exceeding 40 percent sodium chlorite must be packed in specification containers as follows:

Section 73.263 (a) (10) (formerly sec. 263 (a) (10), order January 23, 1946), is amended to read as follows:

(a) (10) Spec. MC 310.—Tank motor vehicles, lined with rubber or equally acid-resistant material of equivalent strength and durability.

Section 73.272 (formerly sec. 272, orders August 16, 1940, November 8, 1941, June 29, 1945, August 19, 1946, February 3, 1948, September 21, 1949, and April 28, 1950), is amended to read as follows:

§ 73.272 *Sulfuric acid.* (a) Sulfuric acid (oleum, oil of vitriol, etc.) must be packed in specification containers as follows:

(b) Sulfuric acid solutions of not over 25 percent concentrations, in inside containers of not more than 8 ounces capacity each, resistant to the lading, packed in strong outside containers and cushioned with absorbent material in sufficient quantity to completely absorb liquid contents in event of breakage, are exempt from specification packaging, marking and labeling requirements for transportation by rail freight, rail express or highway. When for transportation by carrier by water they are exempt from specification packaging and labeling requirements and marking, other than name of contents.

(c) For sulfuric acid of any concentration:

(1) *Spec. 15A, 15B, 15C, 16A, or 19A.* Wooden boxes with glass or earthenware inside containers, not over one gallon capacity each, except that such containers up to three gallons capacity may be used when only one such container is packed in each outside wooden box.

(2) *Spec. 31.* Jugs in tubs.

(3) *Spec. 11A or 11B.* Wooden barrels or kegs with glass or earthenware inside containers not over 2 gallons capacity each.

(4) *Spec. 1X.* Boxed carboys of 5 to 6 gallons capacity; single-trip for export only. For shipment via common carriers by water to noncontiguous territories or possessions of the United States and foreign countries; shipments from inland points in the United States which are consigned to such destinations are authorized to be transported to ship side by rail freight in carload lots only and by motor vehicle in truckload lots only.

(d) For sulfuric acid of concentrations not less than 100 percent and not more than 115 percent (approximate):

(1) *Spec. 5C.* Metal barrels or drums of Type 304, 316, or 347 stainless steel or other types of stainless steel of equivalent corrosion resistance and physical properties.

(e) For sulfuric acid of concentrations not to exceed 100.5 percent:

(1) *Spec. 1A or 1C.* Carboys in boxes or kegs.

(2) *Spec. 1D.* Boxed glass carboys of not over 6.5 gallons nominal capacity.

(f) For sulfuric acid of concentrations not to exceed 93.2 percent (approximately 1.835 specific gravity) (66° Baume):

(1) *Spec. 5H.* Metal barrels or drums.

(g) For sulfuric acid of concentrations 77.5 percent (approximately 1.7019 specific gravity) (59.8° Baume) or greater concentrations with or without an inhibitor provided such acid has a corrosive effect on steel measured at 100° F. no greater than 66° Baume commercial sulfuric acid:

(1) *Spec. 5A.* Metal barrels or drums.

(2) *Spec. 17F.* Metal barrels or drums (single-trip only). Drums equipped with vented closures of an experimental type approved by the Bureau of Explosives are also authorized for export shipments.

(h) For sulfuric acid of concentrations 65.25 percent (approximately 1.559 specific gravity) (52° Baume) or greater concentrations, provided the corrosive effect on steel measured at 100° F. is not greater than that of 52° Baume commercial sulfuric acid:

(1) *Spec. 60.* Portable tank.

(2) *Spec. MC 310.* Tank motor vehicle.

(3) *Spec. 103A or 103A–W.* Tank cars.

(i) For sulfuric acid of concentrations not to exceed 51 percent (approximately 1.408 specific gravity) (42° Baume):

(1) *Spec. 5D.* Rubber-lined metal drums.

(2) *Spec. 60.* Portable tanks (rubber-lined).

(3) *Spec. MG 310.* Tank motor vehicles (rubber-lined).

(4) *Spec. 103B or 103B–W.* Tank cars.

(j) Gaskets must be in a plastic condition when applied to carboys in boxes, barrels or kegs containing water-white sulfuric acid (electrolyte grade) of concentrations 77.5 percent (approximately 1.7019 specific gravity) (59.8° Baume).

(k) Soft rubber gaskets are authorized on carboys in boxes, barrels or kegs containing sulfuric acid of not over 51 percent concentrations (approximately 1.408 specific gravity) (42° Baume).

(l) Because of the present emergency and until further order of the Commission, sulfuric acid may be offered in transportation by carriers by water in conformity with Regulations for Explosives or Other Dangerous Articles on Board Vessels, § 146.23–10, issued by the Commandant of the Coast Guard.

Section 73.273 (d) (order September 21, 1949), is designated as paragraph (e), and add new paragraph (d), as follows:

(d) *Spec. 17F.* Metal drums (single-trip).

Add section 73.280 (order August 16, 1940), as follows:

§ 73.280 *Flame retardant compound, liquid.* (a) Flame retardant compound, liquid, must be packed in specification containers as follows:

(1) *Spec. 1A, 1B, or 1C.* Carboys in boxes or kegs which must be closed, and when reused must be reconditioned and tested, as provided in the specification.

(2) *Spec. 1D.* Boxed glass carboys of not over 6.5 gallons nominal capacity which must be closed, and when reused must be reconditioned and tested, as provided in the specification; means shall be provided so that accumulated pressure in bottle shall not exceed 10 pounds per square inch gauge at 130° F., or shall vent at a pressure not to exceed 10 pounds per square inch gauge.

(3) *Spec. 1X.* Boxed carboys of 5 to 6 gallons capacity, single-trip for export only. For shipment via common carriers by water to noncontiguous territories or possessions of the United States and foreign countries; shipments from inland points in the United States which are consigned to such destinations are authorized to be transported to ship side by rail freight in carload lots only and by motor vehicle in truckload lots only.

(4) *Spec. 10A.* Wooden barrels or kegs, lined with asphalt or rubber.

(5) *Spec. 11A, or 11B.* Wooden barrels or kegs with inside containers which must be glass or earthenware, not over 2 gallons each.

(6) *Spec. 15A, 15B, 15C, 16A, or 19A.* Wooden boxes with inside containers which must be glass or earthenware, not over 1 gallon each, except that inside containers up to 3 gallons are authorized when only one is packed in each outside container.

(7) *Spec. 28.* Metal-jacketed lead carboys.

(8) *Spec. 103B, 103B–W, 108, or 108A.* Tank cars.

SUBPART F—COMPRESSED GASES

Section 73.302 (h) (formerly sec. 302, order February 13, 1950), is amended to read as follows:

(h) Foodstuffs, soaps, or cosmetics, in metal cans with soluble or emulsified compressed gas, provided the pressure in the container does not exceed 105 pounds per square inch absolute at 70° F. or 140 pounds per square inch absolute at 130° F. The metal container must be capable of withstanding without bursting a pressure of two times the pressure of con-

Kind of gas	Maximum permitted filling density		Specification container required	
	Percent by weight (see Note 1)	Percent by volume (see § 73.303 (r) (1))	Type (see Note 2)	Minimum design working pressure (psig)
Anhydrous ammonia	56	82, see Note 5	ICC–51, MC–330	265.
Carbon dioxide	See sec. 303 (r) (c)	96	do	200, see Note 3.
Liquefied petroleum gas	See sec. 303 (r) (b)	See sec. 303 (r) (b)	do	See sec. 303 (r).
Nitrous oxide	See sec. 303 (r) (c)	97.5	do	700, see Note 3.
Sulfur dioxide (tanks not over 1,200 gal. water capacity)	125	97.5	do	150, see Note 4.
Sulfur dioxide (tanks over 1,200 gal. water capacity)	125	87.5	do	125, see Note 4.
Sulfur dioxide (portable tanks, D.I.T. 1,000–2,000 pounds water capacity (fusible plug))	125	See Note 6	ICC–51	225.

NOTE 1: Maximum filling density for liquefied gases is hereby defined as the percent ratio of the weight of gas in the tank to the weight of water that the tank will hold. For determining the water capacity of the tank in pounds, the weight of a gallon (231 cubic inches) of water at 60° F. in air shall be 8.32828 pounds.

NOTE 2: See §§ 73.32 and 73.33 for authority to use containers made prior to May 15, 1950.

NOTE 3: If cargo tanks and portable tank containers for carbon dioxide and nitrous oxide are designed to comply with the "Rules for Containers for Gases and Liquids at Temperatures of Minus 20 Degrees Fahrenheit and Below" of the A. S. M. E. Code, the design working pressure may be reduced to 100 psig or the controlled pressure, whichever is greater.

NOTE 4: A corrosion factor shall be applied in the design of tanks for sulfur dioxide.

NOTE 5: Unlagged cargo tanks and portable tank containers for liquid anhydrous ammonia may be filled to 87.5 percent by volume provided the temperature of the anhydrous ammonia being loaded into such tanks is determined to be not lower than 30° F. or provided the filling of such tanks is stopped at the first indication of frost or ice formation on the outside surface of the tank and is not resumed until such frost or ice has disappeared.

NOTE 6: Tanks equipped with fusible plugs must be filled by weight.

Section 73.303 (r) (b) (order February 13, 1950), is amended to read as follows:

(b) Maximum permitted filling densities for cargo tanks and portable tank containers for transportation of liquefied petroleum gases are as follows:

Maximum specific gravity of the liquid material at 60° F.	Maximum permitted filling density in percent of the water-weight capacity of the tanks		Maximum permitted filling density by volume

0.627–0.634	57	60	

NOTE 1: Same filling density as permitted by weight, except when using fixed length dip tube or other fixed maximum liquid level indicators (§ 73.303 (r) (1)), in which case the maximum permitted filling density shall not exceed 97 percent of the maximum permitted filling density by weight contained in the table.

Section 73.303 (k) table (formerly sec. 303 (k) table, order August 16, 1940), is amended as indicated below:

Kind of gas	Maximum permitted filling density (see sec. 303 (b))	Specification container required
		Cylinders* marked as shown in this column must be used except as provided in Note 1 and sec. 303 (p) (2) to sec. 303 (p) (6)

Section 73.303 (m) (4) (a), (m) (4) (b), (m) (4) (c), (m) (4) (d), and (m) (4) (e), as follows:

(m) (4) (a) Refrigerant gases which are non-poisonous and non-flammable under these regulations must be shipped in cylinders as prescribed in § 73.303 (k) or (m) (2) or as follows:

(m) (4) (b) Spec. 2P inside metal containers equipped with safety devices of a type approved by the Bureau of Explosives and packed in strong wooden or fiber boxes of such design as to protect valves from injury or accidental functioning under conditions incident to transportation.

(m) (4) (c) Pressure in the container must not exceed 85 pounds per square inch absolute at 70° F.

(m) (4) (d) Each completed metal container filled for shipment must be heated until content reaches a minimum temperature of 130° F. without evidence of leakage, distortion or other defect.

(m) (4) (e) Each outside shipping container must be plainly marked "Inside containers comply with prescribed specifications."

Section 73.303 (q) (1) table (formerly sec. 303 (q) (1) table, order August 16, 1940), is amended as indicated below:

Name of gas	Maximum permitted filling density, Note 1	Required type of tank car, Note 2
(Add) Dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture).	100, 105	ICC–106A500, Note 12; ICC–105A300.

Section 73.303 (q) (1) note 8 (formerly sec. 303 (q) (1) note 8, order January 25, 1945), is amended to read as follows:

NOTE 8: For tank cars of other than ICC 106A type, used for shipping chlorine, tests prescribed in paragraph 15 of spec. 105A300 must be made at intervals of 2 years or less and interior pipes of liquid discharge valves must be equipped with check valves of approved design.

Section 73.303 (q) (1) note 12 (formerly sec. 303 (q) (1) note 12, order March 7, 1949), is amended to read as follows:

NOTE 12: Tanks complying with specification 106A500, containing chlorine, anhydrous ammonia, sulfur dioxide, methyl chloride, dichlorodifluoromethane, monochlorodifluoromethane, monochlorotetrafluoroethane, vinyl chloride, inhibited, difluoroethane, dichlorotetrafluoroethane, dispersant gas, n. o. s., or dichlorodifluoromethane and difluoroethane mixture (*constant boiling mixture*), or tanks complying with specification 106A800, containing hydrogen sulfide, may be transported on trucks or semitrailers only, when securely chocked or clamped thereon to prevent shifting, and provided adequate facilities are present for handling tanks where transfer in transit is necessary. See § 74.560 (b) (2), for rail freight-motor vehicle shipments.

Section 73.303 (r) (a) (1) (order February 13, 1950), is amended to read as follows:

(1) Compressed gases must not be shipped in cargo tanks or portable tank containers except as provided under paragraph (r) of this section and §§ 73.32 and 73.33 and in the following table (for marking requirements see § 73.401 (a) (1) and § 77.823 (d)).

Section 73.303 (r) (1) (3) (order February 13, 1950), is amended to read as follows:

(3) Each safety relief valve shall be plainly and permanently marked with the pressure in psig at which it is set to discharge, with the actual rate of discharge of the device in cubic feet per minute of the gas at 60° F. and atmospheric pressure, and with the manufacturer's name and catalog number. The rated discharge capacity of the device shall be determined at a pressure of 120 percent of the design working pressure of the tank.

Section 73.303 (r) (1) (order February 13, 1950), is amended by adding subparagraph (10) as follows:

(10) Subject to conditions of § 73.303 (r) (a) (1) for sulfur dioxide optional portable tank 1000–2000 pounds water capacity—225 psig, one or more fusible plugs approved by the Bureau of Explosives may be used in lieu of safety relief valves of the spring-loaded type. The fusible plug or plugs shall have total relieving capacity as determined by the use of Fetterly's formula sufficient to prevent a pressure rise in the tank of more than 120 percent of the design working pressure. If the tank is over thirty inches long, both ends must have the total specified safety discharge area.

Section 73.326 (a) note (formerly sec. 326 (a) note, order October 19, 1948), is amended to read as follows:

NOTE: Diluted solutions of hydrocyanic acid of not exceeding 5 percent strength are classed as poisonous articles, class B (see § 73.336).

Section 73.336 (formerly sec. 336, order August 16, 1940), is amended to read as follows:

§ 73.336 *Less dangerous poisons, class B, liquid or solid, poison label; definition.* (a) For the purpose of these regulations and except as otherwise provided herein class B poisons are substances, liquids or solids (including pastes and semisolids), other than classes A, C, or D poisons which are known to be so toxic to man as to afford a hazard to health during transportation, or which, in the absence of adequate data on human toxicity, are presumed to be toxic to man because they fall within any one of the following categories when tested on laboratory animals:

(1) *Oral toxicity.* Those which produce death within 48 hours in half or more than half of a group of 10 or more white laboratory rats weighing 200 to 300 grams at a single dose of 50 milligrams or less per kilogram of body weight, when administered orally.

(2) *Toxicity on inhalation.* Those which produce death within 48 hours in half or more than half of a group of 10 or more white laboratory rats weighing 200 to 300 grams, when inhaled continuously for a period of one hour or less at a concentration of 2 milligrams or less per liter of vapor, mist, or dust, provided such concentration is likely to be encountered by man when the chemical product is used in any reasonable foreseeable manner.

(3) *Toxicity by skin absorption.* Those which produce death within 48 hours in half or more than half of a group of 10 or more rabbits tested at a dosage of 200 milligrams or less per kilogram body weight, when administered by continuous contact with the bare skin for 24 hours or less.

(b) The foregoing categories shall not apply if the physical characteristics or the probable hazards to humans as shown by experience indicate that the substances will not cause serious sickness or death. Neither the display of danger or warning labels pertaining to use nor the toxicity tests set forth above shall prejudice or prohibit the exemption of any substances from the provisions of these regulations.

Section 73.337 (formerly sec. 337, order August 16, 1940), is amended to read as follows:

§ 73.337 *Packing for class B poisons, liquid.* (a) Closing and cushioning. All containers must be tightly and securely closed. Inside containers must be cushioned as prescribed, or in any case when necessary to prevent breakage or leakage.

Section 73.338 (a) (formerly sec. 338 (a), order July 22, 1948), is amended to read as follows:

§ 73.338 *Exemptions for poisonous liquids, class B.* (a) Poisonous liquids, class B, as defined in § 73.336, except aniline oil, hydrocyanic acid solutions, methyl bromide, motor fuel anti-knock compound, phenyldichlorarsine or tetraethyl lead, in tightly closed inside containers, securely cushioned when necessary to prevent breakage and packed as follows, are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, or highway, but when for transportation by carrier by water are exempt from specification packaging, marking other than name of contents, and labeling requirements:

Section 73.349 (a) (formerly sec. 349 (a), order August 16, 1940), is amended to read as follows:

§ 73.349 *Poisonous liquids not specifically provided for.* (a) Poisonous liquids, as defined in § 73.336, other than those for which special requirements are prescribed, must be packed in specification containers as follows:

Section 73.350 (formerly sec. 350, order August 16, 1940), is canceled.

Section 73.351 (a) (formerly sec. 351 (a), order August 16, 1940), is amended to read as follows:

§ 73.351 *Packing for class B poisons, solid.* (a) Closing and cushioning. All containers must be tightly and securely closed. Inside containers must be cushioned as prescribed, or in any case when necessary to prevent breakage or leakage.

Section 73.356 (formerly sec. 356, orders August 16, 1940 and January 23, 1950), is amended to read as follows:

§ 73.356 *Carbolic acid (phenol), not liquid.* (a) Carbolic acid (phenol), not liquid, must be packed in specification containers as follows:

(1) *Spec. 5, 5A, 5B, 6A, 6B, or 6C.* Metal barrels or drums.

(2) *Spec. 11A or 11B.* Wooden barrels or kegs with securely closed inside drums of metal not thinner than No. 26 gage, the space between drum and barrel or keg being filled with sawdust or rice hulls.

(3) *Spec. 11A or 11B.* Wooden barrels or kegs with glass or earthenware inside containers, not over 1 gallon capacity each, or with metal inside containers not over 2 gallons capacity each.

(4) *Spec. 12B.* Fiberboard boxes with inside containers which must be metal cans not over 25 pounds capacity each.

(5) *Spec. 12B.* Fiberboard boxes with glass or earthenware inside containers not over 1 quart capacity each, or with metal inside containers not over 1 gallon capacity each. Packages containing glass or earthenware containers must not weigh over 65 pounds gross.

(6) *Spec. 12D.* Fiberboard boxes with inside containers which must be: Glass or earthenware not over 1 gallon each; authorized for not more than 75 pounds gross weight; not to contain more than 4 such inside containers if their capacity is greater than 5 pints each. Use of this container will be permitted because of the present emergency and until further order of the Commission.

(7) *Spec. 15A, 15B, 15C, 16A, or 19A.* Wooden boxes with glass or earthenware inside containers not over 1 gallon capacity each, except that inside containers up to 3 gallons are authorized when only one is packed in each outside container; or with metal inside containers, not over 10 gallons capacity each.

(8) *Spec. 15A, 15B, or 15C.* Wooden boxes with metal inside containers, Spec. 2F, not over 250 pounds total capacity each.

(9) *Spec. 17E, 17H, or 37D.* Metal drums (single-trip). Net weight not over 475 pounds.

(10) *Spec. 37G.* Metal drums securely cushioned with sawdust or rice hulls in outside wooden barrels, net weight of contents not over 250 pounds. Outside containers must be marked as prescribed in § 73.25.

(11) *Spec. 37H.* Metal drums (single-trip). Net weight not over 200 pounds each.

(12) *Spec. 42B or 42C.* Aluminum drums.

(13) *Spec. 103, 103W, 103A, or 103A–W.* Tank cars.

(14) *Spec. MC 300, MC 301, MC 302, or MC 303.* Tank motor vehicles.

Section 73.357 (formerly sec. 357, order August 16, 1940), is amended by adding subparagraph (a) (12), as follows:

(a) (12) *Spec. 21B.* Fiber drums.

Section 73.361 (a) (formerly sec. 361 (a), order August 16, 1940), is amended to read as follows:

§ 73.361 *Poisonous solids not specifically provided for.* (a) Poisonous solids, as defined in § 73.336, other than those for which special requirements are prescribed, must be packed in specification containers as follows:

Section 73.361 (formerly sec. 361, order Auugst 16, 1940), is amended by adding paragraph (n), as follows:

(n) *Spec. 21B.* Fiber drums.

SUBPART H—MARKING AND LABELING EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Section 73.401 (c) (formerly sec. 401 (c), order November 4, 1946), is amended to read as follows:

(c) Packages containing flammable liquids in inside containers of one quart capacity or larger, or corrosive liquids, acids, alkaline caustic liquids, and liquid oxidizing materials in inside containers regardless of capacity, unless specifically exempted, must be packed with filling holes up, and except for carboys not completely boxed, the outside container must be plainly marked "THIS SIDE UP" on the cover or top to indicate the position of the inside containers. This requirement does not apply to materials in inside metal cans of the nonrefillable type with spun-in head and base and having no replaceable cap or other closing device.

PART 73a—SHIPPING CONTAINER SPECIFICATIONS (FORMERLY PART OF PART 3)

Section 73a.1A–7 (f) table (formerly par. 7 (f) table of Spec. 1A, order October 28, 1942) is amended to read as follows:

Carboy capacity not over (gallons)	Minimum dimensions					Nails, sides and bottom	
	Thickness of sides, top and ends	Thickness of bottom	Thickness and width of bottom nailing cleats	Carrying cleats and shoes	Triangular vertical corner posts	Size not less than [1]	Spacing average not over [2]
	Inch	*Inch*	*Inches*	*Inches*	*Inches*	*Penny*	*Inches*
5 to 13	⅛	⅞[2]	⅞ by 2½	⅞ by 2½	2½ by 2½ (short sides)	8 10	2¼ 2¾

[1] Screws of equal efficiency authorized.
[2] Spacing 6 inches acceptable along edge grain of bottoms.

Section 73a.3A–23 (formerly par. 23 of Spec. 3A, order February 13, 1946), is amended to read as follows:

23 *Special type authorized for trial service.* Authority for construction and use of these cylinders must be procured in writing from the Bureau of Explosives. Cylinders to have not more than 278 pounds nominal water capacity, a service pressure of 480 pounds per square inch, and be made in compliance with the requirements of paragraphs 5, 8A, 9 (a), 19, and 22 as modified by the following exceptions and all other paragraphs of this specification:

(No change in exceptions.)

Section 73a.3AA–10 (b) (formerly par. 10 (b) of Spec. 3AA, order August 19, 1946), is amended to read as follows:

(b) The steel temperature on quenching shall be that recommended for the steel analysis, but in no case shall exceed 1,750° F.

Section 73a.5A–8 (formerly par. 8 of Spec. 5A, order August 16, 1940), is amended to read as follows:

(8) *Rolling hoops.* Separate hoops to have tight fit on shell and be firmly secured in place. Beading under rolling hoops or welding of the rolling hoops directly to the body of the drum in any manner is not permitted.

Section 73a.12B–32 (formerly par. 32 of Spec. 12B, order April 18, 1947), is amended to read as follows:

32 *Special box authorized only for railway fusees.* Must comply with this specification except as follows: Must be double-faced corrugated fiberboard at least 400-pound test, or solid fiberboard of same strength at least 0.100 inch thick; lining and pads not required; authorized gross weight 75 pounds. For fusees equipped with spikes, protection as required in § 73.76 (b) (2) must be provided.

Section 73a.12B–33 (formerly par. 33 of Spec. 12B, order December 12, 1942), is canceled.

Add Specification 21B (order August 16, 1940), as follows:

SPECIFICATION 21B—FIBER DRUMS

1 *ompliance.* Required in all details.

2 *Sidewalls and ends.* (a) Sidewalls to be convolutely wound of fiber sheets at least 0.01 inch thick, the plies being secured together with adhesive.

(b) Ends to be of two or more discs of fiberboard fastened together with adhesive, or of metal or wood sufficiently strong to withstand prescribed tests.

3 *Capacity and weight.* (a) Maximum authorized capacity 55 gallons.

(b) Maximum authorized net weight 200 pounds, except as otherwise covered in the regulations.

(4) *Type tests.* (a) Samples taken at random, conditioned at least 24 hours at an approximate temperature of 75° F. and relative humidity of 50 percent, filled with dry, finely powdered material to authorized weight, closed as for use, must withstand the following tests, under supervision of a representative of the Bureau of Explosives, without leakage and without serious rupture. No single drum shall be expected to withstand more than the test prescribed in any one of the following subparagraphs:

(1) *Chime drop.* Drum must be able to withstand two drops from a height of 4 feet on a solid concrete floor, the first drop to be made diagonally on the bottom chime and the second drop diagonally on the top chime. Drums with wood heads to be dropped with grain of wood heads parallel to concrete surface.

(2) *Flat drop.* Drum must be able to withstand two drops from a height of 4 feet onto a 2 inch by 6 inch timber resting on the floor with the 6 inch leg vertical, the drops being made with the drum in a horizontal position at right angles to the timber and so that each drop strikes at a different position near the center of the drum sidewall.

(3) *End compression.* Drum must be able to withstand end to end pressure of 1500 pounds without deflection of over 1½ inches; speed of compression tester to be ½ inch plus or minus ¼ inch per minute.

(b) The tests prescribed above must be made by any company starting production on samples taken at random of each type and diameter of container and must be repeated every 4 months or less during production; samples last tested must be retained until further tests are made.

5 *Registration of drum specification.* (a) Specification for each type of drum manufactured (under this specification) shall be filed with the Bureau of Explosives. Changes in construction (drum and closure) differing from specifications thus filed must be approved by the Bureau of Explosives before authorized for use.

6 *Marking.* (a) On each container as follows:

(1) ICC–21B, followed by the authorized gross weight (authorized net weight, plus approximate tare weight, for example: ICC–21B130). This mark shall be understood to certify that the container complies with all specification requirements.

(2) Name or symbol (letters) of maker; this must be registered with the Bureau of Explosives and located just above, below, or following the mark specified in (a) (1).

Section 73a.51–1 (a) (formerly par. 1 (a) of Spec. 51, order September 21, 1949), is amended to read as follows:

Requirements for design and construction. (a) Tanks shall be of seamless or welded steel construction or combination of both and shall have in excess of 1,000 pounds water capacity. Fusion-welded tanks shall be fully radiographed and stress-relieved. Tanks shall be designed and constructed in accordance with and fulfill the requirements of (1) paragraph U–68 or U–200 of section VIII of the Code for Unfired Pressure Vessels of the American Society of Mechanical Engineers, 1949 Edition; or (2) section VIII of the Code for Unfired Pressure Vessels of the American Society of Mechanical Engineers, 1950 Edition; or (3) the A. P. I.–A. S. M. E. Code for Unfired Pressure Vessels for Petroleum Liquids and Gases, 1943 Edition (any or all of which hereinafter referred to as "the Code").

Section 73a.103C–6 (formerly par. 6 of Spec. 103C, order August 16, 1940), is amended by adding paragraph (a), as follows:

Riveting. (a) For computing rivet areas the effective diameter of a driven rivet is the diameter of its reamed hole, which hole must in no case exceed nominal diameter of rivet by more than 1/16 inch. All rivets must be driven hot.

Section 73a.106A800–14 (b) (formerly par. 14 (b) of Spec. 106A800, order August 16, 1940), is amended to read as follows:

(b) When longitudinal seam is water gas lap-welded, the mark must be ICC–106A800.

When longitudinal seam is fusion-welded, the mark must be ICC–106A800X.

Section 73a.MC330–1 (a) (formerly par. 1 (a) of Spec. MC330, order January 23, 1950), is amended to read as follows:

Requirements for design and construction. (a) Tanks shall be of seamless or welded steel construction or combination of both and shall be designed and constructed in accordance with and fulfill the requirements of (1) section VIII of the Code for Unfired Pressure Vessels of the American Society of Mechanical Engineers, 1949 Edition, except that construction under Par. U-70 is not authorized; or (2) section VIII of the Code for Unfired Pressure Vessels of the American Society of Mechanical Engineers, 1950 Edition; or (3) the A. P. I.–A. S. M. E. Code for Unfired Pressure Vessels for Petroleum Liquids and Gases, 1943 Edition (any or all of which hereinafter referred to as "the Code").

Section 73a.MC330–1 (b) formerly par. 1 (b) of Spec. MC330, order January 23, 1950), is amended to read as follows:

(b) Except as noted below, all openings in the tank shall be grouped in one location, either at the top of the tank or at one end of the tank. Exceptions: (1) The openings for liquid level gauging devices, or for safety devices, may be installed separately at the other location or in the side of the shell; (2) One plugged opening of 2-inch National Pipe Thread or less provided for maintenance purposes may be located elsewhere, (3) Loading and unloading connections may be located in the bottom of the tank.

Section 73a.MC330–5 (a) (formerly par. 5 (a) of Spec. MC330, order April 28, 1950), is amended to read as follows:

5 *Protection of valves and accessories.* (a) All valves, fittings, accessories, safety devices, gauging devices, and the like shall be adequately protected against mechanical damage by a housing closed with a cover plate. Exceptions: (1) Liquid and vapor valves, fittings, and accessories installed in the bottom of the tank shall be adequately protected against mechanical damage, but the housing and cover plate may be omitted. (2) In lieu of a housing closed with a cover plate, tanks used for the transportation of carbon dioxide may have all valves, piping, fittings, accessories, safety devices, gauging devices, and the like installed within the motor vehicle framework, or a suitable collision-resisting subframe, guard or housing.

PART 74—REGULATIONS APPLYING TO CARRIERS BY RAIL FREIGHT (FORMERLY PART 4)

SUBPART B—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Section 74.533 Chart (order April 28, 1950), is amended as follows:

Fireworks, common. An "x" should be placed opposite this item under item 14, both perpendicularly and horizontally.

PART 77—REGULATIONS APPLYING TO SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY (FORMERLY PART 7)

Section 77.819 Note (formerly sec. 819 note, order February 3, 1948), is amended to read as follows:

NOTE: For the relief of shippers from multiplicity of certifications required for packages which may move by carriers by water, including combustible liquids and hazardous articles, such shipments may be certified for rail, motor vehicle, water transportation, or air transportation, as follows:

This is to certify that the above articles are properly described by name, and are packed and marked and are in proper condition for transportation according to the applicable regulations prescribed by the Interstate Commerce Commission and the Commandant of the Coast Guard; or,

This is to certify that the above articles are properly described by name, and are packed and marked and are in proper condition for transportation according to the applicable regulations prescribed by the Interstate Commerce Commission and the Civil Air Regulations.

Section 77.824 (g) (3) (formerly (g) (3) of section 824, order March 7, 1949), is amended to read as follows:

(g) (3) Tanks complying with specification 106A500, containing chlorine, anhydrous ammonia, sulfur dioxide, methyl chloride, dichlorodifluoromethane, monochlorodifluoromethane, monochlorotetrafluoroethane, vinyl chloride, inhibited difluoroethane, difluoromonochloroethane, dispersant gas, n. o. s., or dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture), or tanks complying with specification 106A800, containing hydrogen sulfide, may be transported on trucks or semitrailers only, when securely chocked or clamped thereon to prevent shifting, and provided adequate facilities are present for handling tanks where transfer in transit is necessary. See § 74.560 (b) (2) for rail freight-motor vehicle shipments.

Section 77.825 Chart (order April 28, 1950), is amended as follows:

Fireworks, Common.—An "x" should be placed opposite this item under item 14, both perpendicularly and horizontally.

It is further ordered, That the foregoing amendments to the aforesaid regulations shall have full force and effect on November 27, 1950, and that such regulations as herein amended shall thereafter be observed until further order of the Commission.

It is further ordered, That compliance with the aforesaid regulations as herein amended is hereby authorized on and after the date of service of this order.

And it is further ordered, That copies of this order be served upon all parties of record herein, and that notice shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of Federal Register.

(49 Stat. 546, as amended, sec. 835, 62 Stat. 739; 49 U. S. C. 304, 18 U. S. C., Sup., 835)

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Bureau of Animal Industry

[9 CFR, Part 131]

[Docket No. A016–A3]

HANDLING OF ANTI-HOG-CHOLERA SERUM AND HOG-CHOLERA VIRUS

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENT TO MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the provisions of Public Law 320, 74th Congress, approved August 24, 1935 (49 Stat. 781: 7 U. S. C. 851 et seq. and the rules of practice and procedure governing formulation of Marketing Agreements and Marketing Orders applicable to Anti-Hog-Cholera Serum and Hog-Cholera Virus (9 CFR Part 132), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Chief of the Bureau of Animal Industry, Agricultural Research Administration, United States Department of Agriculture, with respect to a proposed amendment to the marketing agreement and to the order as amended, regulating the handling of anti-hog-cholera serum and hog-cholera virus.

Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after its publication in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments to the marketing agreement and to the order, as amended, were formulated, was conducted at St. Joseph, Missouri, June 19, 1950, pursuant to notice thereof issued on June 14, 1950 (15 F. R. 3797).

The material issues presented on the record were:

1. Whether the share of the total expense of the Control Agency borne by wholesaler handlers should be increased.

2. The method of assessment of such share as between wholesaler handlers.

3. Whether a successful applicant for classification as a wholesaler should prepay a sum representing such applicant's minimum share of the expense of the Control Agency for the year in which the application is approved.

4. Whether the sections of the marketing agreement and the order, as amended, should be renumbered to comply with the Federal Register Regulations.

Findings and conclusions. Upon the basis of the evidence adduced at the hearing and on the record thereof, it is hereby found and concluded that:

1. The share of the total expense of the Control Agency borne by wholesaler handlers should be increased. Under

the present assessment, provisions of the marketing agreement and order, as amended, the share of the expenses of the Control Agency to be borne by wholesaler handlers is the expense of the two members, and their alternates, of the Control Agency representing such handlers. These expenses are only the personal expense incurred by such members while attending Control Agency meetings. All other expense incurred by the Control Agency in administering the order is assessed against the manufacturer handlers.

Evidence introduced at the hearing discloses that at the time of the inception of the marketing agreement and order there were 36 producers, or manufacturers, of serum and virus and 17 wholesalers. Of the total amount of serum handled in the first year under the program, the relative percentage handled by manufacturer handlers was approximately 88 percent, and that handled by wholesaler handlers was approximately 12 percent, which class had increased from 17 to 60 in the first year of operation under the program. In view of the minor part played by the wholesaler handlers in the distributive scheme prior to the order, it was felt by the proponents of the original marketing agreement and order that such handlers should bear only a very minor portion of the administrative expense of the program. Since the inception of the program, the number of wholesaler handlers has consistently increased and the relative percentage of serum handled by such class has also steadily increased. The number of manufacturer handlers has decreased from 36 in 1936 to 33 in 1950, and the relative percentage of serum distributed by such class has diminished in proportion to the increase of wholesaler handler marketings of serum. In June 1950 there were 254 handlers classified as wholesaler handlers, and the percentage relationship of marketings of serum by such class for the year 1949 was 28.9 percent.

The yearly expense of administering the program has steadily increased. The budget of the Control Agency for its first year of operation was $15,000, and the 1950 budget is $37,500. While general economic conditions were a factor to some extent in such increase, the evidence discloses that the major factor was the additional work, requiring added personnel, office facilities and expenditures, occasioned by the increase in the number of wholesaler handlers. However, in spite of this increase in the cost of administering the program, the assessment against the wholesaler handler classification has remained approximately the same. In the year 1937, the amount of the assessment against this class was $900. The assessed share of the 1950 budget for such class was $1,000. All handlers are rendered certain direct services by the Control Agency in the posting of prices, notification of such postings and informatory services. These services are the same for each class of handler. The average cost per handler in the year 1949 (a representative year) for office expenses directly chargeable to such service, excluding salaries, is estimated at approximately $18.23, and the labor costs for one price listing is estimated at approximately $14.43. The average price listing per handler is, of course, in excess of one listing. In view of the large number of wholesaler handlers, approximately 88 percent of this cost is incurred by reason of the wholesaler handler class. The majority of the cost of the administration of other phases of the program is likewise occasioned by the wholesaler handler class.

The manufacturer handlers perform two distinct functions in the industry. This class produces the serum and the virus and also markets it through different distributive outlets such as wholesalers, veterinarians, drug stores, etc. A manufacturer handler is required by the provisions of the Anti-Hog-Cholera Serum and Hog-Cholera Virus Marketing Agreement Act and the Marketing Agreement and Order to have available on May 1 of each year a supply of completed serum equivalent to not less than 40 percent of his previous year's sales. The production of serum and virus and the maintenance of the required reserve is an expensive operation requiring extensive financial outlay. This reserve requirement is not applicable to wholesaler handlers and their financial investments are relatively minor in the maintenance of stocks for current sales. The function of this class under the program is purely distributative. The stabilization of the market obtained under the order, therefore, affords a greater benefit, or protection, to the manufacturer handler class. Upon consideration of this factor and the greater relative percentage of marketings of serum by manufacturer handlers, it appears reasonable and just that such class should bear the greater portion of the expense of the program.

It is concluded, therefore, that the share of the wholesaler handler classification of the total expense of the Control Agency should be increased and that such share should be in proportion to their distributive function under the program, taking into consideration the number of such handlers, volume of serum marketed, benefits received and service rendered. The formula proposed for the determination of such handlers pro rata share of the total expense appears to be the best method of accomplishing this. Its application to past operations returns a share that more nearly represents an equitable division of the program expense between the two classes of handlers, taking into consideration the factors herein set forth. It is reasonable, therefore, to expect it to operate in the same manner prospectively. Furthermore, the formula is self-operating, the pro rata share fluctuating with the number of wholesalers classified and, when applied to the six previous years of operation, returns a share of the total expense percentagewise (with an average 3 percent lag), that is approximately in line with the percentage relationship of marketings of serum between the two classes of handlers. The limitation of 33⅓ percent as the maximum share of wholesaler handlers of the total expense of the program appears to be reasonable in view of the present distributive conditions in the market and the greater benefits inuring to the manufacturer handler class under the program.

2. The pro rata share of each wholesaler handler of the total expense of the program to be borne by all wholesaler handlers should be computed on the basis of the volume of serum handled by such wholesaler. Statistical data of past operations under the program disclose that the number of wholesalers marketing one million cc's, or less, of serum yearly fluctuates from year to year. A maximum of approximately 78 percent and a minimum of 66 percent of the number of wholesalers classified yearly has marketed one million, or less, in the former years of operation, excluding the first year's operations. Seventy-three percent of the wholesalers classified in 1950, and seventy-eight percent of the wholesalers classified in 1949 marketed one million cc's, or less, in the preceding year. The evidence introduced at the hearing shows that the average cost per handler for only the office expense and labor directly attributable to the filing and publication of one price listing is approximately $32.66, and that the average price posting per handler is in excess of one. In view of the minimum cost of the service rendered directly to every handler and the fact that the great majority of wholesaler handlers market one million cc's, or less, a basic rate of $25.00 should be established for the first one million cc's of serum marketed. That volume of serum marketed in excess of one million cubic centimeters should be assessed for the remaining pro rata share of the expense of such class, as greater benefits inures to the wholesalers handling large volumes by reason of the stabilization obtained under the program. The rate per million or fraction thereof, in excess of the first million, shall be fixed by the Secretary and shall be based upon the ratio between the quantity of serum handled by each wholesaler handler who handles in excess of one million cc's and the total quantity of serum handled by all wholesaler handlers who handle in excess of one million cc's of serum.

The minimum rate of $25.00 shall be paid by all wholesaler handlers on or before January 15 of each year and the remaining sum, if any, within 15 days after being billed therefor. Payment prior to January 15 is necessary in order to provide current operating funds for the Control Agency. In some of the prior years the Agency has had to operate without funds until marketing data of the preceding year has been compiled and assessments made thereon.

3. Each application for classification as a wholesaler should be accompanied by a fee of $25.00, and be retained by the Agency if the application is granted. The prepayment of this fee shall be made a condition precedent to the approval of any such application. Evidence introduced at the hearing shows a minimum cost of $30.48 of placing a new name on the list of handlers. This does not include the preliminary cost of processing the application. Furthermore, as the assessments for operating expenses are based upon the preceding year's marketings, a successful applicant would not have to pay any share of the expenses of the Control Agency for his first year's operation in the absence of such a provision. As the minimum share of such expenses is $25.00 a successful applicant should prepay this sum as his share of the expenses of the Control Agency for the year in which his application is granted.

4. The format of the order should be revised by renumbering the sections, paragraphs, subparagraphs, and subdivisions thereof in accordance with the Revised Federal Register Regulations; and similar changes should be made in the marketing agreement.

It is, therefore, recommended that the format of the order be recodified and that such recodification be set forth in the final decision of the Secretary, and that the sections of the marketing agreement be renumbered and the section headings redesignated to conform to the recodified order, in order to facilitate cross reference between the order and the marketing agreement.

Rulings on proposed findings and conclusions. No brief or proposed finding or conclusion was submitted within the prescribed time.

Recommended amendments to the marketing agreement and order, as amended. The following amendments to the marketing agreement and the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out.

1. Delete paragraph (a) of § 131.8 and substitute therefor the following:

(a) (1) The pro rata share of the expenses of the Control Agency to be borne by handlers who are wholesalers shall be determined as follows: Multiply the number of wholesalers of record on December 31st of the preceding calendar year by 1/10 of 1 percent and then multiply the result thereof by the total expense of the Control Agency for the current year. The resulting sum shall be the pro rata share of the expenses of the Control Agency, of handlers who are wholesalers, and shall be assessed as set forth in paragraph (b) of this section; *Provided*, That the pro rata share so computed shall not exceed thirty-three and one-third percent (33⅓%) of the total expense of the Control Agency. In the event the pro rata share so computed exceeds thirty-three and one-third percent, the pro rata share of such handlers shall be adjusted to thirty-three and one-third percent of the total expense of the Control Agency.

(2) The pro rata share of the expenses of the Control Agency to be borne by handlers who are manufacturers shall be the balance remaining after deducting the pro rata share of the wholesaler handlers from the total expense of the Control Agency, and shall be assessed as set forth in paragraph (d) of this section.

(3) The assessments of all handlers may be adjusted from time to time by the Control Agency, with approval of the Secretary, in order to provide funds sufficient in amount to cover any later findings of the Secretary of estimated expenses or actual expenses of the Control Agency during the calendar year.

2. Delete paragraph (b) of § 131.8 and substitute therefor the following:

(b) As his pro rata share of the expenses of the Control Agency to be borne by all wholesaler handlers, each wholesaler handler shall pay to the Control Agency a sum computed on the basis of the volume of serum marketed by such handler during the preceding calendar year at the following applicable rates:

(1) One million cubic centimeters, or less—$25.00;

(2) Over one million cubic centimeters—at a rate per million, or fraction thereof, to be fixed by the Secretary based upon the ratio between the quantity of serum handled by each wholesaler handler who handles in excess of one million cubic centimeters of serum and the total quantity of serum handled by all wholesaler handlers who handle in excess of one million cubic centimeters of serum.

The pro rata share of all wholesaler handlers shall be obtained by first assessing the first one million (1,000,000) cubic centimeters of serum marketed by each wholesaler handler, and if the sum obtained is not sufficient to cover the total amount of the pro rata share of all wholesaler handlers such additional amounts as are necessary shall be assessed as set forth in subparagraph (2) of this paragraph. If the total sum obtained by assessing the first one million cubic centimeters, or less, of serum marketed by each wholesaler is greater than the pro rata share of all wholesaler handlers, the rate of assessment for one million cubic centimeters, or less, shall be adjusted by the Secretary to an amount that will return the sum necessary to cover the pro rata share of all wholesaler handlers. The exact amount of each wholesaler handler's pro rata share shall be computed by the distinterested agency selected under the provisions of paragraph (d) of this section. Such pro rata share shall be subject to the approval of the Secretary. The pro rata share of each wholesaler handler shall be paid as follows: $25.00 on or before January 15 of each year beginning with the year 1951, and the remaining sum, if any, within fifteen (15) days after being billed therefor. In the event the Secretary adjusts the pro rata share of each wholesaler handler to an amount less than $25.00, the excess paid shall be credited on such handler's pro rata share of the following year's assessment."

3. Delete paragraph (c) of § 131.8 and substitute therefor the following:

(c) On and after January 1, 1951, each application for classification as a wholesaler shall be accompanied by a fee of Twenty-five dollars ($25.00). If the application is rejected such fee shall be refunded to the applicant. If the application is approved the fee shall be retained and used for the maintenance and functioning of the Control Agency as such applicant's pro rata share of expenses of such agency for the year in which the application is approved.

Issued at Washington, D. C., this 5th day of September 1950.

T. 23 N., R. 14 W.,
Sec. 2, lots 3, 4, S½NW¼,
T. 19 N., R. 16 W.,
Sec. 2, SE¼SE¼,
T. 20 N., R. 16 W.,
Sec. 32, SE¼, S½SW¼;
Sec. 36,
T. 24 N., R. 16 W.,
Secs. 16 and 32,
T. 24 N., R. 17 W.,
Sec. 2, S½;
Secs. 16 and 32,
T. 24 N., R. 18 W.,
Sec. 2, S½;
Sec. 16.

The areas described aggregate 5,546.18 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

WILLIAM ZIMMERMAN, Jr.
Assistant Director.

[Case No. 91]

CONSOLIDATED EXPORT CO. ET AL.

ORDER SUSPENDING LICENSE PRIVILEGES

In the matter of David Einhorn, trading as Consolidated Export Company, co-partner, Whitehall Metal Products Company, 15 Moore Street, New York, N. Y.; Helen Lerner, trading as Lerner International, 15 Moore Street, New York, N. Y.; George Rediker, Rediker Bros. Shipping Company, Inc., 377 Broadway, New York, N. Y.; Ezekiel Finkelman, trading as Finkelman & Schonberg, Bogota, Colombia; respondents.

This proceeding was begun by the mailing of a charging letter to the above-named and certain other respondents under date of January 5, 1950, wherein such respondents were charged with having made, caused to be made, or participated in the making of a shipment of galvanized steel sheets to Colombia contrary to the export control regulations and in violation of the Export Control Act of 1949 (63 Stat. 7).

Respondents having requested an oral hearing, such hearing was held before the Compliance Commissioner in New York City on February 28 and March 1, 1950. All of the above-named individual respondents other than Finkelman were personally present and testified. Finkelman, as well as other respondents and the Government, was represented by counsel. Oral and documentary evidence was received, arguments were heard, and certain memoranda have subsequently been filed by counsel. All such material has been carefully reviewed by the Compliance Commissioner and on the basis thereof he has duly filed his report under date of August 11, 1950.

It appears from the record and the report of the Compliance Commissioner that during the summer of 1949, Finkelman came to the United States from Colombia, where he was engaged in business at Bogota under the name of Finkelman & Schonberg; that he thereupon entered into an arrangement with Einhorn, who is trading in New York City as Consolidated Export Company and also as a partner in the firm known as Whitehall Metal Products Company, whereby Einhorn agreed to assist Finkelman in the purchase and export to Colombia of galvanized steel sheets; that Finkelman and Einhorn went to Lerner, trading in New York City as Lerner International, as a source of supply; and that Finkelman subsequently placed an order, through the medium of Lerner as broker or other intermediary, with a dealer not a party to this proceeding for 103 tons of steel at a price of $152 f. o. b. mill at Parkersburg, West Virginia.

It further appears from the record and the report of the Compliance Commissioner that Einhorn, with cash and credit furnished by Finkelman, caused a letter of credit in the amount of $15,656 to be established by a New York bank in favor of the supplier of the steel by which payment was to be made upon presentation of documents including railroad bills of lading endorsed in blank and showing shipment as made to the order of shipper but "notify Rediker Bros.", the latter reference being to Rediker Bros. Shipping Company, Inc., a New York freight forwarder whose forwarding operations were in charge of its vice president, George Rediker; that the entire 103 tons of steel were shipped as specified and delivered to Rediker during the latter part of September 1949; that Rediker, acting on the request of Einhorn and using money supplied by Finkelman, made the final payment to the bank in order to assure payment of the supplier under the letter of credit; and that Rediker, on or about October 7, 1949, acting for the respondents other than Lerner, effected exportation of said 103 tons of steel as one lot of merchandise on one vessel to Colombia.

It further appears from the record and the report of the Compliance Commissioner that such exportation was effected under nine shipper's export declarations as ostensibly nine separate shipments; that two of such declarations and shipments, covering approximately 43 tons, were made in the name of Consolidated Export Company and pursuant to export licenses issued to such company; that one such declaration and shipment, amounting to approximately 12 tons, was made in the name of Lerner International and pursuant to an export license issued to that concern; that the remaining six declarations and shipments, covering a total of approximately 48 tons, were made in the names of individuals or firms which had merely lent and permitted the fictitious use of their names by Finkelman; and that such fictitious exportations were made by Finkelman, Einhorn and Rediker for the purpose and with the effect of splitting such 48 tons into 6 pretended shipments each in exactly the same quantity and each having almost exactly the same declared value of less than $1,000 and so apparently exportable without validated export license but under the authority of General License "GLV".

It further appears from the record and the report of the Compliance Commissioner that Lerner's license was knowingly transferred by her for the purpose of effecting, and was used by the other respondents to effect, exportation by a person other than the named licensee and that respondents thus engaged in trafficking in such license in violation of the export control regulations; that one of the 6 shipments made under the pretended authority of General License "GLV" was made ostensibly by a concern whose name was appropriated and furnished without authority by Lerner with knowledge on her part that a false declaration and shipment would be made in the name of such concern and that such shipment represented a portion of the total 103-ton shipment; that 2 of such 8 pretended "GLV" shipments were made, respectively, in the names of Einhorn and Whitehall Metal Products Company, both of such names having been furnished by Einhorn with knowledge that false declarations and shipments would be made in such names and that such shipments represented portions of the total 103-ton shipment; and that the above-described 3 pretended "GLV" shipments, together with three others (nominally made by persons who wrongfully lent the use of their names and to whom warning letters have been sent but who acted independently without knowledge that other shipments were being made as part of the same transaction), were procured to be made by respondents Finkelman and Einhorn, and were in fact made by Rediker, with knowledge of their fictitious character and for the purpose and effect of accomplishing the exportation of such 48 tons of steel without validated export license under the subterfuge of General License "GLV".
